1. Calendar Planning, Entry and Appointment of the Competitions

1.1 FIS World Cup Ski Jumping Women

1.1.1 Each National Ski Association is entitled to apply to the Sub-Committee for Calendar Planning for WCJ-W competitions (individual and team competition) by the pre-established deadline.

1.1.2 The application has to be made two years in advance and on the official FIS entry form. The application form must show the expiration date of the hill certificate.

1.1.3 If the competitions are carried out at different sites, the dates must be fixed so that there is an interval of at least one day for training between the competition dates.

1.1.4 The last WCJ-W event in this competition season is the WCJ-W final. In connection with the WCJ-W final the overall WCJ-W prize-giving ceremony will take place.

1.1.5 Calendar Planning and adjustments

The Chair of the FIS Jumping Committee, the Chair of the FIS Sub-Committee for Calendar Planning and the FIS Ski Jumping Race Directors together will be allowed to adapt the World Cup calendar and technical rules in order to maximize the possibility to organize World Cup events.

1.1.6 World Cup competitions should be organized on a snow surface. However, in exceptional cases, events can also be organized on ice/ snow tracks using a plastic surface in the landing area.

1.2 Appointment of the WCJ-W-Events

1.2.1 The Sub-Committee Calendar Planning examines:

- the suitability of the hill in question for WCJ-W-competitions by means of the valid hill certificate;
- the accommodation capacity and the spectator appeal of the competition site;
- the suitability of the organisers in question for WCJ-W-competitions by means of a selection criteria which includes, among other things, the guaranteed availability of an international TV-signal – suitable for live transmissions - for the entire duration of the competition.

1.2.2 According to the result of this evaluation and the proposed dates the Sub-Committee Calendar Planning establishes a provisional WCJ-W-competition schedule for the upcoming years. The final WCJ-W-competition calendar for each season requires the approval of the FIS Council.

1.2.3 Snow deposit

FIS strongly suggests that organizers of Period 3. (November & December) competitions establish a snow cache/depot of sufficient size to guarantee that the hill can be prepared in case there is inadequate snow fall or cold temperatures.

1.3 Date Protection

1.3.1 Only one WCJ-W-event can take place on the same date.

1.3.2 The International Championships (OWG + WSC) are protected as to their dates, which mean that no WCJ-W-competitions can take place.

1.4 Cancellations

In the events that the selected competition site cannot be used, the respective National Ski Association must cancel the event(s) and this must be done at the latest eight (8) days before the competition.

1.5 Waxing Cabins

The Organising Committee is obliged to provide waxing and preparation cabins without any additional costs for the user.

Waxing cabins must have heat, power and internet connections, appropriate tables for waxing, hangers and racks for skis.

1.6 Team Hospitality

The Organizing Committee is required to provide appropriate team hospitality at the competition site(s) for athletes, coaches and service personnel. The team hospitality area(s) should be large enough to allow team members to prepare and/or relax in a secure, comfortable environment. The area(s) should be equipped with adequate seating and heating, provide healthy, warm and cold food and beverages, and have appropriate dedicated washroom facilities nearby.

3.1.3 World Cup Standing

The WCJ-W points of all individual competitions of the current season will be counted for the WCJ-W overall winner.

If two or more competitors have the same number of points at the final evaluation, the order will be determined according to the highest number of individual victories resp. according to the successive ranks in FIS World Cup events.

If the competitors are still equal, the starting order will be drawn.

3.1.4 The current leader of the WCJ-W overall evaluation receives the "WCJ-W Leader bib", which she is allowed to keep. The "WCJ-W Leader bib" has to be worn by the leader at the WCJ-W-event, at the official winner's ceremony and at all official training.

3.2.2 At least eight National Ski Associations must participate if a WCJ team competition is to count for the WCJ Nations' Cup.

3.2.3 Starting order in team competitions

The starting order will be based on the reverse order of the actual World Cup Nations' standings. Due to organizational reasons the result of an individual competition carried out on the same day may not be considered for the starting order. The starting order for the Mixed Team event will be based on the reverse order of the total sum of the World Cup Nations Standings W+M.

3.2.3.1 In the second round, only the leading eight (8) nations from the first round are entitled to start. Before the start of each group in the final round, there will be an info break, where the start order for the next group will be sorted into reverse order of the current standing. If needed, the Competition Jury can decide that all groups will start in reverse order of the result after the first competition round.

3.2.4 WCJ Nation Cup

The sum of the points of all competitors from one nation of all WCJ competitions **(Women)** of the current season – including the points of the team **and share of Mixed team competitions** – will be taken into consideration for the WCJ evaluation per nation.

In case of an equality of points in the WCJ nations' evaluation, the better ranking order of the different competitions (individual as well as team competitions) will decide.

3.3 Super Team competitions

Starting order in Super Team competitions:

The starting order will be determined as follows:

- Group I: draw (for those NSAs that have not scored points in the current season)
- Group II: reverse order of the actual World Cup Nations' standings.

Due to organizational reasons the result of an individual competition carried out on the same day may not be considered for the starting order.

Every team consists of two athletes, that are included in two different groups. Every NSA has the right to enter one team in the event.

The competition consists of three rounds. In the first round all the entered teams have the right to start, by group. After the first round, only the best 12 teams are qualified for the second round. The break after the first round should be 10 minutes. In the second round, start order is again based on groups (first all the athletes of group one, then the athletes of group two). After the second round only the best eight (8) teams are qualified for the final round. The break after the second round should be minimum 10 minutes. In the final round both groups start into reverse order of the current standing.

The ranking is determined by adding the scores of all jumps of the athletes of each team.

If less than 8 NSAs are entered at least 13 days before the Team Event, FIS has the right to adjust the format of the competition to a Super Team format.

Until 10 days before the event, NSAs with less than two athletes entered for the mentioned event can adjust their entry and add an extra athlete for the mentioned Super Team format.

For Nordic World Ski Championships and Ski Flying World Championships the respective deadlines of the given rules have to be respected.

2 nd place = 160 points	8 th place = 50 points

4. Competition Mode and Starting Order

4.1 WCJ-W-Competitions

As a rule, a jumping competition consists of:

- the official training
- a qualification and/or
- a trial round
- two scored rounds.

4.1.1 For the official training, the qualification and the first scored competition round the competitors will be divided into three groups.

The number sequence of the groups is as follows:

- Group I of the organising country
- Group II (athletes without WCJ points)
- Group III (athletes with WCJ points).

4.1.2 The starting order within the group will be determined as follows:

- Group I: draw or seeding through the organising country
- Group II: draw
- Group III: reverse order of the actual WCJ standings. For the first WCJ competition of the season, the final WCJ standings of the past season is decisive. As soon as athletes appear in the World Cup Standings, they are seeded in group III according to their ranking.

After the formation of the Seeded Group I and II, the Jury can make the draw before the official training. The team captains must confirm the draw at the next team captains' meeting.

In case of only one official training for two competitions carried out on the same hill (individual and team competitions or two individual competitions), only the single quota is allowed to start.

The competition schedule has to be published together with the invitation for the competition. Changes can be made by the Jury in case of „force majeure.“

4.2 Qualification round

The qualification round reduces the number of participants to 40. Qualification round for KO system competition see art. 4.6.

All jumpers, must participate in the qualification round. The total score counts for the result.

A jumper, who has reached 95 % of the maximum length of the longest jump by the jumpers who have to qualify but has a fall, has the right to participate in the competition in addition to the 40 (If the wind/gate compensation is used, the compensated distance is the basis).

In case the number of participating athletes is 40 or lower, a Prologue competition round can be organized.

4.2.1 In extreme cases (for example limited training jumps, change of the in-run, lack of time, difficult weather conditions) the Jury can decide on a qualification round or a trial round.

4.2.2 Trial round

If the qualification round is not held at all or not held on the competition day, a trial round must be carried out before the first scored round (exception see ICR art. 452.2.2)

4.2.3 For the first competitive round, only 40 jumpers are admitted. In case of a tie at the last qualified place in the qualification round, the total number of participants will increase accordingly. The total number of participants will be filled up to 40, (plus tied jumpers at the last qualified place or/and jumpers who have reached 95 % of the maximum length but had a fall, according to art. 4.2.)

4.2.4 For the second competitive round (final), only the top 30 of the first competition round are qualified (plus jumpers tied at the last qualified place). They start with the same start number but in reverse order of the collective points score from the first competitive round.

4.2.5 A jumper, who has reached 95 % of the maximum length of the longest jump by the jumpers who have to qualify but has a fall, has the right to participate in the competition in addition to the 30 (If the wind/gate compensation is used, the compensated distance is the basis).

4.2.6 The final round should start 15 minutes after the end of the first competition round. The jumpers who are not at the start on time are disqualified.

4.2.7 After the qualification round of jumps is completed, the Jury is authorized to allow competitors who are not qualified to serve as fore jumpers for the competition, if necessary.

4.3 In order to guarantee that actual and appropriate information on the Jury's decisions regarding the competition is given to the media- and TV representatives as well as to spectators at the jumping hill, the competition management has the duty to forward corresponding information to the media representatives and the announcer. The FIS Race Director is commissioned with this task.

4.4 For all WCJ-W competitions, the use of video-distance-measuring and "to beat – green laser line" according to the special regulations established by the FIS Jumping Committee is mandatory.

4.5 World Cup Final

At the final of the World Cup season (NH, LH,), only the top 30 ranked competitors of the current World Cup overall standings who are present may start on the last individual competition day, with a maximum of six athletes per NSA. If the host nation has less than four athletes within these 30, it is entitled to enter up to four in total. The start order is according to the overall individual WC ranking before the final event.

4.6 KO-System

The Jumping Committee is entitled to modify the above mentioned rules for the qualification and competition rounds.

Based on a decision of the FIS Jumping Committee and with the approval of the FIS Council with the new modus, the number of participants in the first competition round will be reduced to the half (25 participants) for the final round by a comparison of performance in pairs (KO system) and filled up to a total of 30 participants with the five athletes (best loser) who have reached the best total score points.

4.6.1 The qualification round will be carried out with an exception that the score (the total score points achieved) is not only decisive for the participation in the first competitive round but also for the starting order. The qualification round of competition confirmed in the calendar with KO system reduces the number of participants in the first competition round to 50. In case that number of participants in such a competition is lower than 50, KO system will be not used and all entered participants will start in the first competition round.

4.6.2 The first competition round is contested by 25 pairs of jumpers so that exactly 50 athletes have to be selected in the qualification round. It is therefore not possible to increase this number in case of several competitors in equal last places or maximum distance with a too low total score because of a fall. In order to respect fairness and to ensure a clear decision, the following rules are to be observed:

4.6.2.1 If two or more jumpers obtain the same total score in the Qualification round, the athlete with the higher start number will be ranked in the better position (see ICR art. 433.4).

4.6.3 Based on these rules, the following system is in place for the ranking of the qualification round:
Based on the total scores achieved, firstly a normal ranking from positions 1 to 50 is to be established.

4.6.4 For the first competition round the pairs of jumpers are to be established as follows:

Ranking in the qualification round = Start order in the first scoring round

will be the start number

- 4.6.5 The pairs will start in the following order:
- | | | |
|--------------|----------------------|--------------------------|
| Start no. 26 | against start no. 25 | as 1 st pair |
| Start no. 27 | against start no. 24 | as 2 nd pair |
| etc. | etc. | etc. |
| Start no. 49 | against start no. 02 | as 24 th pair |
| Start no. 50 | against start no. 01 | as 25 th pair |

4.6.6 As a result of the comparison in pairs the jumper with the better total scoring reaches the final round. If the two jumpers competing against each other achieve the same total score, the jumper with the lower start number will advance.

4.6.7 Those 25 athletes will participate in the final round who have qualified for the final in the KO elimination. In addition, there are the five losing jumpers which have the best total scores. In exceptional cases of a lower number of winners, the number of losing jumpers will be increased. The number of participants for the second round can also be increased through tied jumpers on the last qualified place or/and jumpers who have reached 95 % of the longest jump (art. 4.2.1.3) but had a fall (If the wind/gate compensation is used, the compensated distance is the basis).

4.6.8 The starting order in the final round results from the reverse ranking order of the total scores in the first scoring round.
 In case of equal total scores the jumper with the higher starting number will jump first.
 The overall score of the competition is determined by the total scores from both competitive rounds, i.e. the sum of both total scores.

4.7 Start Time Control

For WCJ Women duration of yellow phase of start procedure can be between 10 and 60 seconds.

4.8 Transponders and Motion Sensors (test Phase in Summer)

Transponders and Motion Sensors delivering live and recorded data are provided by the official data and scoring provider and approved by the FIS. They must be fastened to the front part of the bindings by the competitors in official trainings and competitions for some events. Transponders and Motion Sensors deliver external data from competitors such as speed and positioning. The service will be provided by the official timing and data provider and the generated data must be provided to the NSAs and the FIS free of charge.

4.9. World Cup Ski Flying Women

The WCJ-events in Ski Flying must be carried out according to the World Cup rules for Ski Jumping as well as according to ICR art. 454.
