3.1 General

3.1.1 Qualification standards

The qualification standards will be established before each season, based on an agreement with the Committee for Alpine Skiing.

The standards cannot be modified during the season. A competitor without any results during the previous season will not be included in the respective event quota calculations (Art 7.1.5 FIS Points Rules).

3.1.2 *Women's and men's qualifications*

These standards can be different for women's and men's events.

3.2 **Basic quota**

Each National Ski Association affiliated with FIS may enter one (1) competitor in FIS World Cup races taking into consideration the following conditions:

Slalom / Giant Slalom

Minimum requirements:

Maximum 140 FIS points in one of the five events (SL, GS, SG, DH, AC) on the valid FIS points list.

For Men's events:

Competitors must be ranked within the first 150 of the valid FIS point list in the event concerned or within the first 30 of the WCSL in one of the following events SL, GS, SG, DH or AC (competitors qualified through first 30 of the WCSL must have a maximum of 80 FIS points in DH or SG - not necessarily in the respective event - according to the valid FIS points list).

Downhill / Super-G

Minimum requirements:

Maximum 80 FIS points in the respective event according to the valid FIS points list (valid also for 500 points competitors and those qualified from Continental Cups).

For Men's events:

Competitors must be ranked within the first 150 of the valid FIS point list in the event concerned or within the first 30 of the WCSL in one of the following events SL, GS, SG, DH or AC (competitors qualified through first 30 of the WCSL must have a maximum of 80 FIS points in DH or SG - not necessarily in the respective event - according to the valid FIS points list).

Alpine Combined (AC)

Minimum requirements:

For Alpine Combined with DH a maximum of 80 FIS points in DH is required and for Alpine Combined with SG a maximum of 80 FIS points in AC, SG or DH is required.

Only for women's events: National Ski Association, whose quota is six (6) or less competitors, (Basic quota one [1] + national quota five [5]) may participate in each Alpine Combined with a maximum of six (6) competitors. These competitors must only fulfill the minimum requirements.

For Men's events:

Competitors must be ranked within the first 150 of the valid FIS point list in the event concerned or within the first 30 of the WCSL in one of the following events SL, GS, SG, DH or AC (competitors qualified through first 30 of the WCSL must have a maximum of 80 FIS points in DH or SG - not necessarily in the respective event - according to the valid FIS points list).

Parallel events

Minimum requirements:

Maximum 140 FIS points in one of the five events (SL, GS, SG, DH or AC) on the valid FIS points list.

3.2.1 *Wild Card*

A Wild Card can be granted on a race by race basis to athletes who have won either a World Cup Overall Globe, an Event Globe (DH, SG, GS or SL under the condition of a minimum of five (5) World Cup victories), Olympic Gold Medal (Individual) or World Championship Gold Medal (Individual).

The athlete who requests a Wild Card must be retired from the World Cup Tour for two (2) or more years (Official FIS Retirement form and WADA date record).

The Wild Card is granted in all events for the World Cup Overall Globe winners. For the World Cup Event Globe winners and Olympic/World Championships a Wild Card will be granted for the winners in the respective events.

To be allowed to start, the competitor must fulfill the requirements, as per World Cup Rules, art. 3.2 (the min. ranking within the first 150 on FIS point list for men is excluded) and must meet the condition of return to competition under the FIS Anti-Doping Rules and WADA requirements.

FIS reserves the right not to grant a wild card in its sole discretion in circumstances where the competitor is not safe to perform at World Cup level.

The athlete with a Wild Card will be enrolled as 31st in the respective event for maximum 20 races during the season the Wild Card was granted for, World Cup Finals excluded. If there are 500 WCSL points competitors present, the athlete with the Wild Card will start after those competitors.

The Wild Card does not get an extra quota spot and would have to be included in the actual quota of the nation and has no right to receive Travel Expenses (unless they are included in the top 45 on the board). The competitor who is pushed out of the top 45 because of the Wild Card would still be entitled to the FIS Travel Expenses.

The athlete must request the Wild Card allowance through the NSA and submit it to the FIS Secretary General before the official entry deadlines (pre-entries / 5 weeks before the event) of the respective race according to Art. 4.4 of the World Cup Rules.

3.3 **National quota**

For each event, a national quota is calculated periodically according to the World Cup Starting List (WCSL). The periods are adapted to the respective calendar planning and fixed before the start of the competition season. The quota is established on the basis of the number of competitors per nation, classified within rank 1 to max. 60 of the WCSL in the event concerned. There is no moving up.

A National Ski Association may enter a maximum of eight (8) (seven [7] for Men's competitions) additional competitors (under consideration of art. 3.2). A competitor without any results during the previous season will not be included in the respective event quota calculations (Art. 7.1.5 FIS Points Rules).

3.3.1 *Replacement of competitors*

Qualified competitors from within the national quota can be replaced by competitors ranked within the first 60 of the WCSL or within the first 120 ranked on the valid FIS points list, each in the respective event, or by competitors who have at least 500 WCSL overall points (if the conditions according to art. 3.2 are fulfilled).

3.3.2 *Replacement of competitors in Parallel*

of the Parallel World Seeding List (PWSL), or ranked within the first 120 (80 for men's event) on the valid FIS points list of GS/SL or by competitors who have at least 500 WCSL overall points (if the conditions according to art. 3.2 are fulfilled).

3.4 Higher quotas for organising countries

In all countries that organise FIS World Cup races, the National Ski Association, whose quota is less than six (6) competitors (Basic quota [1] + National quota [5]), may participate in each race with a maximum of six competitors (1 + 5).

Qualified competitors of a Continental Cup (art. 3.8) of the organising country are included within the maximum number of six (6) participants.

These additional competitors for training must fulfill the minimum requirement of a maximum of 80 FIS points in Downhill.

For men's event see art 3.2

3.5.1 Quotas for DH and AC training

In case of DH and AC at one site, the maximum number of competitors entered for training may not exceed the higher quota (basic quota + national quota + COC winner + additional competitors for training) plus 50%.

3.6 Limitation for SL / GS / DH in 2 runs

Limitation for the 2nd run (Slalom / Giant Slalom / DH):

only the first 30 competitors from the 1st run are qualified.

This limitation is not valid for the Alpine Combined (see art. 9.5.1).

EC 3, NAC 2, FEC 1, SAC 1, ANC 1

3.7.1 Qualification for the FIS World Cup of the COC Overall Winners

Qualified competitors of the Continental Cups according to the Continental Cup rules qualify to start in the respective events of the FIS World Cup in addition to the national quota in the season following the result (Southern Hemisphere: same season) if they are classified within the first 350 of the valid FIS points list in the event concerned.

Their costs for accommodation, food and beverage must additionally be paid by the Organising Committee.

If the COC overall winner is already qualified in the event concerned, the National Ski Association cannot apply for an additional starting spot for the overall winner.

3.8 Registration and entries

National teams must use the FIS online registration system for entries and FIS season accreditation requests. The Organisers are only allowed to accept entries submitted within the communicated deadlines and through the FIS online entry system. Team entries without participating athletes will not be considered.

4. Payment of expenses

4.1 Competitors

4.1.1 Quotas

Accommodation, full board and beverages have to be paid by the Organisers for all competitors according to the World Cup quotas published by FIS, provided that the competitors participated on the competition day.

If competitors are injured after their arrival on site, the costs will be paid after presentation of a medical certificate. However, this is only valid for competitors who, according to the rules, are qualified for the competition itself.

The quotas for the payment of accommodation, full board and beverage are calculated on the basis of the national quota (maximum eight competitors per event, seven for men). Only if a team has a national quota, the OC must also pay for the competitor of the basic quota.

The expenses of the competitors who started with 500 WCSL points (or more) and qualified competitors of the Continental Cups (art. 3.7.1 - Officials not included) are also included.

4.1.2 Duration

All expenses for accommodation and food incl. non-alcoholic beverages must be paid, from at least the night before the first official training day / race day, until the morning after the last competition at which the competitor participated. This is also valid if the races do not take place on consecutive days. The official arrival and departure dates will be published on the website.

Under no circumstances is the Organiser or the hotel manager allowed to demand the vacating of the rooms by the teams on the day of the competition until 2 (two) hours after the end of the competition.

Example:

or SL, or + a second Downhill
or + Alpine Combined with DH = 5 days, 6 nights*

one technical event or SG
or Alpine Combined with SG = 2 days, 3 nights

two technical events or

one technical event + SG	
or + Alpine Combined with SG	= 3 days, 4 nights
three competitions incl. at least one DH	= 6 days, 7 nights*
three competitions without DH	= 4 days, 5 nights
Mixed Team Parallel	= 1 day, 2 nights

*if less than three DH training days are scheduled the duration can be reduced.

(Individual parallel events are regulated as one technical event)

In case of official free skiing the arrival date may be adapted.

Arrival/Departure

The Organiser only has to pay for the accommodation and full board according to the World Cup rules.

Only if an earlier arrival date is requested by the team leader according to art. 4.4, an agreement may be made with the Organiser regarding the duration. In any case the above-mentioned precisions cannot be extended.

Additional costs due to an early arrival or a late departure have to be paid by the teams.

In case of late arrival or early departure, there is no right of compensation. In necessary cases, the Chief Race Directors can decide special agreements.

Late arrivals, early departures of athletes (according 3.3 – 3.5) and officials (according 4.2) can't be charged to the Teams during the duration of payment of expenses (according 4.1.2) if announced within 2 (two) days of the LOC.

Actual no shows will be charged to the team.

Upon request of a Team Captain, the Organiser (or Hotel) must hand over a corresponding confirmation after regular settlement is made. The confirmation is valid for the group of persons registered through the FIS online system.

4.1.3 Precision

Latest when the start lists are ready, the Organiser must hand out to the Team Captains a voucher which shows the total number of nights for free accommodation and full board (art. 4.1 & 4.2) and the total number of persons (art. 4.3) who pay the maximum price of CHF 140.-- for accommodation and full board (incl. tourist/city tax).

4.2 Officials

4.2.1 Quota

For officials of teams with a national quota respectively competitors with 500 WCSL points (or more), the costs for accommodation, full board incl. non-alcoholic beverages must be paid as follows (taking into consideration art. 4.1.1, 2nd paragraph):

for	a	team	up to	3	competitors	who started	4	officials
"	"	"	of	4	"	"	5	"
"	"	"	"	5	"	"	5	"
"	"	"	"	6	"	"	6	"
"	"	"	"	7	"	"	7	"
"	"	"		8 and more	"	"	10	"

Precision:

In case of an event with one or more Downhills resp. SG, AC or an event with one or more technical events, costs must be paid for the higher event quota (max. 10 persons) from the official day of arrival until the day of departure after the last race.

In case of an event with DH, SG or AC in connection with GS or SL, costs must be paid for the higher event quota + 50% (rounded up / max. 15 persons) from the official day of arrival until the day of departure after the last race.

4.2.2 Duration for payment of expenses

The duration for the payment of expenses as well as the regulation of arrival / departure must correspond to the regulation for competitors as mentioned in art. 4.1.2.

During this period allocation of single rooms per team must be made according to the following table:

1 to 3 officials	=	1 single room
4 to 6 officials	=	3 single rooms
7 officials or more	=	5 single rooms

In case of an uneven number of athletes (3 or more athletes), the team is entitled to an extra single room.

4.3 Additional officials / Service Personnel

The total number of additional officials and/or service personnel per country registered through the FIS online entry system is limited and depends on the total number of different athletes who started in training and competitions of the event:

up to 3	different competitors	6	persons

7 - 8	" "	10	"
9 - 10	" "	11	"

more than 15	" "	19	"

For these additional officials (all NSA accredited persons) / service personnel (SRS service staff related to a National Team) accredited by FIS, the maximum price that can be charged for accommodation with full board incl. non-alcoholic beverages must not exceed CHF 140.-- per day (or the equivalent) including tourist taxes if these persons are registered through the FIS online entry system by the corresponding Team Captain and the accommodation is arranged by the Organising Committee (team accommodation).

This limited group of team service persons who are registered online in principle has the right to access the start area and eventual catering tent / team hospitality for athletes.

4.4 Right of accommodation

Each National Ski Association has to announce to the Organisers the expected total number of team members (competitors, coaches, accompanying persons and service personnel) five (5) weeks before the first event and furthermore the Organisers must be informed latest seven (7) days before the official 1st training (speed) or event (tech) about the names of the team members, eventual changes to the arrival date and the originally registered size of team (incl. officials and service personnel according to art. 4.2 and 4.3), as well as an eventual withdrawal from the event. In case of a tie, the enrollment order shall be determined, according to FIS points in the respective event. Competitors, whose actual total number of WCSL points (the sum of World Cup DH, SL, GS, SG, PAR, AC + OWG / WSC) is at least five hundred (500), shall be enrolled as follows: In GS and SL these competitors shall follow after the 1st group (positions 1 - 15). In AC, DH, SG and DH TRA, they shall follow after bib 20 according to their WCSL event points (in case of a tie according to FIS points), provided they are classified within the first 30 competitors present on the WCSL in the actual event.

Thereafter the competitors shall be enrolled according to FIS points (in case of a tie according to WCSL event points).

In case of competitors with the same WCSL points enrolled in the 30th position, the group would be extended to include these competitors. To determine their enrolment order in this case, the tie will be overridden according to FIS points in the given event. If there is still a tie, a draw will be done.

Exception for the World Cup Final: all competitors without World Cup points in the event concerned will not be included in the draw and will therefore start according to their enrolment.

19.3.1 *Termination and classification of a competition*

The jury is authorized to terminate a competition and to decide if the race is to be classified.

A competition can be terminated, if the competitors are endangered by external disturbing influences, if conditions are irregular or the proper running of the race is no longer guaranteed (for example through fog, wind gusts, rain, etc.) and a completion of the race on the same day under regular conditions can no longer be expected. There is no right of appeal under art. 647 of the ICR in regard to termination.

- 19.3.2 A competition that only consists of one run can be classified if at least the best 30 on the starting list have started.

19.4 Interference with another FIS World Cup race

A replacement race must in no way interfere with another scheduled FIS World Cup race already listed in the FIS World Cup calendar. Postponed races also count as replaced competitions.

19.5 Races after the FIS World Cup Final

No races counting for the FIS World Cup may be rescheduled after the FIS World Cup Final. If several FIS World Cup races had to be cancelled, the FIS Presidency will decide about a possible postponement of the Final.

20. Rescue - Medical Support Requirements

The Organiser shall set up and operate an appropriate rescue service during all competition times (training and competitions). Medical Support Requirements for FIS Event Organisers are set forth in the ICR, 221.6 as well as chapter 1 of the FIS MEDICAL GUIDE (containing Medical Rules and Guidelines).

21. TV / advertising rights

21.1 Television rights

Reference is made to the FIS Rules, ICR 208 concerning television rights.

21.2 Advertising rights in the competition area

At all events published in the International Ski Calendar (especially FIS World Cup) the „FIS guidelines“ are valid for advertising opportunities in the competition arena, specifically the area covered by TV.

22. Media Obligations

22.1 Post-Inspection Interviews

Following the inspection, two to four athletes may be selected by FIS Media Coordinators, in cooperation with broadcasters and rights holders, to conduct interviews for international signal.

Selection is based on editorial interest and storyline development. The number of on-site broadcaster requests is also considered, in order to reduce the number of interviews for the most requested athletes. The selection is made the days before the competition and communicated after the Team Captains' Meeting.

In Slalom, Giant Slalom and Combined events, post-inspection interviews may be conducted after both the first and second run.

22.2 Leaderboard Presence Post-Run

Athletes who are provisionally leading are required to remain in the leader area/leaderboard after their run until:

- Bib 15 for technical events run 1 (Giant Slalom and Slalom)
- Bib 30 for speed events (Downhill and Super G)
- End of run 2 during two-run events

22.3 On-site Broadcast Availability (Technical Events Run 1)

During technical events, the leader after bib 15 in the first run is required to be available for interviews with on-site broadcasters for a maximum duration of 10 minutes dedicated to interviews.

22.4 Post-Race Broadcast Interviews

All top three finishers (podium athletes) are required to provide interviews to on-site broadcasters, if requested. In the case of Speed events such interview might take place while the competition is still ongoing.

All other athletes are expected to remain available for interviews regardless of race outcome, based on editorial interest and broadcaster requests.

22.5 Winning Run Interview

The race winner is also required to conduct a "winning run" interview, facilitated by the FIS Media Coordinator and inserted into the international signal as official content. Additional interviews may be conducted based on editorial needs, including with the top three finishers, discipline or overall standings leaders when a title is secured, or a designated "athlete of the day", in coordination with the FIS Media Coordinator.

22.6 Award Ceremonies. Refers to:

- Alpine World Cup Rules: Art. 9.4.1 and Art. 12.3
- International Competition Rules: Art. 205.4

22.7 Team Radio (World Feed Enhancement)

As part of the World Feed, a Team Radio system is implemented in collaboration with National Ski Associations (NSAs).

Where Team Radio is in operation, participation is mandatory for all NSA teams. This includes granting controlled access to the on-site competition team radio communications for integration into the international signal.

All content is subject to editorial selection, filtering and approval by a dedicated professional editorial team, ensuring compliance with broadcast standards, athlete protection and editorial integrity.

22.8 Non-Compliance

Failure to comply with the above obligations will result in a sanction issued by the Jury. In case of repeated non-compliance, monetary sanctions may be imposed. Should non-compliance persist after the financial penalty, the case may be escalated to the respective National Ski Association for further disciplinary action.

23. Status of injured persons

23.1 Conditions for injury status

A competitor may be granted injury status if the following conditions are met:

- They are unable to start any event or official downhill training at any level for a minimum period of eight (8) (at 00:00 CET) months due to injury.
- Participation in official downhill training held before the eight (8) months (at 00:00 CET) period is allowed, if it's part of a downhill competition scheduled after the eight (8) months (at 00:00 CET).
- A medical certificate confirming the injury is provided.

23.2 Application for status as injured

If a competitor is unable to compete at any level due to injury, their National Ski Association applies for the approval of the injury status:

- The application can be submitted immediately after the injury occurs, or no later than April 30th.
- Once approved, the injury status remains valid until April 30th of the following season.
- To extend the injury status for the following season, an application must be submitted again no later than April 30th.

If the status as injured is approved according to the World Cup rules, the competitor will be enrolled in the WCSL of the respective event(s) after 8 months (World Cup rule art. 23.3)

23.2.1 *Pregnancy*

If a medical certificate confirming pregnancy is approved, art. 23.ff World Cup rules applies.

23.2.2 *Illness*

If a medical certificate confirming Illness is approved, art. 23.ff of the World Cup rules applies.

23.3 Enrolment

Once the injury status is approved, the competitor will be enrolled in the WCSL after eight (8) months.

The injured competitor shall be ranked as tied with the competitor(s) holding the calculated rank(s) (WCSL rank after competitor's last start at any level+ penalty) and shall be designated with the symbol "#". If the injury status is extended, an additional penalty to the WCSL rank of the beginning of the season shall be applied in accordance with World Cup Rule art. 22.4. The competitor shall then be ranked as tied with the competitor(s) in the newly calculated rank.

23.3.1 *Participation / Addition and Deletion WCSL points*

If competitors have started at one FIS event at any Level the WCSL calculation for the remainder of the season will be as follows for all events:

Base: The competitor's WCSL points before the competitor's first start after the injury.

X-Value: The base points divided by the total number of WCSL races of that event in the calendar for the season equals the points that will be deleted after each race.

Y-Value: The WCSL points earned after returning to competition.

For all other details: World Cup rule art. 10.4. applies

For the following season: World cup rule art. 10.4. also applies

rule art. 22.4. The competitor shall then be ranked as tied with the competitor(s) in the newly calculated rank.

23.3.2 *Retired competitors*

Retired competitors are automatically deleted from the WCSL at latest after 1 season without participation at FIS events.

23.4 Scale for penalties according to ranks

The ICR Volume IV is valid for all further regulations.

JOB DESCRIPTION OF THE RACE DIRECTORS AND THE TECHNICAL DELEGATE IN ALPINE WORLD CUP EVENTS

Chief Race Director as Referee and Race Director as Assistant Referee; art. 1.1 of the Alpine World Cup Rules and art 601.4.9 ICR

I. Fundamentals

1. Due to the implementation of separate set of rules valid for events of the Alpine World Cup, the Chief Race Director assumes the job of a Referee while the Race Director takes over the position of the Assistant Referee. The fact that the Referee has the final decision results in a shift of authority, regarding mainly the technical realm (that is the areas blocked off for the time of the race, namely starting area, track, finish line), whereas the Technical Delegate is involved in administrative tasks (meaning the total field of work with the exclusion of the technical part).
2. In order to avoid conflicting authority, it seems advisable and necessary to provide a detailed job description.
3. In individual cases it will depend whether a decision, responsibility or other authority refers more to the technical or rather to the administrative domain. In all critical cases, that is in cases where the Technical Delegate as well as the Chief Race Director are competent to make certain decisions, the final decision lies with the Chief Race Director, meaning the decision concerning the authority is binding. However, the Chief Race Director should by all means avoid assuming authority which clearly falls into the administrative area.
4. However, there are certain tasks and responsibilities which according to the given set of rules are directed towards both the Race Directors (Referees and Assistant Referee) and the Technical Delegate; the shift authority is therefore twofold:
 - a) the Chief Race Director takes over the job of the Referee, assigned to him according to the ICR.
 - b) the Chief Race Director takes over some tasks of the Technical Delegate as well, as assigned by the ICR, limited however to the technical aspect of this work (the Referee is the Chair of the Jury as well).

According to the World Cup rules, the Race Director assumes the tasks of an Assistant Referee. In this position, the Race Director has the final decision regarding the technical equipment and the implementation of safety measures on the race track. These rules are valid for the Olympic Winter Games, as well as for World Championships.
5. The following is an attempt to illustrate what kind of activities are assigned to the Chief Race Director, the Race Director and the Technical Delegate which ones can be assigned to all of them, according to existing rules valid for the Olympic Games, World Championships and World Cup.

II. The Chief Race Director

1. **Art. 601.4.5**
 - is the Chair of the Jury and conducts the meetings

- 601.4.5.4 in the case of a tie, the Chief Race Director has the casting vote
- 601.4.6.3 has the right to make the motion to exclude a competitor for lack of physical and technical ability
- the decisions of the Chief Race Director are binding for the Race Director (Assistant Referee), in so far as they do not refer to technical equipment and to safety measures on Downhill and Super-G tracks
- right to change the course, including the removal or addition of gates; in case the Chief Race Director is alone on the tracks, the decision is final.

- checks the locations of the first aid service along the course as well as the organisation of the medical care
- if necessary, appoints members to the Jury
- in case a World Cup race cannot be carried out on the homologated course owing "force majeure", the Chief Race Director has the authority to move the race to a "substitute course" proposed by the Organiser. This is on the explicit condition that the necessary homologation measures can be fulfilled. For Downhill and Super-G there is only the possibility of shortening the run on a homologated course.

3. Other ICR art.

- spot check the gate panels
- collaborate in the technical preparations
- check the race courses in regard to preparation, marking, crowd control as well as the layout of the start and finish areas
- check on the location of the installations and see that they are adequately protected, if necessary
- be included in the decision-making-process regarding the choice of a substitute course.

IV. The Technical Delegate

1. Has the right to:

- review the homologation file and consult the Organiser regarding the existence of a special authorization
- if it is established that no homologation exists, it is the TD's duty to inform the Chief Race Director. The Jury must cancel the race (see ICR art. 650)
- read the TD reports concerning previous events at the site and check whether any improvements proposed in these reports have been carried out
- inspect the liability insurance certificate as required by art. 212.2 and report where necessary to the FIS
- inspect the competition courses
- supervise the compliance with art. 704 concerning the official training
- spot check the gate panels

- check on the presence of sufficient radios for all members of the Jury (with separate frequencies)
- take note of the accreditation and the authorisation for entry to the competition course
- check over the race courses with regard to preparation, marking, crowd control, as well as the layout of start and finish areas
- supervises the course setting together with the Jury
- check on the location of the television towers and sees that they are adequately protected if necessary
- supervise the locations of the first aid service along the course as well as the organisation of the medical care
- check on all technical installations such as timekeeping, hand timing, communications, transport of people, etc.

During the race the TD must:

- be present in the competition area
- work closely with the Jury, the Team Captains and the coaches
- observe that the valid rules and directives with regard to advertising on clothing and race equipment are obeyed
- supervise the technical and organisational conduct of the event

- advise the Organisation concerning the observance of the FIS Rules and regulations and directives of the Jury.

After the race the TD;

- helps with the compilation of the Referee's report
- calculates the race and penalty points for the individual races. If these points are calculated by computer, it is the TD's duty to re-check the points and to confirm their accuracy with a personal signature. Above all, it is necessary to check the correct use of the corresponding F value for each event
- presents properly submitted protests to the Jury for decision
- signs the official result lists provided by the race secretary and gives the authorisation for the award ceremony
- oversees the electronic transmission and Timing Report (TDTR) xml files and completes the TD Report online immediately after the event
- must also check that the results are correct on the FIS website. For more information see Rules of the FIS Points.
- presents properly submitted protests to the Jury for decision (chair of the Jury is the Chief Race Director)
- presents to the FIS any applicable proposals for improvement in the administrative realm, for changes in competition rules on the basis of practical experience at the event in question.

4. Art. 601.4.9.4

- has the authority to decide on questions in the administrative realm which are not covered or are insufficiently covered by the FIS rules, in so far as these have not already been decided by the Jury and do not fall within the scope of other authorities
- works very closely with the Chief Race Director (Referee) and the Race Director (Assistant Referee).
- has the right to propose to the Jury the exclusion of competitors from participating in the race
- has the right to obtain support from the Organising Committee and all officials under its jurisdiction in all matters necessary for the fulfilment of her/his duties.

V. Common Authority

These are resulting from the general rule mentioned earlier on; it is possible that in individual cases, the Chief Race Director or the Race Director have to take other tasks than the ones assigned to them, for instance the inspection of homologation files, inquiries regarding special permits, inspection of TD reports concerning former events held in that particular location as well as the checking of proposed improvements and the filing of the referee minutes, etc.

Most of all, it seems important that all leading officials in a World Cup event approach their tasks with discernment and courage and with a commitment to co-operation and co-ordination. Of course, a unanimous decision is always the best one. The most important rule is that the Technical Delegate is respected as the official representative of the International Ski Federation at the place of the competition and as such has to fulfill all tasks associated with this position, including that of, for instance, representation of the FIS.
