202.1.2 For all other competitions, the registrations for inclusion in the International Ski Calendar have to be made to FIS by the National Ski Association according to the Rules for the FIS Calendar Conference published by the FIS.

202.1.2.1 The applications of the National Ski Associations (NSA) are entered by using the FIS Calendar program in the member section of the FIS website: www.fis-ski.com by 31st August (31st May for the Southern Hemisphere).

202.1.2.2 Allocation of competitions
Allocation of the competitions to the National Ski Associations is made through the electronic communication process between FIS and the National Ski Associations. In the case of FIS World Cup competitions, the calendars are subject to the approval of the Council, on proposal of the respective Technical Committee.

202.1.2.3 Homologations
Competitions that appear in the FIS Calendar may only take place on competition courses or jumping hills homologated by the FIS. The homologation certificate number must be indicated when applying for the inclusion of competition in the FIS Calendar.
Publication of the FIS Calendar
The FIS calendar is published by FIS on the FIS website www.fis-ski.com. It will be updated to reflect cancellations, postponements and other changes continuously by FIS.

Postponements
In case of the postponement of a competition listed in the FIS Calendar, the FIS has to be informed immediately and a new invitation must be sent to the National Ski Associations, otherwise the competition cannot be considered for FIS points.

Calendar Fees
In addition to the annual subscription, a calendar fee is set by the FIS Congress and is due for each year and for each event listed in the FIS Calendar. For additional events, a 50% surcharge will be made in addition to the regular calendar fee for applications submitted 30 days before the date of the competition. The calendar fee for a competition that has to be rescheduled remains the responsibility for payment in full of the original organising National Ski Association.

At the beginning of the season, each NSA will receive an invoice for 70% of its total invoice from the previous season. This amount will be debited from its FIS account. At the end of the season each NSA will receive a detailed invoice for all registered competitions during the season. The balance will be subsequently be debited or credited to the NSA account at FIS.

Appointment of Race Organiser
In the event that the National Ski Association appoints a race organiser, such as an affiliated ski club, it shall do so using the form "Registration Form National Ski Association and Organiser" or by means of a similar written agreement. An application by a National Ski Association for inclusion of an event on the International Ski Calendar shall mean that the necessary agreement to organise the event has been established.

Organisation of Races in other Countries
Competitions which are organised by other National Ski Associations may only be included in the FIS Calendar when the National Ski Association of the country concerned where the competitions will be organised gives its approval.

Licence to participate in FIS Races (FIS Licence)
A licence to participate in FIS races is issued by a National Ski Association to competitors who fulfil the criteria for participation through registering the competitor with FIS in the respective discipline(s).

The FIS licence year begins on July 1st and finishes on June 30th of the following year.

To be eligible for participation in FIS events, a competitor must have a licence issued by his National Ski Association. Such a licence shall be valid in the Northern and Southern hemispheres for the licence year only. The validity of a licence can be limited to participation in one specific country or in one or more specific events.

The National Ski Association must guarantee that all competitors registered with a FIS License to participate in FIS races accept the Rules of the International Ski Federation, in particular the provision which foresees the exclusive competence of the Court of Arbitration for Sport as the court of appeal in doping cases.
203.3 A National Ski Association may only issue a FIS licence to participate in FIS races when the competitor has proven his nationality and therefore eligibility by submitting a copy of his passport and signed the Athletes Declaration in the form approved by the FIS Council and returned it to his National Ski Association. All forms from under-age applicants must be counter signed by their legal guardians. Both the copy of the passport and signed Athletes Declaration must be made available to FIS on request.

203.4 During the FIS licence year, a competitor may only participate in International FIS competitions with a FIS licence to participate in FIS races issued by one National Ski Association.

203.5 Application for a change of FIS Licence Registration
All applications to change licence registration from one member National Ski Association to another are subject to consideration by the FIS Council at its Meetings in the spring. In principle an application to change licence registration will not be granted unless the competitor demonstrates his personal association with the new nation. Prior to submitting an application to change licence registration a competitor must possess the citizenship and passport of the country for which he wishes to compete. In addition, the competitor must have had his principal legal and effective place of residence in the new country for a minimum of two (2) years immediately prior to the date of the request to change registration to the new country/National Ski Association. An exception to the two year residency rule may be waived if the competitor was born in the territory of the new country, or whose mother or father is a national of the new country. Applications will not be accepted if a parent has obtained a passport for the new country, but is not resident, and/or there is no family ancestry. Furthermore the competitor is required to submit a detailed explanation with the application about his personal circumstances and the reason for requesting a change of licence registration.

203.5.1 If a competitor has already participated in FIS calendar events for a National Ski Association, he must have the written agreement to be released from the former National Ski Association in addition to the citizenship, passport and residency requirements in art. 203.5 before the new National Ski Association may submit a request to FIS for a change of registration. If such a written agreement is not given, the competitor may not participate in any FIS calendar events for a period of twelve months from the end of the last season in which he competed for his present National Ski Association, nor may he be issued with a licence to participate in FIS races by the new National Ski Association. These rules are also valid when a competitor has more than one nationality and would like to change National Ski Association licence registration.

203.5.2 The FIS Council reserves the right in its absolute discretion, to grant or to decline to grant, a change of licence notwithstanding the fulfilment of the aforementioned conditions where it deems it is contrary to the spirit of the rule and in the best interests of the International Ski Federation to do so (e.g. to decline to grant a change of licence if a member National Ski Association tries to “import” a competitor).

203.5.3 In the event that a competitor does not fulfil all the criteria required to apply for a change of National Ski Association licence registration, the onus shall be on the competitor to demonstrate in writing to the satisfaction of the FIS Council that exceptional circumstances exist and it is in the best interests of the International Ski Federation to grant the change.
203.5.4 A competitor will retain his FIS points if he changes his National Ski Association under the condition that the former National Ski Association granted the release of the competitor.

203.5.5 In the event that any of the documents for an application to change licence registration submitted by the National Ski Association (letter of release from the former National Ski Association, passport, residency papers) are found to be false, the FIS Council will sanction the competitor and the new National Ski Association.

204 Qualification of Competitors

207.2.1 The rules governing commercial markings and advertising on equipment and clothing as well as the relevant by-laws published in the Specifications for Commercial Markings on Equipment must be followed.

207.2.2 Any competitor who breaches the rules is subject to sanction, as provided for in art. 223.1.1. An offence for which a sanction may apply and a penalty be imposed is defined as conduct that is in violation or non-observance of competition rules.

2072.3 If a National Ski Association fails to enforce these rules with on its own competitor(s) or for any reason prefers to refer the case to the FIS, the FIS may take immediate steps to suspend a competitor's licence. The competitor concerned and/or his National Ski Association have the right to make an appeal before a final decision is taken.

207.24 If an advertiser uses the name, title or individual picture of a competitor in connection with any advertisement, recommendation or sale of goods without the approval or knowledge of the competitor, the competitor may give a "power of attorney" to his National Ski Association or to the FIS to enable them, if necessary, to take legal action against the company in question. If the competitor concerned fails to do so, the FIS shall judge the situation as if the competitor had given permission to the company.

207.25 The FIS Council shall be informed of infractions or breaches of these rules that have taken place with regard to the qualification of competitors, sponsorship and
advertising and support for the competitors, and shall review what measures to take to deal with cases.

208

Exploitation of Electronic Media Rights

208.1

General Principles

208.1.1

Olympic Winter Games and FIS World Championships

All Media rights to the Olympic Winter Games and FIS World Championships belong to the IOC and to the FIS respectively, and are subject to separate contractual arrangements.

208.1.2

Rights owned by the member National Ski Associations

Each FIS affiliated National Ski Association that organises events in its country which are included in the annual FIS calendars, has the authority as the owner of the electronic media rights to enter into contracts for the sale of the electronic media rights on those events. In cases where a National Ski Association organises events outside its own country, these rules also apply, subject to bi-lateral agreement with the National Ski Association of the country where the event takes place.

208.1.3

Promotion

Contracts shall be prepared in consultation with the FIS with the intention of giving the widest promotion and exposure to the sports of skiing and snowboarding and considering the best interests of the National Ski Associations.

208.1.4

Access to events

For all competitions, admission of personnel and their equipment to the media areas will be limited to those having the necessary accreditation and access passes. Priority access will be given to rights holders and the system of accreditation and access control must avoid possible abuse by non-rights holders.

208.1.5

Control by the FIS Council

The FIS Council exercises control over the adherence to the principles of this Rule by National Ski Associations and all organisers. Should a contract or individual clauses thereof, create a major conflict of interest for the FIS, a member National Ski Association or its organiser, then this will be evaluated by the FIS Council. Full information will be provided so that the appropriate solution can be found.

208.2

Definitions

In the context of this rule the following definitions will apply:

“Electronic Media Rights” means the rights for Television, Radio, Internet and Mobile devices.

“Television rights” means the distribution of television images, both analogue and digital, comprising video and sound, by means of terrestrial transmitters, satellite, cable, fibre or wire for public and private viewing on television screens. Pay-per-view, subscription, interactive TV, video on demand services, IPTV or similar technologies, are also included in this definition.

“Radio rights” means the distribution and reception of radio programmes, both analogue and digital, over the air, by wire or via cable to devices, both fixed and portable.
“Internet” means access to images and sound through interconnected computer networks.

“Mobile and portable devices” means the provision of images and sound through a telephone operator and receivable on mobile telephone or other non fixed devices, such as Personal Digital Assistants.

208.3 **Television**

208.3.1 **Standard of production and promotion of competitions**

In the agreements concerning production with a TV organisation or agency acting as host broadcaster, the quality of TV transmissions for ski and snowboard events published in the FIS Calendar – especially for FIS World Cup competitions – must be considered. Of particular importance, while taking into consideration applicable national laws and rules affecting broadcasting, are:

a) Top quality and optimal production of a TV signal (for live or deferred transmission depending on the event) in which sport is the centrepiece;

b) Adequate consideration and appearance of venue advertising and event sponsors;

c) A standard of production in conformity with the FIS TV Production Guidelines and appropriate to current market conditions for the discipline and to the level of the FIS competition series. This means live coverage of the entire event including the winner presentation for live transmission (unless circumstances determine that a live production is not provided). This coverage shall be produced in a neutral way, shall not concentrate on any athlete or nation and shall show all competitors;

d) The live international signal of the host broadcaster must include appropriate graphics in English, particularly the official FIS logo, timing and data information and results, and international sound.

e) Where it is appropriate to the individual TV market, there should be live TV transmission in the country where the event takes place and in other countries with a high interest.

208.3.2 **Production and Technical costs**

Except when otherwise agreed between the National Ski Association and the agency/company managing the rights, the cost of producing the television signal for the exploitation of the different rights will be borne by the broadcaster having acquired the rights in the country where the competition takes place or a production company mandated to produce the signal by the company owning the rights. In certain cases, the organiser or the National Ski Association may assume these costs.

For each of the different rights granted under this rule the technical expenses that are to be paid for by those organisations that have acquired the rights and which are seeking to access the television signal (original picture and sound without commentary), have to be agreed between the producing company or the agency/company managing the rights, as applicable. This also applies to any other production costs that may be requested.

208.3.3 **Short extracts**

Short extracts granting news access for non-rights holders are to be provided to television companies according to the following rules. It is noted that in a number of countries national legislation governs the showing of short extracts in news programmes.
These extracts may only be used in regularly scheduled news programmes and cannot be kept for archive purposes

a) In those countries where legislation exists regarding news access to sporting events then this legislation will always hold precedence for reporting on FIS events.

b) In those countries where no legislation exists regarding news access by competing networks and provided that agreements between the company managing the rights and the primary rights holder take precedence then short extracts of a maximum of 90 seconds news access will be granted to competing networks by the agency/company managing the rights for transmission four hours after the rights holding network has shown the competition. The use of this material will cease 48 hours after the end of the competition. If the rights holding network delays its transmissions by more than 72 hours from the end of the competition, then competing networks can show extracts of a maximum of 45 seconds commencing 48 hours after and ending 72 hours after the event itself. Any request to exploit short extracts shall be addressed to the agency/company managing the rights which shall grant to the broadcasters access to the short extracts subject to agreement regarding the technical costs incurred to receive the material.

c) In those countries where no transmission rights have been purchased by a television company, all television organisations will be able to transmit short extracts of 45 seconds as soon as the material is available, subject to agreement with the agency/company managing the rights regarding the technical costs to be incurred to receive the material. Permission for the use of this material will expire after 48 hours.

d) Short extracts will be produced by the host broadcaster or the agency/company managing the rights and distributed by that agency/company, taking into consideration 208.3.2 above.

208.4 Radio

The promotion of FIS events through radio programmes will be encouraged by making available accreditation to the principle radio station(s) in each interested country. Access to the venue will be granted solely to those radio organisations that have obtained the necessary contractual authorisation from the rights holder, and will be only for the production of radio (audio) programmes. If accepted by national practice and the authorisation is granted, these programmes can also be distributed on the internet site of the radio station.

208.5 Internet

Unless the contract for the sale of the Electronic Media Rights on FIS events states otherwise, each television rights holder that also acquires the internet rights, will ensure that video streams from its website other than short extracts are geoblocked against access from outside its own territory. Regularly scheduled news bulletins containing material of FIS events may be streamed on the rights holding broadcaster’s website, provided no changes are made to the bulletin as transmitted in the original programme.

Video and audio material produced in public areas where accreditation, tickets or other permissions are not required to gain access must not contain race footage. It is recognised that new technology provides members of the public with the possibility to produce unauthorised video recordings that may be posted on websites. Appropriate information advising that the unauthorised production and use of video material is prohibited and that legal proceedings could be taken, will be shown at all entrances and printed on entrance tickets.
All National Ski Associations and the rights holders/agencies will give permission for short extracts to be placed on the FIS website for non-commercial use subject to the following conditions:

a) When short extracts have not been acquired for Internet distribution the maximum duration of the news material from FIS competitions will be 30 seconds per discipline/per session and will be accessible on the FIS website until 48 hours after the end of the competition. The financial conditions relating to the provision of this material will be agreed between the FIS and the rights owner.

b) The material will be provided by the rights owner or host broadcaster as soon as possible, but at the latest six hours after the end of the competition.

208.6 Mobile and portable devices
In the cases where the rights for distribution by mobile and portable devices have been awarded, the rights purchaser/operator will be free to produce from the television signal the content it considers best meets the needs of its customers. Any live streaming of television programmes on a national basis using these devices shall not be altered from that available through other distribution channels.

In countries where no mobile distribution rights have been sold, short extracts or clips of a maximum duration of 20 seconds will be offered to operators when the material has been produced and for a period of 48 hours on the condition that the operators pay all related technical costs to the agency/company managing the rights.

208.7 Future developments
The principles contained in this Rule 208 shall be the basis for the exploitation of Electronic Media Rights to FIS events in the future. The FIS Council, on the recommendation of the National Ski Associations, the relevant commissions and experts, will establish the conditions considered appropriate to each new development.

209 Film Rights
All agreements regarding film productions of FIS competitions will be between the film producer and the National Ski Association or the company managing the related rights. All contractual arrangements regarding the exploitation of other media rights will be respected.

210 Organisation of Competition

211 The Organisation

211.1 The Organiser

211.1.1 The Organiser of a FIS competition is the person or group of persons who make the necessary preparations and directly carry out the running of the competition in the resort.

211.1.2 If the National Ski Association itself is not the competition organiser, it may appoint an affiliated club to be the organiser.

211.1.3 The organiser must ensure that accredited persons accept the regulations regarding the competition rules and Jury decisions, and in World Cup races the
organiser is obliged to obtain the signature of all persons who do not have a valid FIS season accreditation to this effect.

### 211.2 The Organising Committee

The Organising Committee consists of those members (physical or legal) who are delegated by the organiser and by the FIS. It carries the rights, duties and obligations of the organiser.

Organisers which hold competitions involving competitors not qualified under art. 203 - 204 have violated the International Competition Rules and measures are to be taken against them by the FIS Council.

### 212 Insurance

#### 212.1 The organiser must take out liability insurance for all members of the Organising Committee. The FIS shall provide its employees and appointed officials, who are not members of the Organising Committee (e.g. equipment controller, medical supervisor, etc.), with liability insurance when they are acting on behalf of the FIS.

#### 212.2 Before the first training day or competition, the organiser must be in possession of a binder or cover notes issued by a recognised insurance company and present it to the Technical Delegate. The Organising Committee requires liability insurance with coverage of at least CHF 1 million; whereby it is recommended that this sum is at least CHF 3 million; this sum can be increased according to decisions of the FIS Council (World Cup etc).

Additionally, the policy must explicitly include liability insurance claims by any accredited participant, including competitors, against any other participant including but not limited to officials, course workers, coaches, etc

#### 212.3 The Organiser respectively its' National Ski Association may request the FIS insurance broker to arrange cover for the competition (at the cost of the Organiser) if the organiser does not have the necessary insurance cover in place.

#### 212.4 All competitors participating in FIS events must carry accident insurance, in sufficient amounts to cover accident, transport and rescue costs including race risks as well as an appropriate third party liability insurance. The National Associations are responsible for adequate insurance coverage of all their competitors sent and inscribed by them.

The National Ski Association or their competitors must be able to show proof of the respective insurance coverage at any time on request of the FIS, one of its representatives or the organising committee.

#### 212.5 All trainers and officials inscribed and sent to FIS events by a National Association must carry accident and third party liability insurance, in sufficient amounts to cover accident, transport and rescue costs from damages caused. The National Ski Association or their trainers and officials must be able to show proof of the respective insurance coverage at any time on request of the FIS, one of its representatives or the organising committee.

214.2 Organisers are bound by the rules and decisions of the FIS in limiting the number of entries. A further reduction in entries is possible under art. 201.1 provided it is made clear in the announcement.

214.3 Postponements or cancellations of competitions and programme alterations must be communicated immediately by telephone, e-mail or telefax to the FIS, all invited or entered National Ski Associations and the appointed TD. Competitions moved to an earlier date must be approved by the FIS.

215 Entries

215.1 All entries must be sent so that the Organising Committee receives them before the final date of entry. The organisers must have a final and complete list not later than 24 hours before the first draw.

215.2 National Ski Associations are not permitted to enter and draw the same competitors in more than one competition on the same date.

216 Team Captains' Meetings

216.1 The time and location of the first team captains' meeting and of the draw must be shown in the programme. The invitations for all other meetings have to be announced to the team captains at their first meeting. Emergency meetings must be announced in good time.

217 **Draw**

217.1 Competitors’ starting order for each event and each discipline is decided according to a specific formula by draw and/or point order.

217.2 The competitors entered by a National Ski Association will only be drawn if provided written entries have been received by the organiser before the closing date.

217.3 If a competitor is not represented at the draw by a team captain or trainer, he will only be drawn if it is confirmed by telephone, telegram, e-mail or telefax by the beginning of the meeting that the competitors who are entered will participate.

218 **Publication of Results**

218.1 The unofficial and official results will be published in accordance with the rules for the specific event.

218.1.1 *Transmission of Results*

For all international competitions, there must be direct communication between the Start and the Finish. In Olympic Winter Games the communications must be assured by fixed wiring.

In the data service area, access to the internet (at least ADSL speed) is required for World Cup, World Championships and Olympic Winter Games competitions.

218.2 The data and timing generated from all FIS competitions is at the disposal of FIS, the organiser, the National Ski Association and participants for use in their own publications, including websites. Use of data and timing on websites is subject to the conditions laid down in the FIS Internet Policies.

218.3 **FIS Internet Policies and Exchange of Data relating to the FIS Competitions**

218.3.1 *General*

As part of the ongoing promotion of skiing and snowboard, the International Ski Federation encourages and appreciates the efforts made by the National Ski Associations to provide messages and information to their members and fans. An increasingly important medium for this provision of information is through the Internet.
The following policy has been established in order to assist National Ski Associations through the provision of data from FIS competitions, and to clarify certain conditions that relate to the use and presentation of the data from FIS competitions.

218.3.2 FIS Calendar data
The online FIS Calendar programme has been developed for the free use of National Ski Associations and is available in the Members Section of the FIS website.

218.3.3 Results and Standings
National Ski Associations can obtain official results, after they have been approved by the FIS Points verification procedure at the FIS Office. This data will be available on request to the FIS IT Manager who will provide the necessary instructions and/or routines on a case-by-case basis. The FIS World Cup results will include a credit to the results service providers. Standings from the various Cup series will also be available after receipt from the results service providers in the case of the FIS World Cup, or they have been input manually for other Cup series.

1. The results and data from FIS competitions may only be used on the National Ski Associations’, Organisers’ and participants’ websites and may not be passed on for commercial use to third parties or organisations. The National Ski Association may download the data into its own software for evaluating performances, etc.

2. National Ski Associations who wish to display results on their website, but do not have a database structure to upload the raw data can create a link to the relevant page of the FIS website. The exact addresses can be obtained from the FIS IT Manager.

3. A link will be established from the FIS Website to all National Ski Associations with their own website, as well as the ski industry and relevant media websites on request. A reciprocal link to the FIS website should also be created.

218.3.4 Organisers access to results
Organisers of FIS World Cup races can obtain official results from their races after they have been approved by the FIS Points verification procedure in the results database. The upload is a computer-automated procedure for World Cup races and takes place immediately after the end of the race.

The pdf file containing the results and standings can be downloaded from www.fis-ski.com followed by the discipline code and the name of the site: AL (Alpine), CC (Cross-Country), JP (Ski Jumping), NK (Nordic Combined); SB (Snowboarding), FS (Freestyle Skiing) etc. The individual competition can be identified by the competition codex as published on the detailed page of the calendar on www.fis-ski.com.

219 Prizes

219.1 The detailed rules concerning the awarding of prizes will be published by the FIS. Prizes shall consist of mementos, diplomas, cheques or cash. Prizes for records are forbidden. The FIS Council decides in the autumn on the minimum respectively maximum values of the prize money approximately one and a half
years before the competition season. The organisers have to inform the FIS by October 15th of the amount.

219.2 If two or more competitors finish with the same time or receive the same points, they shall be given the same placing. They will be awarded the same prizes, titles or diplomas. The allocation of titles or prizes by drawing lots or by another competition is not allowed.

219.3 All prizes are to be awarded no later than the final day of a competition or event series.

220 Team Officials, Coaches, Service Personnel, Suppliers and Firms’ Representatives
In principle these regulations apply to all disciplines, taking into consideration the special rules.

220.1 The Organising Committee of an event must provide the Technical Delegate with a list of persons accredited to the competition.

220.2 It is forbidden for suppliers and for persons in their service to advertise inside the restricted area or to wear clearly visible commercial markings on their clothing or equipment which do not conform with art. 207.

220.3 Team officials accredited service personnel and suppliers receive from the FIS an official FIS accreditation and must perform their specified function. The individual organisers are free to accredit additional company representatives or other important persons.

220.4 Only persons who have the official FIS accreditation or a special accreditation from the organiser for course or jumping-hill have access to the courses and jumping-hills (according to special rules of the discipline).

220.5 The Different Types of Accreditation

220.5.1 Technical Delegates, the Jury, and the persons mentioned in art. 220 with clearly visible accreditation have access to the courses and jumping-hills.

220.5.2 Servicemen attached to teams are permitted entry to start area and service area at the finish. They are not allowed entry to the courses or jumping-hills.

220.5.3 Company representatives accredited at the discretion of the organisers who do not have FIS accreditation are not permitted entry to the courses and restricted service areas.

221 Medical Services, Examinations and Doping

221.1 National Ski Associations are responsible for the fitness of their competitors to race. All competitors, male and female are required to undergo a thorough evaluation of their medical health. This evaluation is to be conducted within the competitor’s own nation.

221.2 If requested by the FIS Medical Committee or its representative, competitors must undergo a medical examination before or after the competition.

221.3 Doping is forbidden. Any offence under these FIS Anti Doping Rules will be punished under the provisions of the FIS Anti-Doping Rules.
221.4 Doping controls may be carried out at any FIS competition (as well as out-of-competition). Rules and procedures are published in the FIS Anti-Doping Rules and FIS Procedural Guidelines.

221.5 Gender of the Competitor
If any question or protest arises as to the gender of the competitor, FIS shall assume responsibility for taking the necessary steps to determine the gender of the competitor.

221.6 Medical Services Required from Event Organisers
The health and safety of all those involved in a FIS competition is a primary concern of all event Organisers. This includes the competitors as well as volunteers, course workers and spectators.

The specific composition of the medical support system is dependent on several variables:
- The size, level, type of the event being held (World Championships, World Cup, Continental Cup, FIS-level, etc.) together with the local medical standards of care and geographic locations and circumstances.
- The estimated number of competitors, support staff and spectators
- The scope of responsibility for the Event Medical Organisation (competitors, support staff, spectators) should also be determined.

The Organiser / The Chief of Medical and Rescue Services must confirm with the race director or technical delegate that the required rescue facilities are in place before starting the official training or competition. In the event of an incident, or issue that prevents the primary medical plan from being utilized, the back up plan must be in place before recommencing the official training or competition. The specific requirements concerning facilities, resources, personnel and team physicians are contained in the respective discipline rules and the FIS Medical Guide.

222 Competition Equipment

222.1 A competitor may only take part in a FIS competition with equipment which conforms to the FIS Regulations. A competitor is responsible for the equipment that he uses (skis, snowboard, bindings, ski boots, suit, etc). It is his duty to check that the equipment he uses conforms to the FIS specifications and general safety requirements and is in working order.

222.2 The term competition equipment encompasses all items of equipment which the competitor uses in competitions. This includes clothing as well as apparatus with technical functions. The entire competition equipment forms a functional unit.

222.3 All new developments in the field of competition equipment must be approved in principle by the FIS. The FIS does not take any responsibility for the approval of new technical developments, which at the time of introduction may contain unknown risk to the health or cause an increase in the risk of accidents.

222.4 New developments must be submitted by May 1st, (Grass Ski August 1st) at the latest, for the following season. The first year new developments can only be approved provisionally for the following season and must be finally confirmed prior to the subsequent competition season.
222.5 The Committee for Competition Equipment publishes equipment by-laws after approval by the FIS Council (definitions or descriptions of the equipment items which are allowed). In principle unnatural or artificial aids which modify the performance of the competitors and/or constitute a technical correction of the individual's physical predisposition to a defective performance, as well as competition equipment which impact the health of the competitors or increase the risk of accidents are to be excluded.

222.6 Controls

Before and during the competition season or on submission of protests to the Technical Delegate at the competition concerned, various controls can be carried out by members of the Committee for Competition Equipment or official FIS Equipment Controllers. Should there be a well-founded suspicion that regulations were violated, the equipment items must be confiscated immediately by the controllers or Technical Delegates in the presence of witnesses and be forwarded sealed to the FIS, which will submit the items to a final control by an officially recognised institution. In cases of protest against items of the competition equipment, the losing party will bear the investigation costs.

No testing of equipment or material in independent laboratories may be requested at races where a FIS Technical Expert has performed the controls, unless it can be demonstrated that the controls have not been carried out according to the rules.

222.6.1 At all FIS events where official FIS measurement experts using the official FIS measurement tools are appointed, the result of measurements carried out at the time are valid and final, irrespective of previous measurements.

In Olympic Winter Games, the communications must be assured by fixed wiring. In the data service area, access to the internet (at least ADSL speed) is required for World Cup, World Championships and Olympic Winter Games competitions.
3041.2 Timing Equipment

3041.2.1 Electric Timing
For all international competitions electric timing with communication between Start and Finish must be used, which will allow measurement of the times to 100ths of a second. 1000th of a second, even when measured and recorded, may not be published or used in the event of competitors being tied in the 1/100’s of a second.

3041.2.2 Height of Timing Cells
The photoelectric cells will be placed at a height of 1.0 metre for the starting light beam or at approximately 0.50 metres on the starting gates. The starting installation must be placed in such a way that starting is impossible without it opening. The finish beam on the Moguls and Dual Moguls course should be at 1.0 metre high and the auxiliary finish beam at 0.75 metres.

3041.2.3 Independent Systems for Major Competitions
At World Ski Championships and Olympic Winter Games two independently functioning electric timing devices must be installed.

3041.2.4 Ski Cross Reaction Time
For the ski cross qualification and final, a reaction time will be measured and displayed at the start. The time will be measured from when the start gate is opened until a point 10 metres from the start gate. The reaction time will be measured and displayed to the nearest 1/100ths of a second. This is required for World Cups, World Championships and Olympic Winter Games.

3041.2.5 Timing in Dual Moguls
In Dual Moguls, the timing is based upon the difference in time between the competitors as they cross the finish line. The first competitor that crosses the finish line starts the time unit and the second competitor that crosses the finish line stops the timing unit.

3041.2.6 Timing Systems Approval
All timing devices must have the approval of the FIS.

3041.2.7 SX Qualification
For SX Qualification, wireless timing, maybe used for FIS, NC and COC Level Competition. Timing devices must meet FIS wireless standards that are set out in the Timing Booklet “Timing without Cable Connection between Start and Finish” and Set-Up Diagram Level 3 (without Cable)

3041.3 Hand Timing

3041.3.1 Hand Timing as Back Up System
A hand timing system must be used at all times during the Moguls, Dual Moguls and Ski Cross competitions, as a back up to the electric timing system. For all competitions, the hand timing must be totally separate and independent of the electric timing at the Start and Finish.

3041.3.2 Calculation of Hand Timing
Utilisation of times taken by hand
Hand times may be used in the official results after a correction has been calculated.
Calculation of the correction:
Subtract the electronic time from the time taken by hand of the 10 competitors starting before the missing time. If there are not 10 times before, complete the calculation with the remaining times after the missed time. The sum of the 10 time difference is divided by 10 and rounded up or down (0.044 -> 0.04, 0.045 -> 0.05) to give the correction which must be applied to the hand time of the competitor without an electronic time.

3041.4 Public Address - Sound System

3041.4.1 Music at Freestyle Competitions
Music will be used in all competitions.

3041.4.2 The Chief of Sound shall be in radio contact with the competition officials at all times.

The Moguls Start will preferably be an open start with a light beam installed approximately 1.5 - 2.0 metres down across the hill parallel to the starting line. The starting line and the light beam will be as wide as the control gates on top of the course are set. There will be a starting line. The competitor should plant his poles in front of the line and his boots should stay behind until the starting signal is given.

The starting installation will be located where the competitor has easy access to his skiing line and can quickly reach full speed after leaving the start. Refer to Timing Booklet.

3043.1.4 **Start Device**
The Dual Moguls Start uses a start device - see 4306.4.4 for a description. The Ski Cross Start uses a start device - see 4507.8 for a description. 3043.3 **Start Procedure**
No official or attendant who could possibly give an advantage to, or disturb the starting competitor, may be behind them. All outside help is forbidden.
3043.4 **Start Commands**
Start commands will be given by the Starter for each specific competition.

3043.4.2 **Aerials Start Command**

3043.4.2.1 The wind condition (velocity) in which the competitor is allowed to start.

3043.4.2.2 The Installation of Measuring Devices shall be controlled by the Technical Delegate in accordance with the solutions of the Freestyle Technical Specifications Manual and of 3043.4.2.3.

3043.4.2.3 **Wind Velocity and Direction**
The wind measuring instruments shall be positioned on the opposite side of the inrun to the Judges' Stand, level with the upper light beam of the Speed Trap and above a wind direction indicator flag set at a height of 2 metres. The gauges recording the data shall display the actual conditions separately, not an average. In addition to these instruments, 3 wind flags shall be placed at the side of the landing hill, the top of the inrun and above the corner of the Judges’ Stand nearest to the Knoll. No other flags from Teams shall be permitted on the course.
3043.4.2.4 Start Permission and “Three Phase Start”
Start permission and starting time control at OWG, WSC and WC, competitions will be determined by means of a three-coloured (red-yellow-green) signal, tone and a digital display which are connected and run by an adjustable program. During the red phase (start preparation), the clock does not run and is set at 20 seconds. During next yellow phase, (10 seconds) the clock starts, with a tone and runs down from 20 seconds and then switches after 10 seconds, with tone to the green phase. There will be a tone for each second for the last 5 seconds. The starting time will be finished after 20 seconds and the display then shows ‘0’. At ‘0’, the light automatically changes back to red and the starting procedure for the next competitor begins.

3043.4.2.5 It is the competitor’s responsibility to be ready at the start when his starting number is called. The competitor has to leave the start after the start signal has been given. If the competitor has not left the start by the end of the start time, the hill will automatically be closed.

3043.4.2.6 During the starting procedure, the competitor must have the opportunity to clearly observe the automatic countdown display (e.g. a programmable digital clock).

3043.4.2.7 The competitor has to start within the start time. If the start signal is interrupted during the competitor’s starting period for any reason, for example unstable weather conditions, the starting process will begin again.

3043.4.3 Moguls Start Command

3043.4.3.1 The Moguls start command begins with a warning ten seconds before the start. A start command will then be given: “Competitor Ready! …. 3, 2, 1, Go!” The competitor is then required to leave the start immediately.

3043.4.4 Dual Moguls Start Command

3043.4.4.1 The Dual Moguls Start command shall begin with a warning from the Announcer: “Blue Course ready,……Red Course ready!” The starter or gate opener shall open both gates simultaneously within 3 seconds of this announcement. Should the gates fail to open for any reason, this procedure shall be re-commenced.

3043.4.4.2 If a competitor is unable to start for any reason, the other competitor in that phase shall not ski the course.

3043.4.5 Ski Cross Start Command

In the Moguls and Ski Cross competition the timing system shall measure the exact time when the competitor crosses the starting light beam with their leg (below the knee) or when the starting gate opens. In the Dual Moguls competition the timing shall measure the exact time when the competitor crosses the Finish light beam.
3043.6  Delayed Start

3043.6.1  Force Majeure
A competitor who is not ready to start at their time indicated on the official start list will receive a DNS. The Starter may, however, excuse such a delay if, in his opinion, the delay is due to “force majeure”. The breakdown of a competitor’s personal equipment or minor sickness of a competitor does not constitute “force majeure”. In case of doubt, the Starter may allow a start provisionally, but must inform the Jury.

3043.6.2  Start Order
Where a start has been delayed and the competitor is ready to go, the Starter will run the competitor at the first start opportunity and inform the Jury, Judges, Referee, Finish Official, Chief of Timing, Announcer and Chief of Scoring accordingly.

3043.7  The Start Order
The Start Order is determined at the Team Captains’ meeting on the day before the competition. A random draw done by computer may be used at all FIS Freestyle competitions.

3043.7.1  The Draw
Each competition shall have a separate start order. The start order for each competition is a separate draw. This draw is used for the Qualification competition.

3043.7.1.1  No Changes to Start Order Allowed
No changes, additions or substitutions shall be permitted to any Start order after the draw.

3043.7.2  Start Groups

3043.7.2.1  Ski Halfpipe and Ski Slopestyle Start Groups
For Qualification, competitors will be seeded in heats according to their ranking on either the World Cup Ranking List (for World Cup competitions) or the FIS Points List. Ties in the World Cup ranking will be broken using FIS Points; if still tied, the position will be decided by a draw. All other ties will be broken by a draw.

A Qualification phase may consist of one or more Heats; a Heat shall generally comprise not more than 30 competitors (Men) or 25 competitors (Ladies).

In a Qualification phase with two heats, competitors will be divided on the basis of even and odd positions in the seeding list (Heat 1 shall consist of odd-numbered seeds, Heat 2 of even-numbered seeds). In a Qualification phase with three heats, each third seed shall be assigned to a separate Heat (Heat 1 seeds 1, 4, 7, …etc.; Heat 2 seeds 2, 5, 8, …etc.; Heat 3 seeds 3, 6, 9, …etc.). If more than three Heats are scheduled, they shall be constructed according to the same principles.

3043.7.2.2  Errors in Start Lists
If the Organising Committee makes an error in the start order, the draw must be remade. In this case, the Team Captain must inform the Organising Committee of the error within 15 minutes from the distribution of the start list. After 15 minutes, the error will be treated as an error by the Team Captain and shall not be corrected.

In Moguls and Aerials, the start order for any second phase can be the reverse of the competitors’ rankings following the first phase. In Ski Halfpipe and Ski Slopestyle, the start order of a second phase will be the same of the first phase.

The Finish Area

Aerials, Ski Halfpipe and Ski Slopestyle Finish Areas
The Finish Area for each competition must be large enough to allow the competitor to stop. All fences and barriers must be in place.

Moguls, Dual Moguls and Ski Cross Finish Areas
The Finish Area for Moguls, Dual Moguls and Ski Cross competitions must be a smooth area equal to the width of the course, for at least 30 metres from the finish line. The finish line shall be 8 - 10 metres wide. The area 3 (three) metres before the timing light must be smooth in order that the competitor will not pass above the beam.

Finish Area Fencing
The Finish Area is to be completely fenced in. Any unauthorized entry must be prevented. For competitors who have finished their runs, a special area, separated from the actual Finish area, is to be provided.
In that area, contact with the media (written and audio-visual) shall be made possible.

3044.4 **Determination of Finish**
With electric timing, the time is taken when a competitor crosses the line between the finishing posts with any part of his body or equipment and so breaks the contact.
For Ski Cross see rule 4505.2.4.7, 4505.3.3.6, 4505.4.3.5;
For Ski Halfpipe and Ski Slopestyle see rule 4611.1

3045.2.4 There can never be any prize giving ceremonies before the end of a competition.
3045.3 Calculation of Scores

3045.3.1 All published scores are to be rounded down or truncated to two (2) decimal places and used in further calculations only in the truncated form. These results and scores include; Moguls times, Moguls speed calculations, average of Moguls scores, total Aerials results and tie breaking formula. The Degree of Difficulty (DD) are always presented in their original form. The total score from the Finals or ranking from the Final heat determines the winner. ### 3050 Protests

#### 3050.1 Pre-Conditions for a Protest

No protest shall be considered by the Jury unless:
- The written protest has been made within the time limits under 3050.3.
- The reason for the protest and a sum of 50 CHF or its equivalent in other currency has to be handed to the Jury. If the protest is accepted, the sum will be reimbursed; if not, the FIS retains the sum.

#### 3050.2 Examination of Protests

The Jury shall meet as soon as logistically possible, taking into consideration the urgency of the request (i.e.: re-run required). The Jury will invite, for a discussion on protests, the starter and other officials involved, possible witnesses, the competitor concerned and the protesting Team Captain. In addition, any other material such as videotape, film, photographs, etc., shall be examined. Only the members of the Jury shall be present for the final decision on the protest. This must have the support of a majority of the entire membership of the Jury, not only of those present. In case of a tie, the Chairman of the Jury’s vote shall be decisive. The decision shall be posted on the Official Notice Board immediately after the hearing, with the time of posting. The Chairman of the Jury will preside at the hearing. Minutes of the hearing must be taken and must be signed by the Chairman of the Jury.

Protests concerning re-runs shall be examined immediately by the Jury.

#### 3050.3 Different Types of Protests

##### 3050.3.1 Protests Concerning Qualification

Protests against the qualification of a competitor must be delivered in writing before the beginning of the draw of the competition, to the place designated on the Official Notice Board.

##### 3050.3.2 Protests Concerning the Course

Protests concerning the course must be presented in writing to the Chief of Course or Jury member in good time before the last official training.

##### 3050.3.3 Protests During the Competition

A competitor or Team Captain who protests against any action by another competitor or an official during the competition must take his protest to a Jury member within 15 minutes of completion of the last competition run of that phase of competition.
3050.3.4 Protests Concerning Disqualification
A protest against disqualification must be sent in writing to the place indicated on the Official Notice Board. Such a protest must be received within one hour after the posting of disqualification. In case of doubt over a disqualification, the competitor is entitled to a "provisional" start.

3050.3.5 Protests Concerning Timing
Protests concerning an error in timing must be delivered within one hour after the posting of the unofficial list of results to the place notified on the Official Notice Board.

3050.3.6 Protests Concerning False Calculation and Clerical Errors
A complaint, based not on an alleged breach of the rules on the part of an official or a competitor, but on an alleged error in calculating the results, shall be considered, if sent by registered letter through the competitors' National Ski Association at any time within one month of the date of the competition. If the mistake shall be proved, a corrected list of results shall be published and the prizes redistributed.

3050.3.7 Protests Concerning Re-Runs
Protests concerning re-runs must be submitted within 15 minutes of the infraction, to the Jury.

3050.4 Appeals
A competitor at a competition which has been organised by an association or a club affiliated with a National Ski Association may appeal against the decision of the Jury to the National Association of which the organising club is a member. A competitor may further appeal to the FIS through his own National Ski Association against the decision of the Jury (see rule 225).

3051 Postponement or Cancellation of a Competition
The Jury has the right to cancel an event or an entire competition. The procedure to make-up the event (or competition) must be decided upon by the Jury immediately after the decision to cancel. If the competition cannot be conducted, then the TD must consult with the FIS to determine whether to make up the competition at a later date or permanently cancel the competition. If a competition is cancelled or postponed, for whatever reason, notice must be given immediately by e-mail or telefax to the FIS Office and all nations concerned (see 214.3). If a competition is postponed, notice of the re-scheduled date and location must be circulated immediately. The re-scheduled competition shall be treated as a completely new competition (i.e.: entries can change, new start order, etc.).

The RD (if present) and TD can decide to interrupt or cancel a competition (wind, fog, avalanche, blizzard, etc.)

If a competition is to be made up, then the scheduling of the competition must not interfere with the time necessary to conduct any other competition. Under severe circumstances the Qualification may be eliminated and the Finals only may be conducted, provided the official practice time is available. (see 3060.2.4)

3054 Competitor Responsibilities
3054.1 Provide adequate accident insurance (see 212.4 and 3062.2)
3054.2 Must have a recognized binding system and ski stops in all competitions.

3054.3 Responsible for a thorough knowledge of the Rules, Regulations and Judging criteria; in addition to being familiar with the specific rules for Freestyle Skiing and with ICR section 200.

3054.4 Must attend each prize giving ceremony at which they are due to receive an award and must be properly wearing the correct bib. Also, winners must attend media functions. The prize giving ceremony time must be fixed in the official competitor information. However the competitor is not obliged to attend award ceremonies held on any day other than that on which the competition is completed.

3054.5 As a condition of and in consideration of their entries therein, all competitors and their parents or guardians shall be deemed, by signing the Athletes' Declaration, to agree to assume all risks of injury to the competitors' person and property resulting from, caused by or connected with the conduct and management of the competition and to release any and all claims which they may have against the officials, the host National Ski Association and the clubs or Organisers holding the competition and against their officers and their entries shall only be accepted on this condition.

3054.6 In all competitions, all competitors must wear helmets.

3055 Did Not Start (DNS)
DNS is imposed for each competitor who when listed on the start list for a round or phase, does do not start. When competitors receive a did not start (DNS), they will not be permitted to start (NPS) in the next phase. (see 3057.11 and 3043.6.1)

3055.1 If a competitor does not start in the competition after the start list has been produced, the competitor shall receive no place in the competition.

3055.2 DNS shall be imposed for a competitor's Final run, if not starting in the Final, after performing the Qualification run. The competitor will receive the same place as a DNF in that phase.

3055.3 DNS shall be imposed for the second jump in Aerials, when a competitor performs a first jump but not a second. The competitor receives a rank based on the score for the first jump.

3055.4 In Dual Moguls or Ski Cross if a competitor, does not start in a phase other than his or her first phase, they shall receive DNS for that phase.

3055.5 In Dual Moguls and Ski Cross, if a competitor enters the course before the start command is completed pursuant to Rule 3043.4.4.1 and Rule 4507.8.5 respectively, DNS shall be imposed.

3055.6 After the qualification phase, a Ski Cross competitor who does not start (DNS) in any phase of the final, shall receive the last place in the ranking for that final phase. If two or more competitors DNS in a phase, they are ranked according to their qualification rank. A Ski Cross competitor who does not start in a subsequent phase shall receive the last rank of that phase.

3055.7 Not Permitted to Start (NPS)
A competitor will not be permitted to start (NPS) in any FIS International Ski competition who:
3055.7.1 wears obscene names and/or symbols on clothing and equipment (art. 206.4) or behaves in an unsportsmanlike manner in the start area (art. 205.5, 223.1.1)
3055.7.2 violates the FIS rules in regard to the FIS Specifications for Competition Equipment and the Specifications for Commercial Markings on Equipment (art. 222 and 207)
3055.7.3 refuses to undertake a FIS required medical examination (art. 221.2)
3055.7.4 trains on a course closed for competitors
3055.7.5 did not participate in a training session by taking at least one training run
3055.7.6 does not wear a helmet that conforms to the Specifications for Competition Equipment or does not have ski brakes on their skis
3055.7.7 was disqualified, (DSQ / DIC / DQB) did not start (DNS) or did not finish (DNF) in the first run or first phase. In Ski Cross when No Qualification Modus (4505.3) is used, DNF in the first run or the first phase is handled as in the finals.

3056 Disqualifications (DSQ/RAL)
DSQ can be imposed for not complying with the Competitors’ Responsibilities (see 3054) or with Joint Regulations for all Ski Competitions, Competitors’ Obligations and Rights (see 205). All decisions concerning DSQ will be the responsibility of the Jury.
RAL is “ranked as last” in the heat and will be ranked in the 1/8 and ¼ final after all other finished or DNF’s.
DSQ / DIC / DQB will appear on the Final result sheet but shall receive no numerical ranking.
When a DSQ / DIC / DQB is imposed on a competitor in the Final Phase, then the competitor shall receive no rank in the competition. All competitors from the Qualifications will move up a rank in the results list.
DSQ / DIC / DQB will be imposed:
3056.1 if a competitor submits any false information or enters a competition under false pretences.
3056.2 for violating the rules for start procedure, with the exception of “force majeure” as outlined in 3043.6.1.
3056.3 for violating any rules on equipment according to sections 3037; 4008.2; 4206.1; 4306.1 and 4511 and the FIS Equipment Rules, Section E.
3056.4 DQB (Disqualification for Behaviour) for unsportsman-like behaviour.
3056.5 for attempting an Aerials manoeuvre for which the competitor has not been qualified.
3056.6 if not qualified according to 203 - Licences
3056.7 if a competitor alters a course or jump or trains on a closed course or does not stop, when flagged in Ski Cross.
3056.8 if a competitor accepts outside assistance of any form.
3056.9 if a competitor does not wear a helmet in training or competition.
3056.10 **DIC—Red Card** (Disqualification for Intentional Contact) for intentional contact in Ski Cross (see 4508).

3057 **Re-Runs**
A Jury member can authorise a conditional re-run, on condition that the reasons for it are later confirmed.
The competitor may start in the middle of the interval between two successive competitors, immediately after reporting to the Starter, except where 3057.11 applies.
If the competitor has already been disqualified before the incident for which a re-run was granted, the re-run will not be valid.
A competitor may appeal to a member of the Jury for a re-run immediately after having been obstructed during his run; they must, however, leave the course as soon as possible. The following are considered acceptable circumstances:

3057.1 Obstruction by an official or a spectator.

3057.2 Obstruction by an animal.

3057.3 Obstruction by a competitor who has fallen and has not cleared the course on time.

3057.4 Objects on the course, such as ski poles abandoned by a competitor in a fall.

3057.5 First aid measures which obstructed the competitor.

3057.6 Failure of course to be properly maintained.

3057.7 Any other similar occurrences, outside the competitors’ control, causing him to fall, slowing him down or lengthening his course, thus significantly influencing the result.

3057.8 Complete failure of timing systems. (see 3044.5)

3057.9 Failure of judges to observe competitors run.

3057.10 In the Aerials competition a re-run may be granted for loss of ski(s) after take-off and before landing. Only one such re-run shall be granted for each phase.

3057.11 In the Aerials competition, a competitor may, after starting down the inrun, stop and refuse to jump. However, a competitor may only re-start 1 (one) time in each phase. Each Judge shall deduct 0.5 points from the score achieved for that jump. If the competitor refuses more than once, a DNS will be issued to the competitor for that jump only.
A competitor awarded a re-start for this reason shall be re-inserted in the start order after the following three competitors in this phase (first or second jump). Should fewer than three competitors remain to jump in this phase, the re-starting competitor shall be inserted at the end of the list.

3057.12 If a competitor has correctly reported to the Starter but has not started by the end of the defined starting sequence (see 3043.4.2.4 – 3043.4.2.7), or starts and jumps after the end of the sequence, this shall be treated as a “balk” as described in 3057.11. The same score penalties shall apply and, if the competitor has not started, the re-run shall be implemented immediately.
**3058 Did not Finish (DNF)**

A DNF classification in the qualification phase will receive and be listed with no rank on the result list.

When competitors receive a did not finish (DNF) and are not ranked, they will not be permitted to start (NPS) in the next phase.

All decisions concerning DNF will be the responsibility of the Jury.

The competition officials may impose a ruling entitled “Did Not Finish” (DNF) for any infractions listed below. This list does not restrict the ruling of the officials for any infraction, which may occur and is not listed below. DNF may be imposed:

**3058.1**

for loss of ski(s) any time before landing, during the Aerials competition, if a re-run has already been granted for the same reason for that particular phase (see 3057.10).

**3058.2**

for skiing out of the course boundaries in Moguls and Ski Cross, which includes not crossing the gate line or the finish gate. In Dual Moguls, crossing the middle line of the course. A competitor shall be deemed to have crossed the middle line if both feet cross the line.

In the Ski Cross qualification or the final if a competitor misses a gate (4501.2.5), he must no longer continue through further gates and must move off the course and is not allowed to go back.

**3058.3**

for upgrading an Aerials flight plan after the competitor has left the starting gate.

**3058.4**

for announcing and performing identical Aerials manoeuvres (4008.5)

**3058.5**

for a competitor’s Final run, if not starting in the Finals after performing the Qualification run.

**3058.6**

For loss of ski(s) or stopping for more than 10 seconds during the Mogul or Dual Moguls competition (4206.2.1, 4306.2).

**3058.7**

for an Aerial jump score, if the jump is not performed.

**3058.8**

In case when “No Qualification Modus” is used in Ski Cross, DNF is handled as in the finals.
3059 Passage across the Gate Line

3059.1 A gate must be passed according to art. 3059.2.

3059.2 A gate has been passed correctly when both ski tips and both feet of the competitor have crossed the gate line. If a competitor loses a ski, without straddling a gate, then the tip of the remaining ski and both feet must have crossed the gate line. Wherever two gates are set, the gate line is the imaginary shortest line between the two turning poles. Wherever a turning gate only is set, the gate line is the extension into the course of the line formed by the outside pole of the gate and the turning pole. (see drawing)

3059.3 Requirements after a Gate Fault
If a competitor misses a gate, they must no longer continue through further gates.

3060 Competition Protocol

3060.1 Definition of Competition
Freestyle competitions consist of the following events:
- Aerials AE
- Dual Moguls DM
- Moguls MO
- Ski Cross SX
- Ski Halfpipe HP
- Ski Slopestyle SS
- Ski Big Air BA

Freestyle competitions must provide the opportunity for both ladies and men to compete.

3060.2 Competition Procedures
In all International FIS authorized competitions (see 3043.8) there will generally be:
3060.2.1 **Competition Format**
- A Qualification Phase consisting of one or more rounds (beginning with one run for all competitors);
- A Final Phase consisting of one or more rounds.

3060.2.2 **Reverse Order for Final**
In the Finals, the qualifying competitors will start in reverse order or be set into groups, based on their ranking from the Qualification results. Results from the Qualifications do not carry over into results from the Finals.

3060.2.3 **Altering the Formats**
- The Jury may alter the format to be only Finals in the following circumstances:
- the number of competitors is equal to or less than the size of the normal Final field for that event.
- inclement weather or snow conditions.
- any other adverse conditions which may require a shortened program.

3060.2.4 **Interruption of Competition**
If there is an interruption of a competition, the competition should be resumed when conditions warrant. The results completed before the interruption will remain valid if it is possible to complete the competition on the same day. Otherwise, the results prior to the interruption will be cancelled except if the Qualifications or some phases or rounds of the finals have been fully completed. In that case, only the uncompleted Finals phases or rounds will be postponed but must be completed on the same competition site. If the Finals cannot be fully completed, the results of the Qualifications or different phases of the Final will be valid.

3060.2.5 **Schedule approval by FIS**
If an Organiser wishes to run more than one competition in one day, the competition program must be approved by the FIS.

3060.2.6 **Moguls**
In the Moguls competition, all competitors will take at least one run. The qualified ladies and men, as specified in rule 3043.8 shall move to the Finals. There can be more than one round in the qualification (Q) and final (F) phases. Based upon the results of the qualification round (Q1), a set number of competitors will be directly seeded into the final. An optional, 2nd qualification round (Q2), based upon the ranking of the competitors remaining from Q1 will take part in Q2. In Q2 an equal number of competitors from the Q1 will be seeded into the final. The ranking after Q2 is based upon the better score from Q1 or Q2. In the final phase, there can be two or three rounds depending on the level of competition. The top seeded competitors from the qualification phase will compete in the first round of the final (F1). A limited number of the highest ranked competitors from that round will proceed to the second round (F2). If a third final round is scheduled, the highest ranked competitors from F2 will compete in that round, otherwise, F2 becomes the final round. The numbers that are to compete in the various rounds at different levels of competition are defined by the following table.
3060.2.7 **Dual Moguls**

Dual Moguls is either a series of one-run duals or a Single Qualification and with a Dual Final. In the Final, the winner of each phase advances to the next phase. Ultimately, the last two remaining will ski against each other for first place.

3060.2.8 **Aerials**

In Aerials, several formats may be used: the Final, the Standard, the Short or the Championship. There are two options for the Final phases in the Final format. For all formats, the start list for the first phase shall be determined by a random draw.

In all formats, at least one phase must be completed for the results of the competition to be valid.

The start order for the second phase(s) may be in reverse order of the results of the first phase.

If a phase or rounds in a phase cannot be completed, then the results from the most recently completed or rounds in a phase shall be valid.

3060.2.8.1 **Final Format**

In the Final format, all competitors shall compete in a Qualification phase consisting of one or more rounds. There can be two options for the Final phase. In the first option, after the Qualification phases, the top 12 ladies and top 12 men shall advance to the Final phases. The finalists will take one additional jump and these results shall be added to those from the first phase. The remainder of the field will be ranked according to the results in the Qualification phase. In the Final phase, the competitors shall run in reverse order of the placing in the Qualification phase.

In the second option, the top 8 competitors from the Qualification will be seeded into the Final, which will consist of a series of elimination heats, semifinal phases and Final phases.

In each phase, there is a series of heats with a pairing of two competitors. The start order of the Final phase will be based upon the Qualification results and the results of each heat. The winner of each heat will advance into the next phase and eventually the winner will be determined in the Final heat.

In each heat, the competitor with the higher score will advance to the next phase and be paired against a competitor from other heats based upon a ladder.

3060.2.8.2 **Standard Format**
In the Standard format, a decreasing number of competitors will proceed into the next rounds and phases. If the second phase cannot be completed then the results from the first phase will be valid.

There can be more than one round in the Qualification (Q) and Final (F) phases. In each round there will be one jump.

**Qualification Phase**

If only one Qualification round is to be run, all the competitors in the Final shall be determined from the results of that Qualification round. If a second Qualification round (Q2) is to be run, half the field for the Final shall be filled from the highest ranked in the first round (Q1); then a second Qualification round (Q2) shall be run. The ranking after Q2 is based upon the better score from Q1 or Q2.

**Final Phase**

In the Final phase, there can be two or three rounds depending on the level of the competition. The top ranked competitors from the Qualification phase will compete in the Finals phase.

If two rounds (F1/F2) are held, a limited number of the highest ranked competitors in F1 will compete in F2 to determine the final result.

If three rounds (F1/F2/F3) are held, a limited number of the highest ranked competitors from F1 and F2 will proceed to F3. In this case, the better score from F1 or F2 will be used to seed a limited number of competitors into F3, which will determine the final result. The numbers that are to compete in the various phases and rounds at different levels of competition are defined by the following table:

**3060.2.8.3 Short Format**

In the Short Format, there shall be no Qualification phase and each competitor shall make two jumps in the Finals. The competitor’s score is the sum of the scores of both jumps. This format is not to be used at World Cup or Major Competitions. In the Short Format, if the competition is halted after the first round of jumps, the results from that round shall constitute the final results for the competition.

**3060.2.8.4 Championship Format – Major Competitions**

In the Championship format, all competitors shall compete in a Qualification phase consisting of two rounds. The qualified competitors as specified in rule 3043.8 will move to the Finals. In the Finals, the competitors shall run in reverse order of the placing in the Qualification or the results prior to F3. The remainder of the field will be ranked according to the results in the Qualification or the better score from F1 or F2.

**3060.2.8.5 Major Competition Format**

World Ski Championships and Olympic Winter Games shall use the Championship format.

If either a Championship format Qualifications and Finals or two different Standard or Final competitions are scheduled, they may be held over two days (e.g.: Qualifications on one day, Finals on another day).
3060.2.9 Ski Halfpipe, Ski Slopestyle and Ski Big Air
The Ski Halfpipe, Ski Slopestyle and Ski Big Air competition shall consist of Qualifications and Final with or without a Semi-Final. The Jury can determine the format, based on the number of competitors in the qualification by gender and time schedule. This decision must be made before and announced at the first Team Captains’ Meeting.

Qualification phases shall consist of two runs; the competitor’s best single run shall count. Finals shall consist of qualified competitors. If Semi-Finals are not included, equal numbers of the highest-ranked competitors from each Heat shall proceed to the Final.

3060.2.9.1 For Ski Halfpipe, Ski Slopestyle and Ski Big Air, the Final consists of two (2) or three (3) runs. The start order for the final run shall be the reverse of the ranking from the qualification.

Men
45 or less a 10 men final with best scores of 3 runs
46-60 a 12 men final with best scores of 3 runs
61+ a 16 men final with best scores of 2 runs

Ladies
30 or less: a 6 ladies final with best scores of 3 runs or best score of 2 runs if the men’s final field is 16 men
31+ and 8 ladies final with best score of 2 runs or best score of 3 runs if the men’s final field is 10 men

3060.2.9.2 Competition format with Semi-Final
2-Heat format: The top three Men and the top two Ladies from each Heat shall proceed straight to the Final (6 Men, 4 Ladies). The next six Men and the next three Ladies from each Heat shall proceed to the Semi-Final (12 Men, 6 Ladies).

3-Heat format: The top two Men and the top Lady from each Heat shall proceed straight to the Final (6 Men, 3 Ladies). The next four Men and the next two Ladies from each Heat shall proceed to the Semi-Final (12 Men, 6 Ladies).

The Semi-Final shall consist of two runs; the competitor's best run shall count. The top six Men shall proceed to the Final. 4002.1.3.3 Start and Finish Area
The Aerials site should not have any obstacles or obstructions that will cause any inconvenience or difficulty for the competitor. There should be ample space available in the Start and Finish area for the competitors.
4002.1.3.4 Lift at Aerials Site
The Aerials site must be serviced by uphill transportation with a minimum capacity of 150 persons per hour. This transportation must cover a minimum distance from the finish area to the knoll. The maximum turnaround time for this transportation system must be no more than 10 minutes.

4002.1.3.5 Velocity Indicator
Velocity indicators must be provided at all Aerials sites. The display must be located on the Judges' Stand and must be readable from the table area and be expressed in kilometres per hour. The measurement must be taken at the transition between the inrun and the table according to the FIS Freestyle Course Standards Manual.

4002.1.3.6 Inrun Markers
Twenty (20) markers at two-metre intervals, must be placed on the side of the inrun, in a straight line ending approximately 20 metres above the transition.

4002.1.3.7 Wind Indicators
Three (3) wind indicators shall be placed on the Aerials site, one at the start and two on the knoll. The wind indicators on the knoll are to be located on the top front side of the judges' stand and the other side of the knoll. The wind indicators are to be made of a brightly coloured plastic material being 1 metre long by 5cm wide.

4002.1.3.8 Wind Measurements
The Aerials site must have a series of anemometers that measures the wind speed in metres per second. Measurements are to be taken on the knoll, the inrun and finish area.

4002.1.3.9 Notice Board
A Notice board must be located at the Aerial Judges' Stand. The unofficial results will be updated on the official Notice Board on an on-going basis.

4002.1.4 Preparation and Inspection of the Aerials Site

4002.1.4.1 The Aerials site shall be completely prepared for jumping at least three days before the Aerials competition and must then be available for training.

4002.1.4.2 Before training begins on the first official training day, the competitors and Jury must inspect the course. The Jury shall determine the time of inspection.

4002.1.4.3 Immediately after this inspection the TD and other members of the Jury shall be available at the outrun to receive requests and suggestions from the competitors and trainers regarding the Aerials site.

4002.1.4.4 Notification must be sent to an organising committee by a National Ski Association at least 2 weeks prior to the date of the competition, requesting that a Floater be built. If no request is received, jump site construction will conform to the Mean Standards for Aerials sites as stated in the FIS Freestyle Course Standards Manual.

4002.1.5 Official Training

4002.1.5.1 The official training for the Aerials competition is an inseparable part of the competition. The competitors are required to participate.
The official training shall ideally encompass at least three days before the competition, although not necessarily consecutively.

The official training shall be a minimum of one-day (two hours of actual jumping time).

The entire facility must be properly prepared and have proper medical services available during official training.

Competitors not wearing their bibs will not be allowed to participate during official training. Bibs must be easily visible.

On the Aerials competition day the competitors are allowed two hours of training before the competitions begin. The Jury may reduce this to one hour.

**Scoring**

A split scoring system will be used at all Aerials competitions. Refer to FIS Freestyle Judging Handbook, 6003 Scoring procedures. The competitors acrobatic skiing will be judged on three basic components as follows:

- **Air;** consisting of 20% of the score
  - Definition see: FIS Freestyle Judging Handbook 6004.1
- **Form;** consisting of 50% of the score
  - Definition see: FIS Freestyle Judging Handbook 6004.2
- **Landing;** consisting of 30% of the score
  - Definition see: FIS Freestyle Judging Handbook 6004.3

**Scoring Procedures**

Refer to FIS Freestyle Judging Handbook 6003 Scoring procedures.

The judges will each evaluate the competitors’ performance based upon the criteria set forth in the FIS Freestyle Judging Handbook, see 6004. The score will be multiplied by the appropriate Degree of Difficulty factor (D/D) to determine the total score for each jump. The competitors’ final score for both jumps is determined by adding together the total scores from each jump. See rule 3045.3 for Calculation of Scores.

**Tie Breaking**

If two or more competitors are tied, the scores of each tied competitor will be recalculated without the application of Degree of Difficulty (DD), and the competitor with the better recalculated score will receive the better rank.

If any ties remain, the competitor with the better Air & Form score will receive the better rank.

If any ties still remain, if the format for the current Phase comprises more than one jump, the DDs for each competitor shall be added together and compared, and the competitor with lower aggregate DD shall receive the better rank; otherwise they remain tied.

If any competitors remain tied, they will receive the same rank and be listed in order of their rank in the current FIS World Cup Standings (for World Cup, World Championships and Olympic Winter Games), or their rank in the Standings for
the Continental Cup series of which the competition forms part, or the FIS Points List (for competitions not part of a series).

4005 **Calculation of Degree of Difficulty and Difficulty Charts**

4006 **New Manoeuvres in Competition**

4006.1 **Approval of new Jumps**
New or additional Aerials manoeuvres or modifications, may be proposed by submitting them to the FIS Sub-Committee Moguls / Aerials, in writing with the name and full description of the manoeuvre. The FIS Sub-Committee Moguls / Aerials shall have final authority with regard to acceptance of new manoeuvres and the assignments of proper D/D factors.

4006.2 **Limitations**

4006.2.1 Inverted manoeuvres shall be limited to three (3) somersaults during competition.

4006.2.2 Upright manoeuvres shall be limited to five (5) positions.

4007 **Qualifications and Age Limits**

4007.1 **Qualification of Skills**
The National Ski Association of a country in which a competition is organised shall not allow competitors to attempt any Aerials manoeuvres for which such competitors are not qualified, in connection with an international Freestyle competition, except for authorized qualification proceedings under the authority of an authorized representative of the FIS.

4007.3 **Qualification of Manoeuvres**
To be eligible to attempt an Aerials manoeuvre in international Freestyle competitions, a competitor must have a valid qualification licence for the specified manoeuvres, issued by the competitors’ National Ski Association. A competitor’s Aerials qualification licence may be updated during the competition season, with the exception of the actual day of Aerials competition. Each National Ski Association shall have the responsibility of supplying to the FIS Technical Delegate, an updated list in the English language of all its competitors’ qualifications prior to each Aerials competition.

4007.4 **Removal of Qualifications**
Competitors are subject to suspension or annulment of their Aerials qualifications by the Jury if they have shown an inability to perform the Aerials manoeuvres for which they have been qualified by their National Ski Association. Such a ruling may result in severe reprimands or sanctions imposed against the respective nation.
4008 Special Procedures: Aerials

Slopestyle course description

The Slopestyle course shall contain a variety of types of feature (table top jumps, fun boxes, quarter pipes, waves/jumps, rails and ridges, or other feature types). It shall have different sections, with one or more features at the same location of the slope with at least one judged hit that can be evaluated. The finish area must be wide enough to provide the competitors a safe termination of their performance. The entire course should be visible from the finish area.

Exceptions

Exceptions can be made for indoor or in-city events (indoor style or in-city style):

Safety considerations

Other features can be built but safety considerations must always be a priority. There should be a minimum of two rescue / first aid personnel at the start area at all times during practice and competition.

Competition Format

Qualifications:
2 runs for all competitors.
Qualification ranking will be determined from the competitor’s best score in the Qualification rounds.

Finals:
6 to 16 competitors from the qualifications can take part in the Final based upon the number of entries in the qualifications and available time schedule.
There can be either 2 or 3 runs in the Final (see 3060.2.9.1)
Final rankings will be determined from the competitor’s best score in each Final rounds.
### 4200 Moguls

### 4201 Definition
Moguls competition consists of one run of free skiing on a steep, heavily moguled course, stressing technical turns, speed and aerial manoeuvres. For specific competition procedures, see 3060.2.

### 4202 The Moguls Course

#### 4202.1 Joint Regulations for Ladies’ and Men's Moguls Courses

##### 4202.1.1 Homologation of Moguls Courses
Moguls courses for World Ski Championships, Olympic Winter Games and international competitions included in the FIS Calendar must be approved and homologated by the FIS.

##### 4202.1.2 General Characteristics of the Moguls Site
The Moguls course must be uniformly covered in moguls, with a reasonably constant grade and fall-line, free of obstacles, with satisfactory snow cover. The site must also conform to specifications contained in the FIS Freestyle Course Standards Manual.

4202.1.3.3 Control Gates
Nine (9) control gates, (defined by flags maximum of 0.75 m wide by 1.20 m high) shall be located on the course at equally spaced intervals, with track width measuring 8 - 12 metres. Track width does not include the width of the flags.

4202.1.4 Preparation and Inspection of the Moguls Site

4202.1.4.1 The Moguls course must be completely prepared for skiing before the Moguls competition and must then be available for training. When snow cover is minimal, the Organising Committee must transport additional snow to cover the course. The Jury may postpone or cancel a competition if the moguls do not satisfactorily meet a reasonable minimum to constitute a Moguls competition.

4202.1.4.2 Before training begins on the first day of official training, the competitors and Jury must inspect the course. The Jury shall determine the time of inspection.

4202.1.4.3 Moguls may be machine constructed and all care must be taken to ensure the lines are equal and the number and size of the moguls.

4202.1.4.4 Immediately after this inspection the TD and other members of the Jury shall be available on site to receive requests and suggestions from the competitors and trainers.

4202.1.4.5 To improve upon marginal lighting conditions the organiser may colour the moguls, add pine bough branches, etc.

4202.1.4.6 Some moguls may be modified for use as Air Bumps (see 4202.1.3.2 and 3035.2.7). There should be air bumps at the top and bottom of each course in approximately the same positions. The take-off of the top air bumps should be placed at 15% of the course length and the take-off of the bottom air bumps should be placed at 20% of the course length from the finish line.

4202.1.4.7 No person, other than members of the course crew under the direction of the Chief of Course, shall take any action intended to change the state of the course unless instructed to do so by a member of the Jury. This prohibition applies at all times, but especially during official Inspection of the course.

4202.1.5 Official Training

4202.1.5.1 The official training for the Moguls competition is an inseparable part of the competition. The competitors are required to participate.

4202.1.5.2 The official training shall encompass at least three days before the competition, although not necessarily consecutively.

4202.1.5.3 The Jury may reduce this period if sufficient training is available on one or two days.

4202.1.5.4 The entire facility must be properly prepared and with proper medical services available.

4202.1.5.5 Competitors not wearing their bibs will not be allowed to participate during official training.

4202.1.5.6 On the Moguls competition day the competitors are allowed a minimum of 30 minutes of training before the competition. A period will be designated at beginning of training for course inspection after which normal top-to-bottom training can take place.
4203 Scoring
The competitor's Moguls skiing will be evaluated on three basic components as follows:

4203.1 Turns
Consisting of 60% of the score
(Definition refer to FIS Freestyle Judging Handbook 6204.1)

4203.2 Air
Consisting of 20% of the score
(Definition refer to FIS Freestyle Judging Handbook 6204.2)

4203.3 Speed
Consisting of 20% of the score
(Definition refer to FIS Freestyle Judging Handbook 6204.3)

4204 Scoring Procedures

4204.1 Split Scoring system
Refer to FIS Freestyle Judging Handbook 6203.1
For Moguls Qualification, see 3060.2.1

4204.2 Pace Time
The Pace Times for ladies' and men's Moguls are set according to the standards determined by the FIS Sub-Committee Moguls / Aerials. To calculate the Pace Time for a specific course, take the length of the course in metres and divide by the Pace Time in metres/sec.
Men's Pace Time: 10.30 metres / per second.
Ladies Pace Time: 8.80 metres / per second.

4205 Tie Breaking

4205.1 If two or more competitors are tied, the competitor with the better Turns score will receive the better rank.

4205.2 If any ties remain, the competitor with the better Air score without Degree of Difficulty will receive the better rank.

4205.3 If any ties still remain, the competitor with the faster time will receive the better rank.

4205.4 If any competitors remain tied, they will receive the same rank and be listed in order of their rank in the current FIS World Cup Standings (for World Cup, World Championships and Olympic Winter Games), or their rank in the Standings for the Continental Cup series of which the competition forms part, or the FIS Points List (for competitions not part of a series).

4206 Special Procedures: Moguls

4206.1 Equipment

4206.1.1 There are no ski length requirements.
4206.1.2 All competitors shall use a recognized release DIN binding system and devices to prevent runaway ski(s).

4206.1.3 Competitors shall wear a helmet in the Moguls competition for inspections, official training sessions and competitions.

General regulations concerning equipment can be found in Section 3037 and in the FIS Equipment Rules, Section E.

4206.2 Special Procedures

4206.2.1 Loss of Ski(s) or Stop
A competitor who, having started, loses one or both skis, or stops for 10 seconds or more, shall receive a ruling of Did Not Finish (DNF) for that run. The loss of other equipment, including ski pole or poles, shall not result in DNF provided that the competitor finishes.

4206.2.2 Number of Aerials Manoeuvres
All courses are two jump courses unless otherwise specified by the Jury. Every competitor must perform two different jumps in order to maximize points. Two different jumps can be defined as:

Loop allow only one jump in this category per run
Inverted flips allow only one jump in this category per run unless there is a different direction of initiation (front vs. back) or rotation added (straight over jump vs. full twisting)
Grabs Two jumps that would otherwise be treated as from the same category shall be permissible if one and not the other includes a grab
Off axis allow the same jump from same category if there is rotation different by 180 degrees. (same system as with straight rotations)
Straight rotation if two jumps are performed from this category they must differ by 180 degrees
Uprights must have a different number of moves (e.g. double spread, triple twister)

The recommended number of Aerials manoeuvres shall not restrict the competitor to the stated amount, but represents the number of Aerials manoeuvres, that will receive evaluation. For example, if two Aerials manoeuvres are recommended by the Jury, a competitor who performs only one manoeuvre can only receive a maximum of 50% of the total possible Air score. Manoeuvres in excess of the recommended amount will be disregarded in order of lowest to highest scoring. For example, if two Aerials manoeuvres are recommended and a competitor performs three manoeuvres, the judges will disregard the lowest scoring manoeuvres.

4206.3 Forerunners
The organisers must provide 8 qualified forerunners, four men and four ladies.
4300 Dual Moguls

4301 Definition
Dual Moguls competition consists of mogul skiing on a heavily moguled course. Technical turns, speed and aerial manoeuvres are used to evaluate the competitors with the winner of each phase advancing to the next phase as further explained in Rule 4305 and Rule 4306.4

4302 The Dual Moguls Course

4302.1 Joint Regulations for Ladies and Men’s Dual Moguls Course

4302.1.1 Homologations of Dual Moguls Course
Dual Moguls courses for all international competitions included in the FIS Calendar must be approved and homologated by the FIS.

4302.1.2 General Characteristics of the Dual Moguls Site
The Dual Moguls site must be uniformly covered in moguls, with a reasonably constant grade and fall-line, free of obstacles, with satisfactory snow cover. The moguls may be machine constructed and must conform to specifications contained in the FIS Freestyle Course Standards Manual.

4302.1.3 Layout of the Dual Moguls Site

4302.1.3.1 The Dual Moguls Course
The Dual Moguls course should be a constant grade with one continuous fall-line. The slope should not be overly concave or convex, nor should it have distinct changes in grade.

The course must be as evenly covered in moguls as possible. Hard, sharp bumps should be smoothed out, deep ruts, ice balls and snow machine tracks should be removed. Bumps that throw the competitor too far into the air should be modified. With respect to air bumps, should conform to course Specifications for Dual Moguls (see 4302.1.4).

4302.1.3.3 Control Gates
Nine (9) control gates (defined by flags maximum of 0.75m wide by 1.20m high) designating the outside of the course and centre line shall be located on the course at equally spaced intervals, with each track width measuring 6.5 ± 0.5 metres. Track width does not include the width of the flags.
Preparation and Inspection of the Dual Moguls Site

4302.1.4.1 The Dual Moguls site must be completely prepared for skiing before the Dual Moguls competition and must then be available for training. When snow cover is minimal, the organising committee must transport additional snow to cover the course sufficiently. The Jury may postpone or cancel a competition if the moguls do not satisfactorily meet a reasonable minimum to constitute a Dual Moguls competition.

4302.1.4.2 Moguls may be machine constructed and all care must be taken to assure the courses are equal with respect to lines and the number and size of the moguls.

4302.1.4.3 Before training begins on the first day of official practice, the competitors and Jury must inspect the course. The Jury shall determine the time of the inspection.

4302.1.4.4 Immediately after this inspection the Technical Delegate and other members of the Jury shall be available on site to receive requests and suggestions from the competitors and trainers.

4302.1.4.5 To improve upon marginal lighting conditions the organiser may colour the moguls, add pine bough branches, etc.

4302.1.4.6 Some moguls may be modified for use as air bumps (see 4302.1.3.2 and 3035.2.7). There should be Air Bumps at the top and bottom of each course in approximately the same positions. The take-off of the top air bumps should be placed at 15% of the course length and take off of the bottom air bumps should be placed at the end of the course or 20% of the course length from the finish line. When a mogul and dual mogul competition are held at one location, 4202.1.4.6 applies.

Official Training

4302.1.5.1 The official training for the Dual Moguls competition is an inseparable part of the competition. The competitors are required to participate.

4302.1.5.2 The official training shall encompass at least two days, although not necessarily consecutively.

4302.1.5.3 The Jury may reduce this period.

4302.1.5.4 The entire facility must be properly prepared and with proper medical services available during training.

4302.1.5.5 Competitors not wearing their bibs will not be allowed to ski on the course.

4302.1.5.6 On the competition day the competitors are allowed a minimum of 30 minutes of training before the competition begins. The Jury may reduce this if conditions require it.

Scoring

The competitors’ Moguls skiing will be evaluated on three basic components as follows (see 3045.3 for general scoring procedures):

4303.1 Turns; consisting of 50% of the score
(Definition refer to FIS Freestyle Judging Handbook 6204.1 to 6204.1.1.9 and 6403)
4303.2 **Air; consisting of 25% of the score**  
(Definition refer to FIS Freestyle Judging Handbook 6403)

4303.3 **Speed; consisting of 25% of the score**  
(Definition refer to FIS Freestyle Judging Handbook 6403)

4304 **Scoring Procedures**

4304.1 A panel of judges shall administer scores based upon specific duties for each judge, as set forth in the FIS Freestyle Judging Handbook 6403. The judges shall evaluate the competitors’ performance with respect to “turns”, “air” and “speed” as further described in the FIS Freestyle Judging Handbook. The competitor shall be judged from the time the run is started until they cross the finish line. The competitor should come to a controlled and complete stop in the finish area. Aerials manoeuvres landing beyond the finish area will be disregarded.

4304.2 **Tie Breaking – Qualifications**

4304.2.1 In Single format Qualification, tie break procedures are the same as for Moguls (see 4205).

4304.2.2 In Dual Moguls with Seeded Groups, any ties shall be broken by a random draw between the tied competitors.

4304.3 **Tie Breaking - Finals**

4304.3.1 5-Judge format: no ties are possible.

4304.3.2 Classic DM 7-Judge format: should a tie occur, the competitor with the greater number of votes from the Turns judges shall be ranked higher; if still tied, the competitor with the greater number of Turns judges in favour shall be ranked higher.

4304.3.3 If still tied, the Turns Tie Break Judge (J7/Speed) shall determine the result by giving a Turns score.  
Comparison DM: should a tie occur the competitor with the faster speed shall win; if still tied, the competitor with more Turns Judges voting in their favour shall win.

4304.3.4 In case there is a tie for the last place qualifying for Dual Moguls finals, the following will apply: if two competitors are tied, the two will dual immediately before the first dual round. The winner will advance to the first dual round. If more than two competitors are tied, each will ski a single run with the winner advancing to the duals.

4305 **Competition Procedures (also see Rule no. 3060.2.2)**

4305.1 **Dual Moguls Competition Format**

The Dual Moguls competition can be carried out using two formats. In one format, Duals are done from the beginning of the competition and in the other format; Duals are done in the Finals. In the second format, the qualification for the Final is done with a modified form of Moguls competition.
4305.2  
**Dual Moguls with Seeded Groups**

4305.2.1  
*Seeding for Dual Moguls*

Seeding which is the first phase shall be done according to the better ranking of the most recent FIS Points List and the ranking of other standings as defined in the regulations of the different competition series, e.g. World Cups and Continental Cups.

For other major competitions such as World Championships, the FIS points ranking and the rankings from the Moguls competition, held at that location, shall be used.

Any ties shall be broken by a random draw.

4305.2.2  
Seeding Procedures

The top 32 competitors will be seeded with the top 16 being seeded according to the place and the top 17 to 32 competitors being randomly drawn and seeded according to the drawn number between 17 and 32. All other competitors (any greater than 32) would be randomly drawn to a number greater than 33 and be placed at the corresponding number on the ladder.

4305.2.3  
*Assignment of Red and Blue Courses*

Colour (or side) of course will be predetermined in the following manner:

<table>
<thead>
<tr>
<th>Phase</th>
<th>Top Competitor in Pairing</th>
</tr>
</thead>
<tbody>
<tr>
<td>Phase of 128</td>
<td>top competitor in pairing will be red</td>
</tr>
<tr>
<td>Phase of 64</td>
<td>top competitor in pairing will be blue</td>
</tr>
<tr>
<td>Phase of 32</td>
<td>top competitor in pairing will be red</td>
</tr>
<tr>
<td>Phase of 16</td>
<td>top competitor in pairing will be blue</td>
</tr>
<tr>
<td>Phase of 8</td>
<td>top competitor in pairing will be red</td>
</tr>
<tr>
<td>Phase of 4</td>
<td>top competitor in pairing will be blue</td>
</tr>
</tbody>
</table>

Final Phases: top competitor in pairing will be red

The “top competitor” is defined by position in the bracket, not by seed.

In all cases, the left side (looking up the hill) will be the Blue course and the right side will be the Red course.

4305.2.4  
**Ranking of those eliminated in each Round**

The ranking to fourth place will be determined by skiing (“dualing off”).

All competitors in the rounds of 5-8, 9-16, 17-32, 33-64, 65-128 who did not proceed to the next round will be ranked in accordance with 4307.

Those receiving a DNS will be ranked according to their seed.

Those receiving a DNF will be ranked according to their seed.

Those that receive a score but do not advance to the next round will be placed in accordance with the judges points accumulated. Ties in this group will be broken by 4307.

4305.3  
**Dual Final with Single Qualification**

A single Moguls run will be used to qualify and seed competitors for Dual format Finals. Final formats can consist of the following number of competitors; 8, 16, 24 or 32 competitors. Only top 4 places will be determined by ‘dualing off’.

4305.3.1  
*Qualification / Moguls*

The Moguls course shall be divided into duals lanes (red / blue) for the Qualification run and the Final phases.
4305.3.2  *Starting Order*

The order that the competitors start in shall be according to the starting list. Competitors with odd start order (start 1, 3, 5 etc), start on the red course and competitors with even start order (2, 4, 6 etc) will start on the blue course.

4305.3.3  *Final / Dual Moguls*

The organiser can propose to the FIS the number of the competitors to have in the Final. The program ought to be around a 45 to 75 minutes of skiing.

4305.3.3.1 The results from the Qualification are used select competitors for the Finals.

4305.3.3.2 The rankings of 1, 2, 3, 4, shall be determined by duals.

4305.3.3.3 The remaining rankings shall be determined according to 4307.

4305.3.3.4 Based upon the results of the Qualification, the higher ranked competitor can decide to ski in either the blue or the red course. The higher ranked competitor shall inform the Starter / Start officials of their decision in the start area in a reasonable time before the start of that phase.

4306  *Special Procedures*

4306.1  *Equipment*

For further definitions, see FIS Equipment Rules, Section E

4306.1.1 There are no ski length requirements.

4306.1.2 All competitors shall use a recognised release DIN binding system and devices to prevent runaway ski(s).

4306.1.3 Competitors must wear a helmet in the Dual Moguls competition for inspections, official training sessions and competitions.

4306.2  *Loss of Ski(s) or Stop*

A competitor who, having started, loses one or both skis or stops for 10 seconds or more, shall receive a ruling of Did Not Finish (DNF) for that run. The loss of other equipment, including ski pole or poles, shall not result in DNF provided that the competitor finishes.

4306.3  *Jumping Manoeuvres (Dual Moguls)*

A competitor who performs only one manoeuvre can only receive a maximum of 50% of the total possible Air score.

Competitors may repeat jumps but judges will consider variety in comparing the two competitors. Variety reflects a different number of manoeuvres and different types of manoeuvres. A competitor who repeats (identically) the same manoeuvre during a run will receive a deduction of two (2) votes per Air judges; A competitor who performs two different manoeuvres from the same scoring Category will receive a deduction of one (1) vote per Air Judge. Different types of manoeuvres are defined in 4206.2.2.
4306.4 **Dual Moguls Start Device**

4306.4.1 **Approval by FIS**
All start devices must be approved by the FIS before they can be used in competition.

4306.4.2 **The Start Ramp**
The Start Ramp shall be prepared in such a way that the competitors can stand relaxed on the starting line and can quickly reach full speed after leaving the start.

4306.4.3 **Placement of the Gate**
The specifications can be adjusted to the needs of the specific course. The start gates are to be placed in the centre of each of the courses. The gates have to open simultaneously and it must be impossible for a competitor to open the gates themselves or cause the gates to lock by applying pressure to them.

4306.4.4 **Dual Moguls Gate Standards**
Two hinged gates each 200-cm wide and 40 cm in height shall be attached to a horizontal pole. A start handle is attached at 90° to the horizontal pole in the centre of the two start gates. The starting block (behind the board) must be covered with plastic to protect the skis. The weight for each hinge gate is 15 kg. Gates meeting the standards in 4507.8.3 can also be used.

4306.4.5 **Opening System**
The opening system shall operate in such a way that both gates open outwards on operation of a single control mechanism. Mechanical controls are preferred over electrical ones, for reasons of reliability and portability.

4307 **Ranking and Tie Breaking of those eliminated in Dual Moguls knock-out rounds**

4307.1 In each round, the scores will be compared between all of the eliminated competitors. The competitors’ scores will be sorted from the highest to lowest scores. Competitors with higher score will be grouped, followed by the next highest score until all competitors are classified. Competitors within each group will then be ranked according to their seeding in the competition, and all will be ranked above those from the same round who did not receive a score.

4307.2 Competitors who DNF will be ranked according to their seeding (see 4302) or Qualification (see 4303) rank, below all competitors from the same round who received a score and above all those who DNS in the same round.

4307.3 Competitors who DNS in any round except the first round of Dual Moguls with Seeded Groups (see 4307.4) will be ranked according to their seeding (see 4302) or Qualification (see 4303) rank, after all other classified competitors in the same round.

4307.4 Competitors who DNS in the first round of Dual Moguls with Seeded Groups (see 4302) will not be classified and will have no rank in the competition. They shall be listed on the Results above any who are DSQ.

4307.5 In the case where both competitors are DNF in the same round, the first who DNFs is ranked lower.
4307.5.1 **Tie Breaking**

In the case that it is not possible to determine the ranking, then the ranking will be determined by the ranking in the qualification phase or seeding of the competitors. Then the competitor(s) with the better rank will break the tie.
7th Section

4500  Ski Cross

After a timed qualification run, a group of competitors’ compete against each other on a specially prepared Ski Cross course that includes different types of turns, jumps, waves and other freestyle terrain features.

4501  Ski Cross Technical Data

4501.1  Vertical Drop

4501.1.1  Courses for all competitions must be a minimum of 30 vertical metres to a maximum 260 vertical metres. The same course may be used for men and ladies. Average slope should be between 5° to 22°.

4501.1.2  The total skiing time for a course shall be between 20 – 80 seconds.

4501.1.3  The following additional criteria shall apply to course specifications;

4501.2  Gates and Poles

4501.2.1  Type of Poles to be used
A Ski Cross gate consists of a triangular gate panel attached to one non-breakaway non-hinged, static or fixed base, outside pole and on the inside or turning side a hinged, or breakaway, 45 cm long stubby pole (turning pole).

4501.2.2  Colour of Gates
Consecutive gates must alternate in colour unless the gate defines a corridor or banana. The colour of the triangular gate panel and the poles must be the same.

4501.2.3  Size of Triangular Gates
Triangular gates must be used in Ski Cross. The size of the gate is:

<table>
<thead>
<tr>
<th>Base</th>
<th>Long side</th>
<th>Short side</th>
</tr>
</thead>
<tbody>
<tr>
<td>130cm</td>
<td>110cm</td>
<td>40cm</td>
</tr>
</tbody>
</table>

The turning pole must be a stubby pole (45 cm long)
4501.2.4 Placement of the Triangular Gates

4501.2.4.1 The gates must be set so that the competitors can distinguish them clearly and quickly even at high speeds. The gate should be set at right angles to the competition line. In certain circumstances, competitors may be required to pass between two gates of the same colour (for example: corridors).

4501.2.4.2 The gates must be set on both sides of all features such as rollers and take off of jumps as well as the finish line. Placing gates in blind locations such as landings shall be avoided. In flat non-banked turns, banked turns or any other type of turns a single turning gate shall be set and no outside gate will be required.

4501.2.5 Correct Passage across the Gate Line
See 3059.2

4502 The Ski Cross Course

4502.1 General characteristics of the courses.
The slope should preferably be of an average grade (ideally 12°-22°) with varied terrain with an average slope of 15°. The Ski Cross slope must be a minimum of 30 metres wide.
The Ski Cross track width for 4 to 6 competitors, shall be no less than 5 metres in width.
Under certain conditions for short sections (50 metres or less) the course width may be a minimum of 20 metres.

4502.2 Ski Cross Features
The ideal Ski Cross course will allow for the construction of all or some of the following terrain features:
Banks (crescent shaped), Double Banks, Single, Double or Triple Jumps Rollers, Offset Rollers - (Single, double, triple, etc.), Step-up jumps, spines and double spines, Pro style jumps, Hip jumps, Table top jumps and medium or long GS type turns (when building a feature is not possible).
Other terrain features can be built but safety considerations must always be a priority. Gap jumps will not be permitted under any circumstances. The features should be designed so that competitors are attempting to gain speed and not having to brake before each one.

4502.3 Course Preparation
The track should be closed to the public at least 24 hours before the training. Terrain features and jumps must be built with sufficient time so that the snow has been compacted to ensure that they can be properly maintained during training and competition. The use of artificial means is permitted (salt, water, etc.) and required if necessary.
4502.4 Course Design
The total number of terrain features and jumps should be at the discretion of the course designer but will incorporate as many different possibilities as is practical. Blind jumps or terrain features where a competitor is unable to see the landing from the take-off should be avoided. The course should be designed to separate the competitors as quickly as possible after the start (e.g. 3-5 rolls or other terrain features between the start and the first turn). These terrain features should be placed in a straight line from the start to the first turn. Minimum distance of the straight section of the course between the start and the first turn should be no less than 60 metres. The arc of the first turn shall be no less than a 100 degrees change in direction (i.e. the degrees difference between the entrance and the exit of the turn. The first turn is usually the largest turn of the course, wide enough to accommodate all competitors at once. The Start should be designed in such a way that the competitors can gain speed without using their ski poles or skating.

4503 Course Setting

4503.1 Setting of the Gates
The setting of the gates must be done before the official inspection and should incorporate the skilful use of the terrain with the integration of terrain features and jumps into the setting. Minor adjustments in the setting may be necessary during the training to adjust the course for a smooth competition line. Any changes made during training should be announced in the start area so all competitors and Team Captains are aware of such changes.

4503.2 Gate Setters
The course setting shall be performed by the Connection Coach together with the Chief of Course in consultation with the Jury and the Competitor Advisory Committee.

4504 Competition Programme

4504.1 Inspection
The competitors are allowed to inspect the course by slowly sliding down through or alongside the course. Inspection times are at the discretion of the Jury but should be a minimum of 30 minutes. All competitors are required to complete at least one inspection run prior to training. Competitors must visibly wear their bibs and their helmets during the inspection.

4504.2 Official Training
Scheduling should allow for 2 training runs per competitor in all training sessions.

4504.2.1 Competitors not wearing their bibs will not be allowed to participate during official training.

4505 Execution of Ski Cross
Seeding and a Draw is leading to Heats. For Qualification reason Single Time Trials can be held to determine the heat pairings.
4505.1 Qualification and Heat Formats

4505.1.1 Qualification Formats
Qualification can be held with Single Time Trials (STT) or a Qualification Heat Round (QHR).

4505.1.2 Final Formats
Finals can be held in Knock Out Format (KO) or in Group Format (Round Robin).
In the Holistic Heat Format a Qualification Round may not be necessary.

4505.1.2.1 Pre Final Round
In the case, that in Knock Out Format (KO) a break of more than 10 minutes is scheduled after a phase, the prior phase is called “Pre Final Round”.
After the Pre Final Round a Results Bracket for the Pre Final Round and a new Startlist for the Final Round after the break will be produced and published.
If more than one break of more than 10 minutes each is scheduled, the Pre Final Rounds will be numbered ascending.

4505.1.3 The used Qualification Format, Final Format and used Bracket size must be announced at the draw meeting.
The used formats are selected by the jury and may vary from the format published in the invitation.

4505.2 Ski Cross with Single Time Trials and Knock Out Format

4505.2.1 Seeding and Draw

4505.2.1.1 Seeding for Major Competitions
For World Cup, World Championships and Olympic Games, the competitors present will be sorted according to their best ranking on the WCSL, WC points list or FIS points list (published several times a year). If the competitors are tied, the higher points in the second category will decide their position. If they are still tied after using the third category their position will be decided by a draw.
The actual FIS points list, valid on the date of the draw meeting, has to be used.

4505.2.1.2 Seeding for other Competitions
For other FIS Competitions, the competitors present will be sorted according to their ranking on the current FIS points list.
The non-ranked competitors are assigned bibs based upon a random draw.

4505.2.1.3 The Ski Cross Draw for Single Time Trials
The first group (16) will be randomly drawn. The remaining competitors will be sorted according to their seeding.

4505.2.1.4 Starting Order in Extraordinary Conditions “Snowseed” (Excluding First Seed)
In extraordinary conditions, the Jury may change the starting order for the qualification (when snowing, etc.). A group of at least 6 competitors, nominated in advance, starts before start number 1. These 6 competitors are randomly drawn from among the last 20% of the start list. They will start in reverse order of their start numbers.
If the last 20% of the start list is less than 6 competitors, the last 6 competitors of the seeding list will be selected.
4505.2.5 Bibs
Bibs for Single Time Trials are numbered on front and back for better visibility by the course judges.

4505.2.2 Execution and Ranking of Single Time Trials in “Qualification Format”

4505.2.2.1 Number of Runs:
All competitors will have 1 timed run.

4505.2.2.2 Ranking
All finished competitors will be ranked by their time.

4505.2.2.3 Tie Breaking:
If two or more competitors have the same time (tied), then the competitor that started later will win the tie.

4505.2.2.4 DSQ, DNF or DNS
All competitors with a DSQ, DNF, DNS will get no rank and no spot in the Heat Brackets.

4505.2.2.5 Timing
Wireless Timing as per 3041.2.7 is permitted for SX Single Time Trials below World Cup Level.

4505.2.2.6 Determination of the start gate position for the Single Time Trials
The choice of which of the starting gate stalls will be used will be decided by the jury.

4505.2.3 Execution and Ranking of Single Time Trials in “Seeding Format”

4505.2.3.1 Number of Runs:
All competitors will have 1 timed run.

4505.2.3.2 Ranking
All finished competitors will be ranked by their time.

4505.2.3.3 Tie Breaking:
If two or more competitors have the same time (tied), then the competitor that started later will win the tie.

4505.2.3.4 DSQ, DNF or DNS
All competitors with a DSQ will get no rank and no spot in the Heat Brackets. All competitors with a DNF or DNS will get a rank and a spot in the Heat Brackets.

4505.2.3.4.1 Ranking of Competitors that Did Not Finish (DNF)
DNF will be ranked after the lowest ranked competitor that completed the whole course.
In a case where more than one competitor does not complete the course, the rankings will be based on the location where each competitor ceased making correct passage of the course. The competitor that has completed more gates (with both skis on) further down the course will receive the better rank.
If they are still tied, the competitors will be ranked according to their seeding.
4505.2.3.4.2 Ranking of Competitors that Did Not Start (DNS)
DNS will be ranked after the lowest ranked competitor, that Did Not Finish (DNF). In a case where more than one competitor does not start, the competitors will be ranked according to their seeding.

4505.2.3.5 Timing
Wireless Timing as per 3041.2.7 is permitted for SX Single Time Trials below World Cup Level.

4505.2.3.6 Determination of the start gate position for the Single Time Trials
The choice of which of the starting gate stalls will be used will be decided by the jury.

4505.2.4 Execution and Ranking of Knock Out (KO) Heat Phase

4505.2.4.1 Number of competitors in the Final phase:
Finals are based on 128, 64, 32, 16 or 8 competitor brackets with 4 competitors per heat or 96, 48, 24 or 12 competitor brackets with 6 competitors per heat.

4505.2.4.2 Bibs for Final Phase
The Bibs will be changed after the qualification. The new Bib numbers for the final are the ranks from the qualification. If the right numbers are not available for the finals a set of ascending Bib numbers must be used.

4505.2.4.3 Bib Colours for the Finals
For the Final, additional colour Bibs are used. The main 4 colours of the bibs will be Red, Green, Blue and Yellow. White and Black will be used additionally if a 6-person format is used. The colour Bibs are worn above the Bib numbers.

4505.2.4.4 Bib Colour Assignment for the Final
Assignment of the bibs in each heat is based upon the competitors’ qualification ranking. The best ranked competitor in the qualification is assigned the red bib and can choose the lane first. The second ranked competitor is assigned the green bib, the third ranked is assigned the blue bib and the fourth ranked is assigned the yellow bib. If a 6-person format is used, the fifth ranked is assigned the white bib and the sixth ranked is assigned the black bib.

4505.2.4.5 Heat Pairings
All qualified competitors will be filled into the bracket according their ranking in the qualification as shown under 4506 or can be determined by a Public Heat Selection.

4505.2.4.5.1 Public Heat Selection (PHS)
In case of a Public Heat Selection, the qualified competitors will not be filled into the brackets according to their ranking in the qualification. They will be divided in groups, so called “Pools”. The pools are based on the Bib Colour Assignment for the final. The lowest bib of pool 1 (red bibs) will select one competitor from pool 2 (green bibs), one competitor from pool 3 (blue bibs), one competitor from pool 4 (yellow bibs) in 4 competitors per heat format and additionally one competitor from pool 5 (white bibs) and one competitor from pool 6 (black bibs) in 6 competitors per heat format. After the lowest bib has selected his heat, the next lowest bib advances with the heat selection until all heats are selected.
4505.2.4.5.2 **Incomplete heats**

In case of, that the number of competitors qualified for the final is lower than the number of spots for the final, competitors with the top final bibs do not need to select a competitor from pool 4 in 4 competitors per heat format or from pool 6 in 6 competitors per heat format. (example: in a bracket for 32 competitors, with 28 competitors available during the draw, the red bibs 1, 2, 3 and 4 will have to select one competitor of the green pool, one competitor of the blue pool and no competitor of the yellow pool).

4505.2.4.5.3 **Personal participation at the Public Heat Selection**

If the selecting competitor is not present at the Public Heat Selection, the competitor loses the right to select his heat.

After all other heats are selected by the present competitors, the remaining competitors from the pools will be assigned to this heat.

If more than one competitor is not present at the Public Heat Selection, the remaining competitors of the pools will be assigned by bibs. The lowest remaining bib of the red pool will get the highest remaining bib of the green pool, then the blue pool, then the yellow pool, and in case of a 6 competitor per heat format, the highest remaining bib of the white pool and the black pool.

4505.2.4.6 **Single Knockout Format**

The top 2 competitors (4 competitors per heat) or top 3 competitors (6 competitors per heat) advance from phase to phase as determined by their rank in each heat.

4505.2.4.7 **Ranking at the Finish Line**

Ranking in each Heat is determined by the first part of the body that crosses the finish line.

4505.2.4.8 **Finish Line Camera**

A finish line camera (video or photo finish) must be available (see the Timing Booklet Ski Cross Set-Up Level).

4505.2.4.9 **Ranking of Competitors that Did Not Finish**

In a case where more than one competitor does not complete the course, the rankings in that heat will be based on the location where each competitor ceased making correct passage of the course. The competitor that has completed more gates (with both skis on) further down the course will receive the better rank.

In a case where a DNF is ranked in the top 2 competitors (4 competitors per heat) or top 3 competitors (6 competitors per heat), the competitor(s) will advance to the next round.

4505.2.4.10 **Tie Breaking in the Heats before the Small Final**

In a case where it is not possible to determine the ranking, then the ranking will be determined by the ranking in the qualification phase of the competitors. Then the competitor(s) with the better rank will win the tie.

4505.2.4.11 **Tie Breaking in the Small and Big Final**

In case of a tie in the small final or the big final, they will remain tied and will receive the same rank.

4505.2.4.12 **Competitors that Did Not Start**

Competitors that did not start (DNS) will receive no rank in that heat and shall not advance to the next round.
Final Ranking for Ski Cross with Single Time Trial and Knock Out

Four Person Format
Competitors 1 to 4 are ranked according to their place of finish in the final heat. Competitors 5 to 8 are ranked according to their place of finish in the phase. All remaining competitors are ranked according to their ranking in each heat, the phase they go out in (e.g. quarter final) and their qualification times within that phase. (example: competitors ranked 9 to 16 in the quarter final would be ranked according to their ranking in the heat and then by their qualification times.)

Six Person Format
Competitors 1 to 6 are ranked according to their place of finish in the final heat. Competitors 7 to 12 are ranked according to their place of finish in the phase. All remaining competitors are ranked according to their ranking in each heat, the phase they go out in (e.g. quarter final) and their qualification times within that phase. (example: competitors ranked 13 to 24 in the quarter final would be ranked according to their ranking in the heat and then by their qualification times.)

Cancellation of Final
If the competition is cancelled after a phase, all competitors ranked 1st in each completed phase will be ranked according the qualification times. After that all 2nd ranked in each completed phase will be ranked according the qualification times. After that all 3rd ranked in each completed phase will be ranked according the qualification times. After that all 4th ranked in each completed phase will be ranked according the qualification times.

Final Ranking for DNS
After the qualification phase, a Ski Cross competitor who does not start (DNS) in any phase of the final, shall receive the last place in the ranking for that final phase. If two or more competitors DNS in a phase, they are ranked according to their qualification rank. A Ski Cross competitor who does not start in a subsequent phase shall receive the last rank of that phase.

Ski Cross in Holistic Heat Format

Seeding and Draw

Seeding for Major Competitions
For World Cup, World Championships and Olympic Games, the competitors present will be sorted according to their best ranking on the WCSL, WC points list or FIS points list (published several times a year). If the competitors are tied, the higher points in the second category will decide their position. If they are still tied after using the third category their position will be decided by a draw. The actual FIS points list, valid on the date of the draw meeting, have to be used.

Seeding for other Competitions
For other FIS Competitions, the competitors present will be sorted according to their highest ranking on the FIS points list. The actual FIS points list, valid on the date of the draw meeting, have to be used.

The non-ranked competitors are assigned bibs based upon a random draw.
The Ski Cross Draw for the Holistic Heat Format
All competitors on the seeding list will be divided into groups. The groups are based upon ICR 4506 (Red, Green, Blue, Yellow, White, Black)
The group 1 (Red BIBs) will be filled into the bracket as shown under 4506 The rest of the field will be drawn in groups into the bracket.
Group 2 (Green BIBs), group 3 (Blue BIBs), group 4 (Yellow BIBs), group 5 (White BIBs), group 6 (Black BIBs).
The draw in the groups can happen randomly via computer, drawing by lot or personal selection by athletes or a public draw.

Public Heat Selection (PHS)
In case of a Public Heat Selection, the defined groups (Red, Green, Blue, Yellow, White, Black) are called “Pools”. The lowest bib of pool 1 (red bibs) will select one competitor from pool 2 (green bibs), one competitor from pool 3 (blue bibs), one competitor from pool 4 (yellow bibs) in 4 competitors per heat format and additional one competitor from pool 5 (white bibs) and one competitor from pool 6 (black bibs) in 6 competitors per heat format. After the lowest bib selected his heat, the next lowest bib advances with the heat selection until all heats are selected.

Incomplete heats
In case of, that the number of competitors qualified for the final is lower than the number of spots for the final, competitors with the top final bibs don’t need to select a competitor from pool 4 in 4 competitors per heat format or from pool 6 in 6 competitor per heat format. (example: in a bracket for 32 competitors, with 28 competitors available during the draw, the red bibs 1, 2, 3 and 4 will have to select one competitor of the green pool, one competitor of the blue pool and no competitor of the yellow pool).

Personal participation at the Public Heat Selection
If the selecting competitor is not present at the Public Heat Selection, the competitor loses the right to select his heat.
After all other heats are selected by the present competitors, the remaining competitors from the pools will be assigned to this heat.
If more than one competitor is not present at the Public Heat Selection, the remaining competitors of the pools will be assigned by bibs. The lowest remaining bib of the red pool will get the highest bib left of the green pool, then the blue pool, than the yellow pool, and in case of a 6 competitor per heat format, the highest bib left of the white pool and the black pool.

The Ski Cross Draw for the Holistic Heat Format for FIS races Level 4 and lower
If needed the draw for FIS races on FIS points level 4 and 5 (scale 50-360) may happen as follows:
All competitors on the seeding list will be divided into groups. The groups are based upon ICR 4506 (Red, Green, Blue, Yellow, White, Black)
The group 1 (Red BIBs) will be randomly drawn into the bracket.
The rest of the field will be filled in groups into the bracket as shown under 4506. Group 2 (Green BIBs), group 3 (Blue BIBs), group 4 (Yellow BIBs), group 5 (White BIBs), group 6 (Black BIBs).

Numeric Bibs
Bibs are numbered on front and back and are based upon the seeding.
4505.3.1.5  Bib Colours for Heats
For the Heats, additional colour Bibs are used. The main 4 colours of the bibs will be Red, Green, Blue and Yellow. White and Black will be used additionally if a 6-person format is used. The colour Bibs are worn above the Bib numbers.

4505.3.1.6  Bib Colour Assignment for the Heats
Assignment of the bibs in each heat is based upon the competitors’ seeding. The best seeded competitor is assigned the red bib and can choose the lane first. The second seeded competitor is assigned the green bib, the third seeded is assigned the blue bib and the fourth seeded is assigned the yellow bib. If a 6-person format is used, the fifth seeded is assigned the white bib and the sixth seeded is assigned the black bib.

4505.3.2  Qualification Heat Round (QHR)
If the number of competitors in the Holistic Heat Format exceed the number of competitors fitting in the Final bracket, a Qualification Heat Round should be executed.

4505.3.2.1  Number of Competitors to use Qualification Heat(s)
The QHR should be used, as long as the number of Qualification Heats is lower than the number of additional heats needed for the next higher bracket. The following table indicates what kind of heats should be used:

<table>
<thead>
<tr>
<th>Used Bracket</th>

4505.3.2.1  Execution of the Qualification Heat Round (QHR)
The number of exceeding competitors of the final bracket (X) and the number of competitors that have to be taken out of the final bracket (Y) are competing in Heat(s) to determine the final field of competitors for the KO Final according ICR4506.
If the number of competitors (X) is an even number, the number (Y) is the same as (X). If the number of competitors (X) is an odd number, the number (Y) is the next higher even number.
The winner and the second rank of each Qualification Heat will advance to the KO Bracket.

4505.3.2.2  Number of Qualification Heat(s)
The number of Qualification Heats (K) is determined by the number of competitors competing in the Qualification Heat Round: (X + Y)
K = (2x Y) / 4

98
**4505.3.2.3 Determination of the Qualification Heat Matrix**

First, the competitors that were taken out of the bracket (Y) are sorted in the matrix.

The first half of (Y) is sorted on the red bib position beginning with heat 1.

The second half of (Y) is sorted on the green bib position beginning with the highest heat number.

Then the first half of (X) is sorted on the blue bib position beginning with heat 1.

The second half of (X) is sorted on the yellow bib position, beginning with the highest heat number.

Example with 67 competitors in a 64 competitor KO bracket:

- X = 3 => is an odd number, next higher even number is 4
- Y = 4 => calculate the number of needed heats
- K = \(2 \times \frac{Y}{4} = 2\) => build the Heat Round

**4505.3.2.4 Participation on Bracket**

The top 2 competitors (4 competitors per heat) or top 3 competitors (6 competitors per heat) advance from phase to phase as determined by their rank in each heat.

**4505.3.2.5 Ranking at the Finish Line**

Ranking in each Heat is determined by the first part of the body that crosses the finish line.

**4505.3.2.6 Finish Line Camera**

A finish line camera (video or photo finish) must be available (see the Timing Booklet Ski Cross Set-Up Level).

**4505.3.2.7 Ranking of Competitors that Did Not Finish**

In a case where more than one competitor does not complete the course nor cross the finish line, the rankings in that heat will be based on the location where the competitor(s) have completed the course. The competitor that has completed
more gates (with both skis on) further down the course will receive the better rank.
In a case where a DNF is ranked in the top 2 competitors (4 competitors per heat) or top 3 competitors (6 competitors per heat), the competitor(s) will advance to the next round.

4505.3.2.8 **Tie Breaking**
In the case, that it is not possible to determine the ranking, the ranking will be determined by the seeding of the competitors. Then the competitor(s) with the better seeding will win the tie.

4505.3.2.9 **Competitors that Did Not Start**
Competitors that did not start (DNS) will receive no rank in that heat, no rank in the final ranking and do not have the chance to advance to the next round.

4505.3.2.10 **Allocating the competitors in the KO Bracket**
The winner of each heat will be allocated to the KO Bracket spot where the Red Bib of this Qualification Heat was taken out.
The second place of each heat will be allocated to the KO Bracket spot where the Green Bib of this Qualification Heat was taken out.

Example with 46 competitors in a 32 competitor KO bracket:

tion will receive no rank in that heat and do not have the chance to advance to the next round.

4505.3.4 Final Ranking for Ski Cross in Holistic Heat Format

4505.3.4.1 Four Person Format

All remaining competitors are ranked according to their ranking in each heat, the phase they go out in (e.g. quarter final) and their seeding within that phase. (example: competitors ranked 13 to 24 in the quarter final would be ranked according to their ranking in the heat and then by their seeding.)

4505.3.4.3 Cancellation of Final
If the competition is cancelled after a phase, all competitors ranked 1st in each completed phase will be ranked according the seeding. After that all 2nd ranked in each completed phase will be ranked according the seeding. After that all 3rd ranked in each completed phase will be ranked according the seeding. After that all 4th ranked in each completed phase will be ranked according the seeding.

4505.3.5.4 Final Ranking for DNS
After the first round of the competition, a Ski Cross competitor who does not start (DNS) in any phase of the final, shall receive the last place in the ranking for that final phase. If two or more competitors DNS in a phase, they are ranked according to their seeding. A Ski Cross competitor who does not start in a subsequent phase shall receive the last rank of that phase.

4505.4 Ski Cross in Group Heat Format (Round Robin)
There will be 16 competitors seeded into the group heat, based upon the qualification procedures. There will be five (5) group heat rounds, where every competitor will compete in each round, against every other competitor.

4505.4.1 Seeding and Draw

4505.4.1.1 Seeding for Major Competitions
For World Cup, World Championships and Olympic Games, the competitors present will be sorted according to their best ranking on the WCSL, WC points list or FIS points list (published several times a year). If the competitors are tied, the higher points in the second category will decide their position. If they are still tied after using the third category their position will be decided by a draw. The actual FIS points list, valid on the date of the draw meeting, has to be used.
4505.4.1.2  Seeding for other Competitions
For other FIS Competitions, the competitors present will be sorted according to
their highest ranking on the FIS points list.
The actual FIS points list, valid on the date of the draw meeting, has to be used.
The non-ranked competitors are assigned bibs based upon a random draw.

4505.4.1.3  The Ski Cross Draw for Single Time Trials
The first group (16) will be randomly drawn. The remaining competitors will be
sorted according to their seeding.

4505.4.1.4  Starting Order in Extraordinary Conditions “Snowseed” (Excluding First Seed)
In extraordinary conditions, the Jury may change the starting order for the qualifi-
cation (when snowing, etc.). A group of at least 6 competitors, nominated in ad-
ance, start before start number 1. These 6 competitors are randomly drawn from
among the last 20% of the start list. They will start in reverse order of their start
numbers.
If the last 20% of the start list is less than 6 competitors, the last 6 competitors of
the seeding list will be selected.

4505.4.1.5  Bibs
Bibs for Single Time Trials are numbered on front and back for better visibility by
the course judges.

DNF will be ranked after the worst competitor, that completed the hole course.
In a case where more than one competitor does not complete the course nor
cross the finish line, the rankings in will be based on the location where the com-
petitor(s) have completed the course. The competitor that has completed more
gates (with both skis on) further down the course will receive the better rank.

Finish Line Camera

A finish line camera (video or photo finish) must be available (see the Timing Booklet Ski Cross Set-Up Level).

Ranking of Competitors that Did Not Finish

In a case where more than one competitor does not complete the course nor cross the finish line, the rankings in that heat will be based on the location where the competitor(s) have completed the course. The competitor that has completed more gates (with both skis on) further down the course will receive the better rank.

Tie Break Rules in Group Heats (Round Robin)

In case of an unbreakable tie in a heat, all competitors will receive the same number of points.
Tie Break Rules after Group Heats (Round Robin)

In case of a tie between two (2) competitors, the competitor who had higher rank in their common heat will be ranked first. If they remain tied, the competitor with the better qualification rank will advance.

In case of a tie between three (3) or more competitors, the tie will be broken based upon their qualification rank.

Ranking of the Round Robin Group Heats

Competitors will be awarded points according to their ranking in each heat: four (4) points for first place, three (3) points for second place, two (2) points for third place and one (1) point for the fourth place. Those competitor(s) who did not start (DNS) in a heat will get zero (0) points.

Round Robin Group Heat Intermediate Ranking

After heat twenty (20), there will be an intermediate ranking from the 1st to 16th place according to the total points each competitor has scored during the group heat phase. If the competition cannot be completed, the intermediate ranking can be used as the final results.

DNS during the Round Robin Group Heats Phase:

In case of Did Not Start (DNS) competitor(s) during the group heats, the competitor(s) will not advance to the next group heat, semifinals or finals.

Participation in the Semifinal

If DNS competitor(s) cause a semifinal heat to have fewer than four (4) competitors in each heat, then the classification range of the Group Heats (9th – 16th) increases by the number of missing places in each heat to ensure four competitors per heat (e.g. if one heat in the semifinal only has three competitors, then the classification range of the Group Heats increases by one: 9th – 16th).

Tie Break Rules during Semifinals: (Round Robin)

The competitor who was first among the two tied competitors when they competed in the same heat will advance. If they remain tied, the competitor with the better qualification rank will advance. If still tied, the competitor with the best rank in the seeding list will advance.

Semifinals

The eight (8) top-scoring competitors from the KO or the RR format will qualifiy for the semifinals.

Participations in Semifinal

Competitors placed 1st, 4th, 5th and 8th in the ranking will take part in Semifinal 1. Competitors placed 2nd, 3rd, 6th and 7th in the ranking will take part in Semifinal 2. See 4506.
Participations in Small and Big Final

The first (1st) and second (2nd) ranked competitors in each Semifinal will qualify for the Big Final. The third (3rd) and fourth (4th) ranked competitors in each semifinal will qualify for the Small Final.

Tie Break Rules in the Finals: (Round Robin)

In case of an unbreakable tie in the Big Final or in the Small Final, they will remain tied.

Final Ranking for Ski Cross in Group Heat Format (Round Robin) (RR)

Ranking of the fifth (5th) to eighth (8th) in the final ranking will be according to the results of the Small Final. Ranking first (1st) to fourth (4th) in the final ranking will be according to the result of the Big Final.

If the Small Final is not completed, losers of the semifinals are ranked first by their placing (3rd, 4th) then according to their qualification rank within their group.

Ranking nine (9) to sixteen (16) in the final classification will be according to the result in the group heats.

The reminder competitors will be ranked according to their qualification rank.

Cancellation of Final

If the competition is cancelled within the Group Heat Phase, all competitors will be ranked according the qualification times.

The Start

Bibs
Qualification Bibs are numbered on front and back for better visibility by the course judges.

Bib Colours for the Finals
For the Final, the main 4 colours of the bibs will be Red, Green, Blue and Yellow. White and Black will be used additionally if a 6-person format is used.

Bib Assignment for the Final
Assignment of the bibs in each heat is based upon the competitors’ qualification ranking. The highest ranked competitor in the qualification is assigned the red bib and can choose the lane first. The second ranked competitor is assigned the green bib, the third ranked is assigned the blue bib and the fourth ranked is assigned the yellow bib.
4507.4 **Ready for Start**

It is the competitors’ responsibility to arrive at the start gate in time. A missed start is a DNS. (Did Not Start)

4507.5 **Start Interval for Final Phase**

During the Team Captains’ Meeting before the final phase, a start interval will be announced by the Jury.

4507.6 **Start Gate Lanes and Start Positions**

Each starting position is identified by the Lane of the Start Gate.

Looking up the course to the Start Gate the positions are set from left to right:
- For a four (4) competitor Ski Cross, Position 1 is to the far left and Position 4 to far right.
- For a six (6) competitor Ski Cross, Position 1 is to the far left and Position 6 is to the far right.

4507.8 **Ski Cross Start Ramp and Start Device**

4507.8.1 **The Start Ramp**

The Start Ramp shall be prepared in such a way that the competitors can stand relaxed in the starting device and can quickly reach full speed after leaving the start.

4507.8.2 **Placement of the Start Gate**

The start gates are to be placed in the centre of the course. The gates have to open simultaneously and it must be impossible for a competitor to open the gates themselves or block the opening of the gate by applying force to the gate.

4507.8.3 **Ski Cross Start Gate Standards**

A Ski Cross Start Gate must be available. Please refer to the Timing Booklet for its specifications together with the electronic release device and the qualification set-up.

4507.8.3.1 **Electronic Release Device**

It is permissible to use an electronic device to open the drop door. Every drop door needs to be locked into place and then released from the same electronic impulse. The random release time must be between 0.0 and 4.0 seconds. For the Start Command, on ‘attention’ (see 4507.8.5), the random sequence is begun by the Starter.

On the World Cup, World Ski Championships and Olympic Winter Games, the Electronic Release device is mandatory.

The electronic release device must also have a back-up power source available that can meet the demands of a minimum of 20 start sequences. If this back-up system fails it must be possible to operate the start gate through the use of a mechanical starting release system.

4507.8.3.2 **Ski Cross Qualification Start**

The start in qualification can be run with an open or closed start gate. With an open gate, it can be run with either light beam or an alpine start system. Alternatively, a reaction start with a closed gate like in the KO final can be used as well. It will then be the same procedure as under 4507.8.5 See timing booklet.
Approval of Start Device

All start devices (and electronic release devices) for FIS World Cup, World Championships and Olympic Winter Games shall be approved by the FIS.

Start Command

“We are ready for the next Heat, proceed to the Start Gate”
“Enter the Start Gate” (30 seconds before the start command)
“Skiers Ready!”, then “Attention!” followed by the Starter opening the start gate (or in the case of an electronic release device being used, the Starter beginning the random start sequence).

Contact

Intentional Interference

Interference is often a complex offence, given that contact in Ski Cross is common. The Jury and gate judges have to determine whether the contact or interference was intentional or not. Intentional contact or interference between two or more competitors will be penalized, as laid down in article 4508.

Intentional Actions

A competitor shall not force another competitor out of the course, nor intentionally cause them to slow down, lose balance, or crash. A competitor shall not cause any part of his body or skiing equipment to come into contact with another competitor's body or skiing equipment during a race with the intent of impeding that competitor's progress for the purpose of overtaking or causing them to be overtaken by another competitor.

Obstruction on Obvious Straight Lines

The leading competitor shall have the right to choose his line on the course and through the corners.

When on a straight section of the course, a competitor shall not intentionally block another competitor from passing.

Disqualification for Intentional Contact (DICDSQ)

Should a competitor be disqualified based upon an infraction of rule 4508.1 such competitor shall be Disqualified for Intentional Contact (DICDSQ) and will not be ranked in the competition.

Re-runs shall not be granted solely as a result of a violation of Rule 4508.1 and all competitors in the heat, other than those that receive a DICDSQ, shall be ranked as they finish. Re-runs will only be given pursuant to the applicable provisions of Rule 3057.

All violations of Rule 4508.1 which result in a DIC according to the "Card System Ski Cross" shall be announced in the Finish area and communicated to the competitor that received the DIC or their Team Captain as soon as possible and in any event prior to the commencement of the next heat. The DIC sanctions will then be posted on the official notice board at the bottom and top of the course indicating the section of the course where the infraction occurred. All DIC decisions must be recorded and reported by the FIS Technical Delegate in their TD Report.

When a competitor receives a 2nd DIC in a series within one competition season, the Jury is required to refer the competitor to the Appeals Commission pursuant
to Rule 224.13. For this purpose a competition series is defined as the FIS World Cup or one of the FIS Continental Cup series.

### RED Warning (WRG)

**Handled as described in 4508.2 ff**

- **Two warnings during the same competition shall lead to a yellow card**

### Warning RAL (YELLOW)

- The competitor will be automatically ranked as last in their heat and listed as RAL (Ranked as last) in the result list and ranked at the end of the respective round (32 – 1/8th final; 16-1/4th final)

- All other competitors, even if they are victims of this intentional contact, will be ranked as they crossed the finish line. In case they do not cross the finish line, the rankings of the remaining competitors will be based on the location where they ceased making correct passage of the course. The competitor that has made it further down the course correctly will receive the better rank. WC/CoC: the yellow cards remain with the competitor.

- Two Yellow Cards issued to a competitor within a competition season in WC or in one of the CoCs will lead automatically to a Red Card. Yellow Cards given in different competition levels or in different CoCs shall not be counted together.

- A competitor who receives a Yellow Card is not permitted to start in any further heat in the competition.

### DSQ (RED)

- Red Card /DSQ: competitor will be disqualified from the cur-
rent competition, listed at the end of the result list and not be ranked. DSQ shall result in the suspension of the competitor from the next competition at the same level (WC, EC, NAC, SAC, AC or ANC).

Verbal warning for minor actions according to the matrix is possible and has no implications on results. At the discretion of the Jury a red card can be downgraded to a yellow card and a yellow card can be downgraded to a verbal warning.

During the finals, a system of coloured cards is used by a Jury member or the Race Director at the Finish corral. This decision must be confirmed by the jury. Cards must be shown to the respective competitor and must be officially communicated.

| 4508.2.4 | Should any competitor in a heat feel that a violation of Rule 4508.1 occurred in that heat and was not announced to be a DIC an intentional contact according to the "card system", they may request of the Finish to the Referee or any other member of the Jury that the heat be reviewed. Such request must be made prior to the start of the next heat. |
4509 **Protests**
There shall be no protests of a decision that a competitor has violated Rule 4508.1.

4510 **Final Ranking**

4510.1 **Four Person Format**

All remaining competitors are ranked according to their ranking in each heat, the phase they go out in (e.g. quarter final) and their qualification times within that phase. (example: competitors ranked 9 to 16 in the quarter final would be ranked according to their ranking in the heat and then by their qualification times.)

In the case of a “No Qualification Race” (4505.2.1) the place/rank in the heat order shall be used to rank the competitor.

Athletes in the top 8/16 whose bib number has been randomly drawn will use their WCSL/WC/FIS rank for finals ranking.

4510.2 **Six Person Format**
Competitors 1 to 6 are ranked according to their place of finish in the final heat. Competitors 7 to 12 are ranked according to their place of finish in the phase. All remaining competitors are ranked according to their ranking in each heat, the phase they go out in (e.g. quarter final) and their qualification times within that phase. (example: competitors ranked 13 to 24 in the quarter final would be ranked according to their ranking in the heat and then by their qualification times.)

In the case of a “No Qualification Race” (4505.2.1) the place/rank in the heat order shall be used to rank the competitor.

Competitor in the top 12/24 whose bib number has been randomly drawn will use their WCSL/WC/FIS rank for finals ranking.

4510.3 **Cancellation of Final**
If the competition is cancelled after a phase, all competitors ranked 1st, 2nd, 3rd and 4th in each completed phase will be ranked according the qualification times.

4405 Execution of a Big Air

All runs are scored in the Big Air contest unless marked as JNS “Jump Not Scored”. Since the limited field size impacts final standings the entire field of ten men and six ladies will be ranked. All other competitors will be ranked according to their highest score of the two elimination round jumps.

4406 Competitors’ Equipment

4406.1 Bibs

As per FIS specifications.

4406.2 Helmets

As per FIS specifications and requirements
Public Address System

Music will be used at Big Air events. The sound system must be powerful enough for the competitors to have the opportunity to hear the music while at the top of the Big Air course.

The Chief of Sound is responsible for the tapes or CD’s during the competition.

Big Air Judging

For each Big Air Event: Three (3) – six (6) judges shall independently evaluate the competitor’s performance based upon the judges criteria. If there are 6 scoring judges the high and low scores shall be discarded and the remaining scores will be counted. If there are 3 / 5 scoring Judges, all scores will count.

Judges must determine scores during the Big Air events in accordance with the FIS Big Air Judging Criteria. They must be available to the Head Judge during preparation and throughout the competition.

Judges can use score cards to mark scores by bib numbers and will keep a memory board to note the tricks, falls and other specifics scoring elements.

No discussions are allowed concerning competitors scores unless initiated by the Head Judge.

No competitor, team representative, or spectator will be allowed to approach the Judges stand or speak with the Judges during the competition.

Any protest or problem arising from the judging will be dealt with by the Head Judge and the competition jury.

Judges may not be assigned to competitions in which a family member is participating (grandparents, parents, children, brother, sister, husband, wife).

The Judges Responsibilities and Duties

The main areas of the Judges responsibilities and duties are outlined in the Half-pipe section (art. 2615.1). The responsibilities and duties for the Big Air Judges are the same in principal as that which exists for Halfpipe and Slopestyle Judges.

The Head Judges Responsibilities and Duties

The main areas of the Head judge responsibilities and duties are outlined in the Halfpipe section (art. 2615.2). The responsibilities and duties for the Big Air Head Judge are the same in principle as for Halfpipe and Slopestyle Head Judges.

Big Air Scoring System

Each judge must use a 100 point system e.g: 2, 6, 87, 93 etc. Each judge can give a maximum of 100 points for each competitor. The scores of the Judges will be averaged for each competitor run, truncated after the second decimal and XX.XX out of 100 will be displayed as the total score for that particular run.

All scores must be posted after each run.

Tie breaking

If a tie exists, the competitor with the comparison of the two highest counting scores in the tied run shall be determined the winner. If they are still tied the
comparison of the highest three scores in the tied run shall determine the winner. If they are still tied they will remain tied and the rider with higher bib will be ordered first.

Ties for competitors which are out of the competition (do not advance to Semifinals or Finals) will remain as final results and listed with the same rank already on the partial result lists (e.g. Qualification Results, Semifinals Results). Ties occurring out of different heats will not be broken.

4410.3.1 Elimination Heats
If ties still exist after 2810.3, this will be done:
Heat 1: Competitors tied for 6th/4th place men and 3rd/2nd place ladies respectively will be qualified for the finals. When a tie such as this occurs the number of qualified competitors from Heat 2 will be reduced accordingly to allow 12 men and 6 ladies in the finals.
Heat 2: Ties in round two will be broken by the highest round 1 score. If still tied, the competitors ranked on the same final qualifying place will advance to the finals thus increasing the number of competitors in the finals.

4410.3.2 Finals (combined best two out of three jumps)
Ties after finals (during final runs)

When two or more competitors have the same final score they will receive the same rank (points) but the competitor with the higher start number will be listed first on the official result list.

Ties for competitors which are out of the competition (do not advance to semifinals or finals) will remain as final result and listed with the same rank already on the partial result lists (e.g. Qualification results, Semifinals result).
Ties occurring out of different heats will not be broken.

4411 Judging Criteria
2811.1 Overall impression (3-5 judges counting scores)
The judges take falls and other mistakes into consideration and can deduct up to 30% of the points of the run/judge for each fall/stop. (See deduction scale: 2811.2)

Judges must have a good trick knowledge. Without understanding the trick, it must be very hard to finalize a result.
As an overall impression judge you must consider:
(These are not in any particular order)

Amplitude:
In Big Air, Amplitude is not just going “BIG” but landing the trick on the decided “sweet spot”. To have too much amplitude or to little amplitude in Big Air is dangerous and must also be considered by the judges. Showing good amplitude is by “popping” of the kicker and having a good trajectory in the air, not to flat. Exception is if you buttering of the kicker on purpose.
Greater amplitude increases the risk of the trick.
**Difficulty:**
There is more than just the number of rotations that affects difficulty.

Judges consider:

- Switch take offs or landings,
- Frontside or Backside rotations,
- Take offs, on heel or toe,
- Different grabs
- Blind landings.
- Big or small kickers (if there is multiple choices)

Performing grabs can change the difficulty of the trick. Boning or tweaking can increase the difficulty and also where you grab on the board and what hand during different rotations.

**Execution:**
Control should be maintained during the whole trick, from take-off to landings. The trick should be done with good stability and fluidity. The trick should be performed with full control. When an athlete decides to perform a trick, he should reach the position chosen and show that this is the position he wants. In rotations flips and different hybrids, the rotation should be done in one manoeuvre and control should be held, demonstrated in one unique movement with an equal rotational rhythm from beginning to the end. “The trick should look easy”.

If the intention of a grab is done, the grab should be made on the ski. (not boot grab, Binding grabs etc…) Performed grab/grabs are very important in all kind of manoeuvres and a missed or weak grab will influence the judges score radically.

**Progression:**
To have progression in our judge’s criteria’s, we push the sport forward. Try making tricks that nobody else is doing……

**Landing:**
Landing is the final part of the trick and a very important part. Landing must be done with full control and trick must have been completed. (See deduction scale: 2811.2)

**Consideration**
For a judge to “know” how hard tricks are, judges need to have a communication with athletes and coaches to see their opinion. This item should be discussed with coaches at official coaches meetings during the season. Not at each competition. Difficulty is very individual and athletes, judges and coaches may disagree with each other when discussing difficulty scales. But judges must have a clear opinion when working on a competition what is easy and what is hard.

**Deduction Scale**

<table>
<thead>
<tr>
<th>Points</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 - 9</td>
<td>point for minor fault: hand drag</td>
</tr>
<tr>
<td>10 - 19</td>
<td>points for medium fault: two hands down, reversing the trick due to instability</td>
</tr>
<tr>
<td>20 - 29</td>
<td>points for major fault: body contact with the snow</td>
</tr>
<tr>
<td>30</td>
<td>points for huge faults: the ski is not the first thing to touch the snow</td>
</tr>
</tbody>
</table>

A deduction by the Judges is taken from the score that would have been given with a correct completed landing.
For example a competitor, considered to be not under control in the air, could be awarded 45 points by a Judge for the trick and receive a 25 point deduction for a major landing fault, thus giving the competitor a score of 20.

4411.4 DEAL Scores

Minimum 6 Judges shall independently evaluate the athlete's performance based on the Judges Criteria used and each judge will create one score (1 - 100). After the judge has put in the score, he/she will analyse and evaluate each Criterion. Input the DEAL scores (Difficulty, Execution, Amplitude and Landing) and the outcome will show how well each criterion was.

(D) ifficulty = 1-10
(E) xecution = 1-10
(A) mplitude = 1-10
(L) anding = 1-10

All 6 judges’ evaluations for each of the 4 criteria will be averaged to create the television graphics.

4700 Freestyle Team Competition Rules

4700.1 Types of Team Competitions
The team competition rules can be used in the Aerials and Moguls competitions. The competitions can either be in the men's competition or the ladies competition or a mixed competition of ladies and men.

4700.2 Team Size
Maximum team size of three (3) competitors on one team and one additional reserve competitor per gender, who can be substituted. Teams can be made up of male or female competitors or a mixed team of male and female competitors. No more than two competitors can be of one gender on each mixed team and participate in the competition. There needs to be at least 5 or more ladies or men's teams to hold those competitions separately, if not then the mixed team competition will be held.

4700.3 Number of teams per Nation
Each team is composed of competitors from a single Nation.

4700.4 Competition Format
There are three competition phases. Each competitor can only take part in one phase and take one run.

4700.5 Draw, Starting List and Competition Procedures
The teams of 3 persons and the substitutes are determined before the draw. In the qualification phase each competitor takes one run. Based upon the results of that phase, the number of teams are determined for the final. In the Final, which may have a second (of 8 teams) and third phase (of 3 teams), the nation's run in the reverse order of the ranking of the previous phase. The start order for the second and third phases is based upon the results of the previous phases and ranked by nation.

The ranking after each phase is announced.

4700.6 Ranking
Each score from each team member is added up and the teams are ranked after each phase according to these totals. The national team with the highest total score after the three phases wins. All other teams are ranked according to their scores.
4800 **Competitions under Artificial Light**

The running of competitions under artificial lights is permitted.

4800.1 **Lighting Specifications**

4800.1.1 The light level anywhere on the course may not be less than 80 lux, measured parallel to the surface. The lighting should be as uniform as possible.

If the competition is to be broadcast on television the level of lighting should be checked with the person responsible for TV production. Special arrangements have to be made as required individually.

4800.1.2 The floodlights must be so placed that the light does not alter the apparent topography of the slope. The light must show the competitor the exact picture of the terrain and must not alter the depth perception and exactness.

4800.1.3 The lights shall not cast the competitor's shadow into the racing line and shall not blind the competitor by glare.

4800.1.4 Obstacles and buildings in the immediate vicinity of the course must be clearly lighted.

4800.2 **Lighting Inspection and Course Setting**

The TD together with the Jury must check ahead of time that the lighting conforms to the rules. The organisers shall provide him with light metres having cosine correction.

4800.2.1 The TD must submit a supplementary report on the quality of the lighting.

4800.2.2 The course setter must set the course on the section of the competition course which is best lit.
