- 202.1.1 Each National Ski Association is entitled to present its candidature for the organising of the FIS World Ski Championships in accordance with the published “Rules for the Organisation of World Championships”
- 202.1.2 For all other competitions, the registrations for inclusion in the International Ski Calendar have to be made to FIS by the National Ski Association according to the Rules for the FIS Calendar Conference published by the FIS.

- 202.1.2.1 The applications of the National Ski Associations (NSA) are entered by using the FIS Calendar program in the members section of the FIS website: www.fis-ski.com by 31st August (31st May for the Southern Hemisphere).
- 202.1.2.2 *Allocation of competitions*
Allocation of the competitions to the National Ski Associations is made through the electronic communication process between FIS and the National Ski Associations. In the case of FIS World Cup competitions, the calendars are subject to the approval of the Council, on proposal of the respective Technical Committee.
- 202.1.2.3 *Homologations*
Competitions that appear in the FIS Calendar may only take place on competition courses or jumping hills homologated by the FIS.
The homologation certificate number must be indicated when applying for the inclusion of competition in the FIS Calendar. In a number of Snowboard, Freestyle Skiing, Free Ski disciplines and events the course or facility is built up for each competition that therefore does not have a permanent homologation. The course or facility approval process is therefore defined in the respective rules.
- 202.1.2.4 *Publication of the FIS Calendar*
The FIS calendar is published by FIS on the FIS website www.fis-ski.com. It will be updated to reflect cancellations, postponements and other changes continuously by FIS.
- 202.1.2.5 *Postponements*
In case of the postponement of a competition listed in the FIS Calendar, the FIS has to be informed immediately and a new invitation must be sent to the National Ski Associations, otherwise the competition cannot be considered for FIS points.
- 202.1.2.6 *Calendar Fees*
In addition to the annual subscription, a calendar fee is set by the FIS Congress and is due for each year and for each event listed in the FIS Calendar. For additional events, a 50% surcharge will be made in addition to the regular calendar fee for applications submitted 30 days before the date of the competition. The calendar fee for a competition that has to be rescheduled remains the responsibility for payment in full of the original organising National Ski Association.

At the beginning of the season, each NSA will receive an invoice for 70 % of its total invoice from the previous season. This amount will be debited from its FIS account. At the end of the season each NSA will receive a detailed invoice for all registered competitions during the season. The balance will be subsequently debited or credited to the NSA account at FIS.
- 202.1.3 *Appointment of Race Organiser*
In the event that the National Ski Association appoints a race organiser, such as an affiliated ski club, it shall do so using the form "Registration

Form National Ski Association and Organiser” or by means of a similar written agreement. An application by a National Ski Association for inclusion of an event on the International Ski Calendar shall mean that the necessary agreement to organise the event has been established.

202.2 Organisation of Races in other Countries

Competitions which are organised by other National Ski Associations may only be included in the FIS Calendar when the National Ski Association of the country concerned where the competitions will be organised gives its approval.

203 Licence to participate in FIS Races (FIS Licence)

A licence to participate in FIS races is issued by a National Ski Association to competitors who fulfil the criteria for participation through registering the competitor with FIS in the respective discipline(s).

203.1 The FIS licence year begins on July 1st and finishes on June 30th of the following year.

203.2 To be eligible for participation in FIS events, competitors must have a licence issued by their National Ski Association. Such a licence shall be valid in the Northern and Southern hemispheres for the licence year only. The validity of a licence can be limited to participation in one specific country or in one or more specific events.

203.2.1 The National Ski Association must guarantee that all competitors registered with a FIS License to participate in FIS races accept the Rules of the International Ski Federation, in particular the provision which foresees the exclusive competence of the Court of Arbitration for Sport as the court of appeal in doping cases.

203.3 A National Ski Association may only issue a FIS licence to participate in FIS races when competitors have proven their nationality and therefore eligibility by submitting a copy of their passport and signed the [Athletes Declaration](#) in the form approved by the FIS Council and returned it to their National Ski Association. All forms from under-age applicants must be counter signed by their legal guardians. Both the copy of the passport and signed Athletes Declaration must be made available to FIS on request.

203.4 During the FIS licence year, a competitor may only participate in International FIS competitions with a FIS licence to participate in FIS races issued by one National Ski Association.

203.5 Application for a change of FIS Licence Registration

All applications to change licence registration from one member National Ski Association to another are subject to consideration by the FIS Council at its Meetings in the spring (applications may only be submitted by 1st May each year). In principle an application to change licence registration will not be granted unless competitors demonstrate their personal association with the new nation.

Prior to submitting an application to change licence registration, competitors must possess the citizenship and passport of the country for which they wish to compete. In addition, competitors must have had their principal legal and effective place of residence in the new country for a minimum of two (2) years immediately prior to the date of the request to change registration to the new country/National Ski Association. An exception to the two year residency rule may be waived if the competitor was born in the territory of the new country, or whose mother or father is a national of the new country. Applications will not be accepted if a parent has obtained a passport for the new country, but is not resident, and/or there is no family ancestry.

Furthermore, competitors are required to submit a detailed explanation with the application about their personal circumstances and the reason for requesting a change of licence registration. A change of nation can only be made once and after confirmation by the FIS Council. A change back or a second change is not allowed.

203.5.1 If competitors have already participated in FIS calendar events for a National Ski Association, they must have the written agreement to be released from the former National Ski Association in addition to the citizenship, passport and residency requirements in art. 203.5 before the new National Ski Association may submit a request to FIS for a change of registration.

If such a written agreement is not given, competitors may not participate in any FIS calendar events for a period of twelve months from the end of the last season in which they competed for their present National Ski Association, nor may they be issued with a licence to participate in FIS races by the new National Ski Association.

These rules are also valid when a competitor has more than one nationality and would like to change National Ski Association licence registration.

203.5.2 The FIS Council reserves the right in its absolute discretion, to grant or to decline to grant, a change of licence notwithstanding the fulfilment of the aforementioned conditions where it deems it is contrary to the spirit of the rule and in the best interests of the International Ski Federation to do so (e.g. to decline to grant a change of licence if a member National Ski Association tries to “import” a competitor).

203.5.3 In the event that a competitor does not fulfil all the criteria required to apply for a change of National Ski Association licence registration, the onus shall be on the competitor to demonstrate in writing to the satisfaction of the FIS Council that exceptional circumstances exist and it is in the best interests of the International Ski Federation to grant the change.

203.5.4 Competitors will retain their FIS points if they change their National Ski Association under the condition that the former National Ski Association granted the release of the competitor.

203.5.5 In the event that any of the documents for an application to change licence registration submitted by the National Ski Association (letter of release from the former National Ski Association, passport, residency

papers) are found to be false, the FIS Council will sanction the competitor and the new National Ski Association.

204 Qualification of Competitors

- 204.1 A National Ski Association shall not support or recognise within its structure, nor shall it issue a licence to participate in FIS or national races to competitors who:
 - 204.1.1 have conducted themselves in an improper or unsportsmanlike manner or has not respected the FIS medical code or anti-doping rules,

In the context of this rule advertising is considered as the presentation, of signage or other visibility at the venue informing the public of the name of a product or service to achieve awareness of a company or an organisation and its brand name, activities, products or service. 206.3 Member National Ski Associations

Each FIS affiliated National Ski Association that organises events in its country which are included in the FIS calendars, has the authority as the owner of the event advertising rights to enter into contracts for their sale. In the case of FIS World Cup competitions these rights shall be defined in the Organiser Agreement upon approval of the FIS Council and considering the National Ski Associations responsibilities. In cases where a National Ski Association organises events outside its own country these FIS Advertising rules also apply.

For the FIS World Cup series these are marketed to appropriate sponsors that promote the image and values of the discipline concerned. All Advertising and commercial markings and supports used shall comply with the technical specifications set forth in the applicable FIS Advertising Rules.

206.6 Advertising Packages

In the agreements concerning production with a TV organisation or agency acting as host broadcaster, the quality of TV transmissions for ski and snowboard events published in the FIS Calendar – especially for FIS World Cup competitions – must be considered. Of particular importance, while taking into consideration applicable national laws and rules affecting broadcasting, are:

- a) Top quality and optimal production of a TV signal (for live or deferred transmission depending on the event) in which sport is the centrepiece;
- b) Adequate consideration and appearance of venue advertising and event sponsors;
- c) A standard of production in conformity with the FIS TV Production Guidelines and appropriate to current market conditions for the discipline and to the level of the FIS competition series. This means live coverage of the entire event including the winner presentation for live transmission (unless circumstances determine that a live production is not provided). This coverage shall be produced in a neutral way, shall not concentrate on any athlete or nation and shall show all competitors
- d) The live international signal of the host broadcaster must include appropriate graphics in English, particularly the official FIS logo, timing and data information and results, and international sound.

- e) Where it is appropriate to the individual TV market, there should be live TV transmission in the country where the event takes place and in other countries with a high interest.

208.3.2

Production and Technical costs

Except when otherwise agreed between the National Ski Association and the agency/company managing the rights, the cost of producing the television signal for the exploitation of the different rights will be borne by the broadcaster having acquired the rights in the country where the competition takes place or a production company mandated to produce the signal by the company owning the rights. In certain cases, the organiser or the National Ski Association may assume these costs.

For each of the different rights granted under this rule the technical expenses that are to be paid for by those organisations that have acquired the rights and which are seeking to access the television signal (original picture and sound without commentary), have to be agreed between the producing company or the agency/company managing the rights, as applicable. This also applies to any other production costs that may be requested.

208.3.3

Short extracts

Short extracts granting news access for non-rights holders are to be provided to television companies according to the following rules. It is noted that in a number of countries national legislation governs the showing of short extracts in news programmes.

These extracts may only be used in regularly scheduled news programmes and cannot be kept for archive purposes

- a) In those countries where legislation exists regarding news access to sporting events then this legislation will always hold precedence for reporting on FIS events.
- b) In those countries where no legislation exists regarding news access by competing networks and provided that agreements between the company managing the rights and the primary rights holder take precedence then short extracts of a maximum of 90 seconds news access will be granted to competing networks by the agency/company managing the rights for transmission four hours after the rights holding network has shown the competition. The use of this material will cease 48 hours after the end of the competition. If the rights holding network delays its transmissions by more than 72 hours from the end of the competition, then competing networks can show extracts of a maximum of 45 seconds commencing 48 hours after and ending 72 hours after the event itself. Any request to exploit short extracts shall be addressed to the agency/company managing the rights which shall grant to the broadcasters access to the short extracts subject to agreement regarding the technical costs incurred to receive the material.
- c) In those countries where no transmission rights have been purchased by a television company, all television organisations will be able to transmit short extracts of 45 seconds as soon as the

material is available, subject to agreement with the agency/company managing the rights regarding the technical costs to be incurred to receive the material. Permission for the use of this material will expire after 48 hours.

- d) Short extracts will be produced by the host broadcaster or the agency/company managing the rights and distributed by that agency/company, taking into consideration 208.3.2 above.

208.4

Radio

The promotion of FIS events through radio programmes will be encouraged by making available accreditation to the principle radio station(s) in each interested country. Access to the venue will be granted solely to those radio organisations that have obtained the necessary contractual authorisation from the rights holder, and will be only for the production of radio (audio) programmes. If accepted by national practice and the authorisation is granted, these programmes can also be distributed on the internet site of the radio station.

208.5

Internet

Unless the contract for the sale of the Electronic Media Rights on FIS events states otherwise, each television rights holder that also acquires the internet rights, will ensure that video streams from its website other than short extracts are geoblocked against access from outside its own territory. Regularly scheduled news bulletins containing material of FIS events may be streamed on the rights holding broadcaster's website, provided no changes are made to the bulletin as transmitted in the original programme.

Video and audio material produced in public areas where accreditation, tickets or other permissions are not required to gain access must not contain race footage. It is recognised that new technology provides members of the public with the possibility to produce unauthorised video recordings that may be posted on websites. Appropriate information advising that the unauthorised production and use of video material is prohibited and that legal proceeding could be taken, will be shown at all entrances and printed on entrance tickets.

All National Ski Associations and the rights holders/agencies will give permission for short extracts to be placed on the FIS website for non-commercial use subject to the following conditions:

- a) When short extracts have not been acquired for Internet distribution the maximum duration of the news material from FIS competitions will be 30 seconds per discipline/per session and will be accessible on the FIS website until 48 hours after the end of the competition. The financial conditions relating to the provision of this material will be agreed between the FIS and the rights owner.
- b) The material will be provided by the rights owner or host broadcaster as soon as possible, but at the latest six hours after the end of the competition.

208.6 Mobile and portable devices

In the cases where the rights for distribution by mobile and portable devices have been awarded, the rights purchaser/operator will be free to produce from the television signal the content it considers best meets the needs of its customers. Any live streaming of television programmes on a national basis using these devices shall not be altered from that available through other distribution channels.

In countries where no mobile distribution rights have been sold, short extracts or clips of a maximum duration of 20 seconds will be offered to operators when the material has been produced and for a period of 48 hours on the condition that the operators pay all related technical costs to the agency/company managing the rights.

208.7 Future developments

The principles contained in this Rule 208 shall be the basis for the exploitation of Electronic Media Rights to FIS events in the future. The FIS Council, on the recommendation of the National Ski Associations, the relevant commissions and experts, will establish the conditions considered appropriate to each new development.

209 Film Rights

All agreements regarding film productions of FIS competitions will be between the film producer and the National Ski Association or the company managing the related rights. All contractual arrangements regarding the exploitation of other media rights will be respected.

210 Organisation of Competition

211 The Organisation

211.1 The Organiser

211.1.1 The Organiser of a FIS competition is the person or group of persons who make the necessary preparations and directly carry out the running of the competition in the resort.

211.1.2 If the National Ski Association itself is not the competition organiser, it may appoint an affiliated club to be the organiser.

211.1.3 The organiser must ensure that accredited persons accept the regulations regarding the competition rules and Jury decisions, and in World Cup races the organiser is obliged to obtain the signature of all persons who do not have a valid FIS season accreditation to this effect.

211.2 The Organising Committee

The Organising Committee consists of those members (physical or legal) who are delegated by the organiser and by the FIS. It carries the rights, duties and obligations of the organiser.

- 211.3 Organisers which hold competitions involving competitors not qualified under art. 203 - 204 have violated the International Competition Rules and measures are to be taken against them by the FIS Council.

212 Insurance

- 212.1 The organiser must take out liability insurance for all members of the Organising Committee. The FIS shall provide its employees and appointed officials, who are not members of the Organising Committee (e.g. equipment controller, medical supervisor, etc.), with liability insurance when they are acting on behalf of the FIS.
- 212.2 Before the first training day or competition, the organiser must be in possession of a binder or cover notes issued by a recognised insurance company and present it to the Technical Delegate. The Organising Committee requires liability insurance with coverage of at least CHF 1 million; whereby it is recommended that this sum is at least CHF 3 million; this sum can be increased according to decisions of the FIS Council (World Cup etc.).
Additionally, the policy must explicitly include liability insurance claims by any accredited participant, including competitors, against any other participant including but not limited to officials, course workers, coaches, etc.
- 212.3 All competitors participating in FIS events must carry accident insurance, in sufficient amounts to cover accident, transport and rescue costs including race risks as well as an appropriate third-party liability insurance. The National Associations are responsible for adequate insurance coverage of all their competitors sent and inscribed by them. The National Ski Association or their competitors must be able to show proof of the respective insurance coverage at any time on request of the FIS, one of its representatives or the organising committee.
- 212.4 All trainers and officials inscribed and sent to FIS events by a National Association must carry accident and third-party liability insurance, in sufficient amounts to cover accident, transport and rescue costs from damages caused. The National Ski Association or their trainers and officials must be able to show proof of the respective insurance coverage at any time on request of the FIS, one of its representatives or the organising committee.

- 214.3 Postponements or cancellations of competitions and programme alterations must be communicated immediately by telephone, e-mail or telefax to the FIS, all invited or entered National Ski Associations and the appointed TD. Competitions moved to an earlier date must be approved by the FIS.

215 Entries

- 215.1 All entries must be sent so that the Organising Committee receives them before the final date of entry. The organisers must have a final and complete list not later than 24 hours before the first draw.
- 215.2 National Ski Associations are not permitted to enter and draw the same competitors in more than one competition on the same date.

218 Creation and Distribution of Digital Content

218.1 Introduction

Information and data are an essential part of understanding and presenting sport, both as a means of measuring and reporting on athletic performance and communicating and promoting sport to the public. FIS, as the international body governing the sports of Skiing and Snowboarding, and with the cooperation of its National Ski Associations, is entrusted for the development, management and accuracy of data related to their common activities.

As an important part of the promotion of Skiing and Snowboarding, FIS encourages National Ski Associations to provide their members, stakeholders and fans with data and information related to FIS activities.

All National Ski Associations are encouraged to provide general information relating to the events and competitions on the FIS calendar, for use by interested parties,

The purpose of this Rule is to define digital content and identify how it can be exploited.

218.2 Definition of Digital Content

Digital Content shall mean all information related to FIS activities, which is made available in a digital form.

Digital Content is comprised of two elements:

- basic written digital content that is freely available, in the public domain and can be used without restriction. This includes documentary archives, reports, rules, official calendars, start and results lists including names of competitors, competition and venue information, running orders, statistics, rankings and standings and information regarding weather conditions, and
- specialist digital content which includes real time information provided by the Official Data and Timing Providers, athlete biographical information and performance data, event and other related content produced by stakeholders, including content on the social media sites of athletes, sponsors and officials

Also included are all video archives for which exploitation rights are available.

Digital content includes all formats, together with any graphical, textual, video or other representations of such data, information and statistics.

218.3 Ownership of Digital Content

The ownership of digital content is determined by the relevant permissions and the contractual relationship, if any, under which such content has been produced and the conditions to be applied for its exploitation.

218.4 Use of Specialist Digital Content

The development of digital technology has made it possible for the consumer to have instant access to specialist digital content that enhances the viewing experience and interest in sport.

Access to moving pictures can stimulate interest in FIS competitions, and the inclusion of live timing and data feeds adds to the attraction of any video production. Use of the live timing and data feeds on World Cup and World Championships competitions is subject to obtaining the agreement of the owner of these feeds.

218.5 Access to Specialist Digital Content

Each party seeking to access specialist digital content must find an agreement with the owner/rights holder of the digital content and defining the terms and conditions under which this content can be used. In all cases, and particularly with regard to personal data, a strict adherence to the GDPR or other equivalent law or regulation must be enforced.

The FIS shall advise anyone seeking to use specialist digital content, the name of the owner/rights holder and provide contact numbers.

Should individual owners/rights holders of specialist digital content consider it appropriate, their content could be bundled and offered centrally to the market using the FIS as their representative.

218.6 Review

In view of constant change and development in technology this rule will be kept under constant review and when appropriate updated on a regular basis.

219 Prizes

219.1 The detailed rules concerning the awarding of prizes will be published by the FIS. Prizes shall consist of mementos, diplomas, cheques or cash. Prizes for records are forbidden. The FIS Council decides in the autumn on the minimum respectively maximum values of the prize money approximately one and a half years before the competition season. The organisers have to inform the FIS by October 15th of the amount.

219.2 If two or more competitors finish with the same time or receive the same points, they shall be given the same placing. They will be awarded the same prizes, titles or diplomas. The allocation of titles or prizes by drawing lots or by another competition is not allowed.

219.3 All prizes are to be awarded no later than the final day of a competition or event series.

220 Team Officials, Coaches, Service Personnel, Suppliers and Firms' Representatives

In principle these regulations apply to all disciplines, taking into consideration the special rules.

220.1 The Organising Committee of an event must provide the Technical Delegate with a list of persons accredited to the competition.

220.2 It is forbidden for suppliers and for persons in their service to advertise inside the restricted area or to wear clearly visible commercial markings on their clothing or equipment which do not conform with art. 207.

220.3 Team officials accredited service personnel and suppliers receive from the FIS an official FIS accreditation in the Event concerned and must perform their specified function. The individual organisers are free to accredit additional company representatives or other important persons.

220.4 Only persons who have the official FIS accreditation or a special accreditation from the organiser for course or jumping-hill have access to the courses and jumping-hills (according to special rules of the discipline).

220.5 The Different Types of Accreditation

- 220.5.1 Technical Delegates, the Jury, and the persons mentioned in art. 220 with clearly visible accreditation have access to the courses and jumping-hills.
- 220.5.2 Servicemen attached to teams are permitted entry to start area and service area at the finish. They are not allowed entry to the courses or jumping-hills.
- 220.5.3 Company representatives accredited at the discretion of the organisers who do not have FIS accreditation are not permitted entry to the courses and restricted service areas.

221 Medical Services, Examinations and Doping

- 221.1 National Ski Associations are responsible for the fitness of their competitors to race. All competitors, male and female are required to undergo a thorough evaluation of their medical health. This evaluation is to be conducted within the competitor's own nation.
- 221.2 If requested by the FIS Medical Committee or its representative, competitors must undergo a medical examination before or after the competition.
- 221.3 Doping is forbidden. Any offence under these FIS Anti-Doping Rules will be punished under the provisions of the [FIS Anti-Doping Rules](#).
- 221.4 Doping controls may be carried out at any FIS competition (as well as out of competition). Rules and procedures are published in the [FIS Anti-Doping Rules and FIS Procedural Guidelines](#).

221.5 Gender of the Competitor

If any question or protest arises as to the gender of the competitor, FIS shall assume responsibility for taking the necessary steps to determine the gender of the competitor.

221.6 Medical Services Required from Event Organisers

The health and safety of all those involved in a FIS competition is a primary concern of all event Organisers. This includes the competitors as well as volunteers, course workers and spectators.

The specific composition of the medical support system is dependent on several variables:

- The size, level, type of the event being held (World Championships, World Cup, Continental Cup, FIS-level, etc.) together with the local medical standards of care and geographic locations and circumstances.
- The estimated number of competitors, support staff and spectators
- The scope of responsibility for the Event Medical Organisation (competitors, support staff, spectators) should also be determined.

The Organiser / The Chief of Medical and Rescue Services must confirm with the race director or technical delegate that the required

rescue facilities are in place before starting the official training or competition. In the event of an incident, or issue that prevents the primary medical plan from being utilized, the back-up plan must be in place before recommencing the official training or competition.

The specific requirements concerning facilities, resources, personnel and team physicians are contained in the respective discipline rules and the [FIS Medical Guide](#).

222 Competition Equipment

222.1 A competitor may only take part in a FIS competition with equipment which conforms to the FIS Regulations. Competitors are responsible for the equipment that they use (skis, snowboard, bindings, ski boots, suit, etc). It is their duty to check that the equipment they use conforms to the FIS specifications and general safety requirements and is in working order.

222.2 The term competition equipment encompasses all items of equipment which the competitor uses in competitions. This includes clothing as well as apparatus with technical functions. The entire competition equipment forms a functional unit.

222.3 All new developments in the field of competition equipment must be approved in principle by the FIS.
The FIS does not take any responsibility for the approval of new technical developments, which at the time of introduction may contain unknown risk to the health or cause an increase in the risk of accidents.

222.4 New developments must be submitted by May 1st, (Grass Ski August 1st) at the latest, for the following season. The first year new developments can only be approved provisionally for the following season and must be finally confirmed prior to the subsequent competition season.

222.5 The Committee for Competition Equipment publishes equipment by-laws after approval by the FIS Council (definitions or descriptions of the equipment items which are allowed).
In principle unnatural or artificial aids which modify the performance of the competitors and/or constitute a technical correction of the individual's physical predisposition to a defective performance, as well as competition equipment which impact the health of the competitors or increase the risk of accidents are to be excluded.

222.6 Controls

Before and during the competition season or on submission of protests to the Technical Delegate at the competition concerned, various controls can be carried out by members of the Committee for Competition Equipment or official FIS Equipment Controllers. Should there be a well-founded suspicion that regulations were violated, the equipment items must be confiscated immediately by the controllers or Technical Delegates in the presence of witnesses and be forwarded sealed to the FIS, which will submit the items to a final control by an

officially recognised institution. In cases of protest against items of the competition equipment, the losing party will bear the investigation costs. No testing of equipment or material in independent laboratories may be requested at races where a FIS Technical Expert has performed the controls, unless it can be demonstrated that the controls have not been carried out according to the rules.

- 222.6.1 At all FIS events where official FIS measurement experts using the official FIS measurement tools are appointed, the result of measurements carried out at the time are valid and final, irrespective of previous measurements.

222.7 Prohibited of scientific and medical Equipment at FIS Events

It is prohibited for any National Ski Association, its representative or team members to bring and/or use any of the following scientific or medical equipment ("Equipment") into/at any Event Venue during FIS World Championships, World Cups and other competitions registered in the FIS Calendar:

- Oxygen tanks, cylinders and related devices;
- Hypoxic or hyperoxic tents, chambers and related devices;
- Cryogenic chambers for whole body cryotherapy and related devices.

It is the responsibility of the National Ski Association to ensure compliance with this Article 222.7 by all its representatives or team members. Failure to respect this Article 222.7 will be subject to Penalties provided by Article 223.3. In case of recurrence, disqualification of an athlete shall be imposed irrespectively of whether the violation of this provision would result in an advantage for the Athlete(s) with regard to the end result of the competition. In addition to the sanctions listed above, the FIS may order the immediate removal of the Equipment from the Event Venue at the costs of the responsible NSA.

222.8 Fluorinated ski wax prohibition

Use of fluorinated wax or tuning products containing fluorine is prohibited

for all FIS disciplines and levels.

Fluorinated wax can be a competitive advantage and its use in competition will result in disqualification (see competition rules and equipment specifications).

12310.2.2 Classical Technique

12310.2.2.1 Classical technique includes the Diagonal stride techniques, the double poling with or without diagonal kick, herringbone or half herringbone without a gliding phase and turning techniques.

12310.2.2.2 Diagonal Stride technique is comprised of alternating diagonal movements of the arms and legs and includes diagonal stride and herringbone technique without a gliding phase. In diagonal technique only one or no pole is in the ground at any time.

12310.2.2.3 In Para competitions, athletes with lower limb impairments that make diagonal stride and herringbone technique impossible in steep uphill, may use an adaptive half herring bone technique with one ski gliding in the direction of travel and one ski pushing without a gliding phase.

12310.2.2.4 Turning techniques comprise of steps with the inner ski and pushes with the outer ski in order to change skiing direction. The sections of the course where turning techniques are allowed must be clearly marked.

12310.2.2.5 Where there are one or more set track, repeatedly changing or stepping in and out of the tracks is not allowed.

12310.2.2.6 Single or double-skating is not allowed.

12310.2.3 Free Technique

Free technique includes all Cross-Country skiing techniques.

12310.3 The Programs for PWG, WSC, WC and FIS Competitions

12310.3.1 PWG and WSC

12310.3.1.1 For the PWG and the WSC, the programme is:

Interval Start Competitions:	10km C/F & 20km C/F
Sprint Competition:	Sitting: 0.6 – 1.2km C/F
	Standing/VI: 0.8 – 1.6km C/F
Relay Competitions:	Mixed & Open Relays (4 x 2.5km)

Techniques

The techniques (Classical Technique / Free Technique) will alternate from PWG to PWG and from WSC to WSC.

The composition of the programme can change due to the fact that there are more competition days available during the PWG than at the WSC. The TV coverage will be a major factor in these considerations.

The relay competitions will be conducted using two classical legs (first and third leg) and two free technique legs (second and fourth).

12310.3.2 World Cup

The program for the World Cup season is determined by FIS every year. Distances and techniques are decided annually. To be able to support development of the Para Cross-Country sport, new formats, test competitions, and distances can be a part of the WC program. Long distance competitions may be included.

12311 Cross-Country Competition Courses

12311.1 Fundamental Characteristics

12311.1.1 Cross-Country courses must be laid out so that they provide a technical, tactical and physical test of the competitors' qualifications. The degree of difficulty should be in accordance with the level of the competition. The course should be laid out as naturally as possible to avoid any

monotony, with rolling undulating sections, climbs, and downhill sections.

Rhythm should not be broken by too many sharp changes in direction or steep climbs. The downhill sections must be laid out so that they create a challenge to the competitors. At the same time, it should be possible to ski the course even under fast conditions.

See the Para Cross-Country Homologation Guide and FIS Cross-Country Course and Venue Design Guidelines.

12311.1.3 A test area should be prepared and clearly marked along or near the competition course.

12311.1.4 Warm up courses (also for the Sitting category) should be prepared as close as possible to the stadium.

12311.2 The Homologation

12311.2.1 All FIS Para Cross-Country competitions should be carried out on homologated courses. Exceptions are: popular competitions, Roller Skiing competitions, substitute courses if approved by the Jury and lower-level competitions (Continental Cup and below) if approved by FIS office and the jury, where the courses meet homologation criteria but where homologation is not yet available. The homologation procedures are described in the Homologation procedure for Cross-Country skiing courses and the FIS Para Cross-Country Homologation Guide.

12311.2.2 For WC events, it is possible to homologate courses outside of norms for climb and course length, provided they have been verified as safe and fair by a homologation inspector.

12311.2.3 The organiser must supply copies of the approved course maps and the homologation certificate (when applicable) to the appointed TD. A graduated scale and a north direction arrow as well as Height Difference (HD), Maximum Climb (MC), and Total Climb (TC) information must be included.

12311.2.7 At PWG, WSC, and WC competitions, the highest point of a Cross-Country course should not exceed 2000 m.

12311.2.8 For courses with highest point above 1,800 m elevation, the requirements for MC and TC described in the homologation manual should be reduced by 20 %.

12311.3 Preparation of the Course

12311.3.1 Pre-Season Preparation

The courses must be prepared before the winter so that they can be raced on even with very little snow. Rocks, stones, roots, stumps, brush and similar obstacles should be removed. Sections of the course that

have drainage problems must be corrected. The summer preparations should be of a standard which allows for carrying out of competitions with approximately 30cm of snow. Special attention must be given to downhill sections and the need for banking the curves.

12311.3.2 General Preparation for the competition

12311.3.2.1 The course should be completely prepared with mechanical equipment. If heavy machines are used, they should follow the original configuration of the ground as much as possible in order to preserve the undulations of the terrain.

12311.3.2.2 The course must be prepared to the recommended width according to the Homologation Manual and the competition format (see ICR articles Section C). The course must be prepared so that competitors can ski and pass unobstructed. On slopes where the courses traverse, they must be wide enough to allow for good preparation.

12311.3.2.3 The courses and the warmup tracks must be completely prepared before the official training, correctly marked and with the kilometer signs in place.

12311.3.2.4 The same conditions must be ensured for all competitors during the competition. If it is snowing or blowing hard, a sufficient number of qualified forerunners and/or especially equipped patrols must be available and utilized in order to maintain constant conditions. An action plan has to be prepared in cooperation with the Jury.

12311.3.2.5 All use of artificial means in order to improve the glide on the snow are forbidden. In special cases the use of chemicals to prevent a soft surface is allowed.

12311.3.3 Preparation for Classical Technique

12311.3.3.1 The number of tracks will be decided by the Jury according to the length, the width, the profile of the course, the competition format and number of entries (see ICR articles section C).

12311.3.3.2 The tracks should be in general set along the ideal skiing line of the competition course. The track is normally set in the middle of the course except through curves.

12311.3.3.3 In curves there should only be set track where the skis can glide unrestrained in the set track. Where the curves are too sharp and the speed is considered to be too high for the skier to stay in the track, the track should be removed. In curves the track is to be set close to the fence to avoid the possibility to ski between the track and the edge of the course.

12311.3.3.4 To decide the proper course preparation and track setting, the best competitors and highest possible speed must be taken into consideration.

- 12311.3.3.5 The ski tracks must be prepared so that ski control and gliding are possible without a lateral braking effect by any parts of the bindings. The two tracks should be set 22cm - 23cm apart, measured from the middle of each track. The depth of the track should be 2-5cm, even in hard or frozen snow.

- 12311.3.3.6 Where two or more tracks are used, they should be a minimum 1.20 meter apart measured from the middle of each pair of tracks.

12311.3.4 Preparation for Free Technique

- 12311.3.4.1 The course must be well-packed the entire width. The width of the course should be suitable with the competition format (see ICR articles section C).

- 12311.3.4.2 The Jury determines where and how tracks will be set.

- 12311.3.4.3 In sections where athletes in the Standing and Sitting categories use the same course 2 classical tracks shall be set if possible.

12311.4 Marking the Course

- 12311.4.1 The marking of the course must be so clear that the competitor is never in doubt where the course goes. Hard material course markings and commercial markings should only be placed at the sides of the course.

- 12311.4.2 Kilometer signs should mark the accumulated distance skied along the course.

- 12311.4.3 Forks and intersections on the course must be clearly marked by visible signage, and fences or V-boards must be placed across unused parts of the course.

- 12311.5** Refreshment Stations
- 12311.5.1 The OC must at a minimum provide a refreshment station (in the finish area).
- 12311.5.2 The Jury decides on positions or limitations on feeding stations on the competition course.
- 12311.6** Training and Inspection of the Course
- 12311.6.1 Competitors and team officials should be given the opportunity to train and inspect the course in competition conditions. When possible, the course should be open two days before the competition. The Jury may close the course or limit the use of the course to certain sections or hours.

12311.6.2 At PWG all competitors and team staff who participate in Unofficial and Official Training must wear a training bib provided by the organizer. At WC and WSC the Para Cross-Country training bibs must be worn.

12312 The Cross-Country Stadium

- 12312.1** Stadium Area
- 12312.1.1 The stadium has to be prepared with a well-designed start/finish area.
- 12312.1.2 The stadium arrangement should provide a functional entity divided and controlled as necessary by gates, fences and marked zones. It must be prepared in such a way that
- the competitors may pass through it several times,
 - competitors, officials, media, service people and spectators may reach their respective areas easily,
 - there is enough space to carry out all competition formats,
- 12312.2** Start Zone
- 12312.2.1 The first 50m will be the start zone. This zone may be separated into corridors and classical tracks may be set. The number, width and length of corridors will be determined by the Jury according to the competition formats (see ICR articles section C) and the stadium layout.
- 12312.2.2 The starting positions will be set according to the competition formats (see ICR articles section C).
- 12312.3** Finish Zone
- 12312.3.1 The last straight 50m or more will be the Finish Zone. This zone is normally separated into corridors. They must be clearly marked and highly visible but the markings must not interfere with the skis. The corridors should be as long as possible. The number, width and length

of corridors will be determined by the Jury according to the competition formats (see ICR articles section C) and the stadium layout.

12312.3.2 The finish line must be clearly marked with a colored line. The width of the finish line is maximum 10cm.

12312.4 Exchange zone

12312.4.1 In team events, the exchange zone should be sufficiently wide and long, clearly marked and located on flat or smoothly rising ground in the stadium.

12312.4.2 The size (length and width) should be adapted to the competition format (see also ICR articles section C) and the available space in the stadium.

12312.5 Pit boxes

12312.5.1 When ski exchange is allowed, the pit box area must be designed so that each nation has a designated box marked by their national flag / national code and an exit is provided that minimizes any chance for interference. The minimum width of each exchange box shall be 2.5 metres. A bypass corridor must be provided so that any competitors who do not enter their pit boxes will have the shortest skiing distance past this ski exchange area.

The jury decides about the layout of the ski exchange zone and the number of boxes per nation, taking in consideration the total number of competitors and the available space in the stadium.

The course along the access to the boxes should be minimum 4 m wide. The width of the course on the exit side on the boxes should be minimum 6 m.

12312.6 Working Conditions

12312.6.1 Competition officials, Jury members, Coaches, media and service people must have proper working zones within the stadium area so that they can work without disturbing the process of start and finish. The access of these persons to the stadium area must be controlled.

12312.6.2 Timekeeping and calculation should be located in a building with a good view of the start and finish.

12312.6.3 At PWG, WSC, WC and COC competitions, FIS Officials and Jury members must be provided a working room with a good view of the stadium, and in the immediate vicinity of the stadium.

12312.6.4 A heated room must be provided for the medical office near the stadium.

12312.7 Additional Facilities

12312.7.1 In the immediate vicinity of the stadium at PWG, WSC and WC, a controlled (with fences or manual control) team preparation area with wax cabins must be installed. The cabins must be heated and well

ventilated using forced air exchangers. Additional rules may apply for PWG, WSC, and WC.

12312.7.2	Toilets and washrooms (both accessible for wheelchairs) must be installed for competitors near the stadium. They must be easily reached from the start area.
-----------	--

12312.8 Current Information Facilities

12312.8.1 A notice board showing results, important information from the OC and the Jury, should be located close to the wax cabins and the stadium.

12312.8.2	Loudspeakers must be used for announcing the competition and important information. The volume of the announcements must be modified for the VI category as required by the TD's.
-----------	---

12312.8.3 In order to inform international competitors, trainers, spectators, English language must be used.

12313 Official entries for the organiser

12313.1 Procedure

12313.1.1	Official entry forms must be sent by the Organiser to all relevant Nations in an electronic or paper form. All sanctioned events must use the online FPDMS registration system.
-----------	---

12313.1.2 As a minimum, the required data fields shown in the Official FIS Entry Form must be included.

12313.1.3	In the VI category the competitor and their guide are a team. Therefore, the guide(s) name for each competitor in the VI category must be included on the entry form prior to the start of each race.
-----------	---

12313.2 Receiving daily entry confirmation for a specific competition

12313.2.1 Daily entries and grouping information (when required) for each race must be received and checked by the competition secretary latest two hours before the Team Captains' meeting or the time specified by the jury at the first team captain's meeting.

12313.3 Late Entries

12313.3.1 Late entries can be admitted by the Jury before the draw.

12313.3.2 Late entries are not admitted after the draw.

12313.4 Substitution

12313.4.1 After the draw a competitor can only be substituted if they cannot start due to force majeure (injury, illness, etc.) and if the Jury permits the

substitution. This has to be certified by a medical doctor and communicated to the Jury until 2 hours before the start.

- 12313.4.2 In the event of an accident during warming up the Jury can permit a substitution up to the start of the competition if the accident is reported to and certified by the Chief of medical and rescue service of the OC.
- 12313.4.3 If the withdrawn competitor was selected for doping control then this test must still be carried out and must also be carried out on the substitute competitor. If the withdrawn competitor produces a positive test, no substitute will be allowed.
- 12313.4.4 The starting position of the substitute competitor will be according the ICR articles section C "Competition Formats "
- 12313.4.5 Competitors, who are on the starting list and cannot take part in the competition because of illness or other reasons, must be reported by the team captain to the competition secretary at latest 30 min. before the start. If any of these competitors were selected for doping control, they must still be tested.

12314 Starting Order

12314.1 Principles

- 12314.1.1 The start list can be created with a draw, using a point system, a cup standing, a stage event overall standing, a qualification system or other methods.

For PWG, WSC and WC the start list shall be created by using the FIS Para Cross-Country points. The jury may determine the grouping and group order. If a group with the best athletes will be used, this group shall include the top 1/3 of the field according to the points.

- 12314.1.2 The starting order, including grouping and group order when applicable shall be determined by the Jury in such a way as to avoid overtaking as much as possible. In principle faster classes start first when more than one class is racing at the same time.

- 12314.1.3 Competitors who appear on the start list and are not present during the competition must be listed as DNS in the results.

- 12314.2** Draw
- 12314.2.1 Manual and computer methods are allowed for the draw.
- 12314.2.2 The draw is carried out by using a random double selection.
- 12314.2.3 If grouping is used, the start numbers will be drawn within each group. The normal starting order of the groups will be I, II, III and IV. The grouping of the competitors cannot be changed during the draw.
- 12314.2.4 If a competition must be postponed to a different date, the draw must be repeated (article 217.6).
- 12314.2.5 It is possible to have the draw conducted before the Team Captains Meeting under the supervision of the Jury.
- 12314.3** Manual Draw
- 12314.3.1 In this method, each competitor receives one number from a sequence determined by the number of competitors in their group (for instance, 23 competitors in the group, the competitor is assigned a number between 1 and 23). In the first random selection, one of the numbers 1-23, is drawn. At the same time, a start number that has been assigned to that group is drawn (for example, group II with 23 competitors will race with bibs 45-67 inclusive). This number that is drawn is the start number for the competitor whose number was drawn in the first random selection. For both random selections, balls with the appropriate numbers on them are usually drawn by hand from a closed box or container. After the two balls are drawn, the nameplates of the competitors are transferred from the board with the grouping to the board with the starting order.
- 12314.4** Computer Draw
- 12314.4.1 The computer draw procedures must be inspected by a member of the Jury in order to validate the process.
- 12314.4.2 This method requires that the names and the grouping of the competitors will be entered into the computer. The program provides at least four stages of output on the monitor.
1. The list with the registered competitors and their sequential numbers within a group appears on the monitor.
 2. The computer randomly selects the name of one competitor and displays it on the monitor.
 3. The computer randomly selects a start number for this competitor. The start number and the name of the competitor now appear on the monitor.
 4. The monitor then shows the start list order with this competitor listed.

12314.5 Using a Points System to Determine the Starting Order

12314.5.1 Start order will be defined by using the respective FIS Para Cross-Country points. Athletes without points will be drawn.

For interval start distance competitions competitors will normally start in reverse order of their current points standing (best are at the end) unless a randomized order within a group is selected. The overall WC leader will normally always be assigned the last starting position.

For individual Sprint qualification round the competitors start in the order of their current point standing (best start first). The overall WC leader is always assigned the first starting position.

The jury may also specify different grouping systems within the points order to determine order of start. In principle, the group with the best points will receive the most favorable starting position.

12314.7 Bibs (Start Numbers)

12314.7.1 Design

Bibs must be readable from the back and the front. They must not hinder the competitor in any way. The size, the shape and the method of attachment cannot be changed. The Organiser is responsible for obtaining practical bibs. Bibs used in sprints and in competitions with Pursuit start or Mass starts procedures should also have numbers on both sides under the arms; this is also possible for other competitions.

12314.7.2 The Guide bibs must meet the following specifications:

- Guide bibs must have a clearly visible “G” or “Guide” on the front. The colour needs to be yellow (Pantone 803) (preferred), orange (RAL 2005) or red (pantone 1795). Other colours may be approved by FIS.
- All Guides must use the Guide bib supplied to them.
- The back of the bib may be any colour and modified by adding a pattern with coloured tape or other coloured material which best accommodates the individual needs of vision impaired competitors. Any modifications must be affixed in such a way that the bib will stay secure during the race yet be able to be removed in order to return the bib back in its original condition.

12314.7.3 Leg and Sit Ski Bib Numbers

12314.7.3.1 For Para Mass Start, Pursuit, Individual Sprint competitions (heats only) it is required to affix bib numbers to the standing competitor's leg or side of the sit ski that is closest to the finish line camera.

12314.7.3.2 For Relay competitions it is required to affix bib numbers to the finishing competitor's leg or side of the sit ski that is closest to the finish line camera.

12314.8 Start list

12314.8.1 Start list must contain the starting order of competitors, their start numbers, years of births, respective FIS points, start time(s), the technical details of the course; length, HD, MC, TC, number of participating nations and composition of the jury.

12315 **Start Procedures**

12315.1 Types of Starts

12315.1.1 For competitions on the International Ski Calendar, Interval Start, Mass Start, Pursuit Start, and Heat Start will be used.

12315.2 Interval Start Procedure

12315.2.1 Interval starts will normally use half-minute intervals and fifteen seconds for sprint qualifying round. The Jury may approve shorter or longer intervals.

12315.2.2 The start command consists of a countdown starting 5 seconds before the start time ("5-4-3-2-1") and start signal ("GO!"). The command can be given verbally or by audible signals.

12315.2.3 The competitor must have their feet (Standing and VI categories) or front binding (Sitting category) behind the start line and remain stationary before the starter gives their starting commands. The poles remain stationary and should be placed over the starting line and/or starting gate at the discretion of the starter.

12315.2.4 The competitor may start any time between three seconds before and three seconds after the start signal. If he/she starts more than three seconds before the start signal, it is a False Start and must be reported to the jury. If he/she starts more than three seconds after the start signal, it is a late start and the start list time will count.

12315.2.5 The start gate shall be at a height of approx. 60 cm above the snow surface.

12315.2.6 Competitors who start late must not interfere with the start of others.

12315.2.7 With both electric and hand-timing, the competitor's actual start time must be noted in case the Jury decides their late start was due to force majeure.

12315.3 Mass Start Procedure

12315.3.1 The Jury can decide to organise a Mass Start

- using angled start lines in shape of an arrow. This means that the athlete with start number 1 has the most favorable start position followed by start number 2 etc. Each competitor should be separated by a fixed distance interval. Number one will be in the middle position; even numbers are placed on the right and odd numbers on the left side of the arrow. The numbering mark should be placed to the right or in the middle of the track.

- using an angled start line (in case of even number of starting corridors), where number one will still have the most favorable position on the left or on the right of the starting field. Even in this case each competitor should be separated by a fixed distance interval.

- using a flat line

12315.3.2 The jury shall decide whether to set classical tracks in the start grid.

12315.3.3 The starting procedures for a Mass Start will begin two minutes before the start signal. At this time instruction about the start will be given to all competitors assembled in their start lanes. These instructions should end with the competitors being instructed to stand at their start positions and a "one minute to start warning" is given. Next there will be the command "30 seconds to start". When all competitors are motionless then the next sound will be the start command or signal.

12315.3.4 If the start grid is set with classical tracks, then competitors must use only classical technique and are not allowed to leave their assigned tracks within their start position and end of marked corridors the first 15-50 m after the start line.

12315.4 Pursuit and Wave Start Procedure

12315.4.1 The starting order and intervals are set according the calculation with the applicable Sport Class percentages and the results of a first competition, see art. 12316.5.3. The tenths of seconds will be deleted to establish the start list.

The start list should be prepared according to the following example:

Start number	Name	Country	Start time
1	SVENSSON, Lars	SWE	0:00
2	ARKJANOW, Nikolai	RUS	0:02
3	KRECEK, Jan	CZE	0:09

- 12315.4.2 In order to avoid overlapping or competition taking too long, the Jury may allow a Mass, Wave or Heat start for the late starting competitors. The Jury is also allowed to reduce the number of starting competitors.
- 12315.4.3 The Pursuit Start is carried out without an electronic start gate. A video camera should be used to record the entire start such that a review by the Jury can be done.
- 12315.4.4 In order to guarantee an exact start, a large digital display clock must be used. The start must be prepared so that two or more competitors may start side by side.
- 12315.4.5 The competitors are not allowed to change corridors within the marked corridor area after the start line.

12315.4.6	If there is a need, athletes in the VI category may be held by a team member or an official (on request by the team) with a hand on the shoulder of the athlete until they can start.
-----------	---

12315.6 Duties of the Start Officials

- 12315.6.1 Start officials must provide all competitors with the opportunity to start at their correct times. An assistant must be placed near the starter and is responsible for recording the details for any violations at the start.

12315.7 False Start Consequences

- 12315.7.1 For all competitions a competitor who makes a false start will not be recalled to the start line. False start infractions must be reported to the Jury.

12315.8 Marking of Skis

- 12315.8.1 Ski marking will not be used unless requested in advance by the sanctioning body of the competition. For purposes of control, both skis are marked shortly before the start. The competitor must come to the official marking place in person and in due time wearing their starting bib.

12315.9 Temperature

If the temperature is below -20° C, measured at the coldest point of the course, a competition will be postponed or cancelled by the Jury. With difficult weather conditions (e.g., strong wind, high air humidity, heavy snowfall, or high temperature) the Jury may, in consultation with the Team Captains of the participating teams and the Chief of medical and rescue service responsible for the competition, postpone or cancel the competition.

12316 Timing

- 12316.1 For all competitions listed in the FIS Calendar, electronic timekeeping must be used. Electronic timing will always be supplemented by hand

timing as a backup system and the results cross-checked between the two systems.

12316.2 If the electronic timing temporarily fails hand times will be used by correcting the average time difference which develops between the electronic timing and the hand-timing. If the electronic timing fails frequently or completely during the competition, the hand times will be used for all the competitors. When hand times are used to calculate results, the actual start times must be used.

12316.2.1 When using hand-timing, the time is taken when the competitor's first foot or for the Sitting category the front binding crosses the finish line.

12316.3 Electronic Timing

12316.3.1 The following electronic timing technologies can be used to identify the official finish times:

- Electronic timing system based on photocells. The measuring point of the light or photo barrier must be at a height of 25 cm above the snow surface.
- Photo finish system. The measuring point will be the toe of the first boot meeting the finish line or for the Sitting category the front binding.

12316.3.2 Transponder Timekeeping:

Transponders (active and passive systems) can be used as a supporting system to the official timing system to determine race times and ranking sequences at intermediate timing points, pre-timing points, and finish (unofficial result). The official result must be confirmed by using electronic timing systems in accordance with ICR 12316.3.1.

For the Sitting category: The transponder must not be fixed ahead of the front binding.

12316.3.3 For the VI category the chronometer will be started and stopped as the competitor (not the guide) crosses the line. The time of the guide must not be recorded.

12316.3.4 The ranking of athletes involved in a photo finish will be established according to the order they crossed the vertical plane of the finish line by the toe of the front foot.

For the Sitting category: In a photo finish, the competitor whose front binding first crosses the finish line is ahead.

12316.4 In the case of competitors falling as they cross the finish line, the competitors will be assigned their finish time as per articles 12316.2.1

or 12316.3 if all the parts of their bodies are moved across the finish line without any outside assistance.

12316.5 For the calculation of results all start and finish times will be recorded to at least 1/100 (0.01) precision. The real net time for each competitor is determined by subtracting the recorded start time from the recorded finish time. The final result for each skier will be determined to 1/10 (0.1) precision by truncating the real net time. For example, 38:24.38 becomes 38:24.3.

12316.5.1 For PWG, WSC and WC sprint and pursuit qualifying round, start and finish times are recorded to 1/1000 precision and the real time is determined to 1/100 precision.

For example, 3:22.388 becomes 3:22.38

12316.5.2 Delta time (Δ): is the time (in real time) the skier would have to ski faster in order to tie the winner's result (in adjusted time).

$$DELTA = r_i - \left(\frac{w}{p_i} \right)$$

r_i
Real time (for competitor i)

w
Calculated time of the winner

p_i
Percentage (for competitor i)

12316.5.3 Calculation of Start times based on the qualification or previous competition

Principle

The principle is that in the finals, the competitors with different impairments (different percentages) shall have the same chance to win the heat.

This is done by using the winner's calculated time of the qualification/previous competition as the basic time.

The relative start times are calculated by finding the real time the competitor must achieve in order to get the basic time as his/her result, and then compare it to the winner's real time.

Competitors with lower percentages than the winner will start before the winner, and competitors with higher percentages will start after the winner in the finals.

Times in the qualification are measured in hundreds of a second. Calculation of start times are done relative to the winner of the qualification. The start times for the heats are rounded to seconds.

Example:

The winner's real time of the qualification/previous competition (wR) is 3:32.06, their percentage 94%.

The basic time B is 3:19.34.

The relative start time for a competitor with 98% (iP) is found by subtracting the competitor's needed time to equal the winner's result.

The formula is:

Winner's real time (wR) minus the time the competitor with 98% (iP) had to race to equal the winner in the qualification.

$$iT = wR - B \cdot 100 / iP = 3:32:06 - 3:19.34 \cdot 100 / 98 = 212.06 - 19934 / 98 = 212.06 - 203.41 = 8.65.$$

Rounded to nearest whole second gives 9 seconds.

Another example based on the result list from qualification:

Rank	Bib.	Name	NPC	Class	%	Real time	Delta	Cal. Time	iT	rT	S1	S2
1	20	ZARIPOV Irek	RUS	LW12	100	2:06.61	0.00	2:06.61	0.00	0	8	
2	7	SHILOV Sergey	RUS	LW10	86	2:30.55	3.33	2:09.47	-20.61	-21		0
3	26	LARSEN Trygve	NOR	LW12	100	2:09.91	3.30	2:09.91	0.00	0		21
4	24	LOBAN Dmity	BLR	LW12	100	2:10.94	4.33	2:10.94	0.00	0	8	
5	6	ROSIQUE Romain	FRA	LW11	94	2:19.77	5.08	2:11.38	-8.08	-8	0	
6	18	PETRUSHKOV R.	RUS	LW12	100	2:11.53	4.92	2:11.53	0.00	0		21
7	15	HALSTED Sean	USA	LW11.5	98	2:15.69	6.50	2:12.98	-2.58	-3		18
8	21	BETTEGA Georges	FRA	LW11.5	98	02:16.41	7.22	2:13.68	-2.58	-3	5	

iT is calculated with two (rounded) decimals. rT is the relative start time for each competitor rounded to seconds. S1 and S2 show the start time for the two heats. The start time for the first competitor per heat is set to 0 (zero), and the start times of the other athletes have to be adjusted according to rT.

12316.5.4 Calculation of start times in Para Mass Start Competition

The start time is calculated by taking the fastest real time (independently from the winner) from a defined previous interval race of the same technique (classic or free) and the same loop, as outlined under art. 12316.5.3. This fastest real time is used as the basis for calculating the relative start times of all competitors.

In case where the distance of the previous interval race is shorter or longer than the distance of the Para Mass Start Competition, the fastest real time will be multiplied up or divided down to the relevant distance. In case of a longer distance in the Para Mass Start race, than in the reference race a descent speed factor may be added to the winner's real time (e.g. 5%), which is determined by the Jury.

The jury may also decide to change the race to an interval start race if fairness of all classes cannot be ensured.

Example:

Fastest real time: 28:22,5 (athletes' percentage is 96%)

Distance calculation (10km to 20km): 28:22,5 x 2 = 56:45,0

Descent speed factor (3%): 56:45,0 x 1,03 = 58:27,1

The basic time (B) is 58:27,1

12316.6 During the PWG, WSC and WC photo finish cameras must be used. If the photo-finish cannot decide the ranking, the competitors remain tied.

12316.7 The finish referee is responsible for keeping a list of the order in which the competitors cross the finish line. They give this list to the chief of timekeeping and data processing.

12317 Results

12317.1 Calculation of Results

12317.1.1 The results in interval start competitions are calculated by taking the difference between the finish and start times as described in 12316.5. If Sport Classes are combined, the real time has to be multiplied by the applicable percentages.

The result (calculated time) is rounded to 1/10th of a second.

For Sprint Qualification the result (calculated time) is rounded to 1/100th of a second.

The results of Sprint heats, Pursuit start and Para Mass Start or Relay competitions are determined according to the order the athletes cross the finish line and are recorded and presented in the results list in real time. For photo finish decisions see art 12316.3.4.

The result list shows the time behind the winner (real time in 1/10th of a second)

12317.1.2 Time adjustments (except time penalties) shall be added/subtracted to/from the real skiing time, before calculating with their percentage according to their Sport Class.

12317.1.3 The number of categories in total is three per gender:

LW 10 – 12 (Sitting), LW 2 – 9 (Standing), NS 1 – 3. (Vision Impaired)

12317.1.4 In the use of 3 categories with combined Sport Classes, the percentage system will be used. Each competitor has their own percentage according to their Sport Class.

12317.1.5 Percentage System

The percentages are determined by the Factors Expert Group and are approved by the Para Snowsports Committee. The percentages are subject to change. The valid percentages can be downloaded from the FIS Para Cross-Country website <https://www.fis-ski.com/en/para-snowsports/para-nordic/documents>.

- 12317.1.6 Tie- Breakers:
- If two or more competitors have the same time in a competition, the following tie-breaking rules shall apply:
- 12317.1.6.1 Individual competition:
- If two or more competitors have the same result (1/10 of a second), they shall have the same ranking in the result list, and the competitor with the lower starting number will be listed first.
- 12317.1.6.2 Relay competition:
- The ranking of athletes in the Standing and VI categories involved in a photo finish will be established according to the order they crossed the vertical plane of the finish line by the toe of the front foot.
- The ranking of athletes in the Sitting category involved in a photo finish will be established according to the order they crossed the vertical plane of the finish line by the front binding.
- 12317.1.6.3 Sprint competition:
- 12317.1.6.3.1 Qualification: If two athletes have the same result in the qualification round (calculated time in hundreds of a second) and none of them qualifies for the next round they shall be ranked on the same place in the result list and shall get the same amount of WC points.
- If two athletes have the same result in the qualification round (calculated time in hundreds of a second) and both or only one of them qualifies for the next round the following order of “tie breakers” shall be used:
1. Calculated time: All available digits of the calculated time shall be used
 2. FIS Points (current FIS points list)
 3. Highest number of individual World Cup wins (current season, at first competition previous season)
 4. Best World Cup result (current season, at first competition, previous season)
- 12317.1.6.3.2 Semifinals: In case of a tie (“dead heat”) or when more than one competitor ranked as last in semi-finals, the competitor with the better qualification time is ranked ahead.
- 12317.1.6.3.3 Final: In case of a tie (“dead heat”) in the Final, the competitors are ranked on the same place in the final results and the competitor with the better qualification time is ranked ahead. If more than one competitor is ranked as last in the final heat, the competitor with best semi-final result is ranked ahead, or in the case of same semi-final results, the competitor with the better qualification time is ranked ahead.

12317.1.6.4 Pursuit competition:

12317.1.6.4.1 First race

If two athletes have the same result in the first race (calculated time in hundreds of a second) and none of them qualifies for the next round they shall be ranked on the same place in the result list and shall get the same amount of WC points. The athlete with the higher start number is listed first.

If two athletes have the same result in the first race (calculated time in hundreds of a second) and both or only one of them qualifies for the next round the following order of “tie breakers” shall be used:

1. Calculated time: All available digits of the calculated time shall be used
2. FIS Points (current FIS points list)
3. Highest number of individual World Cup wins (current season, at first competition previous season)
4. Best World Cup result (current season, at first competition previous season)

12317.1.6.4.2 Second race: In case of a tie (“dead heat”) in the second race, the competitors are ranked on the same place in the final results. The competitor with the better result in the first race is ranked ahead. Final results are presented and ranked according to real time.

12317.2 Publication of Results

12317.2.1 The unofficial result list will be posted on the official notice board as soon as possible after the competition, with the time of its publication noted.

12317.2.2 The official result list must contain the final rank of the competitors, their FPDMS Codes, starting number, Sport Class, percentages, intermediate times, real time, calculated time and the delta time (where applicable see art 12317), points, Skiing technique, the number of competitors, names of the competitors who started but did not finish, any disqualified competitors, any written sanctions to competitors, time penalties, the technical details of the course; length, HD, MC, TC, the weather, temperature data, number of competitors (entered, ranked, DNS and DNF), number of participating nations and the composition of the Jury.

12317.2.3 In countries where the Latin alphabet is not used, information and results should also be given in Latin characters.

12317.2.4 When the 15 minutes protest period has expired, or if all protests have been resolved, or if there are no protests or requests for additional

checking, the Jury will make results official. The competition secretary and the TD sign the official result list and certify that it is correct.

12317.2.5	The percent of each competitor must be printed on all entry, start and result lists.
12317.2.6	The unofficial and official start and result lists shall include the last name and first name of the race guide of each vision impaired racer.
12317.2.7	All official results must also be electronically transmitted to FIS in XML format.
12317.2.8	If changes are made to an athlete's Sport Class during competition (e.g. following Observation Assessment, IF Protest etc.), these changes come into effect from the next race in which the athlete is entered. A Sport Class change will not occur between different phases of the same race (e.g. Qualification and Finals). Results achieved by the athlete before the Sport Class change comes into effect remain valid.

- 12325.3.4 Starting Order and Start Procedure
- 12325.3.5 Qualification
- 12325.3.5.1 Interval Start procedure must be used (see ICR Art. 12315.2). Start intervals can be 10, 15, 20 or 30 seconds.
- 12325.3.5.2 If two laps are used an interval block start can be used were several athletes start together at the same time. The jury decides about the number of athletes in one block.

- 12325.3.5.3 Tie breaker rule: see ICR art. 12317.1.6
- 12325.3.6 Finals Heats (Semi-finals and Finals)
- 12325.3.6.1 Pursuit Start procedure must be used (see ICR art. 12315.4)
- 12325.3.6.2 In PWG, WSC and WC heats will start with the semi-finals, in other competitions as decided by the organizer.
- 12325.3.6.3 The allocation of athletes in the heats is determined from the finish ranking in the qualification round. Positions in subsequent heats are assigned based on rankings in the previous round of heats:

Category	Number of finishing athletes	Athletes per semi-final	Heats	Athletes in final

	7	3 and 4***	heat 1) 1,4,5	4
			heat 2) 2,3,6,7	
	3* to 6	no semi-finals		4

* applies to WC or below only as per 12325.3.3

** best three of each heat advance to final

*** best two of each heat advance to final

- 12325.3.6.4 For PWG, WSC and WC new bibs and copies of start lists for the heats must be handed out at the same time. The bibs are assigned according to the ranking in the qualification.

Athletes will keep the same bibs for the final.

- 12325.3.6.5 Start lanes:

Classic style: 6 start corridors with tracks, the start is monitored by video.

Free technique: 6 start corridors, the start is monitored by video.

12325.3.6.6 Athletes are responsible for leaving at the right time. Start times for each heat will be posted in the start area.

Competitors are organised on the pre-start line where instructions are given and lanes are designated according to rule 12325.3.6.9.

The starting procedure for sprint heat starts will begin one minute before the start of the heat at which point a “one minute to start” warning will be given and competitors must be standing in their start lanes at the prestart line. Next there will be a command to “Take your start positions” and the competitors will advance to the start line.

12325.3.6.7 In order to guarantee an exact start, a large display clock with running countdown time or time of day must be used. All digits of the start time must be visible on the start clock before the athlete is allowed to cross the start line with the binding.

12325.3.6.8 Athlete start time (for heats):

The start time of each athlete is based on the final calculated time of the winner of the qualification round, per category / gender. (Sitting, Standing and VI).

See ICR art 12316.5.3

12325.3.6.9 The starting positions are chosen by the athletes according to the following order:

Lane choice is determined by:

Semi-finals – qualification times (rankings) are used.

Finals - rankings from the semi-finals and qualification times are used.

If fewer than 6 start lanes are available, and athletes are permitted to start in the same lane, lane choice is determined by:

Semi-finals – qualification times (rankings) are used.

Finals - rankings from the semi-finals and qualification times are used.

12325.3.6.10 A false start will be sanctioned according to art. 12352.4.1.2.

12325.4 Timing and results: see ICR art. 12316/12317

12325.4.1 In sprint competitions with 12 competitors in the semi-final, the result list will be made as follows:

* 13th to last rank: all athletes will be assigned based their respective ranking in the qualifying round

* 7th – 12th rank: all athletes not moving up to the final will be assigned based their respective ranking in the semi-final and the qualifying round.

* 1st – 6th rank: based on the order of finish in the final

With a different number of competitors in the sprint finals the same principles apply.

- 12325.4.2 In the Qualification and Finals, competitors with IRM (RAL, DNF, DNS and NPS)² are listed according to their ranking in their respective heat and their qualification times, below the competitors without IRM.

12325.5 Jury and Protest

- 12325.5.1 In sprint heats at PWG, WSC, and WC the unanimous decision of minimum two Jury members (including TD) equates to a Jury decision.

- 12325.5.2 Due to the timeline pressure of running successive heats it is not possible to allow protests during semifinals. Protests will only be accepted after the finals.

- 12325.5.3 During semi-finals, ICR art. 224.7 does not apply.

- 12325.5.4 If an obstruction leads to disqualification, the obstructing athlete will not be ranked in the final result list. If the obstruction caused another athlete not to advance to the next round, the obstructed athlete will be allowed to proceed into the next round. This rule will only be applied in exceptional cases where the obstruction was intentional.

- 12325.5.5 Obstructions can also be sanctioned by competition suspension (ranking the competitor in the last place of the relevant heat and relevant round) accompanied by a written reprimand.

12325.6 Competition interruption

- 12325.6.1 In case of competition interruption of qualification while competitors are still competing, the competition will be cancelled. When the interruption is temporary, the jury can decide to resume the start.

- 12325.6.2 In case of competition interruption during sprint heats before the last competitor of final has finished the race, the competition will be cancelled.

- 12325.6.3 In case interrupted and cancelled competition is re-scheduled, the qualification race must be carried out again.

12327 **Relay Competitions**

12327.1 Definition

- 12327.1.1 At PWG and WSC, each nation can enter 1 team per relay competition. Any athlete can only participate in one relay competition. In other events the jury may decide to allow more than one team per nation, mixed

²Invalid Result Marks (IRM) Definitions:

RAL: Ranked as Last; DNF: Did Not Finish; DNS: Did Not Start; NPS: Not Permitted to Start

nation teams, and athlete participation in more than one relay competition. An athlete may not compete for more than one team per competition.

Distance: Mixed relay and Open relay 4 x 2.5 km

1st leg:	2.5 km classical	Sitting course	2.5 km
2nd leg:	2.5 km free	Standing/VI course	2.5 km
3rd leg:	2.5 km classical	Sitting course	2.5 km
4th leg:	2.5 km free	Standing/VI course	2.5 km

- 12327.1.2 Mixed Relay: the combined percentage of each team must be 335% or less, calculated by summing the individual percentages of the athlete in each leg with reductions of 15% per leg for female athletes and 12% per leg for athletes in the Sitting category (female athletes, competing in the Sitting category: minus 27%). There must be at least one woman taking part.
- 12327.1.3 Open Relay: the combined percentage of each team must be 375% or less, calculated by summing the individual percentages of the athlete in each leg with reductions of 15% per leg for female athletes and 12% per leg for athletes in the Sitting category (female athletes, competing in the Sitting category: minus 27%).
- 12327.1.4 Each team may consist of 2, 3 or 4 athletes. For examples of possible team compositions see “Examples for composition of relay teams” published on the FIS website under the rules section.
- 12327.1.5 Course and Stadium
- 12327.1.6 The relay distance is based on two alternating courses each 2,5 km. Each course shall be used 2 times, giving a total distance of 10 km for the whole race. First and third stage is in classical technique (C), second and fourth stage is in free technique (F).

FINISH			
Width (minimum)		12 m

Number of tracks		4 (2 on both sides of the finish corridor, 2 between corridors)	

12327.1.7 The length of the first relay leg can deviate +/- 5% from the other legs, according to the stadium layout.

12327.1.8 Classical Technique

In principal, the course is prepared with two tracks, and homologated for athletes competing in the Sitting category.

12327.1.9 Free Technique

The course shall be prepared as wide as possible (6-9m).

One track has to be set along the side of the entire course.

12327.2 Entries - Substitution

12327.2.1 The names of the competitors competing on each team, and their starting order must be delivered to the organiser latest 2 hours before the Team Captains' Meeting. In PWG and WSC, late entries are not allowed. In other competitions, the Jury makes the decision regarding late entries.

12327.2.2 Substitution is possible according to ICR art. 12313.4.

12327.2.3 In case of substitution, the Team will lose its starting position and will have to start at the end of the field. The start order at the end of the field

will be the same as the original starting order. The original start positions will be left empty.

12327.3 Starting order and Start Procedure

12327.3.1 Mass start procedure must be used (see ICR art. 12315.3).

12327.3.2 Start numbers will be assigned to teams (using the modified percentage: Sitting category: minus 12%, Female athletes: minus 15% of the athletes starting in the first leg). Athletes with the higher percentage will be assigned the lower bib numbers. In cases where more than one athlete has the same percentage the lower bib number will be assigned to the athlete with the lower points. At PWG and WSC the placing in the previous PWG and WSC will determine the starting order of the first team, with the remaining teams assigned as above.

12327.3.3 Unofficial teams should have the least favorable starting positions.

Colors: Separate colors shall be used for the start numbers for each relay leg. For PWG, WSC they will be: 1st leg=red; 2nd leg=green; 3rd leg=yellow and 4th leg=blue.

12327.3.4 Relay Exchange Zone

The exchange zone for Team Relay should be a minimum of 10 m wide and 15 m in length.

The exchange zone must be clearly marked with a line at the beginning of the zone. No physical contact between the competitors is required.

12327.4 Relay exchange

12327.4.1 As soon as the incoming competitor has passed the finish line in the exchange zone with the whole body, the next competitor can start. The starting athlete must start from a stationary position.

Marshals shall guide the incoming competitors out of the exchange zone so they do not interfere with the starting competitors.

12327.4.2 An early start in the relay will be sanctioned by a minimum time penalty of 30 seconds, added to the final result (Jury to decide).

12327.5 Timing and Results

12327.5.1 Intermediate times (real time) for the individual legs of the course are taken when the competitor crosses the exchange line. This is also the starting time for the next competitor.

12327.5.2 The total time of a relay team is the time which elapses between the start and team's final competitor crossing the finish line. The order in

which the competitors finish the last relay leg determines the result list. Results are recorded and presented in real time (ICR art. 12317).

12327.5.3 Lapping Rules normally apply. For teams/skiers that are lapped refer to ICR art. 12343.14.1

12327.5.4 Jury and Protest
The Jury appoints one of its own members as a relay referee to supervise the mass start and relay exchange.

12327.5.5 Competition interruption
In case of competition interruption while teams are still competing, the competition will be valid if there are at least 3 ranked teams. The teams still on course at the time of interruption will be ranked in final results as lapped according to their respective position at last intermediate point.

D. The Competition and the Competitors

12340 Requirements of the competitors

12340.1 Age of the competitors: see art. 12201.2

12341 Medical examinations and classification

12341.1.1 State of Health

12341.1.1.1 The National Associations are responsible for the health of the competitors they enter. The Chief of medical and rescue service will only carry out a medical examination at the request of the competitor's Team Captain, competitor or the representative of the FIS Medical Committee (See art. 221)

12341.1.2 Classification

All rules and guidelines related to classification as set forth by the FIS Para Nordic Classification Rules and Regulations and published on the FIS Para Cross-Country website apply. This includes the use or prohibition of equipment and/or adaptive equipment as described for specific Sport Classes.

12341.1.3 Adaptive Equipment

During Para Cross-Country sanctioned competitions all competitors must comply with the FIS Para Snowsports Equipment Specification.

12341.1.4 Athletes in the NS1 Sport Class

During FIS Para Cross-Country sanctioned competitions all competitors in the Sport Class NS1 (with the exception of those with prosthesis in both eyes) must wear their own opaque shades or glasses approved through the FIS Adaptive Equipment Inventory, for the full duration of the event. The glasses must be worn so that no light can be seen by the competitor (inside must be black). Athletes whose facial structure will not support goggles shall be required to cover the eyes with an opaque covering.

12342 Guides

12342.1 For athletes in the NS1 Sport Class a guide is obligatory. Athletes in the classes NS2 and NS3 may compete without a guide. A competitor may change guides during the competition if the guide has an accident or cannot keep up.

12342.2 Guiding must be by voice only. Radio communication between guide and competitor is allowed. The guide may also use an amplifier. No

	other means of communication is allowed. The amplifier must not disturb other competitors.
12342.3	The role of the guide is to be responsible for the safety of the athlete, while following all rules of the Para Cross-Country ICR. He/she may lead or follow the athlete in the same track or ski alongside the parallel track providing he/she does not obstruct another skier. (Obstruction rule 12343.9 also applies for guides)
12342.4	No physical contact between guides and the athlete during the race is allowed except according to 12342.5. After a fall a guide or a marshal may hand the athlete their skis and/or poles.
12342.5	For reasons of safety on course, the guide is allowed to hold the athlete they are guiding (one arm or one pole). During holding it is forbidden to actively pull or push the competitor or to be actively skating or striding.
12342.6	The guide is treated the same as a competitor with respect to all rules governing the sport.
12342.7	The guide must start together with the athlete, from a position in front of the athlete, in the same start corridor. The start line for the guide must be marked.
12342.8	Art. 203.3 applies to both the competitor and the Guide. Therefore, both the competitor and the Guide will be nationals of the country or territory of the NSA that enters them in any FIS sanctioned competition.

12343 Responsibilities of the competitors (including guides)

- | | |
|----------------|---|
| 12343.1 | In all training and competition situations the athlete must act with due care taking into account the course conditions, visibility and competitor congestion available space, speed and skiing direction of other competitors etc. |
| 12343.2 | In all training and competition situations the athletes must always ski in the competition course direction. |
| 12343.3 | Competitors must follow the instructions (course opening times, wearing bibs, training, ski testing, etc.) issued by the Jury or OC in order to ensure order on the course, in the stadium and in the team preparation area before, during and after the competition. |
| 12343.4 | The competitor is responsible for arriving at the start and starting at the correct time. |
| 12343.5 | Competitors must wear/use all means of identification (bibs, leg bibs, transponders, GPS...) provided by the organiser. |
| 12343.6 | Competitors must follow the marked course in correct sequence from start to finish and must pass all control points. |

12343.6.1 If a competitor ski on a wrong section or leaves the marked course, the competitor should return to the point where the error was made. In order to do so, the competitor may have to ski against the correct ski direction and shall be totally responsible for ensuring that there is no obstruction and that other competitors are not endangered.

12343.7 Competitors have to cover the whole distance on their skis using only their own means of propulsion. Help from outside pacemakers is not allowed.

12343.7.1 Fallen competitors, that compete in the Sitting category (LW 10 – 12) may be helped back to the track by officials or coaches. They have to re-enter the race at the same place.

12343.7.2 Athletes competing in the Sitting category are not allowed to use one or both of their legs to steer or brake the sit-ski during competition.

12343.8 In classical technique competitions, the competitors must use classical technique only.

12343.9 In all competitions obstruction is not allowed. This behavior is defined as deliberately: impeding, blocking (by not following best line), skiing between an athlete and their guide, charging or pushing any competitor with any part of the body or ski equipment.

12343.10 Passing of other competitors

12343.10.1 Process of passing during Interval Starts

Competitors who are being passed must give way on the first demand. Exceptions may apply for athletes competing in the Sitting category.

This applies in classical technique courses even when there are two tracks and in free technique courses when the skier being overtaken may have to restrict his/her skating movements.

12343.10.2 Process of passing during other competitions

12343.10.2.1 Competitors in front have the right to choose their best line.³

12343.10.2.2 Competitors in front shall not obstruct competitors coming from behind.⁴

³ Explanatory note: The provision reflects the reality that competitors in front generally do not see competitors coming from behind, and that competitors behind generally direct their course according to the positioning of the competitor in front. However, this right is not unrestricted, see the next provisions.

⁴ Explanatory note: The provision reflects restrictions in freedom of the competitor being front, meaning that this privilege shall not be abused to the detriment of other competitors, e.g. by abruptly changing the line or by unduly persisting in a line chosen.

12343.10.2.3 Competitors intending to pass shall do so without obstructing the competitor being passed.⁵

12343.10.2.4 When competitors are alongside, they have mutual duties not to obstruct each other's movements.⁶

12343.10.2.5 A process of passing is considered completed when the passing competitor has his/her body at the front of the ski-tips of the competitor being passed.⁷

12343.11 In sections with marked corridors, the competitors should choose a corridor. Competitors are allowed to leave the chosen corridor as long as the ICR art 12343.9 is upheld.

12343.11.1 An athlete/guide should ski in the same corridor/track as their guide/athlete to avoid obstruction of other teams.

12343.11.2 Skiing in between or outside corridors or tracks increases the risk of obstruction to athletes skiing inside corridors / tracks and should be avoided. In cases of obstruction involving competitors skiing between or outside of corridors / tracks, responsibility will normally be assessed against the competitor skiing outside of or between the corridor/track or in favor of the competitor skiing within the corridor/track.

12343.12 Equipment exchange

12343.12.1 In all competitions, pole exchange is only allowed in the case that a pole is broken or damaged.

12343.12.2 Skis may be changed only if:

- The skis or bindings are broken or damaged. The equipment failure must be proven to the Jury after the competition.
- Equipment exchange boxes (pit boxes) are in place at the competition.
- During classical individual sprint competition finals, when more than one pair of skis is allowed to go through the controls of fluorinated wax. Jury may add instructions or deadlines for changing pair of skis (among the controlled ones).

⁵ Explanatory note: The provision reflects the spirit and intent of the preceding ones, meaning that a competitor intending to pass shall not initiate a pass if he/she realizes or ought to realize that there is not, or will not be, sufficient room to complete the pass without obstructing the competitor intended to be passed.

⁶ Explanatory note: The provision reflects the idea that when the competitors are skiing side by side, there is no privilege of anyone being in front, as set out in the preceding provisions. It is connected to 12343.10.2.3 e.g. in the sense that a skier coming from behind shall not be allowed to force his/her way into a situation of mutual duties.

⁷ Explanatory note: The process of passing needs some guideline as to when that process is completed so as to determine when the passing competitor obtains the position described in Rule 12343.10.2.1 and 12343.10.2.2. The decisive criterion is, as a main rule, the point in time when the body – if need be, measured at the position of the boots – is ahead of the ski tips of the competitor being passed.

12343.12.3 Only skis that passed the controls of fluorinated wax (when present) can be left in the exchange (pit) boxes.

12343.12.4 In the case of any ski exchange, the competitor must do it outside of the track to avoid obstruction. The athlete can be supported by a team official.

12343.12.5 When ski exchange boxes (pit boxes) are provided for long distance competitions, the competitor is permitted to change skis inside the pit box. 2 officials are allowed in the exchange box to assist the athletes per nation. The jury may allow big teams to have additional officials in the exchange box if needed.

12343.12.6 When ski exchange boxes (pit boxes) are provided, overtaking along the access corridors to the boxes is only allowed on the side that is farthest from the boxes.

12343.12.7 Waxing, structuring or cleaning of the competitor's skis bases during the competition is forbidden, with the following exception: In classical distance competitions, competitors may scrape their skis to remove snow and ice, and add kick wax. They must make these adjustments without assistance from other persons and without interfering with other competitors. (Athletes in the Sport Class LW 5/7 and in the VI category can be supported by a team official). During classic individual sprint competitions, adjustments of the kick zone may be made between the rounds by the competitor or authorized personnel within the designed Control Area. Any adjustment of the glide zones is not allowed. It is not allowed to place branches, tools or materials on or adjacent to the groomed course.

12343.14 Overlapping

12343.14.1 In Pursuit competitions and Relay competitions, competitors, or teams, who are lapped or instructed by competition officials to stop the competition, must abandon the competition. The competitors or teams who are stopped will be ranked in the final results (no time) according to their ranking at their last intermediate timing point. The jury may decide to let all teams to finish the competition.

12343.15 Communication devices that support wireless communication between coaches and athletes or between athletes are not allowed during competition. Radio communication between guide and competitor is accepted.

12343.16 The competitors must comply with the instructions of competition officials.

12343.17 The competitor must comply with all aspects of the medical code (see 223).

12344 Responsibilities of Officials and Others

- 12344.1** If required, the Jury will issue special regulations for officials, media and service people and any other non-competitors, to ensure order on the course, in the stadium and in the team preparation area before, during and after the competition.
- 12344.2** For order and control on the courses the following principles apply:
- from 5 minutes before the start until the end of competition, all officials, coaches, non-competitors, and other accredited persons, are not permitted to ski on the course. During the competition, these persons must take fixed locations beside the course and must stand without skis on.
 - while giving intermediate times and information to competitors, officials, coaches and others are not allowed to run more than 30 meters beside the competitors
 - while doing this work officials and others must ensure not to obstruct competitors
 - while giving refreshments to the competitors the coaches must ensure not to obstruct competitors and must maintain a fixed position.
- 12344.3** In order to obtain clean TV coverage and for safety reasons parts of the competition course may be closed for all but the competitors taking part in the competition. The Jury can allow ski testing and warming up by competitors on parts of the competition course before and during the competition. Athletes and service personnel, wearing special bibs may be allowed to ski on these parts of the competition course.
- 12344.4** Wax testing and warming up on the ski competition course must always be done in the competition course direction. Anyone testing skis on the competition course must consider the safety of others on the course and the course preparation. Electronic timing devices used for testing skis will not be allowed on the course during the competition or official training.
- 12344.5** For evaluation and further development of the classification systems, medical and technical, including the percentage system; FIS has the authority to give permission to video recording the athletes during medical and technical classification and during training and competition at all FIS Para Cross-Country events if necessary.
- 12344.6** Unfair assistance or assistance not allowed by these rules to competitors during a competition is prohibited.

E. Not Permitted to Start, Sanctions

12351 Not Permitted to Start

Competitors will not be permitted to start in any FIS international ski competition who:

- 12351.1** wears obscene names and/or symbols on clothing and equipment (art. 207) or behaves in an unsportsmanlike manner in the start area (art. 205.5);
- 12351.2** violates the FIS rules in regard to equipment (art. 222) and commercial markings (art. 207);
- 12351.3** refuses to undertake a FIS required medical examination (rule 221.2)
- 12351.4** competitors
 - whose skis have been positive at the controls of fluorinated wax before the start.
 - present skis to the control of fluorinated wax later than 5 minutes after the deadline.
- 12351.5** If a competitor has actually started in a competition and is later determined by the Jury to have been in violation of these rules the Jury must sanction the competitors.⁸

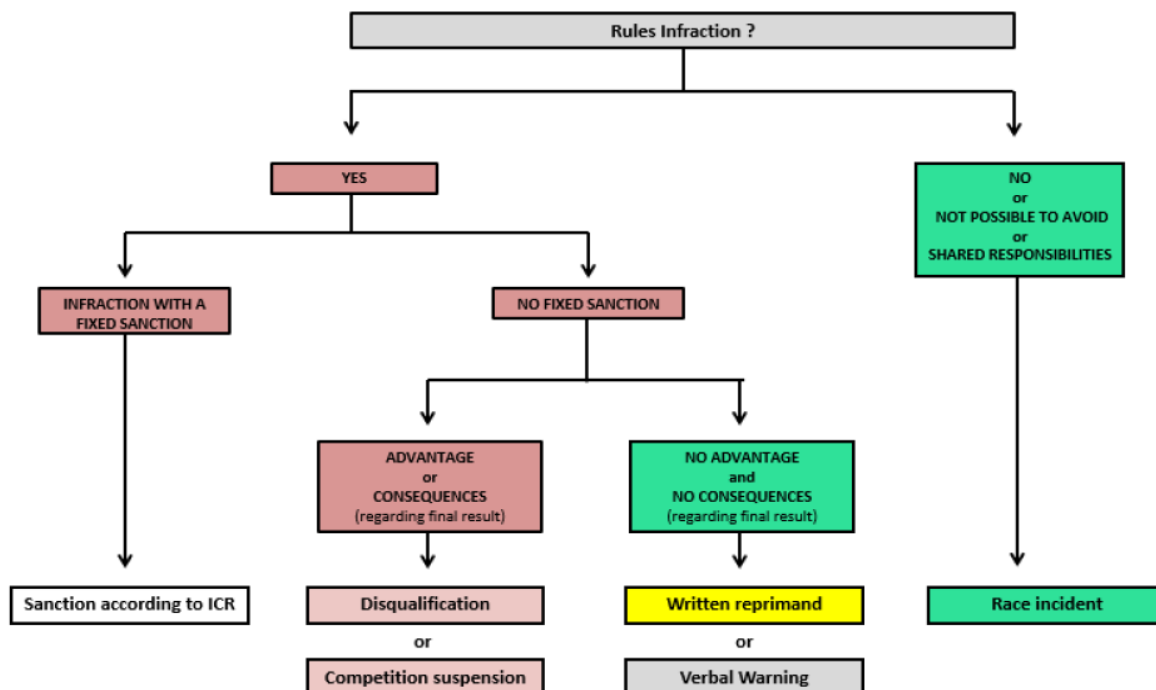

12352 Sanctions

12352.1 Procedure

- 12352.1.1** When an infraction to the rules occurs, the Jury must meet and decide the appropriate sanction by taking into consideration:
- the specific circumstances,
 - the gain or advantage for the offender (see ICR art. 223.3.3),
 - the negative impact on other competitors,
 - the impact on the final result or intermediate results (sprint heats),
 - the level of the competition,
 - the age and experience of the competitors

⁸ Explanatory note: when skis for the ski exchange are positive for fluorinated wax before the skis are skied on, the athlete will be sanctioned with a DSQ.

12352.1.1.1 The following decision chart must be used when deciding on a sanction:

12352.1.2 A hearing of the offender (ICR 224.7) may be organised:

- on demand of the jury if necessary
- on demand of the offender in case of submission of a protest according to ICR 12361.

12352.1.3 Sanctions for the violation of technique rules can be given by a unanimous decision of two jury members (including TD) without video evidence.

12352.1.4 For PWG, WSC and WC competitions sanctions can be given by a unanimous decision of two jury members (including TD) providing that they are not from the same nation. RD is considered FIS/Neutral.

12352.1.5 The consequences of a sanction assessed on a guide during a competition automatically applies to the athlete/guide team.

12352.2 Disqualification

12352.2.1 Disqualification should be used only for infractions with a clear impact on the final result of a competition.

12352.2.2 In addition, a competitor shall automatically be disqualified if they:

- participate in the competition under false pretences
- either jeopardizes the security of persons or property or actually causes injury or damage;

- commits a serious violation of the principles of fair play or sportsmanlike behavior;
- intentionally causes obstruction;
- receives prohibited assistance (see art. 12344.6) from a member of their team staff or non-competing athlete on their team;
- participates in a competition using equipment that does not comply with competition equipment rules (art. 207);
- modifies equipment which has been inspected (in a prohibited way)

12352.2.3	Competitors who receive a second written reprimand in the same season will be automatically disqualified. Written reprimands given during the season are not valid in the WSC and PWG periods. Written reprimands given during WSC or PWG are valid until the end of the season. If a competitor has two reprimands on file after WSC or PWG (one prior to WSC or PWG and one during WSC or PWG), then the next two written reprimands will each automatically result in disqualification.
-----------	--

12352.2.4 During stage events or first part of pursuit competitions, or relay competitions art. 12352.4.2 can apply.

12352.2.5 After disqualification, the competitor's name will be shown on a revised result list indicating his/her status as DSQ and no times must be printed for this competitor.

12352.2.6 Competitors disqualified in Sprint heats at Sprint competitions will keep their qualification result and will not be disqualified from qualification result list.

12352.3 Competition suspension

12352.3.1 Competition suspension can only be used for ICR infractions during sprint heats.

12352.3.2 In Sprint competitions, a competition suspension means that the competitor will be ranked last in the heat and last in the round (6th for final and 12th for 1/2 finals (for Standing and Sitting categories), and 4th for final and 8th for 1/2 finals (for Vision Impaired category)).

12352.3.5 Competition suspension will always be accompanied by a written reprimand.

12352.4 Time Penalty

12352.4.1 The following false start infractions should be sanctioned by time penalties:

12352.4.1.1 In Interval Start competitions or Sprint qualifications, early start infractions should be sanctioned by a minimum time penalty of 15 seconds (the competitor's calculated time + 15 seconds minimum penalty).

12352.4.1.2 In competitions with Pursuit start, early start infractions should be sanctioned by a time penalty equal to the time gained (posted start time minus actual start time) + 10 seconds minimum penalty for Sprint Heats and 30 seconds minimum penalty for Pursuit and Para Mass Start competitions.

12352.4.2 In relay competitions, the Jury can decide to substitute a DSQ with a 3 minutes time penalty (see ICR art. 12352.2.4)

12352.4.3 Relay exchange infractions in relay competitions will be sanctioned by time penalties as follows:

- relay competitions: minimum 30 seconds time penalty

12352.5 Written Reprimand

12352.5.1 Written reprimand should be used for all infractions of the rules that do not lead to a clear advantage for the offender

12352.6 Verbal Reprimand

12352.6.1 Verbal reprimand should be used to inform a competitor that their technique or behavior is very close to being in violation of the rules.

12352.7 Monetary Fine

12352.7.1 Monetary fines can be given to any accredited person.

12352.7.2 Monetary fine should be used for:

- infractions of advertising and commercial markings rules
- minor course discipline infractions
- for infractions to ICR 12343.5
- violation of restrictions on ski testing and warming up
- delayed skis delivery for equipment control up to 5 minutes (minimum 250 CHF)

12352.7.3 For competitors, a monetary fine may also be accompanied by a written reprimand.

H. Para Roller Ski Competitions

12396 Para Roller Ski Competitions

12396.1 Para Roller Ski ICR Definitions

12396.1.1 The matters covered within this section of the ICR are intended to focus on the unique aspects of Para Roller Ski sport that are significantly different from the methodologies used in Para Cross-Country ski sport as outlined in the previous sections of this ICR publication.

12396.1.2 The previous sections in this ICR will be used to give specific requirements in areas where there is direct similarity between Para Roller Ski and Para Cross-Country.

12396.1.3 In addition, the underlying principles and format procedures that apply in the Para Cross-Country sections of this ICR must also be applied to Para Roller Ski sport.

12396.2 Competition Equipment

12396.2.1 Roller Ski sport equipment must be available as a commercially produced product that is available to the general public.

12396.2.2 The OC in cooperation with TD must carry out equipment control before the start and after finish of each competition. Roller Ski wheel dimensions, wheel material hardness and frame length must be controlled.

12396.2.3 The diameter of the wheels must not be more than 100 mm.

12396.2.4 The distance between the axles of the Roller Skis must not be less than 530 mm.

12396.2.5 In classic technique competitions, each Roller Ski must have a ratchet mechanism.
The ratchet mechanism is always mandatory for Sitting category in all races.

12396.2.6 Cross-Country ski poles must be used with Cross-Country skiing tips. Alternatively pole tips must have safety rigid plastic protections with diameter ≥ 30 mm. These protections must be placed maximum 45 mm above the metallic tips.

12396.2.7 Safety helmets (e.g. DIN EN 1078 or equivalent) and eye protection must be worn during official training and competition. The jury may permit competitors to not use eye protection when conditions cause poor visibility.

12396.2.8 Shoes or ski boots have to be fixed on the Roller Skis with a Cross-Country ski binding. Roller Ski exchange must be done according to art. 12343.12.2.

12396.2.9 Competitors are permitted to change or repair equipment during the competition but they must do this without any outside assistance other

than being handed the replacement equipment or tools. Roller Ski change must be done according to article 12343.12.

- 12396.2.10 In order to provide safe and fair conditions for the competition the organiser and jury can limit the technical parameters for Roller Ski equipment (wheels, etc.) by announcing it in advance in the competition invitation.
- 12396.2.11 The competition organiser can provide Roller Skis from an official Roller Ski equipment supplier for all athletes entered in competition. This must be clearly announced in official invitation. The Roller Skis must be distributed to the athletes by a draw supervised by a jury member.
- 12396.2.12 If the competition organiser provides official Roller Ski equipment, this equipment must be used by athletes. In case of Roller Ski exchange during the competition may be done only at an official service point (boxes) according to articles 12343.12.2 – 12343.12.3.
- 12396.2.13 If the Competition Organizer provides official Roller Ski equipment, Roller Ski repair during official training or before competition may be done only at an official service point provided by the organizer.
