FIS Council needs leadership that is both strategic and operational

– leadership that understands how decisions are delivered in reality: on snow, in venues, as a part of Olympic movement and other sport bodies.

My approach is simple:

ATHLETE-FIRST THINKING – TRUSTED GOVERNANCE BASED ON EXPERIENCE – REAL DELIVERY.

FIS must move forward with **confidence between National skiing association, unity and results.**
I am ready to contribute with experience, responsibility, and a clear focus on what matters most:

Athletes | Organisers | Member ski and snowboard federations | Olympic committees
