- 202.2** **Organisation of Races in other Countries**
Competitions which are organised by other National Ski Associations may only be included in the FIS Calendar when the National Ski Association of the country concerned where the competitions will be organised gives its approval.

203 Licence to participate in FIS Races (FIS Licence)

A licence to participate in FIS races is issued by a National Ski Association to competitors who fulfil the criteria for participation through registering the competitor with FIS in the respective discipline(s).

203.1 The FIS licence year begins on July 1st and finishes on June 30th of the following year.

203.2 To be eligible for participation in FIS events, a competitor must have a licence issued by his National Ski Association. Such a licence shall be valid in the Northern and Southern hemispheres for the licence year only. The validity of a licence can be limited to participation in one specific country or in one or more specific events.

203.2.1 The National Ski Association must guarantee that all competitors registered with a FIS License to participate in FIS races accept the Rules of the International Ski Federation, in particular the provision which foresees the exclusive competence of the Court of Arbitration for Sport as the court of appeal in doping cases.

203.3 A National Ski Association may only issue a FIS licence to participate in FIS races when the competitor has proven his nationality and therefore eligibility by submitting a copy of his passport and signed the Athletes Declaration in the form approved by the FIS Council and returned it to his National Ski Association. All forms from under-age applicants must be counter signed by their legal guardians. Both the copy of the passport and signed Athletes Declaration must be made available to FIS on request.

203.4 During the FIS licence year, a competitor may only participate in International FIS competitions with a FIS licence to participate in FIS races issued by one National Ski Association.

203.5 Application for a change of FIS Licence Registration

All applications to change licence registration from one member National Ski Association to another are subject to consideration by the FIS Council at its Meetings in the spring. In principle an application to change licence registration will not be granted unless the competitor demonstrates his personal association with the new nation.

Prior to submitting an application to change licence registration a competitor must possess the citizenship and passport of the country for which he wishes to compete. In addition, the competitor must have had his principal legal and effective place of residence in the new country for a minimum of two (2) years immediately prior to the date of the request to change registration to the new country/National Ski Association. An exception to the two year residency rule may be waived if the competitor was born in the territory of the new country, or whose mother or father is a national of the new country. Applications will not be accepted if a parent has obtained a passport for the new country, but is not resident, and/or there is no family ancestry.

Furthermore the competitor is required to submit a detailed explanation with the application about his personal circumstances and the reason for requesting a change of licence registration.

- 203.5.1 If a competitor has already participated in FIS calendar events for a National Ski Association, he must have the written agreement to be released from the former National Ski Association in addition to the citizenship, passport and residency requirements in art. 203.5 before the new National Ski Association may submit a request to FIS for a change of registration.
If such a written agreement is not given, the competitor may not participate in any FIS calendar events for a period of twelve months from the end of the last season in which he competed for his present National Ski Association, nor may he be issued with a licence to participate in FIS races by the new National Ski Association.
These rules are also valid when a competitor has more than one nationality and would like to change National Ski Association licence registration.
- 203.5.2 The FIS Council reserves the right in its absolute discretion, to grant or to decline to grant, a change of licence notwithstanding the fulfilment of the aforementioned conditions where it deems it is contrary to the spirit of the rule and in the best interests of the International Ski Federation to do so (e.g. to decline to grant a change of licence if a member National Ski Association tries to “import” a competitor).
- 203.5.3 In the event that a competitor does not fulfil all the criteria required to apply for a change of National Ski Association licence registration, the onus shall be on the competitor to demonstrate in writing to the satisfaction of the FIS Council that exceptional circumstances exist and it is in the best interests of the International Ski Federation to grant the change.
- 203.5.4 A competitor will retain his FIS points if he changes his National Ski Association under the condition that the former National Ski Association granted the release of the competitor.
- 203.5.5 In the event that any of the documents for an application to change licence registration submitted by the National Ski Association (letter of release from the former National Ski Association, passport, residency papers) are found to be false, the FIS Council will sanction the competitor and the new National Ski Association.

“Electronic Media Rights” means the rights for Television, Radio, Internet and Mobile devices.

“Television rights” means the distribution of television images, both analogue and digital, comprising video and sound, by means of terrestrial transmitters, satellite, cable, fibre or wire for public and private viewing on television screens. Pay-per-view, subscription, interactive TV, video on demand services, IPTV or similar technologies, are also included in this definition.

“Radio rights” means the distribution and reception of radio programmes, both analogue and digital, over the air, by wire or via cable to devices, both fixed and portable.

“Internet” means access to images and sound through interconnected computer networks.

“Mobile and portable devices” means the provision of images and sound through a telephone operator and receivable on mobile telephone or other non fixed devices, such as Personal Digital Assistants.

208.3 Television

208.3.1 *Standard of production and promotion of competitions*

In the agreements concerning production with a TV organisation or agency acting as host broadcaster, the quality of TV transmissions for ski and snowboard events published in the FIS Calendar – especially for FIS World Cup competitions – must be considered. Of particular importance, while taking into consideration applicable national laws and rules affecting broadcasting, are:

- a) Top quality and optimal production of a TV signal (for live or deferred transmission depending on the event) in which sport is the centrepiece;
- b) Adequate consideration and appearance of venue advertising and event sponsors;
- c) A standard of production in conformity with the FIS TV Production Guidelines and appropriate to current market conditions for the discipline and to the level of the FIS competition series. This means live coverage of the entire event including the winner presentation for live transmission (unless circumstances determine that a live production is not provided). This coverage shall be produced in a neutral way, shall not concentrate on any athlete or nation and shall show all competitors
- d) The live international signal of the host broadcaster must include appropriate graphics in English, particularly the official FIS logo, timing and data information and results, and international sound.
- e) Where it is appropriate to the individual TV market, there should be live TV transmission in the country where the event takes place and in other countries with a high interest.

208.3.2 *Production and Technical costs*

Except when otherwise agreed between the National Ski Association and the agency/company managing the rights, the cost of producing the television signal for the exploitation of the different rights will be borne by the broadcaster having acquired the rights in the country where the competition takes place or a production company mandated to produce the signal by the company owning the rights. In certain cases, the organiser or the National Ski Association may assume these costs.

For each of the different rights granted under this rule the technical expenses that are to be paid for by those organisations that have acquired the rights and which are seeking to access the television signal (original picture and sound without commentary), have to be agreed between the producing company or the agency/company managing the rights, as applicable. This also applies to any other production costs that may be requested.

208.3.3 *Short extracts*

Short extracts granting news access for non-rights holders are to be provided to television companies according to the following rules. It is

noted that in a number of countries national legislation governs the showing of short extracts in news programmes.

These extracts may only be used in regularly scheduled news programmes and cannot be kept for archive purposes

- a) In those countries where legislation exists regarding news access to sporting events then this legislation will always hold precedence for reporting on FIS events.
- b) In those countries where no legislation exists regarding news access by competing networks and provided that agreements between the company managing the rights and the primary rights holder take precedence then short extracts of a maximum of 90 seconds news access will be granted to competing networks by the agency/company managing the rights for transmission four hours after the rights holding network has shown the competition. The use of this material will cease 48 hours after the end of the competition. If the rights holding network delays its transmissions by more than 72 hours from the end of the competition, then competing networks can show extracts of a maximum of 45 seconds commencing 48 hours after and ending 72 hours after the event itself. Any request to exploit short extracts shall be addressed to the agency/company managing the rights which shall grant to the broadcasters access to the short extracts subject to agreement regarding the technical costs incurred to receive the material.
- c) In those countries where no transmission rights have been purchased by a television company, all television organisations will be able to transmit short extracts of 45 seconds as soon as the material is available, subject to agreement with the agency/company managing the rights regarding the technical costs to be incurred to receive the material. Permission for the use of this material will expire after 48 hours.
- d) Short extracts will be produced by the host broadcaster or the agency/company managing the rights and distributed by that agency/company, taking into consideration 208.3.2 above.

208.4

Radio

The promotion of FIS events through radio programmes will be encouraged by making available accreditation to the principle radio station(s) in each interested country. Access to the venue will be granted solely to those radio organisations that have obtained the necessary contractual authorisation from the rights holder, and will be only for the production of radio (audio) programmes. If accepted by national practice and the authorisation is granted, these programmes can also be distributed on the internet site of the radio station.

208.5

Internet

Unless the contract for the sale of the Electronic Media Rights on FIS events states otherwise, each television rights holder that also acquires the internet rights, will ensure that video streams from its website other than short extracts are geoblocked against access from outside its own

territory. Regularly scheduled news bulletins containing material of FIS events may be streamed on the rights holding broadcaster's website, provided no changes are made to the bulletin as transmitted in the original programme.

Video and audio material produced in public areas where accreditation, tickets or other permissions are not required to gain access must not contain race footage. It is recognised that new technology provides members of the public with the possibility to produce unauthorised video recordings that may be posted on websites. Appropriate information advising that the unauthorised production and use of video material is prohibited and that legal proceedings could be taken, will be shown at all entrances and printed on entrance tickets.

All National Ski Associations and the rights holders/agencies will give permission for short extracts to be placed on the FIS website for non-commercial use subject to the following conditions:

- a) When short extracts have not been acquired for Internet distribution the maximum duration of the news material from FIS competitions will be 30 seconds per discipline/per session and will be accessible on the FIS website until 48 hours after the end of the competition. The financial conditions relating to the provision of this material will be agreed between the FIS and the rights owner.
- b) The material will be provided by the rights owner or host broadcaster as soon as possible, but at the latest six hours after the end of the competition.

208.6

Mobile and portable devices

In the cases where the rights for distribution by mobile and portable devices have been awarded, the rights purchaser/operator will be free to produce from the television signal the content it considers best meets the needs of its customers. Any live streaming of television programmes on a national basis using these devices shall not be altered from that available through other distribution channels.

In countries where no mobile distribution rights have been sold, short extracts or clips of a maximum duration of 20 seconds will be offered to operators when the material has been produced and for a period of 48 hours on the condition that the operators pay all related technical costs to the agency/company managing the rights.

208.7

Future developments

The principles contained in this Rule 208 shall be the basis for the exploitation of Electronic Media Rights to FIS events in the future. The FIS Council, on the recommendation of the National Ski Associations, the relevant commissions and experts, will establish the conditions considered appropriate to each new development.

209

Film Rights

All agreements regarding film productions of FIS competitions will be between the film producer and the National Ski Association or the company managing the related rights. All contractual arrangements regarding the exploitation of other media rights will be respected.

210 Organisation of Competition

211 The Organisation

211.1 The Organiser

211.1.1 The Organiser of a FIS competition is the person or group of persons who make the necessary preparations and directly carry out the running of the competition in the resort.

211.1.2 If the National Ski Association itself is not the competition organiser, it may appoint an affiliated club to be the organiser.

211.1.3 The organiser must ensure that accredited persons accept the regulations regarding the competition rules and Jury decisions, and in World Cup races the organiser is obliged to obtain the signature of all persons who do not have a valid FIS season accreditation to this effect.

211.2 The Organising Committee

The Organising Committee consists of those members (physical or legal) who are delegated by the organiser and by the FIS. It carries the rights, duties and obligations of the organiser.

The FIS shall provide its employees and appointed officials, who are not members of the Organising Committee (e.g. equipment controller, medical supervisor, etc.), with liability insurance when they are acting on behalf of the FIS.

212.2 Before the first training day or competition, the organiser must be in possession of a binder or cover notes issued by a recognised insurance company and present it to the Technical Delegate. The Organising Committee requires liability insurance with coverage of at least CHF 1 million; whereby it is recommended that this sum is at least CHF 3 million; this sum can be increased according to decisions of the FIS Council (World Cup etc).

Additionally, the policy must explicitly include liability insurance claims by any accredited participant, including competitors, against any other participant including but not limited to officials, course workers, coaches, etc

212.3 The Organiser respectively its' National Ski Association may request the FIS insurance broker to arrange cover for the competition (at the cost of the Organiser) if the organiser does not have the necessary insurance cover in place.

212.4 All competitors participating in FIS events must carry accident insurance, in sufficient amounts to cover accident, transport and rescue costs

including race risks. The National Associations are responsible for adequate insurance coverage of all their competitors sent and inscribed by them.

The National Ski Association or their competitors must be able to show proof of the respective insurance coverage at any time on request of the FIS, one of its representatives or the organising committee.

For all international competitions, there must be direct communication between the Start and the Finish. In Olympic Winter Games the communications must be assured by fixed wiring.

In the data service area, access to the internet (at least ADSL speed) is required for World Cup, World Championships and Olympic Winter Games competitions.

218.2 The data and timing generated from all FIS competitions is at the disposal of FIS, the organiser, the National Ski Association and participants for use in their own publications, including websites. Use of data and timing on websites is subject to the conditions laid down in the FIS Internet Policies.

218.3 FIS Internet Policies and Exchange of Data relating to the FIS Competitions

218.3.1 *General*

As part of the ongoing promotion of skiing and snowboard, the International Ski Federation encourages and appreciates the efforts made by the National Ski Associations to provide messages and information to their members and fans. An increasingly important medium for this provision of information is through the Internet.

The following policy has been established in order to assist National Ski Associations through the provision of data from FIS competitions, and to clarify certain conditions that relate to the use and presentation of the data from FIS competitions.

218.3.2 *FIS Calendar data*

The online FIS Calendar programme has been developed for the free use of National Ski Associations and is available in the members section of the FIS website.

218.3.3 *Results and Standings*

National Ski Associations can obtain official results, after they have been approved by the FIS Points verification procedure at the FIS Office. This data will be available on request to the FIS IT Manager who will provide the necessary instructions and/or routines on a case-by-case basis. The FIS World Cup results will include a credit to the results service providers. Standings from the various Cup series will also be available after receipt from the results service providers in the case of the FIS World Cup, or they have been input manually for other Cup series.

1. The results and data from FIS competitions may only be used on the National Ski Associations', Organisers' and participants' websites and may not be passed on for commercial use to third parties or organisations.

The National Ski Association may download the data into its' own software for evaluating performances, etc.

2. National Ski Associations who wish to display results on their website, but do not have a database structure to upload the raw data

can create a link to the relevant page of the FIS website. The exact addresses can be obtained from the FIS IT Manager.

3. A link will be established from the FIS Website to all National Ski Associations with their own website, as well as the ski industry and relevant media websites on requests. A reciprocal link to the FIS website should also be created.

218.3.4

Organisers access to results

Organisers of FIS World Cup races can obtain official results from their races after they have been approved by the FIS Points verification procedure in the results database. The upload is a computer-automated procedure for World Cup races and takes place immediately after the end of the race.

The pdf file containing the results and standings can be downloaded from www.fis-ski.com followed by the discipline code and the name of the site: AL (Alpine), CC (Cross-Country), JP (Ski Jumping), NK (Nordic Combined); SB (Snowboarding), FS (Freestyle Skiing) etc. The individual competition can be identified by the competition codex as published on the detailed page of the calendar on www.fis-ski.com.

219

Prizes

219.1

The detailed rules concerning the awarding of prizes will be published by the FIS. Prizes shall consist of mementos, diplomas, cheques or cash. Prizes for records are forbidden. The FIS Council decides in the autumn on the minimum respectively maximum values of the prize money approximately one and a half years before the competition season. The organisers have to inform the FIS by October 15th of the amount.

219.2

If two or more competitors finish with the same time or receive the same points, they shall be given the same placing. They will be awarded the same prizes, titles or diplomas. The allocation of titles or prizes by drawing lots or by another competition is not allowed.

219.3

All prizes are to be awarded no later than the final day of a competition or event series.

220

Team Officials, Coaches, Service Personnel, Suppliers and Firms' Representatives

In principle these regulations apply to all disciplines, taking into consideration the special rules.

220.1

The Organising Committee of an event must provide the Technical Delegate with a list of persons accredited to the competition.

220.2

It is forbidden for suppliers and for persons in their service to advertise inside the restricted area or to wear clearly visible commercial markings on their clothing or equipment which do not conform with art. 207.

220.3

Team officials accredited service personnel and suppliers receive from the FIS an official FIS accreditation and must perform their specified function.

The individual organisers are free to accredit additional company representatives or other important persons.

221 Medical Services, Examinations and Doping

221.1 National Ski Associations are responsible for the fitness of their competitors to race. All competitors, male and female are required to undergo a thorough evaluation of their medical health. This evaluation is to be conducted within the competitor's own nation.

221.2 If requested by the FIS Medical Committee or its representative, competitors must undergo a medical examination before or after the competition.

221.3 Doping is forbidden. Any offence under these FIS Anti Doping Rules will be punished under the provisions of the FIS Anti-Doping Rules.

221.4 Doping controls may be carried out at any FIS competition (as well as out-of competition). Rules and procedures are published in the FIS Anti-Doping Rules and FIS Procedural Guidelines.

221.5 Gender of the Competitor

If any question or protest arises as to the gender of the competitor, FIS shall assume responsibility for taking the necessary steps to determine the gender of the competitor.

221.6 Medical Services Required from Event Organisers

The health and safety of all those involved in a FIS competition is a primary concern of all event Organisers. This includes the competitors as well as volunteers, course workers and spectators.

The specific composition of the medical support system is dependent on several variables:

- The size, level, type of the event being held (World Championships, World Cup, Continental Cup, FIS-level, etc.) together with the local medical standards of care and geographic locations and circumstances.
- The estimated number of competitors, support staff and spectators

- The scope of responsibility for the Event Medical Organisation (competitors, support staff, spectators) should also be determined.

The Organiser / The Chief of Medical and Rescue Services must confirm with the race director or technical delegate that the required rescue facilities are in place before starting the official training or competition. In the event of an incident, or issue that prevents the primary medical plan from being utilized, the back up plan must be in place before recommencing the official training or competition.

The specific requirements concerning facilities, resources, personnel and team physicians are contained in the respective discipline rules and the FIS Medical Guide.

222 Competition Equipment

222.1 A competitor may only take part in a FIS competition with equipment which conforms to the FIS Regulations. A competitor is responsible for the equipment that he uses (skis, snowboard, bindings, ski boots, suit, etc). It is his duty to check that the equipment he uses conforms to the FIS specifications and general safety requirements and is in working order.

222.2 The term competition equipment encompasses all items of equipment which the competitor uses in competitions. This includes clothing as well as apparatus with technical functions. The entire competition equipment forms a functional unit.

222.3 All new developments in the field of competition equipment must be approved in principle by the FIS.
The FIS does not take any responsibility for the approval of new technical developments, which at the time of introduction may contain unknown risk to the health or cause an increase in the risk of accidents.

222.4 New developments must be submitted by May 1st, at the latest, for the following season. The first year new developments can only be approved provisionally for the following season and must be finally confirmed prior to the subsequent competition season.

222.5 The Committee for Competition Equipment publishes equipment by-laws after approval by the FIS Council (definitions or descriptions of the equipment items which are allowed).
In principle unnatural or artificial aids which modify the performance of the competitors and/or constitute a technical correction of the individual's physical predisposition to a defective performance, as well as competition equipment which impact the health of the competitors or increase the risk of accidents are to be excluded.

222.6 Controls

Before and during the competition season or on submission of protests to the Technical Delegate at the competition concerned, various controls can be carried out by members of the Committee for Competition Equipment or official FIS Equipment Controllers. Should there be a well-founded suspicion that regulations were violated, the equipment items must be confiscated immediately by the controllers or Technical Delegates in the

presence of witnesses and be forwarded sealed to the FIS, which will submit the items to a final control by an officially recognised institution. In cases of protest against items of the competition equipment, the losing party will bear the investigation costs.

No testing of equipment or material in independent laboratories may be requested at races where a FIS Technical Expert has performed the controls, unless it can be demonstrated that the controls have not been carried out according to the rules.

222.6.1 At all FIS events where official FIS measurement experts using the official FIS measurement tools are appointed, the result of measurements carried out at the time are valid and final, irrespective of previous measurements.

1700 Rules Common to Telemark Events

1701 General Characteristics

1701.1 A telemark race has up to 5 components that are designed to test the all-round skiing techniques of the competitor. A correct and swift execution of all the turns must be possible. The course must not impose the use of acrobatic movements but may contain jumps, a 360, a cross country section, whoops as appropriate, and super-telemark.

1701.1.1 Zones where the Telemark technique is not compulsory must be marked with yellow panels.

1701.1.2 The speed upon entering the various elements (jump and 360 included), and the way these elements are laid out, should not be such as to cause the best participants any more difficulties than in the regular turns part. The elements must not be such as to constitute any kind of danger to the participants

1701.2 Telemark section

1701.2.1 Usually 60-70% of the race time (except for Giant Slalom).

1701.2.2 The Telemark (or Giant Slalom) section contains a series of direction changes, denoted by gates marked with red and blue flags.

1701.2.3 Turns must be adapted to the Telemark technique with large, medium and small radius in a natural variation.

1701.2.4 The course must make it possible to take all turns in the Telemark technique.

1701.3 Jump

1701.3.1 The height of the jump is discipline dependent and the profile must follow the profile of the hill, dimensions are found at Rule 1716.

1701.3.2 The flight curve must be low and the first gate after the jump must be placed at a sufficient distance to avoid punishing competitors making long jumps.

1701.3.3 The hill must be suited for jumps greater than 5 metres but not exceeding 30 metres.

1701.3.4 Jump inclination should not be more than 20° greater than the landing zone.

1701.3.5 Kick jumps are not allowed.

1701.3.6 Racers must complete one practice jump during the inspection for the first run of the day.

- 1701.3.7 The Course Setter shall set the length of the jump lines. The lines will be confirmed from jury by observing the racers practice jumps.
- 1701.3.7.1 The first gate after the MEN's jump line is a minimum 50% further distance than the jump line.
- 1701.3.8 Minimum number of jumps in a course is one, maximum is two
- 1701.3.9 There shall be a clear zone around the jump. This area will be 5 metres minimum on each side of the jump, measured at the lip of the jump. The clear zone shall extend on both sides of the jump at the same distance to a point 50 meters below the jump and 10 meters above the jump. This area must be kept clear of shovels, gates, bamboo, etc., except for breakaway gates, jump judges and the jury. Contrast indicators, such as pine boughs or paint may be placed for safety.
- 1701.4 The 360**
- 1701.4.1 The 360 shall ensure the competitor turns at least 180 degrees and at the end of the turn cross their own tracks.
- 1071.4.2 Dimensions for the 360 are discipline dependent and found at Rule 1716.
- 1701.4.3 The 360 should be in the shape of a semi-circle.
- 1701.4.4 Where the 360 is surrounded by banked snow the height of the snow should not exceed 2m.
- 1701.4.5 Where the 360 is surrounded by banked snow there must be a B-net around it. (0.8m behind the highest point and it must not interfere with the racer). On the top edge of the loom (especially for PS) there MUST be a 1m wide, flat surface. The first protection B-Net must have slide-on surfaces installed from the ground up to at least 80cm of height. A second B-Net should be added to support the first B-Net.
- 1701.4.6 The 360 must be laid out so that the competitors are able to take the full turn without walking.
- 1701.4.7 The direction of the 360 will be decided by the jury prior to the racer's course inspection and marked clearly.
- 1701.5 Cross Country Section (Skating)**
- 1701.5.1 The Cross Country section (where applicable) should make up 30-40% of the race time.
- 1701.5.2 There is no mandatory style or technique in the cross-country part.

- 1701.5.3 The cross-country part uses varying terrain with mostly flat, undulating or easy uphill.
- 1701.5.4 The cross-country part should be placed in the last half of the course and be laid out so that the competitors may overtake one another easily.
- 1701.5.5 The track must be clearly marked with yellow flags, color, flags or other means at the inspection so there is only one way to pass the gates. The racer must follow all the marks in sequence.
- 1701.5.6 Where paint or other indicators are used to show the track they are indicative and not absolute; racers may cross such markings but must pass through all gate.

1701.6 Super Tele

- 1701.6.1 The super-T part must allow for a higher speed than for the giant slalom part.
- 1701.6.2 The course must be set so that the Telemark technique comes naturally.
- 1701.6.3 Gates where the Telemark technique is not compulsory must be marked.

1702 The Jury

- 1702.1 Sprint
- The Technical Delegate
 - The Chief of Race of the Organizing Committee
 - The Referee
- 1702.2 Classic, Parallel Slalom and Team Parallel
- The Technical Delegate (with deciding vote FIS & NC)
 - The Chief of Race
 - The Referee (with deciding vote WC & WSC)
 - Assistant Referee

1703 Start Order and Group Draw

- 1703.1 For national races special regulations may be issued.
- 1703.2 The Jury makes the classification of the competitors who are present.
- 1703.3 The FIS ranking list must be used for the classification of competitors. Competitors, who do not appear in the last valid list, shall be assigned to the group to which competitors without points are assigned. In all cases of doubt, the jury will decide.

- 1703.4 A first group of the 10 best ranked Ladies and the 15 best ranked men will be drawn.
- 1703.5 The remaining competitors with FIS points start in the second group in the order of the ranking list.
- 1703.6 All competitors without FIS points will be drawn in the last group.
- 1703.7 Accepted late entries start as the last ones in their group. If there are more than one, the start order is drawn.

1704 The Course

- 1704.1 All FIS Telemark Races must be run on a course homologated by a recognised authority for Alpine GS or SL. If a SL Homologation is used the TD must assure sufficient width and any additional controls.
- 1704.2 Where, outside of the control of the organisers, the course does not meet the technical requirements laid out in TIGR the jury may accept the course.
- 1704.3 The GS or telemark parts of the course may be set with single gates according to the Alpine ICR arts 904.2, 904.3 and 904.4.
- 1704.4 Where single gates are used the first and last gates, gates before and after the jump, gates at the start or end of a Telemark or freestyle zone and the gate before and all gates within the cross country section must have outside gates.
- 1704.5 The degree of difficulty must correspond to the average ability of the 30 best competitors in the race. Gates should be set to suit the rhythm of the skiers and the hill.
- 1704.6 The jury may adjust a gate, or gates, before or during the jury inspection to ensure the course is safe and appropriate.

1705 Gates and Course Setting

- 1705.1 Gates distances are set according to discipline and terrain and as shown in the course aide memoire at Article 1716.

1705.2 Course Setter Prerequisites

- 1705.2.1 For World Championships: nomination by the national association to the Telemark Committee and proof of appropriate experience in the setting of courses for international races.
- 1705.2.2 For World Cup, as approved by the World Cup Coordinator.
- 1705.2.3 For all other international races - nomination by the Telemark Committee or by the captains' meeting.

1705.3 Course Setter Appointment

1705.3.1 For World Championships, World Cup and Continental Cup the appointment is made by the jury at the Team Captains' meeting. The FIS Telemark Committee may, where appropriate, appoint course setters in advance of an event and will notify the Jury as necessary. Decisions made by the FIS Telemark Committee cannot be overruled except for Force Majeure.

1705.3.2 For all other international competitions, the appointment is made by the Jury.

1705.3.3 For competitions in two runs, each run is set by a different course setter.

1705.3.4 For PS the Qualification and the Final run.

1705.4 Course Setter Duty Assignment

1705.4.1 The duty assignment of the course setters is determined by the FIS Telemark Committee.

1705.5 Replacement of Course Setters

1705.5.1 For World Championships, the FIS Telemark Committee is to be notified of the non-availability of a nominated course-setter, as well as the national association to which the course setter belongs. The Telemark Committee then immediately names a replacement course setter.

1705.5.2 For all other competitions, either the Telemark Committee or the Jury names a replacement course setter.

1705.5.3 The replacement course setter must have the same qualifications as the absent course setter.

1706 Marking of the Course

1706.1 To mark hollows and changes in the terrain, colour may be used in the course. This is especially important when the light is flat.

1706.2 Colour markings must not be placed so as to cause confusion with the marking of the distance line on the jump.

1706.3 Lines

1706.3.1 Red Lines. Red lines are used to mark the start of a Telemark zone. They must be placed at the first gate and the start of any Telemark zone, always at the pole of the gate and connect the poles of the inside and outside gate. Red lines are used to mark the racing line on the red parallel course for visibility and the finish line.

1706.3.2 Blue Lines. Blue lines mark the end of a Telemark zone and the start of a yellow zone. They must be placed prior to the jump and at the last gate, always at the pole of the gate and connect the poles of the

inside and outside gate. Blue lines may be used to mark the racing line, and should be used to mark the loom and the gates in GS/CL/SP, especially when the visibility is bad.

- 1706.3.3 Colour should be used to highlight the jump and the loom.
- 1706.3.4 For PS a horizontal line in the middle of the loom, parallel to the top should be used as reference.

1707 Inspection

- 1707.1 The course will remain closed for training on the day of the race.
- 1707.2 The gates must be finally set prior to the course being opened for inspection.
- 1707.3 The time reserved for inspection must be sufficiently long to allow the competitors to inspect and make at least one practice jump and circuit of the 360 (if appropriate).
- 1707.4 The competitor must execute at least one practice jump during inspection. The organiser shall keep a record of the practice jumps. A competitor who fails to make a practice jump must be disqualified.
- 1707.5 Uncontrolled or unauthorised practice jumps must not be performed during inspection. The competitors must stop in an area so not to interfere with the next competitors.
- 1707.6 The competitor must not ski through consecutive blue or red gates leading up to or exiting the practice jump or loom. The exception is for one gate before the jump and loom and the first gate after the jump. It is not permitted to pass these gates in Telemark technique.
- 1707.7 A competitor must execute one practice passage of the 360 during the inspection.
- 1707.8 The Jury decides the method of inspection of the 360.
- 1707.9 Parts of the course where Telemark technique is not compulsory must be marked before the inspection starts. The jump lines shall be set during the first practice jump period and not before the inspection.
- 1707.10 The Jury decides the method of inspection. It may permit the passage of the gates by snowplough/side-slip or in and out inspection.
- 1707.11 The Jury decides the inspection style of the cross-country part.
- 1707.12 Inspection methods should normally be announced at the Team Captains meeting, but must be announced prior to the start of the inspection.

1707.13 Skiing, other than snowplough or side-slipping, through a gate, or practicing turns parallel to the course (shadowing) will lead to disqualification.

1707.14 Competitors must display their start numbers during inspection

1707.15 Competitors must wear helmets and skis with ski brake or safety leashes as designed and recommended by the manufacturer for the inspection.

1708 Start Intervals

1708.1 Variable start intervals are normally used, on a 'course clear' basis. In such situations ICR 614.2.3 does not apply.

1708.2 Where fixed start intervals are used, then ICR 614.2.3 applies. The jury will decide the length of start interval according to conditions. Start interval must not be less than 30 seconds.

1708.3 With variable start intervals the Chief of Timing and Calculations authorises the start of a competitor. They need not wait until the preceding competitor has finished the run, but must be observant so that the competitor is not obstructed on the course (Course Clear).

1709 Passage of the Gates

1709.1 **Conventional Course.** A gate has been passed correctly when both the competitor's ski tips and both feet have passed across the gate line. A competitor who has missed a gate must climb back until both his feet and ski tips cross the line of the gate.

1709.2 **Single Gate Course.** Where there are no outside poles, both feet and tips must have passed the turning pole on the same side, following the normal race line of the course crossing the imaginary line from turning pole to turning pole. If a racer has not correctly crossed the imaginary line and does not follow the normal racing line, then they must climb back up and pass around the missed turning pole. Any direction is acceptable.

1710 The Turn

1710.1 All turns in a Telemark zone are to be executed in the Telemark technique.

1710.1.1 Definition of the Telemark technique.

1710.1.2 The inner ski must be the hindmost ski. The distance between the tip of the inner boot and the heel of the outer boot must be at least one boot length, measured in the direction of the ski.

1710.1.3 The heel of the inner ski must be clearly lifted from the ski

- 1710.1.4 The turns must be linked together in one single, uninterrupted movement from one Telemark turn to the next. At all times there must be at least one boot length between the tip of the inner boot and the heel of the outer boot unless the next turn is being initiated.
- 1710.2 The competitor himself decides where to execute the turn in relation to the gate.
- 1710.3 Skating steps are permitted as long as the rules in article 1710 are adhered to.
- 1710.4 To start a turn in the Telemark technique and end it as a parallel turn, or vice versa, is not allowed.
- 1710.5 Falling through a gate, passing through a gate on one ski only, is a penalty, finish gate and yellow zone excepted.
- 1711 Judging and Penalties**
- 1711.1 Jump**
- 1711.1.1 If a competitor does not land in the telemark position a penalty of one (1) second is added to the total time of the competitor.
- 1711.1.2 Landing with parallel feet (alpine) is allowed if the competitor, directly at impact, executes an uninterrupted movement into the Telemark position
- 1711.1.3 If the competitor does not reach the jump line (Rule 1711.1.4) a penalty of three (3) seconds is added to the total time of the competitor. If the qualification is run on the PS course a penalty of two (2) seconds (one line, one landing) is added to the race time.
- 1711.1.4 The jump distance is measured at the first point of impact of the feet. The front foot must be completely over the line, or both feet if landing in alpine style.
- 1711.2 Telemark technique**
- 1711.2.1 For each improper execution of the telemark turn (Rule 1710) a penalty of one (1) second is added to the competitors' time.
- 1711.2.2 Maximum penalty per turn is one (1) second.
- 1711.2.3 Falling through a gate, or passing through a gate on one ski only, is a penalty; finish gate and yellow sections excepted.
- 1711.2.4 To start a turn in the Telemark technique and end it as a parallel turn, or vice versa, is not allowed.
- 1712 Gate Judges**

- 1712.1 A gate judge must have full knowledge of the rules concerning correct passage of the gates and the rules and instructions for gate judges.
- 1712.2 A gate judge's decision must be clear and unbiased.
- 1712.3 The organiser, whose responsibility it is to have a sufficient number of qualified gate judges available, appoints the gate judges.
- 1712.4 Gate judges should not control more than 3 turns.
- 1712.5 The Gate Judge's decisions with regards penalties are final and cannot be protested.
- 1712.6 For World Cup and World Championships it is mandatory to provide video controlling as back up the judging at the jump in CL and SP. A proper device (Tablet, extra battery and software) will be provided by the FIS TM Committee.
- 1712.7 **Gate Judging Signals**
- 1712.7.1 Zero Penalties – both arms point to ground.
- 1712.7.2 One penalty – one arm raised vertically.
- 1712.7.3 Two penalties – two arms raised vertically.
- 1712.7.4 Three penalties – two arms extended horizontally out to the side at 90 degrees to the body.
- 1713 Second run**
- 1713.1 All competitors who are classified in the first run may start the second run.
- 1713.2 For the second run the start list is derived from the results of the first run. The first 30 competitors will start in the reversed order.
- 1713.3 If there are less than 35 racers the Jury may reverse the entire qualified field for the 2nd run.
- 1713.4 If there are less than 30 racers the Jury may reduce the 2nd run reversed field from 30 to 15.
- 1714 Outside assistance.**
- 1714.1 Outside assistance is not permitted, except for the replacement of a broken pole, or poles, within a yellow zone.
- 1714.2 Coaches, or other athletes and associated personnel up to a maximum of 2 persons per Nation per area, are only permitted to assist by replacement of broken poles at therefore clearly designated

areas, along with general encouragement. Redirection of racers, verbally or physically, is not permitted.

2200 Special Rules for Parallel Sprint

2200.1 The Parallel Sprint (PS) is a short sharp fast race that tests high tempo agility and competitive spirit. Multiple knockout rounds test athletic recovery and anaerobic endurance.

2201 Gates and Course setup

2201.1 General Characteristics

2201.1.1 Parallel Sprint (PS) is a knockout competition where two competitors compete simultaneously side by side down two parallel courses

2201.1.2 The PS format consists of a Qualification of one run, followed by Knockout rounds on parallel courses.

2201.1.3 Each knockout round consists of heats between pairs of racers; each heat consists of one run.

2201.1.4 The setting of the courses, the configuration of the terrain and the preparation of the snow are to be as identical as possible.

2201.1.5 The rules for Sprint apply for the Parallel Sprint.

2201.1.6 Planned time per run should be 30 sec. to 50 sec.

2201.2 The Course

2201.2.1 The length and vertical drop is decided by the slope. It is important that the whole course can be viewed from one location (preferably the finish area).

2201.2.2 Recommended vertical drop is between 70m and 120m.

2201.2.3 The 360 turn and cross-country section can be the same or separate for each course (see below).

2201.2.4 The red course is on the skiers left, the blue on the skiers' right.

2201.2.5 Each course must contain Telemark turns, one jump, a 360 turn and one cross-country section.

2201.2.6 The height of the jump must not exceed 1.0 m. The hill must be suited for jumps from 5 to 20 m.

2201.3 Gates

2201.3.1 Gates should consist of an inside turning gate only, which consists of two poles, and one flag. The distance between the two courses should be minimum 6 metres measured from the same poles at the two corresponding gates. The rules for passing the gate are the same as for the single gate GS rules.

2201.3.2 The distance between the turning gates should be 20-24m with a minimum offset of 3m. Discretion should be used where the terrain dictates otherwise.

2201.4 360-turn

The is one 360-turn for both courses the 360-turn should be at least 7-9 m in radius on the top of the 360 and 2m high. There must be a B-net around the 360 turn (0.8m behind the highest point and must not interfere the racer). On the top edge of the loom there MUST be a 1m wide, flat surface. The first protection B-Net must have slide-on surfaces installed from the ground up to at least 80cm of height. For PS a second line in the vertical middle, parallel to the top should be used as reference.

2201.5 Cross-Country section

The cross-country section should be flat or slightly undulated, and must be sufficiently wide that the competitors can pass each other. The Jury decides whether there is only one cross-country track for both courses or two separate tracks.

2201.6 Jump

2201.6.1 Must include one jump with a height not exceeding 1.0 m.

2201.6.2 The jump line should be set to ensure a change of rhythm for racers but should be achievable for the majority.

2202 Start

2202.1 Start Ramp

The Start Ramp shall be prepared in such a way that the competitors can stand relaxed on the starting line and can quickly reach full speed after leaving the start. Push off posts should be installed on the starting installation for all events. The specifications will be adjusted to the needs of the specific events.

2202.2 Start Gates. The gates must open simultaneously for both courses and a competitor must not be able to push the gates open.

2202.3 False Starts. Sanction will take place:

2202.3.1 If a competitor manipulates the starting gates.

2202.3.2 If a competitor tries to pass the starting gates before the final starting signal has been given (audible and/or visible).

2202.4 Malfunction of the start gate. If one or both starting gates have been blocked because of technical malfunction, without the competitor touching the gate before the starting signal was given, the start must be repeated.

- 2202.5 Start command.** Before the starter releases the start gate or gives the word of command “go” or single audible signal, he must first ensure that the competitors are ready by asking: “red course ready, blue course ready, attention”. “Racers ready” MUST only be used in conjunction with an audible command (series of short beeps followed by one louder starting beep when doors open).
- 2203 Finish**
- 2203.1 The finish zones must be marked clearly with poles and finishing line in the same colour as the courses. The width of the finishing line must be sufficient for two competitors to pass at the same time.
- 2203.2 Separate tracks: The final section of the cross-country section must be at least 15m long and with separate tracks for the blue and red course. The competitor is not permitted to change track in this section.
- 2204 Timing**
- 2204.1 Qualification**
The running time of each competitor will be registered with two independently homologated timing systems as per SP. If the qualification is run on the PS course a penalty of two (2) seconds (one line, one landing) is added to the race time.
- 2204.2 Knockout rounds**
As the start is simultaneous, only the difference in time between the competitors at the finish will be registered with two independent homologated timing systems. The first competitor that breaks one of the signals starts the chronometer and receives the time “zero”, the following competitor (2nd) stops the clocks (chronometers) and receives the time difference in 1/100-seconds to the first competitor.
- 2205 Course Inspection**
- 2205.1 Course inspection follows rules according to Article 17.
- 2205.2 If the qualification run and race is to be run on the same day using the same jump then no further jump is permitted during inspection of the parallel courses.
- 2206 Execution of the race**
- 2206.1 Determining the starting sequence**
- 2206.1.1 To determine the seeding/pairing, a qualification race should be run. It is acceptable for the results of a race the day before to be used. If it is not possible to execute a qualification or to use the results of the day before, the current SP FIS Points list should be used.
- 2206.1.2 The qualification must be executed with electronic timing as per SP.

- 2206.1.3 The qualification should be a race on the parallel slope in one run and run as per SP rules (Article 2000)
- 2206.1.4 If there are 32 or less men and 16 or less women the qualification need not be run and the start list is determined by the rankings from current published FIS SP points list. The jury decides the execution of the qualification.
- 2206.1.5 If there is a qualification race, the results must be officially approved and distributed before the start of the knockout rounds.
- 2206.1.6 If two competitors register the same time in the qualification, then the racer with the higher bib number is ranked first.
- 2206.1.7 See illustration (the bracket) for the set-up of pairs. The knockout bracket should be 32 for the men and 16 for the women. In the event there are not 32 men and 16 women brackets will be filled with byes.

2206.2 Execution

- 2206.2.1 Each knockout round has one run per heat.
- 2206.2.2 The better ranked competitor following the qualification chooses the course.
- 2206.2.3 The winner of the heat continues to the next round. The diagram above illustrates the starting sequence.
- 2206.2.4 The two competitors losing the semi-final compete for the third and fourth place in the small final.
- 2206.2.5 If both men and women, or senior and junior compete, all the finals should be run in sequence (small and large finals should be run together).

2207 Gates and Course Judges

2207.1 Gates Judges

- 2207.1.1 The gate judges must stand outside the course preferable on both sides. Maximum two gates per judge.
- 2207.1.2 The gate judges must have flags with the same colour as the course they are supervising (red or blue), used to signal penalties.
- 2207.1.3 The gate judges must have a coloured flag to signal disqualification. See rule 2210 Disqualifications/Sanctions.

2207.2 Course Judges

- 2207.2.1 The race must have two course judges, one for each course.
- 2207.2.2 Penalties and disqualifications are indicated by the course judges after the 360-turn. Such indications must be by the use of clearly displayed panels. Penalties are indicated with 0, 1, 2, X. Where:
0 = no penalty
1 = 1 penalty
2 = 2 penalties
X = Maximum penalty (3 or more penalties)
- 2207.2.3 Panels must correspond with the colour of the course they refer to. The panels must be at least 80 cm (h) x 60 cm (w).
- 2207.2.4 A racer with Maximum penalties(X) may still win the heat.

2208 Judging and Penalties

2208.1 The Turn

2208.1.1 During qualification, penalties are applied as per SP rules. In the knockout rounds penalties are applied through extra skating distance.

2208.1.2 The jump judge and gate judge signal penalties with flags in the same colour as the course (red or blue).

2208.1.3 For each flag a penalty of approx. 1 second of extra skating will be applied.

2208.1.4 Three or more flags (incl. jump) result in a maximum penalty for that run.

2208.1.5 The jury may demand a re-run of the pair.

2208.2 The Jump

2208.2.1 There is one Jump Judge for each course. They measure distance and style.

2208.2.2 The competitor must clear the distance and has to perform Telemark style on the landing to avoid a penalty in the Jump Zone.

2209 The Finish

2209.1 The winner of a knockout heat is the competitor who crosses the finish line first.

2210 Disqualification/ Sanctions

2210.1 Qualification round: As per SP rules (Article 2200).

2210.1.1 In the case of DNF or DSQ during the qualification the competitor is not ranked and is out of the competition.

2210.2 Knockout round:

2210.2.1 A false start, missing or incorrect passage of a gate, unintentional obstruction in the gates, or finishing the course without at least one ski will be deemed DSQ and cause the competitor to lose the heat.

2210.2.2 If the Course Judge considers there are grounds for disqualification, the jury must convene for the final decision.

2210.2.3 DSQ may be confirmed by the Jury after the heat has finished but must be announced before the next heat starts.

2210.2.4 DSQ decisions by the Jury are final.

- 2210.2.5 A competitor who is DSQ or DNF in a run loses the heat but retains the classification achieved by starting that round.
- 2210.2.6 Unsporting behaviour in any section of the course, including deliberate obstruction in the cross country section, must be sanctioned by the jury.
- 2210.2.7 The sanction for unsporting behaviour may be loss of classification for that competitor.
- 2210.2.8 In case both competitors do not finish (Abandon or DSQ), the competitor that passes the most gates wins the pair:

2210.3 Contact / Touch (Fairness):

Intentional contact such as pushing, pulling, holding other racers on the arm, leg or stick as well as other means hindering other riders to fall or fail are not allowed and will be punished with a disqualification. The riders are not allowed to hold their arm or ski pole in front of another participant in order to move forward. Intentional blockage with body insert, movements and the deliberate leaving of the natural line is not allowed. The "natural line" is considered to be the fastest route that leads through the elements and around the gates. Any punishment against violations of these rules shall be at the discretion of the Jury. The decision of the race is final and can not be challenged

- 2210.3.1 Disqualification for Intentional Contact (DIC)

2210.3.2 Intentional Interference

Interference is often a complex offence, given that contact in Parallel Sprint is common. The Jury and gate judges have to determine whether the contact or interference was intentional or not. Intentional contact or interference between two competitors will be penalized with a DSQ.

2210.3.3 Intentional Actions

A competitor shall not force another competitor out of the course, nor intentionally cause them to slow down, lose balance, or crash. A competitor shall not cause any part of his body or skiing equipment to come into contact with another competitor's body or skiing equipment during a race with the intent of impeding that competitor's progress for the purpose of overtaking or causing them to be overtaken by another competitor.

2210.3.4 Obstruction on Obvious Straight Lines

The leading competitor shall have the right to choose his line on the course and through the corners. When on a straight section of the

course, a competitor shall not intentionally block another competitor from passing.

2210.3.5 Disqualification for Intentional Contact (DIC)

Should a competitor be disqualified based upon an infraction of rule 2210.3.1 such competitor shall lose the heat for Intentional Contact.

Re-runs shall not be granted solely as a result of a violation of the rule, and all competitors in the heat, other than those that receive a DIC, shall be ranked as they finish.

All violations of the rule which result in a DIC shall be announced in the finish area and communicated to the competitor that received the DIC or their Team Captain as soon as possible and in any event prior to the commencement of the next heat. The DIC will then be posted on the official notice board at the bottom and top of the course indicating the section of the course where the infraction occurred. All DIC decisions must be recorded and reported by the FIS Technical Delegate in their TD Report.

2210.3.6 For World Cup and World Championships it is mandatory to provide video controlling / livestream at the loom and in the skating for PS and TPS. A member of the jury must check the videos and make the final decision together with the jury immediately after the heat and before the next heat starts.

2210.4 Right of way

2210.4.1 A competitor in front and 'clear ahead' upon entering or at any point during the Cross-Country section has the right of way, but must follow their best racing line.

2210.4.2 A competitor is clear ahead if the tails of their skis are clear of the tips of the skier behind.

2210.4.3 An overtaking or parallel competitor must not cause any obstruction or cause another competitor to change line or slow down, until clear ahead of the overtaken competitor.

2210.4.3 Unless a competitor is clear ahead (Article 2210.xx above) then racing space must be provided, either inside or outside as appropriate, especially at the entry to and passage through the 360 or a gate.

2211 Protests

2211.1 Protests must be made before the next heat starts.

2211.2 Only the competitor may protest their own run. Team Captains or coaches may not protest on behalf of the racer.

2211.3 The protest is made by registering the protest with a Jury member.

- 2211.4 If a racer is obstructed in the gates they must retire immediately and register a protest.
- 2211.5 If a racer is obstructed in the cross country section, they may protest immediately after crossing the finish line.
- 2211.6 The Jury will decide the protest on what they observed, with no further evidence from any party.
- 2211.7 The Jury must rule on all protests before the start of the next heat.

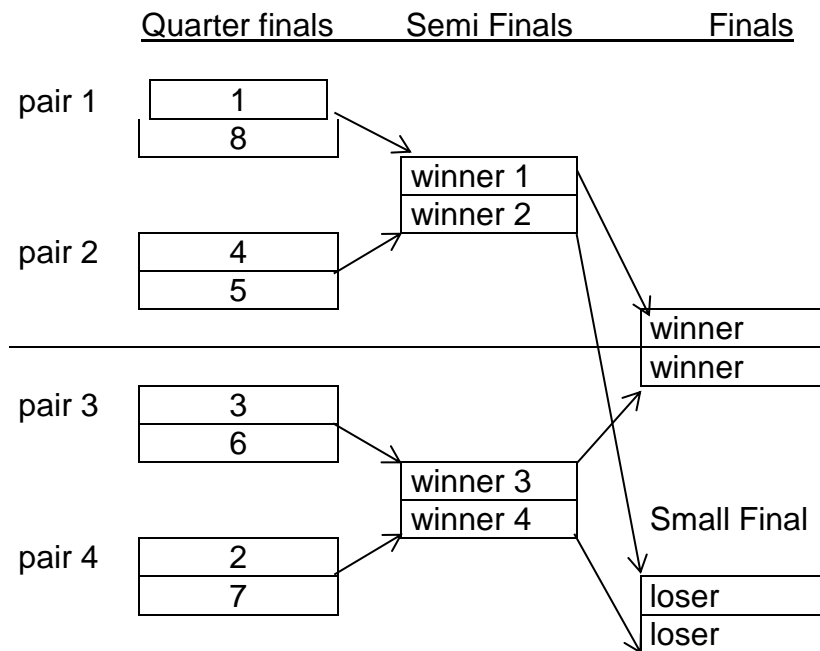

2212 Points

- 2212.1 Point scale to be applied for a parallel race:
- | | |
|-----------------|------------|
| 1. Place | 100 points |
| 2. Place | 80 points |
| 3. Place | 60 points |
| 4. Place | 50 points |
| 5. – 8. Place | 40 points |
| 9. – 16. Place | 15 points |
| 17. – 32. Place | 5 points |

2213 Records and Results

- 2213.1 Penalties in the finals must be checked and recorded by the chief judge or a penalty judge in the skating area.
- 2213.2 All competitors who participate in the qualification are to be published on the result list.

2302.2.6 The winner of the round is the team who wins two pairs after three runs.

2302.2.7 In the event of a tie then the team with the least accumulated time difference will proceed to the next round. If after this there is still a tie then The jury may consider the number of penalties of the tie pair or order a re-run of the tie pair. In the event of a tie, one win each and one dead heat, then the jury may order a re-run of the tie pair if time differences of the pairs are not available.

2302.2.8 The small final must be run before the large final.

2302.3 For World Cup and World Championships it is mandatory to provide video controlling / livestream at the loom and in the skating for PS and TPS.
