1.3 Date Protection

1.3.1 Only one WCNC-W event can take place on the same date.

1.3.2 The International Championships (OWG + WSC) are protected as to their date which means that no WCNC-W competitions can take place.

4.5 Individual Super Sprint Competition

4.5.1

Definition Individual Super Sprint competition begin with a qualification round, organized as a Cross-Country Interval Start competition. After the qualification, qualified athletes compete in the sprint finals using elimination rounds (sprint heats).

4.5.2

Course and stadium

Recommended norms

Course

- Course length 700 – 800 meters in free technique
- Prolog time should be approx. 1 min 30 sec.

Start

- Organization Extra corridor for qualification round with no track
5 corridors for sprint heats
- Classical tracks Optional, 1 per corridor (if not enough space for skating)
- Length of tracks (after start line) 30 to 50 m
- Distance between tracks 3 m per corridor when no tracks, with tracks 1,8 m

Finish

- Width 9 m (minimum)
- Number of corridors 3 – 4 corridors (3 m each)

Competitors are not allowed to change lane within marked corridors the first 30 to 50 m after the start line (start zone).

The course used for the qualification round and the course used for the Finals Heats should be the same.

Sections of the course must be designed straight, wide and long enough to make overtaking possible.

4.5.3 Starting Order and Start Procedure

4.5.3.1 Qualification

4.5.3.2 Interval Start procedure

Interval Starts will normally use fifteen seconds for sprint qualifying round. The Jury may approve shorter or longer intervals

The start command consists of a countdown starting 5 seconds before the start time ("5-4-3-2-1") and start signal ("GO!"). The command can be given verbally or by audible signals.

The competitor must have their feet behind the start line.

The poles must be placed in front of the starting line and/or starting gate.

The competitor may start any time between three seconds before and three seconds after the start signal. If he/she starts more than three seconds before the start signal, it is a False Start.

If the competitor starts more than three seconds after the start signal, it is late start and the start list time will count.

Competitors who start late must not obstruct the start of others.

With both electric and hand-timing, the competitor's actual start time must be noted in case the Jury decides their late start was due to force majeure.

4.5.4 **Finals Heats - Quarterfinals, Semifinals and Finals**

4.5.4.1 **Heat Start procedure**

The start area is prepared with a start line and a pre-start line that are 1 meter apart.

Electronic and/or mechanical start gates can be used if approved by the Jury.

Competitors are organized on the pre-start line where instructions are given and start lanes designated. The starter will give the command "take your start positions" and the competitors advance to the start line where they must place their poles behind the start line and/or start gates. When all competitors are at the start line, the starter will give the command "Set" and all the competitors must remain motionless until the starter gives the start signal announced at the TCM.

Starts that do not use gates follow the same principles and procedures as stated above.

The assignment of competitors to quarterfinal heats is determined from the finish rankings in the qualification round (Top 25). The table below illustrates the principle of allocating the competitors to their heats.

4.5.4.2 Table: Quarterfinals with five (5) competitors in five (5) heats

- Top two (2) from each quarterfinal advances to Semifinals
- Top two (2) from each Semifinal advances to the Final
- The start order in the heats are based on the result of the prolog result
- heat result (5 – 3 – 1 – 2 – 4)
