Medical Diagnostic Form for Athletes with a Physical Impairment

To be eligible for Para Snowboard an Athlete must have an underlying medical diagnosis (Health Condition) that results in a Permanent and Eligible Impairment (article 7 in the FIS Para Snowboard Classification Rules and Regulations). The measurement of impairment conducted during the classification process must correspond to the diagnosis indicated below.

Completed forms and relevant Medical Diagnostic Information must be uploaded to the Athlete's profile upon registration of the Athlete to the FIS Para Snowsport Data Management System (FPDMS). FIS holds the right to request further information, if additional information is required. The Athlete will not be able to undergo classification, until such time as the requested information is provided.

Please fill in the form electronically.
