202 FIS Calendar

202.1 Candidature and Announcement

202.1.1 Each National Ski Association is entitled to present its candidature for the organising of the FIS World Ski Championships in accordance with the published “Rules for the Organisation of World Championships”

202.1.2 For all other competitions, the registrations for inclusion in the International Ski Calendar have to be made to FIS by the National Ski Association according to the Rules for the FIS Calendar Conference published by the FIS.

202.1.2.1 The applications of the National Ski Associations (NSA) are entered by using the FIS Calendar program in the members section of the FIS website: www.fis-ski.com by 31st August (31st May for the Southern Hemisphere).

202.1.2.2 Allocation of competitions

Allocation of the competitions to the National Ski Associations is made through the electronic communication process between FIS and the National Ski Associations. In the case of FIS World Cup competitions, the calendars are subject to the approval of the Council, on proposal of the respective Technical Committee.

202.1.2.3 Homologations

Competitions that appear in the FIS Calendar may only take place on competition courses or jumping hills homologated by the FIS.

The homologation certificate number must be indicated when applying for the inclusion of competition in the FIS Calendar. In a number of Snowboard, Freestyle Skiing, Free Ski disciplines and events the course or facility is built up for each competition that therefore does not have a permanent homologation. The course or facility approval process is therefore defined in the respective rules.

202.1.2.4 Publication of the FIS Calendar

The FIS calendar is published by FIS on the FIS website www.fis-ski.com. It will be updated to reflect cancellations, postponements and other changes continuously by FIS.

202.1.2.5 Postponements

In case of the postponement of a competition listed in the FIS Calendar, the FIS has to be informed immediately and a new invitation must be sent to the

National Ski Associations, otherwise the competition cannot be considered for FIS points.

202.1.2.6 Calendar Fees

In addition to the annual subscription, a calendar fee is set by the FIS Congress and is due for each year and for each event listed in the FIS Calendar. For additional events, a 50% surcharge will be made in addition to the regular calendar fee for applications submitted 30 days before the date of the competition. The calendar fee for a competition that has to be rescheduled remains the responsibility for payment in full of the original organising National Ski Association.

At the beginning of the season, each NSA will receive an invoice for 70 % of its total invoice from the previous season. This amount will be debited from its FIS account. At the end of the season each NSA will receive a detailed invoice for all registered competitions during the season. The balance will be subsequently debited or credited to the NSA account at FIS.

202.1.3 *Appointment of Race Organiser*

In the event that the National Ski Association appoints a race organiser, such as an affiliated ski club, it shall do so using the form "Registration Form National Ski Association and Organiser" or by means of a similar written agreement. An application by a National Ski Association for inclusion of an event on the International Ski Calendar shall mean that the necessary agreement to organise the event has been established.

202.2 **Organisation of Races in other Countries**

Competitions which are organised by other National Ski Associations may only be included in the FIS Calendar when the National Ski Association of the country concerned where the competitions will be organised gives its approval.

203 **Licence to participate in FIS Races (FIS Licence)**

A licence to participate in FIS races is issued by a National Ski Association to competitors who fulfil the criteria for participation through registering the competitor with FIS in the respective discipline(s).

203.1 The FIS licence year begins on July 1st and finishes on June 30th of the following year.

203.2 To be eligible for participation in FIS events, competitors must have a licence issued by their National Ski Association. Such a licence shall be valid in the Northern and Southern hemispheres for the licence year only. The validity of

a licence can be limited to participation in one specific country or in one or more specific events.

203.2.1 The National Ski Association must guarantee that all competitors registered with a FIS License to participate in FIS races accept the Rules of the International Ski Federation, in particular the provision which foresees the exclusive competence of the Court of Arbitration for Sport as the court of appeal in doping cases.

203.3 A National Ski Association may only issue a FIS licence to participate in FIS races when competitors have proven their nationality and therefore eligibility by submitting a copy of their passport and signed the [Athletes Declaration](#) in the form approved by the FIS Council and returned it to their National Ski Association. All forms from under-age applicants must be counter signed by their legal guardians. Both the copy of the passport and signed Athletes Declaration must be made available to FIS on request.

203.4 During the FIS licence year, a competitor may only participate in International FIS competitions with a FIS licence to participate in FIS races issued by one National Ski Association.

203.5 Application for a change of FIS Licence Registration

All applications to change licence registration from one member National Ski Association to another are subject to consideration by the FIS Council at its Meetings in the spring (applications may only be submitted by 1st May each year). In principle an application to change licence registration will not be granted unless competitors demonstrate their personal association with the new nation.

Prior to submitting an application to change licence registration, competitors must possess the citizenship and passport of the country for which they wish to compete. In addition, competitors must have had their principal legal and effective place of residence in the new country for a minimum of two (2) years immediately prior to the date of the request to change registration to the new country/National Ski Association. An exception to the two year residency rule may be waived if the competitor was born in the territory of the new country, or whose mother or father is a national of the new country. Applications will not be accepted if a parent has obtained a passport for the new country, but is not resident, and/or there is no family ancestry.

Furthermore, competitors are required to submit a detailed explanation with the application about their personal circumstances and the reason for requesting a change of licence registration.

203.5.1 If competitors have already participated in FIS calendar events for a National Ski Association, they must have the written agreement to be released from the former National Ski Association in addition to the citizenship, passport and residency requirements in art.203.5 before the new National Ski Association may submit a request to FIS for a change of registration.

If such a written agreement is not given, competitors may not participate in any FIS calendar events for a period of twelve months from the end of the last season in which they competed for their present National Ski Association, nor may they be issued with a licence to participate in FIS races by the new National Ski Association.

These rules are also valid when a competitor has more than one nationality and would like to change National Ski Association licence registration.

- 203.5.2 The FIS Council reserves the right in its absolute discretion, to grant or to decline to grant, a change of licence notwithstanding the fulfilment of the aforementioned conditions where it deems it is contrary to the spirit of the rule and in the best interests of the International Ski Federation to do so (e.g. to decline to grant a change of licence if a member National Ski Association tries to “import” a competitor).
- 203.5.3 In the event that a competitor does not fulfil all the criteria required to apply for a change of National Ski Association licence registration, the onus shall be on the competitor to demonstrate in writing to the satisfaction of the FIS Council that exceptional circumstances exist and it is in the best interests of the International Ski Federation to grant the change.
- 203.5.4 Competitors will retain their FIS points if they change their National Ski Association under the condition that the former National Ski Association granted the release of the competitor.
- 203.5.5 In the event that any of the documents for an application to change licence registration submitted by the National Ski Association (letter of release from the former National Ski Association, passport, residency papers) are found to be false, the FIS Council will sanction the competitor and the new National Ski Association.

204 Qualification of Competitors

- 204.1 A National Ski Association shall not support or recognize within its structure, nor shall it issue a license to participate in FIS or national races to competitors who:
- 204.1.1 have conducted themselves in an improper or unsportsmanlike manner or has not respected the FIS medical code or anti-doping rules,

 - 204.1.5.1 the competition is approved by the FIS Council, is directly controlled by the FIS or by a National Ski Association, and the competition is announced "open",
 - 204.1.6 have not signed the [Athletes Declaration](#),
 - 204.1.7 are under suspension.

FIS encourages all member nations to develop policies to safeguard and promote the welfare of children and young persons.

- 205.1 The competitors are obliged to make themselves familiar with the appropriate FIS Rules and must comply with the additional instructions of the Jury. Competitors must also follow the FIS rules regulations.

Competitors, trainers, team officials and technical officials are prohibited from betting on the outcome of competitions in which they are involved. Reference is made to the [FIS Rules on the Prevention of the Manipulation of Competitions](#).

206 Advertising and Sponsorship

In the context of this rule advertising is considered as the presentation, of signage or other visibility at the venue informing the public of the name of a product or service to achieve awareness of a company or an organisation and its brand name, activities, products or service. On the other hand Sponsorship provides a company with the opportunity to have a direct association with the competition or series of events.

206.1 Olympic Winter Games, Paralympic Winter Games and FIS World Championships

All Advertising and Sponsorship rights to the Olympic Winter Games, Paralympic Winter Games and FIS World Championships belong to the IOC, IPC and to the FIS respectively and are subject to separate contractual arrangements.

206.2 FIS Events

For all FIS Events the FIS Advertising Rules define the advertising opportunities in the competition area and are subject to the approval of the FIS Council. For the FIS World Cup Events the FIS Advertising Rules form an integral part of the FIS Organisers Agreement with the National Ski Associations and Organisers.

206.3 Member National Ski Associations

Each FIS affiliated National Ski Association that organises events in its country which are included in the FIS calendars, has the authority as the owner of the event advertising rights to enter into contracts for their sale. In the case of FIS World Cup competitions these rights shall be defined in the Organiser Agreement upon approval of the FIS Council and considering the National Ski Associations responsibilities. In cases where a National Ski Association organises events outside its own country these FIS Advertising rules also apply.

206.4 Title and Presenting Sponsorship Rights

In the case of FIS series approved by the FIS Council, FIS markets the rights of the title/presenting sponsor (alternative naming possible) package. For the FIS World Cup series these are marketed to appropriate sponsors that promote the image and values of the discipline concerned. The revenue generated from the sale of the title/presenting sponsor rights is invested by FIS to provide a professional organisation.

206.5 Use of Markings and supports

All Advertising and commercial markings and supports used shall comply with the technical specifications set forth in the applicable FIS Advertising Rules.

206.6 Advertising Packages

Location, number, size and form of the advertising are specified in the FIS Advertising Rules for each discipline. Each FIS affiliated National Ski Association that organises events in its country which are included in the annual FIS calendars, has the authority as the owner of the electronic media rights to enter into contracts for the sale of the electronic media rights on those events. In cases where a National Ski Association organises events outside its own country, these rules also apply, subject to bilateral agreement with the National Ski Association of the country where the event takes place.

208.1.3 Promotion

Contracts shall be prepared in consultation with the FIS with the intention of giving the widest promotion and exposure to the sports of skiing and snowboarding and considering the best interests of the National Ski Associations.

208.1.4 Access to events

208.1.5 Control by the FIS Council

The FIS Council exercises control over the adherence to the principles of this Rule by National Ski Associations and all organisers. Should a contract or individual clauses thereof, create a major conflict of interest for the FIS, a member National Ski Association or its organiser, then this will be evaluated by the FIS Council. Full information will be provided so that the appropriate solution can be found.

208.2

Definitions

In the context of this rule the following definitions will apply:

208.3

Television

208.3.1

Standard of production and promotion of competitions

In the agreements concerning production with a TV organisation or agency acting as host broadcaster, the quality of TV transmissions for ski and snowboard events published in the FIS Calendar – especially for FIS World Cup competitions – must be considered. Of particular importance, while taking into consideration applicable national laws and rules affecting broadcasting, are:

- a) Top quality and optimal production of a TV signal (for live or deferred transmission depending on the event) in which sport is the centrepiece;
- b) Adequate consideration and appearance of venue advertising and event sponsors;
- c) A standard of production in conformity with the FIS TV Production Guidelines and appropriate to current market conditions for the discipline and to the level of the FIS competition series. This means live coverage of the entire event including the winner presentation for live transmission (unless circumstances determine that a live production is not provided). This coverage shall be produced in a neutral way, shall not concentrate on any athlete or nation and shall show all competitors
- d) The live international signal of the host broadcaster must include appropriate graphics in English, particularly the official FIS logo, timing and data information and results, and international sound.

- e) Where it is appropriate to the individual TV market, there should be live TV transmission in the country where the event takes place and in other countries with a high interest.

208.3.2 *Production and Technical costs*

Except when otherwise agreed between the National Ski Association and the agency/company managing the rights, the cost of producing the television signal for the exploitation of the different rights will be borne by the broadcaster having acquired the rights in the country where the competition takes place or a production company mandated to produce the signal by the company owning the rights. In certain cases, the organiser or the National Ski Association may assume these costs.

For each of the different rights granted under this rule the technical expenses that are to be paid for by those organisations that have acquired the rights and which are seeking to access the television signal (original picture and sound without commentary), have to be agreed between the producing company or the agency/company managing the rights, as applicable. This also applies to any other production costs that may be requested.

208.3.3 *Short extracts*

Short extracts granting news access for non-rights holders are to be provided to television companies according to the following rules. It is noted that in a number of countries national legislation governs the showing of short extracts in news programmes.

These extracts may only be used in regularly scheduled news programmes and cannot be kept for archive purposes

- a) In those countries where legislation exists regarding news access to sporting events then this legislation will always hold precedence for reporting on FIS events.
- b) In those countries where no legislation exists regarding news access by competing networks and provided that agreements between the company managing the rights and the primary rights holder take precedence then short extracts of a maximum of 90 seconds news access will be granted to competing networks by the agency/company managing the rights for transmission four hours after the rights holding network has shown the competition. The use of this material will cease 48 hours after the end of the competition. If the rights holding network delays its transmissions by more than 72 hours from the end of the competition, then competing networks can show extracts of a maximum of 45 seconds commencing 48 hours after and ending 72 hours after the event itself. Any request to exploit short extracts shall be addressed to the agency/company managing the rights which shall grant to the broadcasters access to the short extracts subject to agreement regarding the technical costs incurred to receive the material.

- c) In those countries where no transmission rights have been purchased by a television company, all television organisations will be able to transmit short extracts of 45 seconds as soon as the material is available, subject to agreement with the agency/company managing the rights regarding the technical costs to be incurred to receive the material. Permission for the use of this material will expire after 48 hours.
- d) Short extracts will be produced by the host broadcaster or the agency/company managing the rights and distributed by that agency/company, taking into consideration art.208.3.2 above.

208.4 Radio

The promotion of FIS events through radio programmes will be encouraged by making available accreditation to the principle radio station(s) in each interested country. Access to the venue will be granted solely to those radio organisations that have obtained the necessary contractual authorisation from the rights holder, and will be only for the production of radio (audio) programmes. If accepted by national practice and the authorisation is granted, these programmes can also be distributed on the internet site of the radio station.

208.5 Internet

Unless the contract for the sale of the Electronic Media Rights on FIS events states otherwise, each television rights holder that also acquires the internet rights, will ensure that video streams from its website other than short extracts are geoblocked against access from outside its own territory. Regularly scheduled news bulletins containing material of FIS events may be streamed on the rights holding broadcaster's website, provided no changes are made to the bulletin as transmitted in the original programme.

Video and audio material produced in public areas where accreditation, tickets or other permissions are not required to gain access must not contain race footage. It is recognised that new technology provides members of the public with the possibility to produce unauthorised video recordings that may be posted on websites. Appropriate information advising that the unauthorised production and use of video material is prohibited and that legal proceeding could be taken, will be shown at all entrances and printed on entrance tickets. All National Ski Associations and the rights holders/agencies will give permission for short extracts to be placed on the FIS website for non-commercial use subject to the following conditions:

- a) When short extracts have not been acquired for Internet distribution the maximum duration of the news material from FIS competitions will be 30 seconds per discipline/per session and will be accessible on the FIS website until 48 hours after the end of the competition. The financial conditions relating to the provision of this material will be agreed between the FIS and the rights owner.

- b) The material will be provided by the rights owner or host broadcaster as soon as possible, but at the latest six hours after the end of the competition.

208.6 Mobile and portable devices

In the cases where the rights for distribution by mobile and portable devices have been awarded, the rights purchaser/operator will be free to produce from the television signal the content it considers best meets the needs of its customers. Any live streaming of television programmes on a national basis using these devices shall not be altered from that available through other distribution channels.

In countries where no mobile distribution rights have been sold, short extracts or clips of a maximum duration of 20 seconds will be offered to operators when the material has been produced and for a period of 48 hours on the condition that the operators pay all related technical costs to the agency/company managing the rights.

208.7 Future developments

The principles contained in this Rule 208 shall be the basis for the exploitation of Electronic Media Rights to FIS events in the future. The FIS Council, on the recommendation of the National Ski Associations, the relevant commissions and experts, will establish the conditions considered appropriate to each new development.

209 Film Rights

All agreements regarding film productions of FIS competitions will be between the film producer and the National Ski Association or the company managing the related rights. All contractual arrangements regarding the exploitation of other media rights will be respected.

210 Organisation of Competition

211 The Organisation

211.1 The Organiser

211.1.1 The Organiser of a FIS competition is the person or group of persons who make the necessary preparations and directly carry out the running of the competition in the resort.

211.1.2 If the National Ski Association itself is not the competition organiser, it may appoint an affiliated club to be the organiser.

211.1.3 The organiser must ensure that accredited persons accept the regulations regarding the competition rules and Jury decisions, and in World Cup races

the organiser is obliged to obtain the signature of all persons who do not have a valid FIS season accreditation to this effect.

211.2 The Organising Committee

The Organising Committee consists of those members (physical or legal) who are delegated by the organiser and by the FIS. It carries the rights, duties and obligations of the organiser.

211.3 Organisers which hold competitions involving competitors not qualified under art. 203 - 204 have violated the International Competition Rules and measures are to be taken against them by the FIS Council.

212 Insurance

212.1.1 The organiser must take out liability insurance for all members of the Organising Committee. The FIS shall provide its employees and appointed officials, who are not members of the Organising Committee (e.g. equipment controller, medical supervisor, etc.), with liability insurance when they are acting on behalf of the FIS.

212.1.2 Before the first training day or competition, the organiser must be in possession of a binder or cover notes issued by a recognised insurance company and present it to the Technical Delegate. The Organising Committee requires liability insurance with coverage of at least CHF 1 million; whereby it is recommended that this sum is at least CHF 3 million; this sum can be increased according to decisions of the FIS Council (World Cup etc.).

Additionally, the policy must explicitly include liability insurance claims by any accredited participant, including competitors, against any other participant including but not limited to officials, course workers, coaches, etc.

212.1.3 All competitors participating in FIS events must carry accident insurance, in sufficient amounts to cover accident, transport and rescue costs including race risks as well as an appropriate third-party liability insurance. The National Associations are responsible for adequate insurance coverage of all their competitors sent and inscribed by them.

The National Ski Association or their competitors must be able to show proof of the respective insurance coverage at any time on request of the FIS, one of its representatives or the organising committee.

212.1.4 All trainers and officials inscribed and sent to FIS events by a National Association must carry accident and third-party liability insurance, in sufficient amounts to cover accident, transport and rescue costs from damages caused. The National Ski Association or their trainers and officials must be able to show proof of the respective insurance coverage at any time on request of the FIS, one of its representatives or the organising committee.

- 214.3 Postponements or cancellations of competitions and programme alterations must be communicated immediately by telephone, e-mail or telefax to the FIS,

all invited or entered National Ski Associations and the appointed TD. Competitions moved to an earlier date must be approved by the FIS.

- 215.1 All entries must be sent so that the Organising Committee receives them before the final date of entry. The organisers must have a final and complete list not later than 24 hours before the first draw.
- 215.2 National Ski Associations are not permitted to enter and draw the same competitors in more than one competition on the same date.

217.4 Representatives of all the nations taking part must be invited to the draw.

217.5 If a competition has to be postponed by at least one day, the draw must be done again.

218 Creation and Distribution of Digital Content

218.1 Introduction

Information and data are an essential part of understanding and presenting sport, both as a means of measuring and reporting on athletic performance and communicating and promoting sport to the public. FIS, as the international body governing the sports of Skiing and Snowboarding, and with the cooperation of its National Ski Associations, is entrusted for the development, management and accuracy of data related to their common activities.

As an important part of the promotion of Skiing and Snowboarding, FIS encourages National Ski Associations to provide their members, stakeholders and fans with data and information related to FIS activities.

All National Ski Associations are encouraged to provide general information relating to the events and competitions on the FIS calendar, for use by interested parties,

The purpose of this Rule is to define digital content and identify how it can be exploited.

218.2 Definition of Digital Content

Digital Content shall mean all information related to FIS activities, which is made available in a digital form.

Digital Content is comprised of two elements:

- basic written digital content that is freely available, in the public domain and can be used without restriction. This includes documentary archives, reports, rules, official calendars, start and results lists including names of competitors, competition and venue information, running orders, statistics, rankings and standings and information regarding weather conditions, and
- specialist digital content which includes real time information provided by the Official Data and Timing Providers, athlete biographical information and performance data, event and other related content produced by stakeholders, including content on the social media sites of athletes, sponsors and officials

Also included are all video archives for which exploitation rights are available.

Digital content includes all formats, together with any graphical, textual, video or other representations of such data, information and statistics.

218.3 Ownership of Digital Content

The ownership of digital content is determined by the relevant permissions and the contractual relationship, if any, under which such content has been produced and the conditions to be applied for its exploitation.

218.4 Use of Specialist Digital Content

The development of digital technology has made it possible for the consumer to have instant access to specialist digital content that enhances the viewing experience and interest in sport.

Access to moving pictures can stimulate interest in FIS competitions, and the inclusion of live timing and data feeds adds to the attraction of any video production. Use of the live timing and data feeds on World Cup and World Championships competitions is subject to obtaining the agreement of the owner of these feeds.

218.5 Access to Specialist Digital Content

Each party seeking to access specialist digital content must find an agreement with the owner/rights holder of the digital content and defining the terms and conditions under which this content can be used. In all cases, and particularly with regard to personal data, a strict adherence to the GDPR or other equivalent law or regulation must be enforced.

The FIS shall advise anyone seeking to use specialist digital content, the name of the owner/rights holder and provide contact numbers.

Should individual owners/rights holders of specialist digital content consider it appropriate, their content could be bundled and offered centrally to the market using the FIS as their representative.

218.6 Review

In view of constant change and development in technology this rule will be kept under constant review and when appropriate updated on a regular basis

219 Prizes

219.1 The detailed rules concerning the awarding of prizes will be published by the FIS. Prizes shall consist of mementos, diplomas, cheques or cash. Prizes for records are forbidden. The FIS Council decides in the autumn on the minimum respectively maximum values of the prize money approximately one and a half years before the competition season. The organisers have to inform the FIS by October 15th of the amount.

219.2 If two or more competitors finish with the same time or receive the same points, they shall be given the same placing. They will be awarded the same prizes, titles or diplomas. The allocation of titles or prizes by drawing lots or by another competition is not allowed.

219.3 All prizes are to be awarded no later than the final day of a competition or event series.

220 Team Officials, Coaches, Service Personnel, Suppliers and Firms' Representatives

In principle these regulations apply to all disciplines, taking into consideration the special rules.

220.1 The Organising Committee of an event must provide the Technical Delegate with a list of persons accredited to the competition.

220.2 It is forbidden for suppliers and for persons in their service to advertise inside the restricted area or to wear clearly visible commercial markings on their clothing or equipment which do not conform with art. 207.

220.3 Team officials accredited service personnel and suppliers receive from the FIS an official FIS accreditation in the Event concerned and must perform their

specified function. The individual organisers are free to accredit additional company representatives or other important persons.

220.4 Only persons who have the official FIS accreditation or a special accreditation from the organiser for course or jumping-hill have access to the courses and jumping-hills (according to special rules of the discipline).

220.5 The Different Types of Accreditation

220.5.1 Technical Delegates, the Jury, and the persons mentioned in art. 220 with clearly visible accreditation have access to the courses and jumping-hills.

220.5.2 Servicemen attached to teams are permitted entry to start area and service area at the finish. They are not allowed entry to the courses or jumping-hills.

220.5.3 Company representatives accredited at the discretion of the organisers who do not have FIS accreditation are not permitted entry to the courses and restricted service areas.

221 Medical Services, Examinations and Doping

221.1 National Ski Associations are responsible for the fitness of their competitors to race. All competitors, male and female are required to undergo a thorough evaluation of their medical health. This evaluation is to be conducted within the competitor's own nation.

221.2 If requested by the FIS Medical Committee or its representative, competitors must undergo a medical examination before or after the competition.

221.3 Doping is forbidden. Any offence under these FIS Anti-Doping Rules will be punished under the provisions of the [FIS Anti-Doping Rules](#).

221.4 Doping controls may be carried out at any FIS competition (as well as out of competition). Rules and procedures are published in the [FIS Anti-Doping Rules and FIS Procedural Guidelines](#).

221.5 Gender of the Competitor

If any question or Protest arises as to the gender of the competitor, FIS shall assume responsibility for taking the necessary steps to determine the gender of the competitor.

221.6 Medical Services Required from Event Organisers

The health and safety of all those involved in a FIS competition is a primary concern of all event Organisers. This includes the competitors as well as volunteers, course workers and spectators.

The specific composition of the medical support system is dependent on several variables:

- The size, level, type of the event being held (World Championships, World Cup, Continental Cup, FIS-level, etc.) together with the local medical standards of care and geographic locations and circumstances.
- The estimated number of competitors, support staff and spectators
- The scope of responsibility for the Event Medical Organisation (competitors, support staff, spectators) should also be determined.

The Organiser / The Chief of Medical and Rescue Services must confirm with the race director or technical delegate that the required rescue facilities are in place before starting the official training or competition. In the event of an incident, or issue that prevents the primary medical plan from being utilized, the back-up plan must be in place before recommencing the official training or competition.

The specific requirements concerning facilities, resources, personnel and team physicians are contained in the respective discipline rules and the [FIS Medical Guide](#).

222 Competition Equipment

222.1 A competitor may only take part in a FIS competition with equipment which conforms to the FIS Regulations. Competitors are responsible for the equipment that they use (skis, snowboard, bindings, ski boots, suit, etc). It is their duty to check that the equipment they use conforms to the FIS specifications and general safety requirements and is in working order.

222.2 The term competition equipment encompasses all items of equipment which the competitor uses in competitions. This includes clothing as well as apparatus with technical functions. The entire competition equipment forms a functional unit.

222.3 All new developments in the field of competition equipment must be approved in principle by the FIS.

The FIS does not take any responsibility for the approval of new technical developments, which at the time of introduction may contain unknown risk to the health or cause an increase in the risk of accidents.

222.4 New developments must be submitted by May 1st, (Grass Ski August 1st) at the latest, for the following season. The first year new developments can only

be approved provisionally for the following season and must be finally confirmed prior to the subsequent competition season.

222.5 The Committee for Competition Equipment publishes equipment by-laws after approval by the FIS Council (definitions or descriptions of the equipment items which are allowed).

In principle unnatural or artificial aids which modify the performance of the competitors and/or constitute a technical correction of the individual's physical predisposition to a defective performance, as well as competition equipment which impact the health of the competitors or increase the risk of accidents are to be excluded. This article does not apply to Para athletes.

222.6 Controls

Before and during the competition season or on submission of Protests to the Technical Delegate at the competition concerned, various controls can be carried out by members of the Committee for Competition Equipment or official FIS Equipment Controllers. Should there be a well-founded suspicion that regulations were violated, the equipment items must be confiscated immediately by the controllers or Technical Delegates in the presence of witnesses and be forwarded sealed to the FIS, which will submit the items to a final control by an officially recognised institution. In cases of Protest against items of the competition equipment, the losing party will bear the investigation costs.

No testing of equipment or material in independent laboratories may be requested at races where a FIS Technical Expert has performed the controls, unless it can be demonstrated that the controls have not been carried out according to the rules.

222.6.1 At all FIS events where official FIS measurement experts using the official FIS measurement tools are appointed, the result of measurements carried out at the time are valid and final, irrespective of previous measurements.

222.7 Prohibited of scientific and medical Equipment at FIS Events

It is prohibited for any National Ski Association, its representative or team members to bring and/or use any of the following scientific or medical equipment ("Equipment") into/at any Event Venue during FIS World Championships, World Cups and other competitions registered in the FIS Calendar:

- Oxygen tanks, cylinders and related devices;
- Hypoxic or hyperoxic tents, chambers and related devices;
- Cryogenic chambers for whole body cryotherapy and related devices.

It is the responsibility of the National Ski Association to ensure compliance with this Article 222.7 by all its representatives or team members. Failure to

respect this Article 222.7 will be subject to Penalties provided by Article 223.3. In case of recurrence, disqualification of an athlete shall be imposed irrespectively of whether the violation of this provision would result in an advantage for the Athlete(s) with regard to the end result of the competition. In addition to the sanctions listed above, the FIS may order the immediate removal of the Equipment from the Event Venue at the costs of the responsible NSA.

222.8 Fluorinated ski wax prohibition

Use of fluorinated wax or tuning products containing fluorine is prohibited for all FIS disciplines and levels.

Fluorinated wax can be a competitive advantage and its use in competition will result in disqualification (see competition rules and equipment specifications).

1306.6 Duties of the course setter

In order to set the course appropriately, respecting the terrain, the snow cover and the ability of the participating competitors, the course setter conducts a pre-inspection of the race terrain in the presence of the TD, the Referee, the Chief of Race, and the chief of course.

The Course Setters must participate in all TCMs at which a report is to be made about his course.

1307 Forerunners

The organiser is obliged to provide at least three forerunners who have signed the FIS Athletes Declaration. The forerunner is a member of the Organising Committee. The forerunners should participate in all training runs. In extraordinary conditions, the Jury may increase the number of forerunners.

The Jury may designate different forerunners for each run.

The forerunners must wear forerunner's start numbers (bibs).

The nominated forerunners should have enough riding ability to cover the course in a racing manner.

Forerunners are not permitted to start in the competition.

The Jury determines the forerunners and their start order. After an interruption of the race additional forerunners may be authorised as necessary.

The times of the forerunners should not be published.

Upon request the forerunners must report to members of the Jury regarding the snow conditions, the visibility and the race line, as the case requires.

For timing all events in the FIS Calendar, electronic timers, start gates and photocells homologated by the FIS and approved by FIS must be used.

A list of these approved devices will be published. Races using timing equipment other than those on the homologated FIS list will not be considered for FIS points.

Timing procedures are as per FIS Freestyle Skiing/Snowboard Timing Booklet. <https://www.fis-ski.com/en/inside-fis/document-library/timing-data>

1309 Start and finish officials

1309.1 The Starter

The starter must synchronise their watch with those of the assistant starter and by telephone or radio with the chief timekeeper within ten minutes of the start. The starter is responsible for the warning signal and the start command as well as for the accuracy of the intervals between these signals. They assign the supervision of the competitors to the assistant starter.

1309.2 The Finish Controller

The finish controller has the following duties:

- Supervision of the section between the last gate and the finish
- Recording of the order of finishing of all racers who complete the course

1310 The Start

1310.1 The Start Area

The start area must be closed off to everyone except the starting competitors, accompanied by only one trainer and the start officials. The start area must be protected appropriately against inclement weather. A special roped off area must be provided for trainers, team captains, service personnel etc., in which they may take care of the waiting competitors without being interrupted by the public. An adequate shelter must be prepared for the competitors waiting for the call to start. Benches may be placed near the start gates to help the competitors in the preparations.

1310.2 The Start Ramp

The start ramp shall be prepared in such a way that the competitors can stand relaxed on the starting line and can quickly reach full speed after leaving the start. Push off posts will be installed on the starting installation for all FIS Para Snowboard events, the specifications will be adjusted to the needs of the specific event.

1310.3 Start Procedure

No official or attendant who could possibly give an advantage to or disturb the starting competitor may be behind him. All outside help is forbidden.

By order of the starter, the competitor must take his place behind the wand or start mechanism. The starter must not touch the competitor at the start. Pushing off from the start posts or other similar aids is allowed.

1310.4 Start Signals/Commands

For all single timed events (Snowboard Cross, Banked Slalom) the start signal is as follows:

Ten seconds before the start, the starter will tell each competitor »Ten Seconds«. Five seconds before the start, they shall count »5, 4, 3, 2, 1« and then give the start command »Go«.

If possible, an automatic audible signal is to be used. The starter will let the competitor see the start clock.

It is also possible to start by saying 'Rider Ready – Go'.

For Snowboard Cross Finals, Dual Banked Slalom and Team Events the start command is as follows:

"We are ready for the next Heat, proceed to the Start Gate". "Enter the Start Gate" (approximately 30 seconds before the start command).

„Riders ready – attention” – randomly 1–4 seconds before the doors open (this 1–4 seconds is up to the starter, or in the case of an electronic release device being used, the Starter beginning the random start sequence). During the final start command no coaching is permitted (no coaches present at the start device, no radio information from the course, etc.).

1310.5 Start timing

The start timing shall measure the exact time the competitor crosses the start line with his leg below the knee

1310.6 Delayed start

A competitor who is not ready to start on time will be sanctioned. The start referee may however excuse such a delay if, in his opinion the delay is due to "force majeure". For example, breakdown of a competitor's personal equipment or minor sickness of a competitor does not constitute "force majeure".

In case of doubt, the Jury may allow the start provisionally.

The start referee makes the decisions after consultation with the Jury and must record the start numbers and names of competitors who were not allowed to start because of late appearance, or who were allowed to start in spite of late appearance, or who were allowed to start provisionally.

1310.7 Valid start and false start

In competitions with a fixed start interval the competitor must start on the start signal. The start time is valid if it occurs within the following limits: 5 seconds before and 5 seconds after the official start time. A competitor who does not start within that space of time will be disqualified.

The start referee must inform the Referee of the start numbers and names of the competitors who made a false start or have contravened the starting rules.

1311 Course and competition

1311.1 Course Setting

1311.1.1 Assistance

Assistance must be provided for the course setter, at a time to be fixed by the Jury, so that they can concentrate on the actual course setting and not be distracted by fetching poles, etc.

The chief of course equipment must provide enough of the following:

- sufficient number of blue and red poles and stubbies
- a corresponding number of gate panels, divided by colours
- hammers, drills, gate-keys, wedges etc.
- colouring substance for marking the position of the poles

1311.1.2 Triangular banners position

All gates with triangular banners must be set in a right degree angle (90°) to the general fall line of the course.

1311.1.3 Marking of the gates

The positions of the gate poles may be marked with an easily recognisable colouring substance which remains visible throughout the entire race.

1311.1.4 Marking of the course and terrain

Coloured dye used vertically from gate to gate as well as horizontally across the course or the inside and/or outside of the racing line before and after the gate notably on the approaches indicating changes in terrain, jumps, etc.

1311.1.5 Spare Poles

The chief of course equipment is responsible for the availability and correct placing of enough spare poles. The poles are to be placed so that the competitors are not misled by them.

1311.1.6 Closing and Modification of the Course

A course is closed from the time the course setting begins. Nobody except for the Jury is permitted to change gates, gate panels, markings, etc. or modify the course structure (jumps, bumps, etc.) on a closed course. All changes should be announced to athletes and team captains at the start.

Competitors are not permitted to enter a closed competition course.

Trainers, servicemen etc., who are allowed on a closed competition course are to be decided by the Jury.

Photographers and camera teams are allowed into the closed course area for the necessary documentation of the competition. Their total number can be limited by the Jury. They will be located by the Jury where possible and must remain only in this area.

The Jury or the Organising Committee may close a course or sections of a course to competitors, trainers, media and service personnel outside of the actual competition or training times for preparation and maintenance purposes.

1311.1.7 Warm up Slope

Appropriate warm up slopes should be made available.

1312 Competition

1312.1 Passage of the Gates

A gate has been passed correctly when the competitor has both feet fixed in the bindings on the board and the entire board crosses the gate line. In case of a fall, the competitor must pass through the turning gate line.

The gate line in triangular banner Banked Slalom and Snowboard Cross is the extension of the line at the base of the long pole to past the turning pole which connects the two points at the base of the banner.

If a competitor removes a pole from its vertical position before the competitor's board and both feet have passed the gate line, the board and feet still must pass the original gate line (dye marking in the snow). If a gate pole or stubbie is missing the competitor is obligated to turn around the original placement mark to be considered as having passed the gate correctly.

1312.2 Interdiction to Continue after a Gate Fault

If a competitor misses a gate, they no longer have the right to pass through further gates and must exit the course as soon as possible. If a competitor fails to comply with this rule, they may be sanctioned by the Jury (art. 223). It will be presumed that a competitor was aware of their fault if the competitor passed two or more gates incorrectly or obviously deviated from one of the possible correct passages gate lines.

1312.3 Interdiction to continue after a full stop

Continuing in the course after a full stop is possible if the fault is resolved within 10 seconds or less.

1313 The Finish

1313.1 The Finish Area

The finish area must be plainly visible to the competitor approaching the finish. It must be wide, with a gently sloped smooth outrun. It must be prepared.

In setting the course with gates, particular attention shall be paid to directing competitors across the finish on a natural line adapted to the terrain.

1313.2 The finish area is to be completely fenced in. Any unauthorised entry must be prevented. Finish installations and closures should be set up or secured through suitable security protection measures.

1313.3 For competitors who have finished their runs, a special area, separated from the actual finish, is to be provided. In this area or corridor, it should be possible if applicable to make contact with the press (written and audio-visual).

1313.4 The Finish Line and its Markings

The finish line is marked by two posts or vertical banners which are connected by a horizontal banner.

In Snowboard Cross and Banked Slalom the finish must be no less than 10 m wide.

In exceptional cases, the Jury can decrease this distance for technical and security reasons or because of the terrain. The width of the finish is considered to be the distance between the two finish posts or banners. The timing supports must also be at least this far apart and are to be protected. The timing supports can usually be placed directly behind the finish posts or banners, on the downhill side. The finish line must be clearly marked horizontally with colouring substance.

1313.5 Crossing the finish line

The finish line must be crossed:

- with at least one foot attached to the board
- with both feet in case of a fall in the immediate finish area. In this case the time is taken when any part of the competitor's body or equipment stops the timekeeping system.
- in Snowboard Cross the competitor's place of finish is determined when any part of the body or snowboard crosses the finish line.

1314 Award ceremony

The OC will arrange the Award ceremonies in consultation with FIS.

1314.1 In the event an organizer chooses a flower or medal ceremony before the Protest time has expired, it will be at its own risk and responsibility.

1315 Starting order

1315.1 Subject to art 1315.3 the valid FIS points list for each discipline will be used to determine the starting order. The first group will consist of 16 athletes and can be reduced to eight if there are less than 30 athletes or such other number as determined by the Jury.

1315.2 For all events a random draw (manual or automatic) will determine the starting order for the first group. The starting order of the remaining athletes will be determined based on their respective FIS points. The order of all athletes without FIS points will be randomly drawn (manually or automatically) once the rest of the starting order has been determined.

1315.3 The Jury has the ability to change the start order.

1316 Start intervals

1316.1 Start Intervals in Para Snowboard Races

The start can take place in each discipline at variable intervals as determined by the Jury.

1317 Re-runs

A competitor who is hindered while competing by the error of an official, a spectator, an animal, or any other justifiable causes outside their control can apply to any member of the Jury for a provisional re-run immediately after the occurrence of the interference. This claim can also be made by the team captain of the hindered competitor. The competitor must leave the course immediately, or as soon as feasible after the interference, and must not continue riding further down the course but should make their way to the finish only on the side of the course. This Rule does not apply in Snowboard Cross Finals.

In special situations (e.g. in case of missing gates, failure of the timekeeping system or other technical failures), the Jury may order a rerun.

1317.1 Grounds of interference

1317.1.1 Blocking of the course by an official, a spectator, an animal or other obstruction.

1317.1.2 Blocking of the course by a fallen competitor who does not clear the course quickly enough.

1317.1.3 Objects in the course such as equipment of a previous competitor.

- 1317.1.4 Activities of the first aid service which obstruct the racer.
- 1317.1.5 Absence of a gate knocked down by a previous competitor that has not been promptly replaced.
- 1317.1.6 Other similar incidents beyond the will and control of the competitor, which cause significant loss of speed or a lengthening of the racing line and consequently affect the competitors' time.
- 1317.1.7 If an athlete misses a gate due to interference and clearly does not gain any advantage this action may not be considered as a DNF.

1317.2 Validity of a re-run

- 1317.2.1 If the Referee or another Jury member is unable to question the appropriate officials immediately or to judge the justification for the re-run they may grant a provisional re-run, to avoid delay for the competitor. This re-run will be valid only if it is subsequently confirmed by the Jury.
- 1317.2.2 If the competitor was already disqualified before the incident entitling him to a re-run, the re-run is not valid.
- 1317.2.3 The provisional or subsequently approved run remains valid even if it proves slower than the obstructed one
- 1317.2.4 If a competitor is stopped by a yellow flag in Snowboard Cross or Banked Slalom during his/her timed run, they/she has the right to request a provisional re-run, under the condition that the Jury considers this possible from an organisational point of view. The Jury should ensure that the competitor's provisional re-run takes place before the last competitor on the start list.

1317.3 Start time of re-run

The competitor must report to the Start Referee. The Start Referee will inform the competitor the start position.

1318 Interruption or Termination of the run or training

If an interrupted run cannot be finished on the same day, it is to be treated as a terminated run. In SBX, if the Finals are unable to be completed (e.g. due to weather circumstances) provided qualification has been completed, the Jury may determine that the qualification results can be used for final rankings.

In BSL with two runs format, if only one run is completed, the results of that run will count as the final rankings.

1318.1 By the Jury

- to allow course maintenance or to allow a fairer and more consistent course for all competitors.
- for unfavourable or inconsistent weather and snow conditions

The competition is to be restarted as soon as the work on the course has finished and if the weather and snow conditions have changed so that a fair competition can be assured.

A repeated interruption of the race ordered for the same reason should lead to a termination.

1318.2 Brief Interruption.

Each member of the Jury is entitled to order a brief interruption of the run, including at the request of a gate judge

1318.3 The Jury will terminate a competition

- if the competitors are significantly affected by outside disturbing influences.
- if conditions arise that interfere with the fairness of the race or if the proper conduct of the race may no longer be guaranteed.

1318.3.1 The Jury has the right, in its sole discretion, to reschedule or cancel an event or an entire competition. Prior to making such determination, the Jury must consult with FIS. If an event or competition is rescheduled or cancelled notice must be provided immediately to all affected parties. If an event or competition is rescheduled, notice of the rescheduled date and location must be circulated as soon as possible to all parties. Any rescheduled event or competition shall be treated as a new event or competition (e.g.: entries can change, new start order, etc.).

1318.3.2 Any rescheduling of an event or competition must not interfere with the original scheduling. If rescheduling of an event or competition is not possible, the Jury may decide to cancel the qualification rounds and proceed directly to the Finals, based on FIS Points for each event, and provided the official practice time is available.

1319 Not permitted to start (NPS)

A competitor will not be permitted to start in any FIS international competition who:

- 1319.1 wears obscene names and/or symbols on clothing and equipment or behaves in an unsportsmanlike manner in the start area;
- 1319.2 does not wear a crash helmet that conforms to the competition equipment specifications or has not signed the waiver for equipment if needed; or
- 1319.3 was disqualified (DSQ), was not permitted to start run 1 (NPS1), not permitted to start run 2 (NPS2), did not start (DNS), did not finish (DNF) or did not qualify (DNQ).

1320 Disqualifications

A competitor will be disqualified if they:

- 1320.1 participate in the race under false pretences.
- 1320.2 jeopardise the security of persons or property or causes actual injury or damage.
- 1320.3 do not pass through a gate correctly or does not start within the time limits.
- 1320.4 interfere with the run of another competitor in DBSL.

1321 Competitions under artificial light

Competitions under artificial light are permitted and must be approved by FIS.

1322 Poles

All poles used in the Snowboard Cross, Banked Slalom and Giant Slalom are subdivided into rigid poles and flex poles.

For all competitions, the poles must conform to the FIS specifications.

1323 Gate flags

For all competitions, the gate flags must conform to the FIS specifications.

- 1401.1.7 The ideal Snowboard Cross may allow the construction of any features excluding: gap jumps, corner jumps, spines and double spines, cutting banks, negative banks. It is important to avoid the features with different transverse take-off and landing angles, and the ones that require a change of direction on air. In any case competitor safety considerations and riding level of the athletes must always be a priority.
- 1401.1.8 The track should be closed to the public and training camps at least 24 hours before the competitions.

1401.2 Snowboard Cross Time Trial only with no Finals

- 1401.2.1 Vertical drop. Vertical drop min 70 m - max 150 m. Vertical drop of the course may be reported in the starting list and final results.
- 1401.2.2 Length of the course min 400 m max 700 m. Course angle average $12^{\circ} \pm 2^{\circ} / 20 - 25\%$. Running time of approximately 30 seconds to 60 seconds. Length of the course may be reported in the starting list and final results.

- 1402.1 The course should have a length on the ground of a minimum 300 m and a maximum of 600 m. The course angle should be $15^{\circ} (+/-3^{\circ})$ in average steepness. Indoor BSL events may have a minimum course length of 250 m. The length of the course may be reported in the starting list and final results.
- 1402.2 The ideal BSL bank radius shall be between 8 m and 12 m. Depending on the terrain on which the course is built, the competition Jury may homologate BSL courses with different measurements.
- 1402.3 Width: slope may be minimum 25 m. Course width minimum 4 m.
- 1402.4 General characteristic and terrain: it may be medium pitched slope. It may be preferably a natural various terrain, plenty of bumps and dips, preferably a U shape/natural valley.
- 1402.5 The course may be designed and built following the terrain profile, preferably using natural snow. Any features are allowed, but competitor's safety considerations and riding level of the athletes must always be a priority.
- 1402.6 The track course may be built in a way that the competitors are able to ride keeping always the board parallel to the surface during the performance. In

the turns appropriate banks may be built and shaped. Minimum distance between the banks/gates after the first gate may be minimum 14 m.

1402.7 The track may be closed to the public and training camps at least 24 hours before the event.

1402.8 Start Ramp

The Start Ramp shall be prepared in such a way that the competitors can stand relaxed on the starting line and can quickly reach full speed after leaving the start. Push off posts will be installed on the starting installation for all events. The specifications will be adjusted to the needs of the specific events. In Banked Slalom and Giant Slalom the first gate on the course must be straight from the start gate.

1402.9 Start Gates

The Start gates for all Para Snowboard competitions/disciplines must meet FIS homologation standards. A Banked Slalom/Giant Slalom start gate may be a single Snowboard Cross start gate.

For Snowboard Cross the start gates must open simultaneously, and a competitor must not be able to push the gates open.

1402.9.1 Malfunction of the start gate

If one or both starting machine gates have been blocked because of technical malfunction, without the competitor touching the gate before the starting signal was given, the start must be repeated.

1403 Technical data for Giant Slalom

1403.1 Vertical drop min 200 m – max 400 m. Vertical drop of the course may be reported in the starting list and final results.

1403.2 Length of the course min 400 m - max 600 m. Course angle average $15^{\circ} \pm 3^{\circ} / 20 - 35\%$. Running time of approximately 30 seconds to 90seconds. Length of the course may be reported in the starting list and final results. Indoor events may have a minimum vertical drop of 50M and a minimum course length of 250M

1403.3 Width: slope should be minimum 30 m.

1403.4 The distance between the nearest poles of two successive gates must not be less than 10 meters. The gates must be set so that the competitors can

distinguish them clearly and quickly even at high speed. The banner of a gate should be set at right angles to the racing line.

1403.5 General characteristic and terrain: medium pitched slope, preferably with various grades.

1403.6 The course should be perfectly groomed and the snow surface may be compacted.

1403.7 The triangular gate flags have to be placed at right angles (90°) to the fall line at the bottom of the gate. The triangular gate flags are to be fastened at the bottom of the gate.

1403.8 Number of gates

The Giant Slalom must be set as follows:

It is recommended to set with a distance of between 20–27 meters between turning gates in Giant Slalom (Exception: Banana Gates). The results list must show the number of turns and number of gates. Example: 25 (turns) / 30 (gates).

1404 Course Design, Course Building and Maintenance Plan.

- 1404.1 Design of the course must be approved by Race Director in advance for Level 1 competitions and by the Jury for the other levels.
- 1404.2 The building and maintenance plan of the course may be agreed by all the parts and approved in advance by the Race Director for Level 1 competitions and by the Jury for the other levels.

1405 Course Testing

- 1405.1 Before the event, the Jury may allow an official course testing
- 1405.2 All the safety equipment may be installed on the course
- 1405.3 Medical staff may be on place during the course testing
- 1405.4 Only competitors are allowed to test the course, according with the equipment requirements (helmet is mandatory)
- 1405.5 The teams may communicate to FIS the riders list available for the course testing 7 days before the competitions
- 1405.6 The Jury may select minimum 3 or maximum 8 riders based on: competitors' availability, local national team athletes, world cup ranking, one per gender, different classes, turnover principle.
- 1405.7 Only the coaches may attend the course testing, according with Jury indications and they are allowed to film the course testing
- 1405.8 The course may be set, and gates may be on place

1406 Gates and course setting.

1406.1 Gates

- 1406.1.1 A Snowboard Cross/Giant Slalom/Banked Slalom gate consists of one stubby flex pole (turning pole) and one long slalom pole (outside pole) which are connected with a triangular gate flag.
- 1406.1.2 Consecutive gates must alternate in colour except banana gates (which are considered to be one turn therefore one colour) that must be the same colour gates and flags.
- 1406.1.3 The gates must be set so that the competitors can distinguish between them clearly and quickly even at high speed. The triangular gate flag of a gate should be set at right angles to the racing line.

- 1406.1.4 In certain circumstances competitors may be required to pass between two gates of the same colour (for example: corridors).
- 1406.2 Course setting
- 1406.2.1 The setting of the gates must be done before the official inspection and training and should incorporate the skilful use of the terrain with the integration of terrain features and jumps into the setting.
- 1406.2.2 Minor adjustments in the setting may be necessary during the training to adjust the course for a smooth race line.
- 1406.2.3 Any changes made during training should be announced in the start area so all competitors and Team Captains are aware of any such changes.
- 1406.2.4 Giant Slalom second run should be reset on the same slope according with art. 1311. A new course setter is preferable.
- 1406.2.5 Immediately after the course setting, the coaches have the possibility to inspect the course according with Jury recommendation. In the finish area the coaches can provide their remarks or official Protest to the Jury regarding the course preparation and course setting, before official inspection and training.

1407 Inspection/Training

- 1407.1 The competitors are allowed to inspect the course by slowly sliding down through or alongside the course. Inspection times are at the discretion of the Competition Jury but should be a minimum of 15 minutes. Competitors must visibly wear their start numbers and their helmets.
- 1407.2 At least one training run prior to the actual competition is mandatory in Snowboard Cross and Banked Slalom. Normally the training session should be 1–2 hours in length and if possible should be held the day before the actual competition (under certain mitigating circumstances the competition Jury may decide other possibilities).

1408 Execution of Snowboard Cross

1408.1 Formats four/two athletes per Heat

Finals are based on 32, 16, eight or four athletes with four/two athletes per Heat or such other numbers as determined by the Jury. SBX will be run according to a single knockout format. Qualification runs have only one competitor starting on the course at a time at determined interval. The Qualification format will be chosen by the Jury in its sole discretion taking into account variables including, but not limited to, the weather and field sizes. Any change by the Jury must be announced before the first run begins. The timed qualification runs are be used to qualify competitors for the Finals. For Level 1 Competitions it is desirable to maintain the same format for the whole World

Cup season and if possible, the same format should be used in WSC and PWG. The definition of such format shall be made by FIS.

1408.1.1

There are three timed qualification formats:

- a) One Run qualifications – all athletes conduct one timed run.
- b) Two Run qualifications – all athletes conduct two timed runs; the best run out of the two determines the qualification ranking. Athletes who did not start (DNS), are disqualified (DSQ) or did not finish (DNF) in qualification run one can participate in qualification run two.
- c) Two timed runs in “Cut Down System” – From qualification run one, top 50% of the final number of athletes in a bracket will be ranked by time (e.g. Brackets of 16 Men, eight are qualified after Run 1 ranked one to eight, Brackets of eight Women, four are qualified after run one ranked one to four)
 - Only the athletes not qualified from qualification run one will take a second qualification run, including athletes who DNF, are DSQ or DNS in the first qualification run.
 - Start order second qualification run will be the same start order of the first qualification run, taking out the already qualified athletes.
 - The best qualification run of the two, counts for the remaining athletes (e.g. for the bracket of 16 they will be ranked nine to 16, for the bracket of eight they will be ranked five to eight)

1408.1.2

Seeding Run only

If there is no need to do any qualification runs for a category (e.g. there is a bracket of eight and only seven competing), the Jury may decide that only one seeding run for the final brackets will take place. This applies to all categories, men and women. Athletes who are DSQ or DNF will be seeded for the final brackets according to their respective FIS points. Athletes who did not start (DNS) will not be ranked in the final results.

1408.2

Interdiction to continue after a gate fault

If a competitor misses a gate, they no longer have the right to pass through further gates and must exit the course as soon as possible. If a competitor fails to comply with this rule, they may be sanctioned by the Jury (art. 223). It will be presumed that a competitor was aware of their fault if the competitor passed two or more gates incorrectly or obviously deviated from one of the possible correct passages gate lines.

1408.3

Start Gates

In Snowboard Cross there are two or four start gates on the start platform. Different start gates maybe used for each qualification run in order to guarantee the same snow conditions of the track during the Finals.

1408.4 False Starts

- 1408.4.1 Disqualification will take place:
- When a competitor manipulates the starting gates; and/or
 - When a competitor's board (entire body counts if a western style start gate is used) passes the starting line (vertical plane) before the final starting signal has been given (audible and/or visible).

1408.5 Start Order 2nd Run

For the 2nd qualification run all competitors including DSQs, DNFs and DNSs will start in the same order as the first run.

1408.6 Contact

- 1408.6.1 Intentional contact by pushing, pulling, positioning an arm in front of another competitor to avoid being passed or other means which causes another competitor to slow down, fall or exit the course is not permitted. Blocking, by intentional movements of the body or an abrupt and radical changing of the actual riding line for blocking reasons is also not permitted. Any of the described intentional contacts will cause an automatic disqualification sanction. Unavoidable "casual contact" may be acceptable. All contact infractions will be at the discretion of the course Judges and competition Jury, and not subject to Protest.

1408.6.2 Contact causing Interference

The determination of interference by one competitor against other competitor(s) shall be made by the Jury. Suspected infractions can be brought to the Jury's attention by acting Jury members, section judges or review requested by a competitor in the finish area immediately following the Heat. The Jury can use recommendation from Section Judges and/or video evidence provided by coaches/staff, and/or "Video Review" from TV Production in the decision process.

From provided evidence, the Jury must determine if interference has occurred. Interference shall be determined based on the article 1408.6.

All Jury decisions regarding Interference must be confirmed prior to the start of a next Heat, and cannot be Protested.

1408.7 Ties in Snowboard Cross Qualification

1408.7.1 Ties in One Run Qualification Format

In the event of a one run qualification if two athletes are tied the athlete with the higher start position (used in the seeding or the qualification runs) will be ordered first.

1408.7.2 Ties in Two Run Qualification Format

If two or more athletes have the same best time, the athlete with the fastest total qualification time (of both run times combined) will be placed ahead of the other tied athletes. If one of the tied athletes has only one qualification run and/or was DSQ, DNF or DNS in one of the two runs they will automatically lose the tie. If a tie still exists the athlete with the higher start position (used in the seeding or the qualification runs) will be ordered first.

1408.7.3 Ties in Qualification with “cut down system”

If two or more athletes have the same best time, the athlete with the fastest total qualification time (of both run times combined) will be placed ahead of the other tied athletes. If one of the tied athletes has only one qualification run and/or was DSQ, DNF or DNS in one of the two runs they will automatically lose the tie. If a tie still exists or it is the first qualification run (so no other runs have been performed by the athletes), the athlete with the higher start position (used in the seeding or the qualification runs) will be ordered first. If the athletes are still tied, subject to the second paragraph of this Rule 1408.7.3, the athlete with the higher start position (used in the seeding or the qualification runs) will be ordered first.

If after the first qualification run, two or more athletes are tied on the last position of qualification to the Finals (e.g. eighth place for brackets of 16) the athlete with the higher start position (used in the seeding or the qualification runs) will be ordered first but all tied athletes will advance to the Finals, without taking a second qualification run. The starter field for the second qualification run will be reduced accordingly.

1408.8 **Protests**

1408.8.1 Report of Protests

Disqualification / Sanctions will be announced and/or posted immediately after each Heat at a designated area at the bottom and/or top of the course.

All Protests must be reported to the Chief of Finish and/or another Jury member or to a Jury appointed person (which is announced at the Team Captains' Meeting) before the next Heat begins. Protests received after this time will not be accepted. A competitor does not need to stop their run and/or raise their hand if they think that they have been interfered with by another competitor in order to have the right to Protest. Protests do not need to be in writing, but all other FIS Para Snowboard Rules for Protests will apply. The Protest fee must be paid at or before the conclusion of the competition.

1408.8.2 Handling of Disqualifications / Sanctions caused by Direct Intentional Contact (DIC)

If an athlete is DSQ or sanctioned because of DIC, they will be automatically ranked as last in his Heat and listed as DIC in the final result list. Unless a re-run is performed (in accordance with the below process) all other athletes, even if they are affected by the DIC, will be ranked by their place of finish.

In the case of DIC a re-run will only be considered by the Jury:

- if an athlete were interfered with by some other person other than another athlete competing in that Heat; or
- if, in the opinion of the Jury, an athlete who was affected by the DIC would likely have advanced to the next round if it were not for the DIC

The Jury shall determine, in its sole discretion, based on the circumstances of the DIC, the number of athletes who will participate in a re-run. If one or more athletes were clearly leading the Heat when the DIC occurred the Jury may determine that such athlete(s) does not have to participate in the re-run.

1409 Finals Snowboard Cross

There are three formats for the execution of Snowboard Cross Finals

- a) **Traditional:** as defined at 1409.1 where only competitors qualified through qualification/seeding runs can take part.
- b) **Pre-Heat:** as defined at 1409.2 where all competitors that participated in the qualification/seeding runs can take part.
- c) **Without Timed Runs:** as defined at 1409.3 where no timed runs are performed, and competitors are seeded directly in the final Heats.

In all heats where athletes advance automatically to the next round, these athletes may choose to run or to skip that heat.

1409.1 Traditional Format

Finals are based on 16 competitors with 2 or 4 competitors per Heat or such other numbers as determined by the Jury. In special circumstances 32 competitors are allowed.

1409.1.1 In case there are less than 16 competitors per class, the brackets may be defined following the indications below:

1409.1.1.1 Format with two athletes per Heat

- 16 competitors – minimum 9 athletes on the starting list
- 8 competitors – minimum 5 athletes in the starting list
- 4 competitors – minimum 3 competitors in the starting list
- 2 competitors – 2 athletes in the starting list

1409.1.1.2 Format with four athletes per Heat

- 32 competitors minimum of 24 athletes on the start list with eight byes
- 16 competitors minimum of 13 athletes on the start list with three byes
- 8 competitors minimum of 5 athletes on the start list with three byes

The Jury may decide to define different brackets in case of special conditions.

1409.2 Pre-Heats Format

Finals with Pre-Heat format are designed for a maximum of 32 competitors and 4 competitors per Heat.

- 1409.2.1 Competitors who are disqualified (DSQ) or did not finish (DNF) in qualification will be seeded at the end of the result list according to their FIS Points and take part in the pre-Heats. In case of a tie, the competitor with the higher start number will be seeded first. Competitors who DNS are not allowed to start in the next competition phase.
- 1409.2.2 The top two (2) athletes in each Pre-Heat advance to the Finals. These athletes are then ordered in the Heats according to their qualification/seeding runs.
- 1409.3 Seeded groups without timed runs
- The competitors will be seeded according to their actual FIS rank. If the field in one category is larger than 32 athletes, qualification Heats may be required. The Jury will announce at the TCM:
- the number of qualified competitors,
 - if necessary, the number of rounds, and
 - the number of Heats including the number of qualified competitors per Heat.
- Athletes who do not start in the first competition phase are not ranked in the final results.
- 1409.3.1 The seeded groups without timed runs format set out in this rule 1409.3 may be used in PWG, WSC and WC competitions only as an alternative fallback system in exceptional circumstances, as determined by FIS.
- 1409.3.2 The Finals for the competitors qualified as per rule 1409.3 will be conducted as follows: The first two/one competitors per Heat advance from round to round as determined by their place of finish in each Heat.
- Place of finish is determined by the first part of the body or snowboard that crossed the finish line. Whenever possible, a finish line camera (video or photo finish) may be used to clarify the order of finish.
- In the event that it is impossible for competitors to be separated by use of a finish line camera, the tie will be broken in favour of the competitor with the higher start position (used in the seeding). Only in the big or small final if it is still impossible to separate the competitors following these steps, the competitors will remain tied.
- The competitors who do not advance in 1/16, 1/8 and 1/4 Finals Heats will be grouped according to their placing in the Heat and then ranked within that group according to their seeding position. In any case a competitor who has qualified for a certain group (1/8 final, 1/4 final, etc.) will remain in this group and be ranked there. For example: Once a competitor is qualified for top 16, they will remain for scoring purposes in the top 16 group.
- 1409.3.3 The ranking for the Heats will be done according to rule 1410 Finals for race format with four athletes per Heat.

1409.4 Ranking for Final Results

Competitors are ranked according to their place of finish in the final heat (Big Final) and in the consolation round (Small Final). Snowboard Cross will be run according to a single knockout format.

The first competitor (2 competitors per Heat) or the first two competitors (4 competitors per Heat) advance from round to round as determined by their place of finish in each Heat. Place of finish is determined by the first part of the body or Snowboard that crosses the finish line. Whenever possible, a finish line camera (video or photo finish) should be available. Only in the Big or Small Final if it is still impossible to separate the competitors with these steps, the competitors will remain tied. In case of a tie, at the finish line, such tie(s) will be broken after reviewing if available the photo-finish presentation. If a tie still exists, the competitors concerned will be ranked according to the fastest qualification time. In the case where the same qualification time exists (best time out of two runs), the tie will be broken by using the total time of both qualification runs. If a tie still exists, the competitor with the higher bib number (used in the seeding or the qualification runs) will be scored as first.

The competitors who do not advance in Pre-Heats, 1/16, 1/8 and 1/4 Finals Heats will be grouped according to their placing in the Heat and then ranked within that group according to their qualifying time. In any case a competitor who has qualified for a certain group (1/8 final, 1/4 final, etc.) will remain in this group and be ranked there. For example: Once a competitor is qualified for top 16, they will remain for scoring purposes in the top 16 group.

1409.5 Race Bibs

Must be two, four or more different colours in each Heat or numbered bibs with numbers on front, back and sleeves for better visibility by the course judges.

To differentiate between athletes competing in a race, different coloured (red and green for races with two athletes and red, green, blue and yellow for races with four athletes) race bibs must be used. If that is not possible, different coloured leg bands (red and green for race with two athletes and red, green, blue and yellow for races with four athletes) must be used in addition to the (same colour) race bibs. The Race Director or Jury may approve colours other than red, green, blue and yellow.

1410 Snowboard Cross

Pairings for the Finals will be according to the following:

1410.1 Finals for race format with two athletes per Heat

1410.4 DNS, DSQ, DNF in Snowboard Cross Finals

If one or more competitors do not start in the round of 16 or the round of 8 or round of 4 they will be automatically ranked last in the round of 16, 8 or 4 respectively. If two competitors are DNF/DSQ, they will be ranked in the Heat according to their qualification rank, but better than the athletes who receive a DIC or DNS. DIC will receive automatically the last place in this Heat and will be ranked last at the end of the second/fourth ranked athletes, but before the DNS.

In a case where more competitors do not complete the course nor cross the finish line (DNF), the rankings in that Heat will be based on the location where the competitor(s) have completed the course. The competitor that has made it further down the course correctly will receive the higher rank. If two or more competitors are tied in the finish or going out at the same gate, in the Big or Small Final, they will remain tied. In all other rounds, if two or more competitors are tied in the finish or going out at the same gate the competitor with the

worse seeding points will win the tie. An athlete which does not start in the first round will appear as DNS on the result list. An athlete which did not start (DNS) in the Semi-final is allowed to start in the small final.

The DNF/DSQ competitors which have been ranked 4th in their Heat, will be ranked in the final results amongst those competitors who finished 4th, in the same phase of 1/16, 1/8 or 1/4 Finals, and then ranked by their qualification time. The same applies if more than one competitor was DNF/DSQ and was ranked 3rd.

1411 Snowboard Cross Team (SBX Team) and Snowboard Cross Mixed Team (SBX Mixed Team), Snowboard Cross Inclusive Team (SBX Inclusive Team) and Snowboard Cross Mixed Inclusive Team (SBX Mixed Inclusive Team)

1411.1 Technical Data

The same rules apply for vertical drop, length/inclination, width and the use of gates as for a regular SBX event (Rule 1401 & Appendix 1)

1411.2 Courses

The same rules apply for general characteristics of the courses and course preparation as for a regular SBX event

1411.3 Course setting

The same rules apply for course setting as for a regular SBX event (art. 1406.2)

1411.4 Inspection/Training

The competitors are allowed to inspect the course by slowly sliding down through or alongside the course. Inspection times are at the discretion of the Competition Jury but should be a minimum of 15 minutes. Competitors must visibly wear their start numbers and their helmets.

At least one training run prior to the actual competition is mandatory normally the training session should be 1–2 hours in length and if possible, should be held the day before the actual competition (under certain mitigating circumstances the competition Jury may decide other possibilities).

1411.5 Execution of SBX Team and SBX Mixed Team

1411.5.1 Eligibility for SBX Team

A maximum of 16 teams per gender are permitted to start. To determine the ranking of each Nation, the most current FIS Points of the best two athletes per gender across all categories will be added together. The top 16 women's teams and the top 16 men's teams will be decided according to their ranking.

All Nations' number one teams will be considered first. Any remaining slots can be filled by Nations number 2 teams. There is a limit of 2 teams per gender per nation allowed to start.

1411.5.2 Seeding for SBX Team

For the purpose of seeding into brackets, each team will be ranked according to the sum of the FIS Points of both team members.

Ties of teams with the same sum of FIS Points will be broken in favour of the team with the higher individual FIS Points. If the tie still exists, it will be broken by random draw.

1411.5.3 Teams eligibility for SBX Team

Each team is composed of two athletes. Once the nation teams qualification and seeding is determined, each nation can field any eligible competitor (*) into their team with a maximum of one competitor per Sport Class per Men's team, although each competitor is only eligible to compete on one team. Nations must declare which competitor will comprise each team at the team captains meeting preceding the event. Nations determine by themselves which teammate will run 1st and 2nd. Similar to regular SBX, lane choice is determined by each nation team seed, within each Heat. Teams will declare which teammate will run 1st after the teams have declared lane choice. Lane choice will be declared in the following order; seed 1, seed 2, and then teammate running order will be declared in the following order; seed 2, seed 1.

1411.5.4 Eligibility for SBX Mixed Team

A maximum of 16 teams are permitted to start. To determine the ranking of each Nation, the most current FIS Points of the best man and best woman across all categories will be added together. The top 16 teams will be decided according to their ranking. All Nations' number one teams will be considered first. Any remaining slots can be filled by Nations number 2 teams. There is a limit of 2 teams per nation allowed to start.

1411.5.5 Seeding for SBX Mixed Team

For the purpose of seeding into brackets, each team will be ranked according to the sum of the FIS Points of both team members.

Ties of teams with the same sum of FIS Points will be broken in favour of the team with the higher individual FIS Points. If the tie still exists, it will be broken by random draw

1411.5.6 Teams eligibility for SBX Mixed Team

Once the nation team's qualification and seeding is determined, each nation can field any eligible competitor (*) into their team although each competitor is only eligible to compete on one team. Nations must declare which competitor will comprise each team at the seed meeting for the competition

start. Nations determine by themselves which teammate will run 1st and 2nd. Similar to regular SBX, lane choice is determined by each nation team seed, within each Heat. Teams will declare which teammate will run 1st after the teams have declared lane choice. Lane choice will be declared in the following order; seed 1, seed 2, and then teammate running order will be declared in the following order; seed 2, seed 1. The decision which gender will start first will be communicated at the Team Captains' Meeting. The Jury may limit the teams to choose the same order for rider 1 and 2 on a team for a portion of (for instance semifinals and Finals) or the entire event. This must be announced at the team captain meeting the night before the actual team event.

* Qualification requirements are according to the necessary minimum FIS Points List for participation in a single SBX at the respective level of event (e.g. WC minimum 100 FIS points).

1411.5.7 Competition

In a SBX Team/SBX Mixed Team event the time difference between the first competitors from each team is measured in accordance with the Freestyle/Snowboard FIS Timing Booklet. All of the first competitors from each team line up in the start and the traditional SBX start cadence is given with all gates opening at the same time. As soon as these competitors leave the start, the gates are closed and their teammates line up in the same start gate. When all first competitors from all teams cross the finish line (or are DNF and in safe position) the recorded time difference between the first competitors will be entered in the start gate and a new start command will be given. The start gates will then open individually for each competitor, with a delay equal to the time difference between the first competitors up to the maximum penalty time (art.1411.5.14). The first two teams whose second teammate crosses the finish line will advance to the next round. In all heats where teams advance automatically to the next round, these teams may choose to run or to skip that heat.

If the start gate cannot be opened respecting the time delays or the maximum penalty time, all competitors start at the same time. In this case, the time differences between the competitors of the first heat and the competitors of the second heat will be added together. The two teams with the lowest added time differences will advance to the next round. If two or more teams are tied in the Big or Small Final, they will remain tied. In all other rounds, if two or more teams are tied, the team with the worse seeding points will win the tie.

1411.5.8 Bibs / Competitors identification

Numbered bibs with numbers on front, back and sleeves for better visibility should be utilized. The numbers have to clearly identify each team and the individual team members. The bibs should therefore be assigned with a larger number identifying the team and a small number (or for example 31 & 32, 45 & 46 etc.) identifying the different team members: e.g. Team 1: 11/12, Team 2: 21/22, Team 3: 31/32, Team 4: 41/42.

To aid in competitor identification different colored bibs have to be used. Nation outfits are allowed but these outfits clearly need to distinguish the various riders/teams. If colored bibs will be utilized the following colors have to be used: red – green – blue – yellow.

1411.5.9 Gate Judges

The same rules apply for the use of gate judges as like in a regular SBX event (art. 1412.5)

1411.5.10 Competition Clothing

The same rules apply for competition clothing as like in a regular SBX event

1411.5.11 Start

The same rules apply for start ramp, start gates as like in a regular SBX event as well as for start command, false start or malfunction of the start gate (art. 1310.4, 1310.7, 1402.9.1)

1411.5.12 Choice of start lane

The choice of the start lane, during each Heat is based upon the seeding position. Higher seeded teams can choose their lane first. A missed start is considered a disqualification / sanction. It is the competitors' responsibility to arrive at the start in time to compete (art. 1310.4, 1310.6, 1310.7)

1411.5.13 Competitors coaching at start during final start signals

During the final start command no coaching is permitted at the start (no coaches present at the start gate, no radio information from the course, etc.).

1411.5.14 Penalty Time

The penalty time for a SBX Mixed Team event is calculated by taking 6% of the average of the best individual race qualification time per event per gender, with a maximum of three (3) seconds (e.g. best time Men 0:48 + best time Women 0:51) / 2 = 49.5 sec * 6% = 2.97 sec). The penalty time for a SBX Team event is calculated for each gender separately, by taking 6% of the best individual race qualification time, with a maximum of three (3) seconds. The Jury may decide to change the penalty time in a range between 3% and 7% to adapt to special circumstances and grant interesting racing. The adaption of the penalty-time must be announced at the TCM before the competition.

If there is no individual race time as a reference this calculation result has to be estimated and confirmed by the race Jury.

A team which is ranked DNF cannot continue to participate. A start stop during a SBX team event should be confirmed by the Race Director who should therefore have clear overview of the course.

1411.5.15 Contact

The same rules apply for contact as like in a regular SBX event (art. 1408.6)

- 1411.5.16 Protest
- The same rules apply for Protests as like in a regular SBX event (Rule 1408.8)
- 1411.5.17 Final Ranking

- Within the each round the third and fourth placed teams are ranked by their seeding position within that group (example: all third place finishers in the Quarter final will be ranked, according to their seeding position and then all the fourth placed teams will be ranked according to their seeding position).
- 1411.5.18 DNS, DNF and DSQ in SBX Team and SBX Mixed Team Finals
- If a team does not start in the round of 16 or eight it will automatically be ranked in the 16th or eighth position. If two or more teams do not start, the DNS teams will be ranked 16/15th or 8/7th according to their seeding position and so on with three or more DNS teams.
- Order of placing: DSQ (sports disqualification) to be ranked on the last place in the Heat according to the seeding points. In a case where more competitors do not complete the course nor cross the finish line, the rankings in that Heat will be based on the location where the competitor(s) have completed the course. The competitor that has made it further down the course correctly will receive the higher rank. If two or more competitors are tied in the finish or going out at the same gate, in the Big or Small Final, they will remain tied. In all other rounds, if two or more competitors are tied in the finish or going out at the same gate the team with the worse seeding points will win the tie. A team which does not start in the first round will appear as DNS on the result list. A team which did not start (DNS) in the Semi-final is allowed to start in the small final.
- 1411.6 Execution of SBX Inclusive Team and SBX Mixed Inclusive Team**
- 1411.6.1 Eligibility for SBX Inclusive Team
- A maximum of 16 teams composed by one Para athlete and one non- disabled athlete per gender are permitted to start. To determine the ranking of each Nation, the most current FIS Points of the best Para athlete and the best non-disabled athlete per gender across all categories will be added together. The top 16 women's teams and the top 16 men's teams will be decided according to their ranking. All Nations' number one teams will be considered first. Any remaining slots can be filled by Nations number 2 teams. There is a limit of 2 teams per gender per nation allowed to start.
- 1411.6.2 Seeding for SBX Inclusive Team

1411.6.3 Teams eligibility for SBX Inclusive Team

Each team is composed of one Para athlete and one non-disabled athlete. Once the nation teams seeding is determined, each nation can field any eligible competitor (*) into their team, although each competitor is only eligible to compete on one team. Nations must declare which competitor will comprise each team at the team captains meeting preceding the event. Similar to regular SBX, lane choice is determined by each nation team seed, within each Heat. Lane choice will be declared in the following order: seed 1, seed 2.

1411.6.4 Eligibility for SBX Mixed Inclusive Team

A maximum of 16 teams composed by one Para athlete and one non-disabled athlete of different gender are permitted to start. To determine the ranking of each Nation, the most current FIS Points of the best Para athlete and the best non-disabled athlete across all categories will be added together. The top 16 teams will be decided according to their ranking. All Nations' number one teams will be considered first. Any remaining slots can be filled by Nations number 2 teams. There is a limit of 2 teams per nation allowed to start.

1411.6.5 Seeding for SBX Mixed Inclusive Team

For the purpose of seeding into brackets, each team will be ranked according to the sum of the FIS Points of both team members.

Ties of teams with the same sum of FIS Points will be broken in favour of the team with the higher individual FIS Points. If the tie still exists, it will be broken by random draw.

1411.6.6 Teams eligibility for SBX Mixed Inclusive Team

Each team is composed of one Para athlete and one non-disabled athlete of different gender. Once the nation team's qualification and seeding is determined, each nation can field any eligible competitor (*) into their team although each competitor is only eligible to compete on one team. Nations must declare which competitor will comprise each team at the seed meeting for the competition start. Nations determine by themselves which teammate will run 1st and 2nd. Similar to regular SBX, lane choice is determined by each nation team seed, within each Heat. Teams will declare which teammate will run 1st after the teams have declared lane choice. Lane choice will be declared in the following order: seed 1, seed 2, and then teammate running order will be declared in the following order; seed 2, seed 1. The Jury may limit the teams to choose the same order for rider 1 and 2 on a team for a portion of (for instance semifinals and Finals) or the entire event. This must be announced at the team captain meeting the night before the actual team event.

* Qualification requirements are according to the necessary minimum FIS Points List for participation in a single SBX at the respective level of event (e.g. WC minimum 100 FIS points in Para SBX).

1411.6.7 Competition

In a SBX Inclusive Team/SBX Mixed Inclusive Team event the time difference between the first competitors from each team is measured in accordance with the Freestyle/Snowboard FIS Timing Booklet. Within the each round the third and fourth placed teams are ranked by their seeding position within that group (example: all third place finishers in the Quarter final will be ranked, according to their seeding position and then all the fourth placed teams will be ranked according to their seeding position).

1411.6.18 DNS, DNF and DSQ in SBX Inclusive Team and SBX Mixed Inclusive Team Finals

If a team does not start in the round of 16 or eight it will automatically be ranked in the 16th or eighth position. If two or more teams do not start, the DNS teams will be ranked 16/15th or 8/7th according to their seeding position and so on with three or more DNS teams.

Order of placing: DSQ (sports disqualification) to be ranked on the last place in the Heat according to the seeding points. 1412 Execution of Banked Slalom and Giant Slalom (Time trail events)

1412.1 Format with single athlete timed runs

Timed runs are used to rank athletes, with one athlete on course at a time.

1412.1.1 All athletes complete two timed runs for Banked Slalom – The best (fastest) timed run out of the two) timed runs will be used to determine the final results. Under special circumstances Jury may allow format with one (1) timed run. This Jury decision should be announced at the TC meeting before competition, and must be announced at the latest before the start of the official qualification training.

1412.1.2 All athletes complete two timed runs for Giant Slalom. The two times will be combined and used to determinate the final results. If an athlete is DSQ, DNF or DNS in the first run they is not permitted to start the second run.

1412.1.3 Start list 1st run: Random draw (completed at the TCM) of best eight (or four) athletes based on FIS BSL or GS points.

1412.1.4 Start list 2nd run: Reverse order according to the rankings from the first run including DNF, DSQ, and DNS for Banked Slalom. For Giant Slalom the start list for the second run will be reverse order excluding DNF, DSQ and DNS. In

case of Force Majeure situations, the Jury has the right to change the start order.

1412.2 Format with heat elimination runs.

Timed runs are used to advance athletes to the next round, with one athlete on course at a time.

1412.2.1 There are two timed qualification formats:

- a) One Run - all athletes conduct one timed run.
- b) Two Runs - all athletes conduct two timed runs; the best run out of the two determines the ranking. Athletes who did not start (DNS), are disqualified (DSQ) or did not finish (DNF) in run one can participate in run two. For the 2nd run all competitors including DSQs, DNFs and DNSs will start in the same order as the first run.

1412.2.2 Finals

The Finals for the competitors qualified as per rule 1412.2.1 will be conducted as follows: The competitors compete against each other in single timed runs. The best competitors according to time in each heat advance from round to round.

Finals are designed for 8 to 16 competitors with one run qualification and 4 to 8 competitors with two run qualification, and 2 competitors per Heat. The Jury will announce the number of qualification runs and number of athletes in the finals in the TC Meeting prior to the event.

Competitors who are disqualified (DSQ) or did not finish (DNF) in qualification/seeding will be seeded at the end of the result list according to their FIS Points. In case of a tie, the competitor with the higher start number will be seeded first. Competitors who DNS are not allowed to start in the next competition phase.

1412.2.3 A final may consists of:

- 1/8-finals
- 1/4-finals
- 1/2-finals
- Small and big final

1412.2.4 1/8-finals

The winners of the 1/8-finals qualify for the 1/4-finals.

1412.2.5 1/4-finals

The winners of the 1/4-finals qualify for the 1/2-finals.

1412.2.6 1/2-finals

The winners of the 1/2-finals qualify for the big final. The loser of the 1/2-finals qualifies for the small final.

1412.2.7 Small and big finals

The winner of the big final will be ranked 1st. The loser of the big final will be ranked 2nd. The winner of the small final will be ranked 3rd. The loser of the small final will be ranked 4th.

1412.2.8 Pairings for the Finals will be according to the following:

9 to 16 Athletes - 1/8 finals

<u>Heat #</u>	<u>1st Athlete to start</u>	<u>2nd Athlete to start</u>
<u>1</u>	<u>16</u>	<u>1</u>
<u>2</u>	<u>9</u>	<u>8</u>
<u>3</u>	<u>12</u>	<u>5</u>
<u>4</u>	<u>13</u>	<u>4</u>
<u>5</u>	<u>14</u>	<u>3</u>
<u>6</u>	<u>11</u>	<u>6</u>
<u>7</u>	<u>10</u>	<u>7</u>
<u>8</u>	<u>15</u>	<u>2</u>

5 to 8 Athletes - 1/4 finals

<u>Heat #</u>	<u>1st Athlete to start</u>	<u>2nd Athlete to start</u>
<u>1</u>	<u>8</u>	<u>1</u>
<u>2</u>	<u>5</u>	<u>4</u>
<u>3</u>	<u>6</u>	<u>3</u>
<u>4</u>	<u>7</u>	<u>2</u>

3 to 4 Athletes - 1/2 finals

<u>Heat #</u>	<u>1st Athlete to start</u>	<u>2nd Athlete to start</u>
<u>1</u>	<u>4</u>	<u>1</u>
<u>2</u>	<u>3</u>	<u>2</u>

1 to 2 Athletes - final only

<u>Heat #</u>	<u>1st Athlete to start</u>	<u>2nd Athlete to start</u>
---------------	-----------------------------	-----------------------------

<u>1</u>	<u>2</u>	<u>1</u>
----------	----------	----------

In all heats with only one athlete, this athlete advances automatically to the next round. In this case, the athlete may choose to run alone or to skip the heat (e.g. with 9 athletes in the finals start list only rank 8 and 9 run a heat, all others advance automatically to the next round).

1412.2.9 Ranking for Final Results

Competitors are ranked according to their time of finish in the final heat (Big Final) and in the consolation round (Small Final). All remaining competitors are ranked according to the round they go out in (e.g. Quarter Finals) and their time of finish within that round. A competitor who has qualified for a certain group (1/8 final, 1/4 final, etc.) will remain in this group and be ranked there.

In case of a tie, the competitors concerned will be ranked according to the fastest single qualification time. In the case where the same qualification time exists (best time out of two runs), the tie will be broken by using the total time of both qualification runs. If a tie still exists, the competitor with the higher bib number (used in the seeding or the qualification runs) will be scored as first. In the Big or Small Final the competitors will remain tied.

1412.3 Re-runs

A competitor, who is hindered, stopped or interfered while competing by the error of an official, by a spectator, by an animal, or by any other justifiable causes outside their control can apply to any member of the Jury for a re-run immediately after the occurrence of the interference.

This claim can also be made by the team captain of the hindered competitor.

The competitor must leave the course immediately or as soon as possible after the interference and may not continue riding further down in the course (only on the side of the course).

In case competitor does not leave the course and continue to race down to the finish line, request for re-run will be considered not valid.

In special situations or other technical failures i.e. failure of start gate(s) or timing systems), the Jury may order a re-run.

If a competitor is stopped by a yellow flag, they has the right to request a provisional rerun, under the condition that the Jury considers this possible from an organizational point of view. The Jury should ensure that the competitor's provisional re-run takes place before the last competitor on the start list.

1412.3.1 Grounds for interference

- Blocking of the course by an official, a spectator, an animal or other hindrance.

- Blocking of the course by a fallen competitor, who did not clear the course soon enough
- Stopped with yellow flag by competition official for any reason
- Objects in the course such as equipment of a previous competitor
- Activities of the first aid service which hinder the competitor.
- Absence of a non-marked gate knocked down by a previous competitor, and not promptly replaced
- Other similar incidents, which, beyond the will and control of the competitor, cause significant loss of speed or affects the competitors' performance and thereby can affect his result.

1412.3.2 Provisional re-run

In case the Referee or another Jury member is unable to question immediately the appropriate official or judge the justification for the provisional re-run request, they may, to avoid delay for the competitor or competition, grant a provisional re-run. This provisional rerun will be valid only if it is confirmed by the Jury.

If the competitor was already disqualified before the incident entitling him to request a provisional re-run, the request for the provisional re-run is deemed to be not valid.

The provisionally or definitively approved re-run remains valid even if it proves worse than the original run.

If the claim for provisional re-run is shown to be unjustified, the competitor will be subject to sanction(s).

1412.3.3 Start time of the re-run

In case of fixed start intervals, the competitor may start a re-run at the fixed interval, after they has reported to the start referee. The Start Referee should allow the competitor a reasonable amount of time to compose themselves prior to such start.

1412.4 Ties

For Banked Slalom ties in two timed runs format will be broken by calculating the total time of two runs for each tied athlete (if one of the tied athletes has only one qualification run and/or was DSQ, DNF or DNS in one of the two runs they will automatically lose the tie). If a tie still exists, the athlete with the higher start position (used in the seeding or the qualification runs) will win. If such a tie occurs for 1st, 2nd or 3rd Place, the tied athletes will remain tied.

For Giant Slalom, if two or more athletes are tied, the athlete with the fastest time out of both runs will win the tie. If a tie still exists, the athlete with the higher start position (used in the seeding or the qualification runs) will win the tie. If such a tie occurs for 1st, 2nd or 3rd Place, the tied athletes will remain tied.

1412.5 Gate judges

Between 4-8 gate judges (with control section gate judges being provided radios connected with the Finish Referee and the rest of the Jury) on a Snowboard Cross is necessary. Control section gate judges must be familiar with the rules (Inspection, Training, Gate-DSQ's, Contact etc.).

1413 Execution of Dual Banked Slalom (DBSL)

1413.1 Definition

A Dual BSL is a competition where two competitors ride simultaneously side by side down two parallel BSL courses. The setting of the courses, the configuration of the Banks/terrain and the preparation of the snow are to be as identical as possible.

1413.2 Technical Data DBSL

The course should have a length on the ground of a minimum of 250 m and a maximum of 350 m. The courses should be 15° (+/- 3,0 °) in average steepness with a width of 30 to 40 m. On shorter sections the course may have a width of 20 m. Indoor DBSL events may have a minimum course length of 200 m. The length of the course may be reported in the starting list and final results.

The ideal DBSL Bank radius shall be between 7 m and 10 m. Depending on the terrain on which the course is built, the competition Jury may homologate DBSL courses with different measurements.

1413.3 Gates

A Dual BSL gate consists of one stubby flex pole (turning pole) and one long slalom pole (outside pole) which are connected with a triangular gate flag.

The gates must be set so that the competitors can distinguish them clearly and quickly even at high speed. The banner of a gate should be set at right angles to the racing line.

1413.4 Choice and Preparation of the Course

Choose a slope wide enough to permit two or more courses. The terrain variations must be the same across the surface of the slope. The course layouts must have the same profile and the same difficulties.

Over the full width of the chosen slope, the snow must be consistently hard, similar to course preparation for slalom, so that it is possible to offer equal competition conditions on both courses.

There must be a lift available to the course to ensure that the races are run smoothly and rapidly.

The course must be entirely closed off by barriers. It is recommended to fence off reserved places intended for trainers, competitors and servicemen.

1413.5 The Courses

When the two courses are set, the left course (looking from the top) will be set with red poles and red triangular gate flags and the right course (looking from the top) will be set with blue poles and blue triangular gate flags.

The same course setter establishes the courses and makes sure they are identical and DBSL.

Shortly before the finish line, after the last gate, the separation between the two tracks must be well defined so that they direct each competitor towards the finish line and away from each other. The course setter must place the last gate in such a manner that the competitors are guided towards the centre of each finish line.

1413.6 Distance between the two Courses

The horizontal distance between two corresponding course markers (from turning pole to turning pole) must be similar in all opposite facing banks. This distance must be between 6 and 7 meters, unless otherwise agreed by the Jury.

The first turning gate & Bank (red and blue course) should be set the same distance apart as the start gates.

1413.7 Start

The Start Ramp shall be prepared in such a way that the competitors can stand relaxed on the starting line and can quickly reach full speed after leaving the start. Push off posts will be installed on the starting installation for all events. The specifications will be adjusted to the needs of the specific events.

1413.7.1 Start Gates

Two different procedures to start with different start gates are possible:

Simultaneously

- The gates have to open simultaneously for both runs and a competitor must not be able to push the gates open.

Delayed

- The gates have to open simultaneously in the first run. In the second run the start gates open with the time difference of the first run. Competitor must not be able to push the gates open.

1413.8 False Starts

Disqualification will take place:

- When a competitor manipulates the starting gates

- When a competitor's board (entire body counts if a western style start gate is used) passes the starting line (vertical plane) before the final starting signal has been given (audible and/or visible)

1413.9 Malfunction of the start gate

If one or both starting machine gates have clearly been blocked because of technical malfunction, without the competitor touching the gate before the starting signal was given, the start must be repeated.

1413.10 Start command

Before the starter gives the command – “Go” or a single audible signal, they must first ensure that the competitors are ready by asking: “red course ready, blue course ready, attention”.

“Riders ready” only can be used in connection with an audible command (series of short beeps followed by one louder starting beep when doors open).

1413.11 Finish

The finish areas must be symmetrical. The line of the finish must be parallel with the line of the starts.

Each finish line is marked by two/three vertical banners or inflatables in vertical style. Each of these must be at least 8 m wide. The finish lines are separated by a vertical banner or inflatable with a maximum width of approximate one meter.

It is necessary to set up visually separate finish approaches and exits.

1413.12 Course Setting

1413.12.1 Course setters

The course setter is designated by the Jury of the competition (if they is not chosen by FIS). Before setting the course, they must conduct an inspection and study of the course in the presence of the Jury and those responsible for the course (the chief of competition and the chief of course). At Level 1 competitions the RD will set the course together with the connection coach. (art. 1300.3.1.2)

1413.12.2 Setting

Gates/banks, which impose on competitors a sudden sharp braking action, should be avoided, as they spoil the fluid aspect of the run without increasing the difficulties of a modern course.

The last gates should be rather fast, so that the competitor passes the finish at a direct good speed.

The last gate/banks should not be too near to the finish to avoid danger to competitors and timekeepers. The last gate/bank should direct competitors to the middle of the finish line.

1413.12.3 Checking the Courses

The Jury must check that the course is ready for racing once the course setter has set it, paying special attention that:

- That all poles are firmly rammed in.
- The gates/banks are in the right colour order.
- The position of the poles is marked.
- The numbers are in the right order on the outside poles.
- The poles are high enough above the snow.
- The gate flags are properly fixed.
- The security fencing and other security installations are acceptable.
- The last gate before the finish directs the competitors to the middle of the finish.
- The reserve poles are correctly placed not to mislead the competitors.
- After the Elimination round, the Jury and the course setter should consider the time differences (between the two courses) and the course conditions before a decision for resetting is made.

1413.13 Timing and Data

The Organiser must provide a Timing and Data System which is able to fulfill following: use existing FIS Lists and CoC Standing lists, as well as finding out which ones the riders best points the Data System must provide the possibility to calculate start lists, results from qualification and elimination runs, as well as final results including the CoC points and FIS points achieved.

1413.14 Qualification

The running time of each competitor will be registered with two independently homologated timing systems (see FIS Timing booklet).

1413.15 Finals

As the start is simultaneous, only the difference in time between the competitors at the finish will be registered with two independent homologated timing systems. The first competitor that breaks one of the signals starts the chronometer and receives the time "zero", the following competitor (2nd) stops successively the clocks (chronometers) and receives the time difference in 1/100-seconds to the first competitor.

1413.16 Qualification format for the DBSL Finals

1413.16.1 One Run Qualifying

All competitors in the same category qualify on the same course. The categories may be split between the red and blue courses in an effort to balance the number of runs on each course. Each of the categories' final

brackets will be filled in accordance with rule 1413.16.6 from the results of the single run. DSQ's and DNF's will be seeded last in the bracket if it is not already filled in accordance with rule 1413.16.6 (ties will be broken in accordance with rule 1413.16.5).

1413.16.1.1 Seeding for the Finals

All athletes are seeded according to their place of finish in each category.

1413.16.2 Two Runs Qualifying

1413.16.2.1 Two runs both course qualifying

Whenever possible both runs should be held on the same day. All competitors get one run on this course – the top 50% of the final brackets, in each category, (women and men) are qualified directly to the Finals. The remaining competitors shall have a second run on the opposite course in the same order as in the first run. The other 50% of the final brackets, in each category, (only by the time from the second run) are qualified for the Finals.

Seeding for Finals

The first 50% in each category, are seeded first into the brackets according to their rank of run 1 and then the competitors that qualified on run 2 are seeded according to their rank on run 2 (only by the time from the second run), after the competitors qualified on run one. DSQ's and DNF's on run 2 will be seeded last in the bracket if it is not already filled in accordance with art. 1413.16.6 (ties will be broken according to art. 1413.16.5).

1413.16.2.2 Two runs same course qualifying

All competitors complete two timed runs on the same course. The categories may be split between the red and blue courses in an effort to balance the number of runs on each course. The best (fastest) timed run out of the two timed runs will be used to determine the final results of the qualification. DSQ's and DNF's will be seeded last in the bracket if it is not already filled in accordance with rule 1413.16.6 (ties will be broken in accordance with rule 1413.16.5).

Start list 2nd run: Same order of the first run including DNF, DSQ and DNS.

Seeding for Finals

All athletes are seeded according to their place of finish in each category

1413.16.3 Elimination run qualifying

This Qualification system consists of two runs that whenever possible should be held on the same day.

1413.16.3.1 1st run – Qualification Run

Each competitor has one timed run: odd numbers (1,3,5, ...) on red course, even numbers (2,4,6, ...) on blue course.

The top 16 ranked competitors of each course advance to the Elimination round.

If there is a tie for the 16th place in the first qualification run all tied competitors will start in the elimination run.

In case of a tie between competitors advancing from qualification run to the elimination run, the athlete with the higher start position (used in the seeding) will be ordered first.

1413.16.3.2 2nd run – Elimination Run

The start order of the second run will be the reverse order of the results of the first run of each course. Competitors will exchange their course (red competitors of first run will compete on blue course on second run and vice-versa).

The final results after the elimination run will be the total time of the two runs. The top 16 or 8 competitors art. 1413.16.6 with a valid time per gender, per category advance to the final phase.

If two or more competitors advancing to the final phase, including ties for the last eligible position for the Finals (4th, 8th, 16th) after two qualification runs are tied, the ties will be broken by the best run of two. If they are still tied, the athlete with the higher start position (used in the seeding) will be ordered first.

1413.16.3.3 Seeding for the Finals

All athletes are seeded according to the total times of the two runs.

1413.16.4 Interference

The determination of interference by one competitor against other competitor(s) shall be made by the Jury. Suspected infractions can be brought to the Jury's attention by acting Jury members, section judges or review requested by a competitor in the finish area immediately following the Heat. The Jury can use recommendation from Section Judges and/or video evidence provided by coaches/staff, and/or "Video Review" from TV Production in the decision process.

From provided evidence, the Jury must determine if interference has occurred. Interference shall be determined based on the article 1408.6.

All Jury decisions regarding Interference must be confirmed prior to the start of a next Heat, and cannot be Protested.

1413.16.5 Tie-Breaking in Qualification

In case of a tie for all qualifying places in the first (or single run qualification format) and/or second qualifying run, the tie will be broken in favour of the athlete with the higher start position (used in the seeding or the qualification

runs). In case of a tie for all qualifying places with two run same course qualification (art. 1413.16.2.2), the tie will be broken by calculating the total time of the two runs for each tied athlete. If one of the tied athletes has only one qualification run and/or was DSQ, DNF or DNS in one of the two runs they will automatically lose the tie. If a tie still exists, the athlete with the higher start position (used in the seeding or the qualification runs) will win.

1413.16.6 Competitors Qualified to Finals

When using the Single Run Knock-Out format (art. 1413.20.2), 16 competitors per category and gender are qualified for the Finals. When using the Two Run format (1463940264.19628864.786412312), 8 competitors per category and gender are qualified for the Finals. When using a mixed system (1/4 and 1/2 Finals with Single Run Knock-Out format, small and big Final using a Two Run format), 8 competitors per category and gender are qualified for the Finals.

If the Finals cannot be fully completed due to force majeure (weather, failure of timing equipment, course conditions etc.) the results of the qualifications will be valid as final results.

1413.17 Seeding for Finals

The first 50% in each category, are seeded first into the brackets according to their rank of run 1 and then the competitors that qualified on run 2 are seeded according to their place of finish on run 2, with their second run time only, after the competitors qualified on run one. DSQ's and DNF's on run 2 will be seeded last in the bracket if it is not already filled in accordance with art. 1413.16.6 (ties will be broken according to art. 1413.16.5). For single run qualification format all athletes are seeded according to their place of finish in each category. For elimination run qualification all athletes are seeded according to the total times of the two runs.

1413.18 Parings for Finals

8 respective pairs are formed as follows using the results of the qualifications:

Groups	Women and Men	
	Place 1 - Place 16 Place 8 - Place 9 Place 5 - Place 12 Place 4 - Place 13 Place 3 - Place 14 Place 6 - Place 11 Place 7 - Place 10 Place 2 - Place 15	

4 respective pairs are formed as follows using the results of the qualifications:

Groups	Women and Men	
	Place 1 - Place 8 Place 4 - Place 5 Place 3 - Place 6 Place 2 - Place 7	

2 respective pairs are formed as follows using the results of the qualifications:

Groups	Women and Men	
	Place 1 - Place 4 Place 2 - Place 3	

1413.19 Starting order

- 1413.19.1 The DBSL Finals may consists of:
1/8-Finals
1/4-Finals
1/2-Finals

Small and Big Finals

1413.19.1.1 1/8-Finals

The winners of the 1/8-Finals Heats qualify to the 1/4-Finals.

1413.19.1.2 1/4-Finals

The winners of the 1/4-Finals Heats qualify to the 1/2-Finals.

1413.19.1.3 1/2-Finals

The winners of the 1/2-Finals Heats qualify to the big final. The losers of the 1/2-Finals Heats qualify to the small final

1413.19.1.4 Small and Big Finals

The winner of the Big Final will be ranked 1st. The loser of the Big Final will be ranked 2nd.

The winner of the small final will be ranked 3rd. The loser of the small final will be ranked 4th.

Places 5 to 8 and places 9 to 16 are determined by the times of the qualification run(s). In any case a competitor which has qualified for a certain group will remain in this group even if their qualification time was slower than one or more of the qualification times for competitors eliminated in a lower group. (e.g.: Once a competitor is qualified for inclusion in the top 8 the competitor will remain in the top 8.)

1413.20 Final Formats

The format for the Finals has to be announced the latest at the Team Captains Meeting. In all heats where athletes advance automatically to the next round, these athletes may choose to run or to skip that heat.

1413.20.1 Two run format for DBSL Finals

For each heat, the competitor with the better qualification time, will choose the course. For the second run the competitors change courses. All heats in this DBSL Finals format are done using this system.

Each pair of competitors has to make two runs. The competitors change courses for the second run. The time difference between the two competitors at the finish line will be registered.

After the second run the time differences of the two runs will be added. The competitor with the lower time difference of the two runs will advance to the next round. The maximum time difference per run is the calculated penalty time, max. 1.5 sec.

If the time difference of both runs is tied, the winner of the second run will advance to the next round. (If a delayed start gate is used and if two

competitors are tied crossing the finish line of the second run, the competitor who lost the first run will be the winner).

A competitor who does not finish or is disqualified in the first run, starts the second run with a 4 % (max. 1,5 sec.) penalty.

If competitors are tied in each of both runs, the athlete with the higher start position (used in the seeding or the qualification runs) will be ordered first.

A competitor who does not start (DNS) the first run receives the penalty time. When both competitors do not start in the first run, the competitor who wins the second run advances automatically. When both competitors do not start in the second run, the competitor who won the first run, advances automatically. Additionally, when one competitor is a DNS and the other competitor in a pair is a DSQ, the competitor who DNS will receive the penalty for the first run, in the second run the competitor who started but DSQ will advance.

1413.20.2 Single Run Knock-out Final Format

Each pair of competitors has to make only one run. The competitor with the better qualification rank can choose either the red or blue course. The selection must be made latest when the competitor enters the start platform.

The Big and Small Finals may be executed in the two run format (the rules from 1463940264.19628864.786412312 will apply). This must be announced latest on the TCM.

In case one or both competitors do not complete the course, the competitor that has completed more gates will advance to the next round.

If both competitors do not complete the course at the same gate or are tied on the finish line, the competitor with the better qualification rank advances to the next round. In Small and Big Finals ties at the same gate or on the finish line will not be broken.

1413.21 **Did Not Start (DNS) in DBSL Finals**

If a competitor does not start in the eighth or Quarter final, they will be automatically ranked in the 16th (eighth final) or 8th (Quarter final) position. If two or more competitors do not start, the DNS competitors will be ranked on (15/16th) and (7th/8th) place according to their qualification times (and so on with three (3) or more DNS competitors).

If a competitor does not start in the first run in the small or big final the other competitor must start only once.

Final Ranking for competitors who did not qualify to the Finals

The competitors who did not qualify to the Finals, will be ranked according to their times in the second qualification run. An athlete who is marked DNS, DNF or DSQ in the second qualification run will be ranked as last of all athletes

who started in the second qualification run. DNS athletes will be ranked behind DSQ athletes and DSQ athletes will be ranked behind DNF athletes. If two or more competitors are tied, the athlete with the higher start position (used in the seeding or the qualification runs) will be ordered first.

1413.22 Inspection and Training

The competitors are allowed to inspect the course by slowly sliding down through or alongside the course. Inspection times are at the discretion of the Competition Jury but should be a minimum of 15 minutes. Competitors must visibly wear their start numbers and their helmets. At least one training run prior to the actual competition is mandatory normally the training session should be 1–2 hours in length and if possible should be held the day before the actual competition (under certain mitigating circumstances the competition Jury may decide other possibilities).

1413.23 Control of the Races

The gate judges are responsible to control the correct passing of the gates. Each gate judge must immediately notify the Jury of a potential disqualification / sanction in his section of the course. One more official (judge) appointed by the Jury may be located along the course to notify the Jury on this matter

1413.24 Disqualifications / Sanctions

Causes for disqualifications are the following:

1413.24.1 False start

1413.24.2 Disturbing opponent, voluntarily or not at the qualification runs when a competitor disturbs his opponent during the qualification, the disturbed competitor may receive a rerun. The run of the competitor who disturbs the opponent will count finally.

1413.24.3 Incorrect gate passage

1413.24.4 Not finishing the run with at least one foot fixed to the board.

1413.25 DSQ or DNF in Finals

1413.25.1 Re-run format

The competitor who is disqualified or does not finish the first run of a round will start in the second run with a penalty time.

The competitor who is disqualified or does not finish / abandons in the second run is eliminated.

In case both competitors do not finish, the competitor that passes the most gates:

- in the first run: wins the first run
- in the second run: advances to the next round

If both competitors do not finish the course, stop or fall or were disqualified at the same gate, the tie will be broken in favour of the competitor with the best qualification time (according to the run they qualified on in a two qualification run format - see art. 1413.16.2). If they are still tied, the tie will be broken in favour of the athlete with the higher start position (used in the seeding or the qualification runs). In big and small final the tie will not be broken.

1413.25.2 A competitor who is disqualified or does not finish/abandons the run is eliminated.

In case both competitors do not finish, the competitor that passes the most gates wins the run.

1413.25.3 Interdiction to Continue after a gate fault

If a competitor misses a gate, they no longer have the right to pass through further gates and must exit the course as soon as possible. If a competitor fails to comply with this rule, they may be sanctioned by the Jury (art. 223). It will be presumed that a competitor was aware of their fault if the competitor passed two or more gates incorrectly or obviously deviated from one of the possible correct passages gate lines.

1413.26 **Penalty Time**

The Penalty Time will be calculated using the best time of the qualifications for both women and men. A 4 % penalty of this time, with a maximum of 1.5 seconds, will be used in the parallel Finals.

In all cases the maximum time difference for the first run of each pairing can never be higher than the penalty time. I.e. the actual time difference is 3 seconds, the penalty time is 1.5 seconds, and then the second run will be started with a handicap of 1.5 seconds for the loosing competitor of the first round.

If both competitors are tied after the second run by their respective penalty times the competitor who wins the second run advances to the next round.

If both competitors are disqualified in the second run at the same gate, the competitor who won the first run advances to the next round.

1413.27 **Competition Clothing**

Parallel competition suits must be two piece – pants and separate top. Form fitting speed suits or downhill suits are not permitted. Non-protruding body protection and padding is recommended. Protective equipment i.e. back protection must be worn on the body. No straps, fastening devices or other methods can be used to tighten the suit material closer to the body. Shin guards are excluded from this rule.

1414 Dual Banked Slalom Team (DBSL Team) and Dual Banked Slalom Mixed Team (DBSL Mixed Team)

1414.1 Technical Data

The same rules apply for vertical drop, length/inclination, width and the use of gates as for a regular DBSL event (art. 1413.2 & Appendix 1)

1414.2 Courses

The same rules apply for general characteristics of the courses and course preparation as for a regular DBSL event

1414.3 Course setting

The same rules apply for course setting as for a regular DBSL event (art. 1413.12)

1414.4 Inspection/Training

The competitors are allowed to inspect the course by slowly sliding down through or alongside the course. Inspection times are at the discretion of the Competition Jury but should be a minimum of 15 minutes. Competitors must visibly wear their start numbers and their helmets.

At least one training run prior to the actual competition is mandatory normally the training session should be 1–2 hours in length and if possible should be held the day before the actual competition (under certain mitigating circumstances the competition Jury may decide other possibilities).

1414.5 Execution of a DBSL Team and DBSL Mixed Team

1414.5.1 Eligibility for DBSL Team

A maximum of 16 teams per gender are permitted to start. To determine the ranking of each Nation, the most current FIS Points of the best two athletes per gender across all categories will be added together. The top 16 women's teams and the top 16 men's teams will be decided according to their ranking. All Nations' number one teams will be considered first. Any remaining slots can be filled by Nations number 2 teams. There is a limit of 2 teams per gender per nation allowed to start.

1414.5.2 Seeding for DBSL Team

For the purpose of seeding into brackets, each team will be ranked according to the sum of the FIS Points of both team members.

Ties of teams with the same sum of FIS Points will be broken in favour of the team with the higher individual FIS Points. If the tie still exists, it will be broken by random draw.

1414.5.3 Teams eligibility for DBSL Team

Each team is composed of two athletes. Once the nation teams qualification and seeding is determined, each nation can enter any eligible competitor (*) into their team with a maximum of one LL2 competitor per Men's team, although each competitor is only eligible to compete on one team. Nations must declare which competitor will comprise each team at the seed meeting for the competition start.

*Qualification requirements are according to the necessary minimum FIS Points for participation in a single DBSL at the respective level of event.

1414.5.4 Eligibility for DBSL Mixed Team

A maximum of 16 teams are permitted to start. To determine the ranking of each Nation, the most current FIS Points of the best man and best woman across all categories will be added together. The top 16 teams will be decided according to their ranking. All Nations' number one teams will be considered first. Any remaining slots can be filled by Nations number 2 teams. There is a limit of 2 teams per nation allowed to start.

1414.5.5 Seeding for DBSL Mixed Team

For the purpose of seeding into brackets, each team will be ranked according to the sum of the FIS Points of both team members.

Ties of teams with the same sum of FIS Points will be broken in favour of the team with the higher individual FIS Points. If the tie still exists, it will be broken by random draw.

1414.5.6 Teams eligibility for DBSL Mixed Team

Once the nation team's qualification and seeding is determined, each nation can enter any eligible competitor (*) into their team although each competitor is only eligible to compete on one team. Nations must declare which competitor will comprise each team at the seed meeting for the competition start.

*Qualification requirements are according to the necessary minimum FIS Points for participation in a single DBSL at the respective level of event.

1414.5.7 Competition

The teams determine by themselves which team competitor will run first and second. The lower seeded team shall announce the order before the higher seeded team. The team with the better seeding position can choose either the red or blue course. The selection must be made no later than when the competitors enter the start platform.

The first competitors from each team will start with the standard parallel start sequence: gates will open simultaneously. As soon as these competitors leave the start, the gates are closed and the 2nd team competitors line up in the opposite start gate. When the competitors of both teams cross the finish line (or are DNF and in safe position) the time difference will be entered at the

start and a new start command will be given, the start gates will open with the time difference of the first pair of competitors up to the maximum penalty time (art. 1414.5.13). The team whose 2nd team competitor crosses the finish line first will be the winner of the Heat. In all heats where teams advance automatically to the next round, these teams may choose to run or to skip that heat.

If the start gate cannot be opened respecting the time delays or the maximum penalty time, all competitors re-start at the same time. In this case, the time differences between the competitors of the first heat and the competitors of the second heat will be added together. The two teams with the lowest added time differences will advance to the next round. If two or more teams are tied in the Big or Small Final, they will remain tied. In all other rounds, if two or more teams are tied, the team with the worse seeding points will win the tie.

Special Circumstances

In case the first competitor of a team did not start, the 2nd team competitor of the team is not allowed to start and the team will be marked as Did Not Start (DNS). In case the first team competitor did not finish or is disqualified, and the other team has a valid time then the team who did not complete the course correctly will start with the penalty time.

In case both teams have not completed the course correctly, the team that has completed less gates will start with the penalty time.

If both competitors are disqualified in the run of the 2nd competitors at the same gate, the team that won the first run will be the winner of the Heat.

If both competitors do not complete the course at the same gate or are tied on the Finish Line, the team with the higher start position advances to the next round. In Small and Big Finals ties at the same gate or on the Finish Line will not be broken.

1414.5.8 Bibs / Competitors identification

Numbered bibs with numbers on front and back for better visibility should be utilized. The numbers have to clearly identify each team and the individual team members. The bibs should therefore be assigned with a larger number identifying the team and a small number (or for example 31 & 32, 45 & 46 etc.) identifying the different team members: e.g. Team 1: 11/12, Team 2: 21/22, Team 3: 31/32, Team 4: 41/42.

1414.5.9 Gate Judges

The same rules apply for the use of gate judges as like in a regular DBSL event (art. 1413.23)

1414.5.10 Competition Clothing

The same rules apply for competition clothing as like in a regular DBSL event (art. 1413.27).

- 1414.5.11 Start
- The same rules apply for start ramp, start gates as like in a regular DBSL event as well as for start command, false start or malfunction of the start gate (art. 1413.8, 1413.9, 1413.10)
- 1414.5.12 Competitors coaching at start during final start signals
- During the final start command no coaching is permitted at the start (no coaches present at the start gate, no radio information from the course, etc.).
- 1414.5.13 The penalty time for a DBSL Mixed Team Event is calculated by taking 6% of the average of the best individual race qualification time per event per gender, with a maximum of three (3) seconds (e.g. best time Men 0:48 + best time Women 0:51) / 2 = 49.5 sec * 6% = 2.97 sec). The penalty time for a DBSL Team event is calculated for each gender separately, by taking 6% of the best individual race qualification time, with a maximum of three (3) seconds. The Jury may decide to change the Penalty-Time in a range between 3% and 7% to adapt to special circumstances and grant interesting racing. The adaption of the penalty-time must be announced at the TCM before the competition.
- If there is no individual race time as a reference this calculation result must be estimated and confirmed by the race Jury.
- If the race has to get stopped during the second teammate's run the complete second run will get restarted, once the course has been safely cleared, with the respective time delay or the maximum penalty time. However, in case of an obvious manipulation provoking a rerun, the Jury can decide that the results of only the first teammates may stand for that Heat.
- A team which is ranked DNF cannot continue to participate. A start stop during a DBSL team event should be confirmed by the Race Director who should therefore have clear overview of the course.
- 1414.5.14 Interference
- Reference is being made to art. 1413.16.4
- 1414.5.15 A Team DBSL Finals consist of:
- 1/8-Finals
 - 1/4-Finals
 - 1/2-Finals
 - Small and Big Finals
- 1414.5.15.1 1/8-Finals
- The winner team of the 1/8-Finals Heats qualify to the 1/4-Finals.
- 1414.5.15.2 1/4-Finals
- The winner team of the 1/4-Finals Heats qualify to the 1/2-Finals.
- 1414.5.15.3 1/2-Finals

The winner team of the 1/2-Finals Heats qualify to the big final. The loser team of the 1/2-Finals Heats qualify to the small final

1414.5.15.4 Small and Big Finals

The winner team of the Big final will be ranked 1st. The loser team of the big final will be ranked 2nd.

The winner team of the small final will be ranked 3rd. The loser team of the small final will be ranked 4th.

Places 5 to 8 and places 9 to 16 are determined by the seeding position. In any case a team which has qualified for a certain group will remain in this group even if the seeding was higher than one or more teams eliminated in a lower group. (e.g.: Once a team is qualified for inclusion in the top 8 the team will remain in the top 8.)

1414.6 DNS, DNF, DSQ in Team DBSL Finals

If a team does not start in the eighth or Quarter Final, they will be automatically ranked in the 16th (eighth final) or 8th (Quarter Final) position.

A team which did not start (DNS) in the Semi-Final is allowed to start in the small final.

1414.7 Final Ranking for teams who did not qualify to the Finals

A team which is marked DNS, DNF or DSQ will be ranked as last of all teams. DNS teams will be ranked behind DSQ teams and DSQ teams will be ranked behind DNF teams. If two or more teams are tied, the team with the higher starting position will be ordered first.

1415 Race points calculation process

For every valid international competition registered in the FIS calendar, except for Team Events, FIS Points are awarded to all ranked competitors.

1415.1 Point-Scales

The Points will be awarded according to the Points Scales published under art. 1416.

1415.2 Competition levels and corresponding scales

1415.2.1 Level 1 competitions: Scale 1000 FIS Points or according with art. 1415.2.4 for competitions with lower participation

1415.2.2 Level 2 competitions: Scale 260 to scale 130 FIS Points

1415.2.3 Level 3 competitions: Scale 50 FIS Points

1415.2.4 Selection of the scale for Level 1 and 2 competitions

Level 1

For Level 1 competitions (for all categories), the 1000 points Scale will be selected if four or more athletes started in the competitions. If three or less athletes started in the competitions the Scale will be selected as follows:

- Scale 800 for competitions with three athletes
- Scale 600 for competitions with two athletes
- Scale 500 for competitions with one athlete

Level 2

For Level 2 competitions (for all categories) FIS point level of an international competition is based on the average (arithmetic mean) of the FIS points of the best 5 athletes who have started in the competition (behind comma always rounded up e.g. 380,4 - 381 points) respecting the minimum and maximum points as defined by art. 1415.2.2 (Level 2). If less than 5 competitors have started the competition, the sum of their FIS Points is still divided by 5. After the calculation of the average points, one of the scales which are listed under the points scales in art. 1416 is selected. To choose the best possible scale, the average point value must be equal to or higher than the corresponding entry point.

1416

Point scales

Points will be awarded according to the following scales:

1417 FIS Snowboard Points List Calculation Process

1417.1 Base FIS Points List (BL)

1417.1.1 The Base FIS Points List (BL) will be published before the end of June or, if exceptional circumstances require a later date, as defined by FIS.

1417.1.2 The average of the best two results in each discipline (SBX, Dual/BSL, GS) during the past season will be used for the calculation of the BL. In exceptional circumstances FIS can decide to extend the period for calculation.

1417.1.3 For competitors with approved Injury Status (see rule 1418), 1417.2 applies, otherwise, see 1417.1.4 and 1417.1.5

1417.1.4 If a competitor has obtained only one result per event during the past season, 40% will be deducted from that result or from the points of the previous BL, whichever is better.

1417.1.5 If a competitor has not obtained results during the past season, 80% will be deducted from the points of the previous BL.

1417.2 Injured competitors

If Injury Status (art. 1418) is approved 10% will be deducted from the competitor's BL points if the current points are not better than the protected points.

1417.3 Normal FIS Points list (NL)

1417.3.1 The FIS Points list number one will be published 1st July based on the BL.

1417.3.2 The competitor's NL points will be the average of their best two results in each discipline (SBX, Dual/BSL, GS) during the current season or the BL points, whichever is better. If the competitor has only one result during the current season, see 1417.3.3 and 1417.3.4.

1417.3.3 Only one result and no BL points

If a competitor has only one result in the current season, the FIS points, will be that result minus 40%.

1417.3.4 Only one result and BL points

If a competitor has only one result in the current season but has BL points then the FIS points will be that result minus 40% or the BL points whichever is better.

If multiple competitors have the same number of FIS points in the World Rankings, their rank will be determined by the best individual competition result attained in the current season (i.e. the highest number of points attained in a single competition that season), with the athlete having achieved the best result being ranked higher. If still tied, the second best result attained in this manner will be used, followed by the third best, and so on. Only results attained in the current season will be taken into account in this respect. If still tied, both competitors will

hold the same placing in the FIS points list. Tied competitors with no results in the current season or on IS/PO/SB status will remain tied.

1418 Injury Status, Professional Obligation and Study Break (IS, PO, SB)

- 1418.1 If a competitor requests Injury Status (IS), Professional Obligation (PO) or Study Break (SB) through their NPC using the official FIS Form, they must maintain a valid license throughout the status period. A competitor may only use one status at a time.
- 1418.2 The request for break penalty for injury status must be submitted no later than 30th April for approval, together with the Injury Survey form to be considered. The request for break penalty for professional obligation or study break must be submitted with supporting documentation
- 1418.3 Approved Injury Status, Professional Obligation and Study Break requests are only valid for one season.
- 1418.4 The application for IS, PO or SB status is valid until the end of the competition season. After this, the NPC must reapply for new status to the FIS. If no notice is received, the status will be deleted.
- 1418.5 A period of at least 6 months must have passed without competing to maintain the Injury Status (IS).
- 1418.6 In the event the competitor is still under IS upon return they/she achieves two results in a given discipline with a better average than the frozen FIS that average will be used to calculate his/her FIS points.
- 1418.7 All athletes with IS/PO/SB status are permitted to freeze their ranking points and will be included in the rankings for the complete duration of their status. IS/PO/SB will be deactivated either when the NPC/NSF has informed FIS that the status should be deactivated or automatically after an athlete makes five (5) starts in any discipline (e.g. 2SBX and 3 BSL)
