FIS®

CO₂ CALCULATOR

INSTRUCTION *MANUAL* 6

Phases, Groups, Subgroups and Bundles

Made by Green Producers Tool

1. The top level is **PHASES**.

**2.** Within the phases, you will find **GROUPS**.

3. And within each group, you will find **SUBGROUPS**

4. And within each subgroup, you will find **BUNDLES**; these function like folders.

5. Inside the bundles, you will find **ACTIVITIES**.

If you think of the setup as a folder system, it makes things easier to manage.

You can also create standalone bundles and activities that are not part of a phase or group.

1 → **PHASES**
2 → **GROUPS**
3 → **SUBGROUPS**
4 → **BUNDLES**
5 → **ACTIVITIES**

The main groups are:

6. **GROUPS:** Here, you will see that we divide them into project stages.

- LOC Office Operations

- Event Arena

- Athletes & Teams & Federations

- Guests & Partners

- Staff & Volunteers

- Press & Media

- Spectators

- Resource Management

- Side Event

Note: *No two projects are the same, and sometimes one or more of these phases may not be as relevant. Simply leave them empty if that's the case.*

Example: SPORTS module

SUBGROUPS:

When we click on the arrow next to the different groups, we can see the **SUBGROUPS** (as pictured)

One or more of these may not be relevant to your project, so feel free to leave them empty.

We have created the phases, groups and subgroups for two important reasons:

THE FIRST is to help you complete a report as thoroughly as possible, serving as a tool to remind you of all the phases in the project.

THE SECOND REASON is so that we can gather consistent data from all our members, which we can then use for further research.

A **BUNDLE 12** is a folder that contains

ACTIVITIES 13.

You'll find it inside a **SUBGROUP 14**,

which is located under a **GROUP 15**.

16. You can always move a bundle to another group or phase if desired; simply click **EDIT GROUP**.
