TABLE OF CONTENTS

Scope	3
1. General Advertising Principles	4
2. Advertising Rules for all FIS Disciplines	6
3. Advertising Rules for Alpine Events	10
4. Advertising Rules for Cross-Country Events	16
5. Advertising Rules for Ski Jumping/ Ski Flying Events.....	21
6. Advertising Rules for Nordic Combined Events.....	26

SCOPE

The principles established in the following articles are applicable to all televised ski events staged by or under the auspices of FIS ("the events"), according to its international calendars.

By these principles FIS aims to make sure that the presentation of international ski events follows the same modern standards world-wide.

In all competitions included in the International Ski Calendar (the FIS World Cup in particular) the FIS Advertising Rules concerning advertising possibilities in the competition area and the TV area are binding.

These FIS Advertising Rules approved by the FIS Council are an integral part of the implementation regulations of the FIS Organiser contracts.

1. GENERAL ADVERTISING PRINCIPLES

- 1.1** The owner of all marketing rights at the FIS registered competitions (excluding World Championships) is the National Ski Association, except for the Title / Presenting Rights of the FIS Cup Series.

Advertising in the same product category as overall Series Cup title or presenting sponsor is not permitted.

- 1.2** The nature and extent of advertising must not affect the quality of the television coverage of the events and must not obstruct a clear view of the event and the competitors.

- 1.3** Advertising at the competitions must not infringe the national rules of the country where the event takes place.

1.4 Special (Rotating/LED/Illuminated) Advertising

Advertising boards, posters and banners must not interfere with the presentation of the sporting action.

Special function installations (e.g. bridge, arch, displays) must be approved by FIS as well as arranged in such a way as to conform to safety and advertising requirements.

Should rotating/LED/illuminated advertising be used, advertising may change only once during a camera sequence within the action. Animations can be used for only one sponsor per change, while each advertising message may contain one animation (movement of text or graphics) at most. Special effects (such as glow effect and flashes) and film like sequences are prohibited.

1.5 Advertising May Consist of the Following Items:

- a company name
- a trademark
- a single noun describing a product or service
- a visual image depicting a product or service
- a slogan (e.g. Adidas – Impossible is nothing)

Website domain addresses (URL), hashtags (#) as well as telephone numbers and e-mail addresses on advertising inventory or as supplements are allowed, provided approval is granted by the respective National Ski Association.

1.6 Illumination of Advertising

The illumination of advertising is allowed provided that the conditions mentioned above, are respected, the lightning does not shine directly into the television camera and does not affect the view of the athletes.

- 1.7** No advertising may be made in sound during the transmissions. Exceptions can be made but need approval of FIS and the respective National Ski Association and host-broadcaster.
- 1.8** Advertisements for alcohol and tobacco products may not occupy more than 25% of the total authorized advertising space.
- 1.9** No single product brand can be assigned more than 75% of the total authorised advertising space.
- 1.10** Virtual advertising is in principle not allowed at any FIS World Cup events. Exceptions can be made but need the approval of FIS and the respective National Ski Association.
- 1.11** Split Screens during broadcasting of the events are not allowed when they show live action and advertising at the same time.
- 1.12** Any political and/or religious advertising or any defamatory, racist or sexist messages and any advertising, which includes specific references to participants of the events (e.g. athletes and officials), are not permitted.
- 1.13** Any new or thus far not mentioned advertising opportunities need to be approved by FIS in advance of implementation. Requests for the implementation of new advertising opportunities need to be submitted to FIS for discussion in the Committee for Advertising Matters at the latest by September 1st. A test of a new advertising opportunity in the upcoming season can only be allowed once agreed by the Advertising Committee and approved by the Council.
- 1.14** The exact placing of all advertisements must be agreed with the host broadcaster, in accordance with the existing the General Advertising Principles and the scope of the relevant discipline.
- 1.15 Fan Clubs**
- Commercial advertising on banners and other promotional material used by fan clubs is not allowed
 - For fan club banners and promotional material within the finish area a minimum distance of 6 m behind the safety fences has to be respected
 - The size of any banner and promotional material may not exceed 1,5 m x 3 m
 - The Slogan on Fan Club Banners must show respect and have no offensive or racist content
- 1.16 Mascots**
- Event Mascot*
- The event mascot can either be for the event itself or to promote an upcoming FIS championship in the same country. The mascot can only be presented outside the competition area, and not in the mixed zone area.

Commercial Mascot

Can both be presented outside the competition area (public area, public village etc.) and inside the competition area. The commercial mascots need to be in connection with the sponsor's banner position. The commercial mascots need to be placed so they do not interfere with the race or the athletes.

2. ADVERTISING RULES FOR ALL FIS DISCIPLINES

2.1 Advertising on Clothing and Equipment

Any identification of a manufacturer or of a sponsor on clothing and equipment must be in conformity with the FIS rules “Specification for competition equipment” and “Specifications for commercial markings”. These rules apply to competitors, officials, personnel providing services as well as to any other person within the competition area.

2.2 Advertising on Starting Bibs

The design of all starting bibs for World Cup races needs to be approved by FIS before production. Such approval is not to be unreasonably withheld.

2.2.1 Basic Design Elements

Symbols (names, logos and graphics) of only one and the same sponsor are permitted on the front as well as the back of all starting bibs of the race. Bib design must not imitate products. The use of a marketing slogan of the sponsor is allowed, provided approval is granted by the respective National Ski Association.

A layout using the whole bib surface can be created to reflect the identity of the bib sponsor (e.g. through design, colour) however this design must not affect the visibility of the start number. The logo, product identification, and brand identification may not exceed 20 cm in height.

Names of effective manufacturers which appear on equipment or components (skis, snowboards, bindings, poles, boots, helmets, wax companies etc.) are not to be used on starting bibs and clothing. In the case a hardware producer also produces software materials this can be allowed if a different brand is used.

2.2.2 Neckline

In case that the neckline (upper border of bib) is used as a line of the brand identification, the repetition of the sponsor frequency is limited to three times.

2.2.3 Lower Stripe

On the lower end of the starting bib a stripe of maximum 8 cm in height may show in letters not exceeding 7 cm in height, the names and logos of a sponsor.

2.2.4 Start Number

The start number must be printed in a bold colour and has to be positioned on the bib so that it is clearly visible.

The height of the number must be at least 10 cm. In team competitions, e.g. Cross-Country, Nordic Combined, Alpine Team Event, the number must be a minimum of 8 cm. The FIS logo or any other non-commercial official logo authorized by the FIS may be printed behind the number in appropriate coloured form.

On starting bibs for all disciplines (exception team competitions) the starting number can be printed additionally on the sides (lateral left and right) on a surface of 7 cm x 7 cm with a maximum size of 6 cm.

On the left and right of the starting number, one advertising space of a maximum 50 cm², with letters of a maximum height of 5 cm can be used for “tourist identifications”. This advertising space belongs to the NSA.

If for advertising reasons a company brand and product line brand are combined, 60% of the advertising space must be used for the company brand and 40% for the product line brand. In such cases, the layout of the company brand and the overall appearance must be the same on all starting bibs (e.g. Audi as company brand and “e-tron” for the product line).

2.2.5 Name of the Location (Location / Resort / Locality / Region)

The name of the location where the competition takes place may also be placed on the front and back, in writing or graphic form, and the height of the letters may not exceed 10 cm. The designation of the location may also be in two lines (10 cm total height). The use of a website or a # is allowed, provided approval is granted by the respective National Ski Association.

2.2.6 FIS and Official Title Sponsor Logos

At official FIS Cup Series, the respective FIS composite logo including the official FIS Series title, and a FIS sponsor must appear on the right side of the shoulder piece, while the FIS logo or the FIS World Snow Day logo appear on the left side, all with a maximum height of 6 cm.

2.2.7 Leader Bib

Every competition in a FIS Series Cup may have a leader bib. On the leader bib, which is designed in a uniform colour (e.g. yellow or red or other colours permitted by the FIS) the official FIS Cup Series title and the logo and/or brand identification of the official FIS sponsor replaces the number (max height 12 cm). The logo and/or brand identification of the commercial bib sponsor placed in the upper third part of the bib may not exceed 20 cm in height.

2.3 Timekeeping and Data Processing

Timekeeping firms shall be permitted to use only the advertising spaces next to their equipment (e.g. photo-electric cells at the finish, etc.) as defined in the appendices hereto.

All identifications of timekeeping and data processing firms may be subject to the following:

2.3.1 Timekeeping Cabin / Data Processing Cabin

Identifications and logos are permitted, i.e. one 4 m x 1 m banner.

2.3.2 Scoreboards

The letters of the identification of the timekeeping firm must not be luminous, nor larger than any of the characters used for the time indication, or 30 cm, whichever is the smaller. When placing a scoreboard one banner of 4 m x 1 m is possible.

2.3.3 Positions for the Intermediate Time / Finish Time

One identification logo is permitted next to each timekeeping equipment on the course, with a maximum size of 50 cm x 100 cm for Alpine and 30 cm x 60 cm for Cross-Country.

2.3.4 TV Insert

Identification of any FIS data and timing processing firms on the FIS Website and on the television screen (signal injection) must be in conformity with the requirement of each discipline as specified in the attached appendices.

2.4 TV Interview Area / Back Walls

2.4.1 Leader Board / Ceremony Wall / Leader Chair

A back wall will be constructed on which the following identifications will be placed:

- The name or other identification of the region/locality or skiing area on top
- Multiple signs/plates of the region/locality or skiing area in the presentation grid
- Multiple signs/plates of the FIS Cup Series title/presenting sponsor in the presentation grid
- Multiple signs/plates of NSA / Event sponsor in the presentation grid
- FIS Cup Series combined logo

The following advertising space ratio applies:

- The name of the location 20%
- The FIS logo and the name of the official FIS Cup Series title / presenter 40%
- The logos of up to a maximum of six sponsors of the competition 40%

The leaderboard can also be used for unilateral interviews.

The maximum height of the letters is 30 cm.

Leader Chair

Subject to the agreement of the NSA / marketing rights holder, a leader chair can be positioned in front of the leader board. The maximum dimensions of the leader chair are 140 cm in height and 50 cm in width. The right can be granted to display on the leader chair one logo and/or brand identification of an NSA / Event sponsor or the FIS Cup Series title / presenter, with a maximum height of 15 cm.

2.4.2 Small Back Installation for Unilateral Interviews at FIS Series

On the "small back installation" of the TV companies the TV companies' logo may be placed. A maximum of 6 additional sponsor advertisements of 10 cm x 10 cm are possible. In addition to this, the individual TV Company can use the FIS Cup Series logo and the logo of the respective National Ski Association.

2.5. Winner Presentation Banner

A Winner Presentation Banner with the maximum dimensions of 600 cm width and 40 cm height may be used for the presentation of the top three athletes in the finish area before the official winner's presentation.

The advertising space on the side of the winner presentation banner facing the TV camera is allocated as follows:

- One logo or name of the region/locality or skiing area in the center of the banner
- One or two logos and/or brand identifications of the FIS Cup Series title / presenter on the left and/or right side
- One or two logos and/or brand identifications of an NSA / Event sponsor on the left and/or right side
- The maximum height of each logo or name is 15 cm

2.6 Partner and Sponsor Boards

Outside of the main competition area, a sponsor and partner board may be placed as part of the stadium design, on which all partners of the event may be presented along with the official title of the event.

2.7 Video Screen / Wall

When placing a video wall in the competition area a frame around the video wall with a width of maximum 1.5 m is permitted. The height of logos or letters used on such a frame may not exceed 1 m. Each FIS Cup Series sponsor shall have the possibility to show a 30 second advertising spot on the video screen.

2.8 Host Broadcaster

The logo of the host broadcaster (TV Company) may be placed on TV installations such as e.g. camera towers or commentator cabins provided. This is approved by the FIS and the respective National Ski Association. The size of the logos must correspond to the existing FIS Advertising Rules and must not affect the permitted advertising of the NSA / Event sponsors nor a FIS Cup Series title- and presenting sponsor. The maximum measurements of the advertising for the host broadcaster or TV company on commentator cabins is 50 cm x 50 cm i.e. 2'500 cm².

2.9 Identification on Snow

Identification on snow is possible at all events up to a maximum of two. The identification should have a maximum size of 16 m². For safety reasons an early coordination with the FIS Race Directors has to be made regarding the placement and technical execution.

2.10 New Identifications

Any other identifications or branding for example banners, the use of inflatables and gate flags needs to be in conformity with the discipline specific advertising rules.

2.11 Product Placement

Outside the main competition area but in front of the TV cameras, max. 2 products (e.g. a car) can be placed. The exact position is to be agreed between the Race Director, NSA and Host Broadcaster.

2.12 Hot Air Balloons

A maximum of 5 hot air balloons is allowed within the view of TV cameras.

3. ADVERTISING RULES ALPINE EVENTS

3.1 Downhill, Super-G, Giant Slalom, Slalom, Alpine Combined, Parallel, Alpine Team Event

3.1.1 Start (Installation) House

The starting house/installation may show the name or other identification of the location twice (2 signs) with the dimensions 80 cm x 50 cm and additionally 1 location logo.

Additional advertising above or below the location name on the starting house is not allowed.

The identification of timekeeping and data processing (2 x 80 cm x 30 cm) and, the official title as well as the FIS logo must be affixed to the top and lateral front sides of the starting house as well as on all sides of the door frame.

In addition, inside the starting house the logo of the official NSA / Event sponsor may appear.

On the left and right of the starting house either two identical signs with a size of 50 cm x 100 cm or respectively 5'000 cm² (for two companies) or one identical sign with a size of 100 cm x 100 cm or respectively 10'000 cm² (for one and the same company) may be affixed to the wall on the outside of the starting house.

Depending on the size of the start house/tent 3 signs of 30 cm x 50 cm or 60 cm x 80 cm may be placed for NSA / Event sponsors and tourist advertising plus 1 sign of 30 cm x 50 cm or 60 cm x 80 cm for the data-/timing partner.

On each side of the start house a total of 30 m of banners can be placed. The height of the banners cannot exceed 150 cm. including the platinum circle. The first banner must be positioned 50 cm from the starting house.

3.1.2 Along the Course

The use of advertising banners along the course, in the field of vision of any single camera, is subject to the following conditions:

- Banners shall be fixed on PVC frames with breakable point. Their measurements must not exceed:
 - Downhill / Super G / Giant Slalom / Parallel: eight (8) metres in length and one and a half (1.5) metres in height
 - Slalom: six (6) meters in width and one (1) metre in height

If smaller advertising banners are used in Slalom and Giant Slalom, they should be placed at a distance of approx. 25 m in Slalom and approx. 50 m in Giant Slalom.

- For security reasons, the following applies:
 - Mounting of advertising banners above slip-sheets is possible, provided that they are made of a very light, breakable, porous material, not endless and with eyelets which must be used for fastening on the top-safety net by means of elastic rubber bands and safety expanders. The size and layout of such advertising may not exceed 12 m in length.
 - On safety fences (B-fences or B-nets) direct fixing of advertising banners is not allowed.

- The number of advertising positions allowed on the course per discipline are as follows:
 - Downhill / Super-G: up to a maximum of 35 positions
 - Giant Slalom: up to a maximum of 30 positions
 - Slalom: up to a maximum of 25 positions

A position is defined as follows:

- 1 single banner or,
- 1 to max. 3 single banners attached next to each other or,
- 1 to max. 3 single banners attached to each other forming an angle with the possibility to have an inflatable placed in the angle behind the banners or,
- 1 to max. 3 single banners lined up in front of each other with a maximum distance of 4 m between them.

The Race Director can decide for safety reasons not to allow a position.

3.1.3 Finish Installation, Gate Panels

Finish installation

It shall be permitted to affix a banner between the posts at the finishing line. Such a banner carries the official name of the club or the name or other identification of the location, the data and timing partner, and the official title of the event according to the official FIS calendar. There must be no change in the name of any event in the course of a season.

The installation (posts) will be of the same colour as the finish banner and the name of the location and the FIS logo/the official title of the event according to the official FIS calendar can be affixed.

Gate Panels

On all gate panels, it shall be permitted to identify (name or logo) the location and/or a sponsor. These identifications can be printed directly on both sides of the gate panels or patches can be used.

In all cases the types of panels must be identical and conform to the respective article of ICR:

	Size of the gate flag	Advertising space
Super G	75 x 50 cm	50%
Downhill	75 x 50 cm	50%

Giant Slalom	75 x 50 cm	50%
Parallel	75 x 50 cm	50%

The following has to be considered for both sides of the panel design:

- The sponsor logo may be printed in its original colours
- The location logo may be printed directly on a panel in one colour. The use of patches is allowed but the material used must have the same colour as the gate panel
- The location name/logo may be printed in one or two lines with a maximum height of 10 cm

On the red and blue gate panels it shall be permitted to identify (name or logo) the location and/or a sponsor. These identifications can be printed directly on both sides of the gate panels or patches can be used.

3.1.4 Finish Area

The finish area must be similar to a stadium and, advertising shall be permitted therein. It may only be affixed to the safety barriers and in particular, must not obstruct a clear view of the competitors for spectators and TV cameras.

The finish area is deemed to include the entire enclosure after the finish line, fenced off by barriers for protection of the public, and the final stretch of the course surrounded by safety barriers commencing before the actual finish line and extending on each side for a maximum distance of 60 m.

The height of the boards/banners may not exceed 100 cm with a length of 5 m and the height of the lettering/logos not exceed 80 cm for up to two advertising scripts below the finish line and 20 cm for up to five advertising scripts above the finish line.

The banners may be 130 cm in height, if there is Platinum Circle above the banners.

Advertising boards / Platinum Circle

In addition to the banners, billboards advertising of 100 cm x 100 cm may be placed between the banners, depending on the technical layout.

As an alternative, an advertising board (long, narrow) may be placed above or below the banners with a maximum height of 30 cm, respecting the safety aspects, i.e. either behind the safety barrier or the padding. Both advertising possibilities i.e. boards or "platinum circle" belong to the National Ski Association.

The line of advertising with signs, boards and banners shall be arranged according to the terrain and observing the provisions of art. 3.1.2. It must in no way impede the race line and should not create the impression of superposed advertising surfaces. In the area preceding the finishing line, the line of advertising shall be parallel to the course.

The Finish Area must conform to the safety requirements and the advertising banners/boards must represent an attractive, design.

Exit Gate

On the exit gate the following may be shown:

- advertising for the location
- the official title of the competition

Ceremony Wall at FIS World Cup Events

On the wall behind the winners, only the name of the FIS official Title sponsor and the location is allowed.

3.1.5 Other Elements

Inflatables

Inflatable advertising (such as balloons) can only be considered if the following are observed:

a) Total Size

- on the course: max. height is 6 m and max. width is 5 m
- in the finish area: max. height is 6 m and max. width is 5 m

b) Position

This advertising must be placed no closer than 5 m from the racecourse and in consultation with the FIS Race Director and the host broadcaster in co-operation with the Organiser. Placing adjacent to the start house and at the finish line is not allowed. Furthermore, it is not allowed to place the inflatable on any podium (unless to stabilise) within the range of TV cameras.

c) Number

The number of inflatables within the range of the TV cameras is limited as follows:

d) On the Course

- Downhill / Super G max. 6 inflatables
- Giant Slalom, Slalom and Parallel/NTE max. 4 inflatables

e) In the finish Area (for all events)

A maximum of 5 commercial inflatables, plus tourist and resp. NSA / FIS inflatables.

Advertising arch on the course

It is possible to place an NSA / Event sponsor advertising as an arch in one position. The height of the advertising construction is limited to 6 m and a minimum of 15 m wide.

Sponsor advertising with a maximum height of one (1) metre and eight (8) metres wide may be placed at jumps.

The position and construction have to be clarified in good time with the FIS (the FIS Race and Marketing Directors) and the host broadcaster, to fulfil all safety-, construction- and

advertising aspects (e.g. anchors, etc.). The rights of this advertising possibility belong to the NSA.

APPENDIX ALPINE:

On-Screen Identifications

This document provides details about regulations for injection of the appointed timing & data provider(s) into the broadcast signal and which have been accepted by the FIS. The Organiser undertakes not to permit any other injection into the broadcast signal of the event.

1. On-screen identification means only visual display of the company`s name/logo. There may be no dedicated visual or audio effects and/or references to an online domain or address included in this identification. On-screen identifications will be authorized only for companies whose principal activities include the provision of the equipment used (hardware) and/or the service (software) ("the Company (ies)"). The identification shall be in the form as described in this document.
2. No other on-screen identification other than for the appointed Timing & Data provider(s), may be transmitted at the same time as the appearance on-screen of timing and/or data processing information.
3. Injection/display requirements:
 - a) The identification of the timing service provider shall appear on-screen only at the same moment as information regarding a competitor's time at the finish and/or any other usually accepted moment (e.g. intermediate time) appears.
 - b) The identification of the data service provider shall appear on-screen only with the display of the data provided by such provider.
 - c) The identification of the timing or data service provider on the television screen (signal injection) shall be as follows:

Timing:	maximum of 4 seconds per identification
Amount:	see below "FIS TV Insert Alpine"
Data:	maximum of 6 seconds per identification
Amount:	see below "FIS TV Insert Alpine"
4. Size and position of identifications
 - a) The height of the letters of the identification of the timing & data service provider(s) must not exceed the maximum height of the letters or numbers used for the broadcast display of data.
 - b) Identification of the logo on-screen shall be via a static graphic. Notwithstanding this, it shall be permitted for such logo to appear and disappear on screen by zooming "in" and "out". No other movement of the logo, in particular any movement across the screen, shall be permitted.
 - c) The maximum height of television lines for the identification of any timing & data service provider shall be fixed at 44 pixels for productions in HD (1920 x 1080

pixels). The identification shall appear either at the bottom in the centre of the screen and below the data display or alternatively in a central position to the right-hand side of the data display.

5. Wording of identifications

The timing & data service provider(s) shall be identified either by its usual trading name which may be in the font of a trade mark protected word and, if requested by the provider(s), the use of either of the following additional words:

- a) for timing provider(s): "timing"
- b) for data processing provider(s): "computer" or "data"

FIS TV Inserts – FIS Alpine Ski World Cup / FIS World Championships

Timing	Data
➤ Time at end of run 4" (20x) 80" per race/run	➤ Display of information 6" (15x) Total 90" per race/run
➤ Intermediate times 2" (20x) 40" per race/run	
➤ Total 120" per race/run	

4. ADVERTISING RULES CROSS-COUNTRY EVENTS

4.1 Cross-Country

4.1.1 Start and Finish Area

The start and finish area must be either an actual stadium or an area similar to a stadium and, advertising shall be permitted therein, affixed to the safety barriers only. The maximum total amount of advertising permitted must not exceed 700 m. The signs, boards and banners within range of the television cameras must be affixed in a single continuous line and, if so, agreed with the host broadcaster, it shall be permitted to place a row of 50 m along the start and finish tracks, provided it is not between the camera and the action, and does not appear on two levels.

The height of each board may not exceed 1 m, the length 5 m and the height of the advertising must not exceed 80 cm.

Advertising Boards / Platinum Circle

In addition to the banners billboards with ads / sponsor marking in the size of 100 cm x 100 cm may be placed between the banners depending on the technical layout.

An advertising board (long, narrow) with a maximum height of 30 cm may be placed above the banners either behind the safety barrier or the padding. On such boards a maximum of 6 different sponsors may appear on a length of at least 12 m either on a repeated sequence or with the logo of the sponsor. Both advertising possibilities i.e. billboards or “platinum circle” belong to the National Ski Association.

Start and Finish Installations

The following advertising is permitted on the start and finish installations:

- Location logo
- Identification of the FIS Cup Series timing and data partner
- Identification of the FIS Cup Series Title sponsor
- Identification of the FIS Cup Series Presenting, on both left and right sides
- Identification of the NSA sponsor, on both left and right sides

Additional advertising above or below the location name on the starting gate is not allowed.

4.1.2 Advertising on the Course

Advertising along the course is reserved as follows:

- Title Series sponsor 2 positions (Sprint 2)
- FIS Presenting Series sponsor 2 positions (Sprint 1)

The banner sizes and hence the advertising possibilities will be as follows (depending on the position, individual solutions may be necessary).

- 1) height 100 cm x length 400 cm
- 2) height 100 cm x length 600 cm

- 3) height 150 cm x length 400 cm
- 4) height 150 cm x length 600 cm

The placement of the banners is subject to the following conditions:

- a) The measurements do not exceed the above-mentioned dimensions
- b) They must not be superposed and must be affixed to the safety barriers or in other positions provided that the safety of the course is not affected.

Depending on the length of the course, the number of advertising boards/banners has been fixed as follows:

1.0-12.5 km loops:

8-45 positions with a maximum of four boards/banners per position

A position is a point on the course where banners can be placed.

- Maximum height of the on-course banners shall be 1.5 metres
- Maximum height of the identifications thereon shall be 1.5 metres
- Maximum length of the on-course banners shall be 8 m

Moreover, their placement is subject to the following conditions:

- a) they must not be posed and must be affixed to the safety barriers or in other positions provided that the safety of the course is not affected
- b) no more than 2 different sponsor/banners/elements can be in the field of vision of any single camera

If bridges exist as a public thoroughfare or as a part of the track, then one board bearing the name of a sponsor is permitted per bridge.

4.1.3 Distance Markers, Intermediate Time Installations, Course Markers, Pit Stop Boxes, Inflatables

Distance markers

On the "distance markers" the following information is allowed:

- The indication of the distance / km status

Intermediate time installations

On the "Intermediate time installation" the following advertising/information is allowed:

- Indication of the distance / km stand
- Identification of the FIS Series data/timing partner
- Identification of the FIS Cup Series Title sponsor
- Identification of the FIS Cup Series Presenting sponsor
- Identification of the NSA

One banner position can be linked to the intermediate time installation (see 4.1.2 above).

Course markers

To mark the Cross-Country course clearly, course markers must be placed in the stadium and along the course (average size of Course Marker: 30 x 50 cm).

Pit-Stop Boxes for Skiathlon races

The pit stop boxes (approx. length 220 cm, height 37 cm) are required to have the following markings:

- The number of the box, height 30 cm
- One sponsor, length max. 177 cm, height max. 30 cm

Inflatables

Inflatable advertising (such as balloons) can only be considered if the following are observed:

Total size

- On course: Max. height is 6 m and max. width is 5 m
- In the finish area: Max. height is 6 m and max. width is 5 m

Position

This advertising must be placed no closer than 5 m from the course in consultation with the FIS Race Director and the host broadcaster in co-operation with the Organiser. Placing adjacent to the start and at the finish line is not allowed.

Furthermore, it is not allowed to place the inflatable on any podium within the range of the TV cameras.

Arch

If an arch is used over the course, it needs a minimum width of 9 m (measured on the inner side) and at least 3.20 m height (lower side from ground) in consultation with the FIS Race Director and the host broadcaster in co-operation with the Organiser.

Number

For Cross Country and Nordic Combined a maximum of 5 inflatables in the stadium, a maximum of 4 in the course for sprint races and a maximum of 6 in the course for distance races are allowed.

In the course the inflatables can be a supplement to the exclusive banner positions or an exclusive position itself.

4.1.4 Numbers on Thighs (Leg Bibs)

During Cross-Country competitions, a "bib" placed on the thighs of 10 cm x 13.5 cm has to be used to identify the athletes. The number has a size of minimum 4.5 cm. The maximum height of sponsor size is 7 cm.

APPENDIX CROSS COUNTRY:

On-Screen Identifications

This document provides details about regulations for injection of the appointed timing & data provider(s) into the broadcast signal and which have been accepted by the FIS. The Organiser undertakes not to permit any other injection into the broadcast signal of the event.

1. On-screen identification means only visual display of the company's name/logo. There may be no dedicated visual or audio effects and/or references to an online domain or address included in this identification. On-screen identifications will be authorized only for companies whose principal activities include the provision of the equipment used (hardware) and/or the service (software) ("the Company (ies)"). The identification shall be in the form as described in this document.
2. No other on-screen identification other than for the appointed Timing & Data provider(s), may be transmitted at the same time as the appearance on-screen of timing and/or data processing information.
3. Injection/display requirements:
 - a) The identification of the timing service provider shall appear on-screen only at the same moment as information regarding a competitor's time at the finish and/or any other usually accepted moment (e.g. intermediate time) appears.
 - b) The identification of the data service provider shall appear on-screen only with the display of the data provided by such provider.
 - c) The identification of the timing or data service provider on the television screen (signal injection) shall be as follows:

Timing:	maximum of 4 seconds per identification
Amount:	see below "FIS TV inserts Cross-Country"
Data:	maximum of 6 seconds per identification
Amount:	see below "FIS TV inserts Cross-Country"
4. Size and position of identifications
 - a) The height of the letters of the identification of the timing & data service provider(s) must not exceed the maximum height of the letters or numbers used for the broadcast display of data.
 - b) Identification of the logo on-screen shall be via a static graphic. Notwithstanding this, it shall be permitted for such logo to appear and disappear on screen by zooming "in" and "out". No other movement of the logo, in particular any movement across the screen, shall be permitted.
 - c) The maximum height of television lines for the identification of any timing & data service provider shall be fixed at 44 pixels for productions in HD (1920 x 1080 pixels). The identification shall appear either at the bottom in the centre of the screen and below the data display or alternatively in a central position to the right-hand side of the data display.

5. Wording of identifications

The timing & data service provider(s) shall be identified either by its usual trading name which may be in the front of a trademark protected word and, if requested by the provider(s), the use of either of the following additional words:

- a) for timing provider(s): "timing"
- b) for data processing provider(s): "computer" or "data"

FIS TV Inserts – FIS Cross Country World Cup / FIS World Championships

Timing	Data
➤ Short distance 4" (20x) Total 80" per race	➤ Short distance 6" (10x) Total 60" per race
➤ Long distance 4" (25x) Total 100" per race	➤ Long distance 6" (13x) Total 78" per race

5. ADVERTISING RULES SKI JUMPING / SKI FLYING EVENTS

5.1 Ski Jumping / Ski Flying

5.1.1 Starting Point

1. One name or other identification (excepting slogans) of the location, maximum height 30 cm
2. The FIS logo, maximum height 30 cm
3. An official FIS Cup Series title maximum height 30 cm
4. The name of a FIS Cup Series title / presenting sponsor, maximum height 8 cm, placed under the official title
5. Two sponsor identifications affixed to the wall of each side of the starting installation, 2 x 50 cm x 50 cm for one NSA / Event sponsor and for the FIS Cup Partner
6. Two identifications for the data processing firm with a maximum height of 15 cm
7. On the starting beam two advertising boards of 12 cm height and 20 cm length are allowed for one NSA / Event sponsor to be positioned on either side of the athlete

Equipment Control Box/installation before the start, a unicolour cover on the box side (max. 1 x 2 m) that is in the view of the camera.

The advertising space on this cover is allocated as follows:

Series Cup logo: 1 position (50 cm x 28.5 cm)

Location logo: 1 position (50 cm x 28.5 cm)

5.1.2 Take-Off / In-Run

On the nose of the take-off the name of one sponsor shall be permitted, in letters not exceeding one metre in height.

Along the in-run, immediately after the starting point, one advertising board of 2 m in length and 50 cm in height is allowed for an NSA / Event sponsor within the guardrail. If the board is positioned outside the guardrail the size can be 3 m in length and 80 cm in height. Two banners can be positioned along the in-run at the in-run radius. Each 150 cm in length and 50 cm in height with one for the Title / Presenting Sponsor and one for the NSA.

To ensure identification of distance, markings may be placed at 90 m , 100 m, 110 m and 120 m.

- Height: 90 cm
- Width: 75 cm
- Height of numbers showing the distance: 40 cm
- Height of advertising space for FIS Series title or presenting sponsor and a competition sponsor 15 cm

5.1.3 Function Buildings

There may be up to four advertising boards/banners affixed to the function buildings subject to the following conditions:

- a) Their measurements may not exceed eight metres in width and one metre in height
- b) One advertising banner is reserved (on the trainers' stand or judges' tower) for the FIS Series Cup title and one for the FIS data/ partner.

5.1.4 Outrun

The outrun starts at the end of the landing area and must be similar to a stadium and, advertising shall be permitted therein, affixed to the safety barriers only, and must not obstruct a clear view of the competitors for spectators and television cameras.

Maximum size of the finish area and/or stadium banners is 6 m x 1 m.

For safety reasons the use of rotating advertising banners and/or LED boards must be coordinated with the FIS Jury.

Advertising Boards / Platinum Circle

In addition to the banners billboards with ads / sponsor marking in the size of about 100 cm x 100 cm may be placed between the banners depending on the technical layout.

An advertising board (long, narrow) may be placed above the banners with a maximum height of 30 cm either behind the safety barrier or the padding. On such boards a maximum of 6 different sponsors may appear with a total length of at least 12 m either on a repeated sequence or with the logo of the sponsor. Both advertising possibilities i.e. boards or "platinum circle" belong to the National Ski Association.

Outrun Advertising

In the outrun the following is permitted and the material used must conform to safety specifications.

The placement has to be made in good time and in close co-ordination with the FIS Marketing respectively the FIS Race Director.

Size of Advertising

The space cannot be larger than 4 m x 4 m

Design of Advertising

The design can include one of the following:

- Ski Club logo, logo of the National Ski Association
- One NSA / Event sponsor
- FIS Logo with the FIS Series Cup title

Exit gate

The configuration of the Finish Area must conform to safety requirements and the advertising must represent an attractive, design.

On the exit gate the following may appear:

- Identification (except slogans) of the locality/region
- FIS logo
- The FIS Cup Series title of the event
- The name or other identification of the FIS Cup Series sponsor
- The official FIS Cup logo
- NSA / Event sponsor

Any design and colour changes have to be approved by the FIS.

Inflatables

Inflatables (such as balloons) can only be considered if the following conditions are observed:

Total size

Max. height is 6 m and max. width is 5 m.

Position

This advertising may be placed no closer than 5 m from the ski jumping hill inrun and in consultation with the FIS Race Director and the host broadcaster in co-operation with the Organiser. Furthermore, it is not allowed to place the inflatable on any podium within the range of the TV cameras.

Number

Inflatables within the range of the TV cameras are restricted to a maximum of 5 per competition at Ski Jumping events.

Special advertising means

Special advertising can only be considered if the following conditions are observed:

Total size

In open venues with wide area behind the outrun boundary a max. height of 2 m and a max. size of 30 m² is permitted.

In closed venues with arena character, tribune and installations around the outrun boundary a max. height of 1.5 m and a max. size of 20 m² is permitted.

Position

This advertising may be placed no closer than 10 m from the ski jumping hill inrun but not in the outrun surrounding. Placement of advertising needs to be done in consultation with the FIS Race Director, the host broadcaster and needs the approval of the Organiser and its National Ski Association.

Number

One special advertising means is permitted. The right is owned by the respective National Ski Association.

5.1.5 Other elements

Start order flag of the trainer(s)

Use

- Owner and user of the advertising space is the respective National Ski Association
- The size of this flag should be fixed, e.g. 30 cm length and 20 cm width (Din A4)

Design possibilities

- On one side the emblem/logo of the NSA and on the other side a sponsor logo, e.g. team sponsor of the Ski Jumping team of the respective NSA
- Or two times the national logo or the logo of the NSA

The rights for this advertising possibility belong to the National Ski Association.

APPENDIX SKI JUMPING:

On-Screen Identifications (TV Inserts)

This document provides details about regulations for injection of the identification for appointed timing & data provider(s) into the broadcast signal and which have been accepted by the FIS. The Organiser undertakes not to permit any other injection into the broadcast signal of the event.

1. On-screen identification means only visual display of the company's name/logo. There may be no dedicated visual or audio effects and/or references to an online domain or address included in this identification. On-screen identifications will be authorized only for companies whose principal activities include the provision of the equipment used (hardware) and/or the service (software) ("the Company (ies)"). The identification shall be in the form as described in this document.
2. No other on-screen identification other than for the appointed Timing & Data provider(s) may be transmitted at the same time as the appearance on-screen of timing and/or data processing information.
3. Injection/display requirements:
 - a) The identification of the timing service provider shall appear on-screen only at the same moment as information regarding a competitor's time at the finish and/or any other usually accepted moment (e.g. intermediate time) appears.
 - b) The identification of the data service provider shall appear on-screen only with the display of the data provided by such provider.

- c) The identification of the timing or data service provider on the television screen (signal injection) shall be as follows:

Timing: maximum of 4 seconds per identification
 Amount: see below "FIS TV insert Ski Jumping"

Data: maximum of 6 seconds per identification
 Amount: see below "FIS TV insert Ski Jumping"

4. Size and position of identifications

- a) The height of the letters of the identification of the timing & data service provider(s) must not exceed the maximum height of the letters or numbers used for the broadcast display of data.
- b) Identification of the logo on-screen shall be via a static graphic. Notwithstanding this, it shall be permitted for such logo to appear and disappear on screen by zooming "in" and "out". No other movement of the logo, in particular any movement across the screen, shall be permitted.
- c) The maximum height of television lines for the identification of any timing & data service provider shall be fixed at 44 pixels for productions in HD (1920 x 1080 pixels). The identification shall appear either at the bottom in the centre of the screen and below the data display or alternatively in a central position to the right-hand side of the data display.

5. Wording of identifications

The timing & data service provider(s) shall be identified either by its usual trading name which may be in the font of a trade mark protected word and, if requested by the provider(s), the use of either of the following additional words:

- a) for timing provider(s): "timing"
 b) for data processing provider(s): "computer" or "data"

FIS TV Inserts – FIS Ski Jumping/Ski Flying World Cup / FIS World Championships

Timing	Data
➤ Wind/ Speed 2" (10x) Total 20" per round	➤ 6" (15x) Total 90" per round
➤ Video measurement 8" per round	

6. ADVERTISING RULES NORDIC COMBINED EVENTS

6.1 Cross-Country (Nordic Combined)

6.1.1 Start and Finish Area

The start and finish area must be either an actual stadium or an area similar to a stadium and, advertising shall be permitted therein, affixed to the safety barriers only. The maximum total amount of advertising permitted must not exceed 700 m. The signs, boards and banners within range of the television cameras must be affixed in a single continuous line and, if so agreed with the host broadcaster, it shall be permitted to place a row of 50 m along the start and finish tracks, provided it is not between the camera and the action, and does not appear on two levels.

The height of each board may not exceed 1 m, the length 5 m and the height of the advertising must not exceed 80 cm.

Advertising boards / Platinum Circle

In addition to the banners billboards with ads / sponsor marking in the size of 100 cm x 100 cm may be placed between the banners depending on the technical layout.

An advertising board (long, narrow) with a maximum height of 30 cm may be placed above the banners either behind the safety barrier or the padding. On such boards a maximum of 6 different sponsors may appear on a length of at least 12 m either on a repeated sequence or with the logo of the sponsor. Both advertising possibilities i.e. billboards or "platinum circle" belong to the National Ski Association.

Start and Finish Installations

The following advertising is permitted on the start and finish installations:

- Location logo
- Identification of the FIS Cup Series timing and data partner
- Identification of the FIS Cup Series title sponsor
- Identification of the FIS Cup Series presenting), on both left and right sides
- Identification of the NSA sponsor, on both left and right sides

Additional advertising above or below the location name on the starting gate is not allowed.

6.1.2 Advertising on the Course

Advertising along the course is reserved as follows:

Title Series sponsor	2 positions
FIS Presenting Series sponsor	1 position

The banner sizes and hence the advertising possibilities will be as follows (depending on the position, individual solutions may be necessary).

- 1) Height 100 cm x length 400 cm

- 2) Height 100 cm x length 600 cm
- 3) Height 150 cm x length 400 cm
- 4) Height 150 cm x length 600 cm

The placement of the banners is subject to the following conditions:

- a) The measurements do not exceed the above-mentioned dimensions
- b) They must not be superposed and must be affixed to the safety barriers or in other positions provided that the safety of the course is not affected.

1.5 - 2.5 km loops:

8 positions with a maximum of four boards/banners per position

A position is a point on the course where banners can be placed.

- Maximum height of the on-course banners shall be 1.5 m
- Maximum height of the identifications thereon shall be 1.5 m
- Maximum length of the on-course banners shall be 8 m

Moreover, their placement is subject to the following conditions:

- a) they must not be posed and must be affixed to the safety barriers or in other positions provided that the safety of the course is not affected
- b) no more than 2 different sponsor/banners/elements can be in the field of vision of any single camera

If bridges exist as a public thoroughfare or as a part of the track, then one board bearing the name of a sponsor is permitted per bridge.

6.1.3 Distance Markers, Intermediate Time Installations, Course Markers, Pit Stop Boxes, Inflatables

Distance markers

On the “distance markers” the following information is allowed:

- The indication of the distance / km status

Intermediate time installations

On the “Intermediate time installation” the following advertising/information is allowed:

- Indication of the distance / km stand
- Identification of the FIS Series data/timing partner
- Identification of the FIS Cup Series title presenting sponsor
- Identification of the FIS Cup Series presenting sponsor
- Identification of the NSA

One banner position can be linked to the intermediate time installation (see 4.1.2 b above).

Course markers

To mark the cross-country course clearly, course markers must be placed in the stadium and along the course (average size of course marker: 30 x 50 cm).

Inflatables

Inflatable advertising (such as balloons) can only be considered if the following are observed:

Total size

- On course: Max. height is 6 m and max. width is 5 m
- In the finish area: Max. height is 5 m and max. width is 5 m

Position

This advertising must be placed no closer than 5 m from the course in consultation with the FIS Race Director and the host broadcaster in co-operation with the Organiser. Placing adjacent to the start and at the finish line is not allowed.

Furthermore, it is not allowed to place the inflatable on any podium within the range of the TV cameras.

Arch

If an arch is used over the course, it needs a minimum width of 9 m (measured on the inner side) and at least 3.2 m height (lower side from ground) in consultation with the FIS Race Director and the host broadcaster in co-operation with the Organiser.

Number

For Cross Country and Nordic Combined a maximum of 5 inflatables in the stadium, a maximum of 4 in the course for sprint races and a maximum of 6 in the course for distance races are allowed.

In the course the inflatables can be a supplement to the exclusive banner positions or an exclusive position itself.

6.1.4 Numbers on Thighs (Leg Bibs)

During Cross-Country competitions, a "bib" placed on the thighs of 10 cm x 13.5 cm has to be used to identify the athletes. The number has a size of minimum 4.5 cm. The maximum height of sponsor size is 7 cm.

6.2 Ski Jumping (Nordic Combined)

6.2.1 Starting Point

1. One name or other identification (excepting slogans) of the location, maximum height 30 cm
2. The FIS logo, maximum height 30 cm
3. An official FIS Cup Series title maximum height 30 cm
4. The name of a FIS Cup Series title / presenting sponsor, maximum height 8 cm, placed under the official title

5. Two sponsor identifications affixed to the wall of each side of the starting installation, 2x 50 cm x 50cm for one event sponsor and for the FIS Cup Partner
6. Two identifications for the data processing firm with a maximum height of 15 cm
7. On the starting beam two advertising boards of 12 cm height and 20 cm length are allowed for one NSA / Event sponsor to be positioned on either side of the athlete

Equipment Control Box/installation before the start, a unicolour cover on the box side (max. 1 x 2 m) that is in the view of the camera.

The advertising space on this cover is allocated as follows:

Series Cup logo: 1 position (50 cm x 28.5 cm)

Location logo: 1 position (50 cm x 28.5 cm)

6.2.2 Take-Off / In-Run

On the nose of the take-off the name of one sponsor shall be permitted, in letters not exceeding one metre in height.

Along the in-run, immediately after the starting point, one advertising board of 2 m in length and 50 cm in height is allowed for an NSA / Event sponsor within the guardrail. If the board is positioned outside the guardrail the size can be 3 m in length and 80 cm in height. Two banners can be positioned along the in-run at the in-run radius. Each 150 cm in length and 50 cm in height with one for the Title / Presenting Sponsor and one for the NSA.

To ensure identification of distance, markings may be placed at 90 m, 100 m, 110 m and 120 m.

- Height: 90 cm
- Width: 75 cm
- Height of numbers showing the distance: 40 cm
- Height of advertising space for FIS Series title or presenting sponsor and a competition sponsor 15 cm

6.2.3 Function Buildings

There may be up to four advertising boards/banners affixed to the function buildings subject to the following conditions:

- a) Their measurements may not exceed eight metres in width and one metre in height
- b) One advertising banner is reserved (on the trainers' stand or judges' tower) for the FIS Series Cup title and one for the FIS data/partner.

6.2.4 Outrun

The outrun starts at the end of the landing area and must be similar to a stadium and, advertising shall be permitted therein, affixed to the safety barriers only, and must not obstruct a clear view of the competitors for spectators and television cameras.

Maximum size of the finish area and/or stadium banners is 6 m x 1 m.

For safety reasons the use of rotating advertising banners and/or LED boards must be coordinated with the FIS Jury.

Advertising Boards / Platinum Circle

In addition to the banners billboards with ads / sponsor marking in the size of about 100 cm x 100 cm may be placed between the banners depending on the technical layout.

An advertising board (long, narrow) may be placed above the banners with a maximum height of 30 cm either behind the safety barrier or the padding. On such boards a maximum of 6 different sponsors may appear with a total length of at least 12 m either on a repeated sequence or with the logo of the sponsor. Both advertising possibilities i.e. boards or "platinum circle" belong to the National Ski Association.

Outrun Advertising

In the outrun the following is permitted and the material used must conform to safety specifications.

The placement has to be made in good time and in close co-ordination with the FIS Marketing respectively the FIS Race Director.

Size of Advertising

The space cannot be larger than 4 m x 4 m

Design of Advertising

The design can include one of the following:

- Ski Club logo, logo of the National Ski Association
- One NSA / Event sponsor of the respective National Ski Association
- FIS Logo with the FIS Series Cup title

Exit gate

The configuration of the Finish Area must conform to safety requirements and the advertising must represent an attractive, design.

On the exit gate the following may appear:

- Identification (except slogans) of the locality/region
- FIS logo
- The FIS Cup Series title of the event
- The name or other identification of the FIS Cup Series sponsor
- The official FIS Cup logo
- NSA / Event sponsor

Any design and colour changes have to be approved by the FIS.

Inflatables

Inflatables (such as balloons) can only be considered if the following conditions are observed:

Total size

Max. height is 6 m and max. width is 5 m.

Position

This advertising may be placed no closer than 5 m from the ski jumping hill inrun and in consultation with the FIS Race Director and the host broadcaster in co-operation with the Organiser. Furthermore, it is not allowed to place the inflatable on any podium within the range of the TV cameras.

Number

Inflatables within the range of the TV cameras are restricted to a maximum of 5 per competition at Ski Jumping events.

Special advertising means

Special advertising can only be considered if the following conditions are observed:

Total size

In open venues with wide area behind the outrun boundary a max. height of 1.7 m and a max. width of 17 m is permitted.

In closed venues with arena character, tribune and installations around the outrun boundary a max. height of 1.4 m and a max. width of 14 m is permitted.

Position

This advertising may be placed no closer than 10 m from the ski jumping hill inrun but not in the outrun surrounding. Placement of advertising needs to be done in consultation with the FIS Race Director, the host broadcaster and needs the approval of the Organiser and its National Ski Association.

Number

One special advertising means is permitted. The right is owned by the respective National Ski Association.

6.2.5 Other Elements

Start order flag of the trainer(s)

Use

- Owner and user of the advertising space is the respective National Ski Association
- The size of this flag should be fixed, e.g. 30 cm length and 20 cm width (Din A4)

Design possibilities

- On one side the emblem/logo of the NSA and on the other side a sponsor logo, e.g. team sponsor of the Ski Jumping team of the respective NSA
- Or two times the national logo or the logo of the NSA

The rights for this advertising possibility belong to the National Ski Association.

APPENDIX NORDIC COMBINED:

On-Screen Identifications (TV Inserts)

This document provides details about regulations for injection of the identification for appointed timing & data provider(s) into the broadcast signal and which have been accepted by the FIS. The Organiser undertakes not to permit any other injection into the broadcast signal of the event.

1. On-screen identification means only visual display of the company`s name/logo. There may be no dedicated visual or audio effects and/or references to an online domain or address included in this identification. On-screen identifications will be authorized only for companies whose principal activities include the provision of the equipment used (hardware) and/or the service (software) ("the Company (ies)"). The identification shall be in the form as described in this document.
2. No other on-screen identification other than for the appointed Timing & Data provider(s) may be transmitted at the same time as the appearance on-screen of timing and/or data processing information.
3. Injection/display requirements:
 - a) The identification of the timing service provider shall appear on-screen only at the same moment as information regarding a competitor's time at the finish and/or any other usually accepted moment (e.g. intermediate time) appears.
 - b) The identification of the data service provider shall appear on-screen only with the display of the data provided by such provider.

The identification of the timing or data service provider on the television screen (signal injection) shall be as follows:

Timing: maximum of 4 seconds per identification
Amount: see below "FIS TV Insert Cross-Country/Ski Jumping"

Data: maximum of 6 seconds per identification
Amount: see below "FIS TV Insert Cross-Country/Ski Jumping"

4. Size and position of identifications
 - a) The height of the letters of the identification of the timing & data service provider(s) must not exceed the maximum height of the letters or numbers used for the broadcast display of data.
 - b) Identification of the logo on-screen shall be via a static graphic. Notwithstanding this, it shall be permitted for such logo to appear and disappear on screen by zooming "in" and "out". No other movement of the logo, in particular any movement across the screen, shall be permitted.

- c) The maximum height of television lines for the identification of any timing & data service provider shall be fixed at 23 pixels for productions in SD (1024 x 576 pixels) and at 44 pixels for productions in HD (1920 x 1080 pixels). The identification shall appear either at the bottom in the centre of the screen and below the data display or alternatively in a central position to the right-hand side of the data display.

5. Wording of identifications

The timing & data service provider(s) shall be identified either by its usual trading name which may be in the font of a trademark protected word and, if requested by the provider(s), the use of either of the following additional words:

- a) for timing provider(s): "timing"
- b) for data processing provider(s): "computer" or "data"

FIS TV Inserts Cross-Country – FIS Nordic Combined World Cup / FIS World Championships
