4. Applicable Provisions

FIS Anti-Doping Rules: Article 5.6 Retired Athletes Returning to Competition

5.6.1 If an International-Level Athlete or National-Level Athlete in FIS's Registered retires and then wishes to return to active participation in sport, the Athlete shall not compete in International Events or National Events until the Athlete has made himself or herself available for Testing, by giving six (6) months prior written notice to FIS and their National Anti-Doping Organisation.

WADA, in consultation with FIS and the Athlete's National Anti-Doping Organisation, may grant an exemption to the six (6) month written notice rule where the strict application of that rule would be unfair to the Athlete. This decision may be appealed under Article 13.

Any competitive results obtained in violation of this Article 5.6.1 shall be Disqualified unless the Athlete can establish that he or she could not have reasonably known that this was an International Event or a National Event.

5.6.2 If an Athlete retires from sport while subject to a period of Ineligibility, the Athlete must notify the Anti-Doping Organisation that imposed the period of Ineligibility in writing of such retirement. If the Athlete then wishes to return to active competition in sport, the Athlete shall not compete in International Events or National Events until the Athlete has made himself or herself available for Testing by giving six (6) months prior written notice (or notice equivalent to the period of Ineligibility remaining as of the date the Athlete retired, if that period was longer than six (6) months) to FIS and to their National Anti-Doping Organisation.

WADA International Standard for Results Management: Article B.1.4

Whereabouts Failures committed by the Athlete prior to retirement as defined in Article 4.8.7.3 of the International Standard for Testing and Investigations may be combined, for purposes of Code Article 2.4, with Whereabouts Failures committed by the Athlete after the Athlete again becomes available for Out-of-Competition Testing.

[Comment to Article B.1.4: For example, if an Athlete committed two (2) Whereabouts Failures in the six (6) months prior to their retirement, then if they commit another Whereabouts Failure in the first six (6) months in which they are again available for Out-of-Competition Testing, that amounts to a Code Article 2.4 anti-doping rule violation.]
