MINUTES OF THE PROCEEDINGS

ITEM 1 OPENING OF THE CONGRESS

President Johan Eliasch opened the 57th International FIS Congress on 11 June 2026 and welcomed all Congress delegates, Council Members, Honorary Members and guests attending in person as well as those following the live stream on FIS TV and the YouTube Channel.

Opening Speech by FIS President Johan Eliasch

“Dear Ski and Snowboard friends,

It is my great pleasure to welcome you to the 57th International FIS Congress here in Belgrade, Serbia.

Together with the FIS Council, I am delighted to gather with all of you – the representatives of our global ski and snowboard family – as we come together once again to shape the future of our sport.

This Congress carries a particular significance for our Federation. Alongside the important discussions and decisions that will guide the future of skiing and snowboarding, we will also take part in the election of the FIS President and the FIS Council – a moment that reflects the strength of our democratic process and our shared responsibility toward the future of FIS.

I often say that this Congress is far more than the highest authority in snow sports. It is a reflection of who we are and how we achieve progress: through unity, collaboration, and a shared commitment to excellence.

I am confident that we will continue to demonstrate these values through constructive dialogue, mutual respect, and a collective vision for our sport and our athletes around the world.

But before we begin our work, I would like us to pause for a moment to remember the cherished members of the ski and snowboard community who have sadly passed away over the last twelve months.

In their memory, I kindly ask you to join me for a moment of silence.

Thank you.”

Following the welcome speech by President Eliasch, Secretary General Michel Vion provided housekeeping information, including the voting procedures for the Congress and the use of the IVS electronic voting system.

Before the Congress continued with the legal information, the Swiss delegate, on behalf of several National Ski Associations, formally submitted a Procedural Motion requesting that the election of the FIS President be conducted by paper ballot in accordance with Art. 10.10.2.2 of the FIS Statutes.

As there were no further procedural motions, the Congress proceeded with the introduction of Dr. Christophe Misteli. Dr. Misteli introduced himself as the external legal counsel appointed by FIS for the elections and voting procedures. He outlined his role in advising the Congress

on the application of the FIS Statutes and Swiss law and provided a legal briefing on the conduct of the Congress and the applicable voting procedures.

The Congress acknowledged the opening speech by President Johan Eliasch, as well as the housekeeping and legal information.

Procedural Motions (votes)

Following the approval of the Minutes of the previous FIS Congress, the Congress proceeded with the two Procedural Motions that had been submitted earlier during the Congress. Both Procedural Motions were decided by electronic vote.

The first Procedural Motion concerned the proposal submitted the Serbian delegate, to move agenda item 16.1, Election of the President, to item 6.

The Congress approved the Procedural Motion by 110 votes in favour, 15 votes against and 4 abstentions.

The second Procedural Motion concerned the proposal submitted by the Swiss delegate, on behalf of several National Ski Associations, requesting that the election of the FIS President be conducted by secret paper ballot in accordance with Art. 10.10.2.2 of the FIS Statutes.

The Congress approved the Procedural Motion to conduct the election of the FIS President by secret paper ballot by 77 votes in favour, 50 votes against and 2 abstentions.

In accordance with Art. 10.5.3 of the Statutes, both Procedural Motions were submitted to the Congress for decision and approved by the required majority. The Congress thereafter proceeded with Item 6, Election of the FIS President, which was conducted by secret paper ballot.

* * *

ITEM 6 ELECTION OF THE PRESIDENT

The election was set out in the Congress Book as item 15.

Following the approval of the Procedural Motions by the Congress, Dr. Christophe Misteli clarified the voting procedure.

The President shall be elected by a majority of more than 50% of all valid votes cast (Art. 10.10.2.1). The election shall be conducted by secret ballot supervised by a scrutineer and may be held either by paper ballot or by electronic voting system (Art. 10.10.2.2). If no candidate obtains the required majority, further rounds of voting shall be conducted in accordance with the Statutes until one candidate obtains the required majority.

The ballot shall contain the names of the candidates. Only votes bearing the name of a candidate are valid. Blank ballots and abstentions are invalid and do not count towards the calculation of the majority (Art. 10.9.4).

Two candidates were nominated by their respective National Ski Associations for the position of FIS President, namely Johan Eliasch (GEO) and Alexander Ospelt (LIE).

The Presidential election was therefore conducted by secret paper ballot under the supervision of the appointed scrutineer and the notary public to ensure the integrity and transparency of the process. The delegates were called to vote individually, and the ballots were collected and counted by the tellers in accordance with the Statutes.

Following the completion of the count, the notary public confirmed the election results:

Alexander Ospelt: 65 votes (50.39%)
Johan Eliasch: 64 votes (49.61%)
Abstentions: 0

The Congress elected Alexander Ospelt as FIS President for the 2026-2030 term.

Following his election as FIS President, Alexander Ospelt addressed the Congress as follows:

“Dear President, dear Council Members, dear NSA Presidents, dear General Secretaries, dear friends, dear FIS family.

I want to thank you, all of you, for the good dialogue we had, and I thank you for your trust. We are the worldwide representatives of our wonderful snow sports. I'm doing this out of responsibility and being aware of this responsibility.
We all are FIS. I will be the President for all of you. Let's be united for our sport.

We all had somebody to think of during the minute of silence in the beginning of this Congress. My thoughts were especially with Toni Real, the President of our Ski Federation, who died this year.

Let us do our job in succession and responsibility for what they built up. Let us do our job for the next generation, and the next generation should be proud of us. And, very important, let's do our job with joy.

Dear friends, with great joy, but with humility, I want to thank you for your trust and accept your election as your President. But let's do this journey together. Thank you."

ITEM 9 PROPOSALS BY THE MEMBER ASSOCIATIONS

The proposal submitted by the Member Associations, as published in the Congress Book under Agenda Item 8 (page 21).

Before consideration of the Member Association proposals, the Austrian delegate, on behalf of the proposing National Ski Associations, informed the Congress that all submitted proposals would be withdrawn, with the exception of proposal 9.1.8 Level of Distribution / Special Distribution submitted by Austria and Lebanon. He reaffirmed the commitment of the National Ski Associations to supporting the continued growth and development of skiing and snowboarding worldwide. In addition, the Austrian delegate expressly thanked Johan Eliasch for his commitment and service over the past few years.

President Eliasch commented on proposal 9.1.8 and highlighted the importance of maintaining previously approved long-term commitments to Member Associations.

9.1.8 Level of distributions Special Distribution AUT/LBN

Background / Reason

Security in planning for the middle and long-run becomes more and more essential for all Member Associations, especially for the smaller ones. Additionally, it is crucial for the further development of the ski- and snowsport.

Therefore, we believe that the current level of the distributions to the Member Associations in the amount of CHF 12,5 million / season (i.e. "Basic Distribution" in the amount of CHF 5 million/season and "Special Distribution" in the amount of CHF 7,5 million) shall be considered a minimum also for the next years. This fact shall be displayed in the FIS Statutes in order to provide the Member Associations with more planning reliability.

Wording

The FIS Statutes shall be amended as follows (amendments shown as markup):

8.8. Distributions to the Member Associations:

- 8.8.1. FIS shall pay a guaranteed distribution to each Member Association from the financial proceeds of the marketing of the rights of FIS at or from FIS Competitions for the development of FIS Disciplines in the**

country of that Member Association. Such annual distribution shall be determined by the Congress and shall include a minimum guaranteed amount for the next four years, whereas, for the sake of clarity, such minimum guaranteed amount must not be lower than the amount determined for the previous four years cycle (including the additional distributions determined by the Congress as per Art. 8.8.2).

8.8.2. The Congress shall, at its Ordinary Congress meeting, determine the extent of any additional distributions payable to the Member Associations. Such fees, if any, shall be due and payable in accordance with such further conditions as the Congress may from time to time specify.

As no objections were raised, proposal 9.1.8 Level of distributions Special Distribution was approved by the Congress by acclamation.

Following discussions with the Indian Olympic Association and the recommendation of the FIS Council, it was proposed to terminate the membership of the previous federation, Ski and Snowboard India and recognise the newly established Bharatiya Ski and Snowboard Association (BSSA) as the National Ski Association.

President Eliasch further noted that, under the FIS Statutes, proposals should normally be submitted at least ten days prior to the Congress.
