

## FIS SEASON ACCREDITATION SYSTEM NORDIC 2021/2022

The concept of the FIS Season Accreditation system is based on the application of a set of standard access zones (1-9) designed to enable consistency and optimise working efficiency across the Coop FIS Cross-Country World Cup respectively at the Viessmann FIS Nordic Combined World Cup.

The Accreditation Matrix illustrates the method for authorisation and distribution of the FIS Season Accreditations for the Categories/Functions currently in use. The general definitions for each Standard Access Zone and Category provide guidance for the recommended access for each function.

### FIS SEASON ACCREDITATION MATRIX

### STANDARD ACCESS ZONES
