4. Advertising Rules for Snowboard Events	27

SCOPE

The principles established in the following articles are applicable to all televised ski events staged by or under the auspices of FIS ("the events"), according to its international calendars.

By these principles FIS aims to make sure that the presentation of international ski events follows the same modern standards world-wide.

In all competitions included in the International Ski Calendar (the FIS World Cup in particular) the FIS Advertising Rules concerning advertising possibilities in the competition area and the TV area are binding.

These FIS Advertising Rules approved by the FIS Council are an integral part of the implementation regulations of the FIS Organiser contracts.

1. GENERAL ADVERTISING PRINCIPLES

- 1.1** The owner of all marketing rights at the FIS registered competitions (excluding World Championships) is the National Ski Association, except for the Title / Presenting Rights of the FIS Cup Series.

Advertising in the same product category as overall Series Cup title or presenting sponsor is not permitted.

- 1.2** The nature and extent of advertising must not affect the quality of the television coverage of the events and must not obstruct a clear view of the event and the competitors.

- 1.3** Advertising at the competitions must not infringe the national rules of the country where the event takes place.

1.4 Special (rotating/LED/illuminated) Advertising

Advertising boards, posters and banners must not interfere with the presentation of the sporting action.

Special function installations (e.g. bridge, arch, displays) must be approved by FIS as well as arranged in such a way as to conform to safety and advertising requirements.

Should rotating/LED/illuminated advertising be used, advertising may change only once during a camera sequence within the action. Animations can be used for only one sponsor per change, while each advertising message may contain one animation (movement of text or graphics) at most. Special effects (such as glow effect and flashes) and film like sequences are prohibited.

1.5 Advertising may consist of the following items:

- a company name
- a trademark
- a single noun describing a product or service
- a visual image depicting a product or service
- a slogan (e.g. Adidas – All in)

Website domain addresses (URL) as well as telephone numbers and e-mail addresses on advertising inventory or as supplements are allowed, provided approval is granted by FIS and the respective National Ski Association.

1.6 Illumination of advertising

The illumination of advertising is allowed provided that the conditions mentioned above, are respected, the lightning does not shine directly into the television camera and does not affect the view of the athletes.

- 1.7** No advertising may be made in sound during the transmissions. Exceptions can be made but need approval of FIS and the respective National Ski Association and host-broadcaster.

- 1.8** Advertisements for alcohol and tobacco products may not occupy more than 25% of the total authorized advertising space.

- 1.9** No single product brand can be assigned more than 75% of the total authorised advertising space.
- 1.10** Virtual advertising is in principle not allowed at FIS World Cup events. Exceptions can be made but need the approval of FIS and the respective National Ski Association.
- 1.11** Split Screens during broadcasting of the events are not allowed when they show live action and advertising at the same time.
- 1.12** Any political and/or religious advertising or any defamatory, racist or sexist messages and any advertising, which includes specific references to participants of the events (e.g. athletes and officials), are not permitted.
- 1.13** Any new or thus far not mentioned advertising opportunities need to be approved by FIS in advance of implementation. Requests for the implementation of new advertising opportunities need to be submitted to FIS for discussion in the Committee for Advertising Matters at the latest by September 1st. A test of a new advertising opportunity in the upcoming season can only be allowed once agreed by the Advertising Committee and approved by the Council.
- 1.14** The exact placing of all advertisements must be agreed with the host broadcaster, in accordance with the existing General Advertising Principles and the scope of the relevant discipline.
- 1.15 Fan Clubs**
- a) Commercial advertising on banners and other promotional material used by fan clubs is not allowed
 - b) For fan club banners and promotional material within the finish area a minimum distance of 6 m behind the safety fences has to be respected
 - c) The size of any banner and promotional material may not exceed 1,5m x 3m
 - d) The Slogan on Fan Club Banners must show respect and have no offensive or racist content
- 1.16 Mascots**
Mascots can only be presented outside the competition finish area (outside the range between the finish line and the exit gate).

2. ADVERTISING RULES FOR ALL FIS DISCIPLINES

2.1 Advertising on clothing and equipment

Any identification of a manufacturer or of a sponsor on clothing and equipment must be in conformity with the FIS rules “Specification for competition equipment” and “Specifications for commercial markings”. These rules apply to competitors, officials, personnel providing services as well as to any other person within the competition area.

2.2 Advertising on starting bibs

The design of all starting bibs for World Cup races needs to be approved by FIS before production. Such approval is not to be unreasonably withheld.

2.2.1 Basic design elements

Symbols (names, logos and graphics) of only one and the same sponsor are permitted on the front as well as the back of all starting bibs of the race. Bib design must not imitate products.

A layout using the whole bib surface can be created to reflect the identity of the bib sponsor (e.g. through design, colour) however this design must not affect the visibility of the start number. The logo, product identification, and brand identification may not exceed 20cm in height.

Names of effective manufacturers which appear on equipment or components (skis, snowboards, bindings, poles, boots, helmets, wax companies etc.) are not to be used on starting bibs and clothing. In the case a hardware producer also produces software materials this can be allowed if a different brand is used.

2.2.2 Neckline

In case that the neckline (upper border of bib) is used as a line of the brand identification, the repetition of the sponsor frequency is limited to three times.

2.2.3 Lower stripe

On the lower end of the starting bib a stripe of maximum 8 cm in height may show in letters not exceeding 7 cm in height, the names and logos of a sponsor.

2.2.4 Start Number

The start number must be printed in a bold colour and has to be positioned on the bib so that it is clearly visible.

The height of the number must be at least 10 cm. In team competitions, e.g. Cross-Country, Nordic Combined, Nations Team Event, the number must be a minimum of 8 cm. The FIS logo or any other non-commercial official logo authorized by the FIS may be printed behind the number in appropriate coloured form.

On starting bibs for all disciplines (exception team competitions) the starting number can be printed additionally on the sides (lateral left and right) on a surface of 7cm x 7cm with a maximum size of 6 cm.

On the left and right of the starting number, one advertising space of a maximum 50 cm², with letters of a maximum height of 5 cm can be used for “tourist identifications”. This advertising space belongs to the NSA.

If for advertising reasons a company brand and product line brand are combined, 60% of the advertising space must be used for the company brand and 40% for the product line brand. In such cases, the layout of the company brand and the overall appearance must be the same on all starting bibs (e.g. Audi as company brand and “e-tron” for the product line).

2.2.5 Name of the location (location / resort / locality / region)

The name of the location where the competition takes place may also be placed on the front and back, in writing or graphic form, and the height of the letters may not exceed 10 cm. The designation of the location may also be in two lines (total of 10 cm in total height).

2.2.6 FIS and official Title Sponsor logos

At official FIS Cup Series the respective FIS composite logo including the official FIS Series title and a FIS sponsor must appear on the right side of the shoulder piece, while the FIS logo or the FIS World Snow Day logo appear on the left side, all with a maximum height of 6 cm.

2.2.7 Leader bib

Every competition in a FIS Series Cup may have a leader bib. On the leader bib, which is designed in a uniform colour (e.g. yellow or red or other colours permitted by the FIS), the official FIS Cup Series title and the logo and/or brand identification of the official FIS sponsor replaces the number (max height 12 cm). The logo and/or brand identification of the commercial bib sponsor placed in the upper third part of the bib may not exceed 20 cm in height.

2.3 Timekeeping and data processing

Timekeeping firms shall be permitted to use only the advertising spaces next to their equipment (e.g. photo-electric cells at the finish, etc.) as defined in the appendices hereto.

All identifications of timekeeping and data processing firms may be subject to the following:

2.3.1 Timekeeping cabin / Data processing cabin

Identifications and logos are permitted, i.e. one 4m x 1m banner.

2.3.2 Scoreboards

The letters of the identification of the timekeeping firm must not be luminous, nor larger than any of the characters used for the time indication, or 30 cm, whichever is the smaller. When placing a scoreboard one banner of 4m x 1m is possible.

2.3.3 Positions for the intermediate time / finish time

One identification logo is permitted next to each timekeeping equipment on the course, with a maximum size of 50cm x 100 cm for Alpine and 30cm x 60cm for Cross-Country.

2.3.4 TV Insert

Identification of any FIS data and timing processing firms on the FIS Website and on the television screen (signal injection) must be in conformity with the requirements of each discipline as specified in the attached appendices.

2.4 TV interview area / Backdrops

2.4.1 Back wall for unilateral interviews / presentation wall

A back wall will be constructed on which the following advertising space ratio/ identifications will be placed:

- The name or other identification of the region/locality or skiing area on top
 - Multiple signs/plates of the region/locality or skiing area in the presentation grid
 - Multiple signs/plates of the FIS Cup Series title / presenting sponsor in the presentation grid
 - Multiple signs/plates of NSA / Event sponsor in the presentation grid
 - FIS Cup Series combined logo
- a) The name of the location 20%
 - b) The FIS logo and the name of the official FIS Cup Series title / presenter 40%
 - c) The logos of up to a maximum of six sponsors of the competition 40%

The maximum height of the letters is 30cm.

2.4.2 Small back installation for live interviews at FIS Series

On the “small back installation” of the TV companies the TV companies’ logo may be placed. A maximum of 6 additional sponsor advertisements of 10cm x 10cm are possible. In addition to this, the individual TV Company can use the FIS Cup Series logo and the logo of the respective National Ski Association.

2.5 Ski partner and sponsor boards

Outside the main competition area, a sponsor and partner board may be placed as part of the stadium design, on which all partners of the event may be presented along with the official title of the event.

2.6 Video Screen / Wall

When placing a video wall in the competition area a frame around the video wall with a width of maximum 1,5 m is permitted. The height of logos or letters used on such a frame may not exceed 1 m. Each FIS Cup Series sponsor shall have the possibility to show a 30 second advertising spot on the video screen.

2.7 Host Broadcaster

The logo of the host broadcaster (TV Company) may be placed on TV installations such as e.g. camera towers or commentator cabins provided. This is approved by the FIS and the respective National Ski Association. The size of the logos must correspond to the existing FIS Advertising Rules and must not affect the permitted advertising of the NSA / Event sponsors nor a FIS Cup Series title and presenting sponsor.

The maximum measurements of the advertising for the host broadcaster or TV company on commentator cabins is 50cm x 50cm i.e. 2500 cm².

2.8 Identification on snow

Identification on snow is possible for at all events up to a maximum of two. The identification should have a maximum size of 16m². For safety reasons an early coordination with the FIS Race Directors has to be made regarding the placement and technical execution.

2.9 New Identifications

Any other identifications or branding (for example banners, the use of inflatables and gate flags) need to be in conformity with the discipline specific advertising rules.

2.10 Product Placement

Outside the main competition area but in front of the TV cameras, max. 2 products (eg a car) can be placed. The exact position is to be agreed between the Race Director, NSA and the Host Broadcaster.

3. ADVERTISING RULES FREESTYLE SKIING EVENTS

3.1 Freestyle Ski Cross

The exact placing of all advertisements must be agreed with the host broadcaster.

Any design and colour changes have to be approved by the FIS.

3.1.1 Start Installation/ Start Flap

On the starting installation the following advertising is permitted:

- The start flap and posts are to be used by the NSA / Event sponsors (max. one for all flaps or one for all/ posts). It can be the same sponsor for both.
- The name or other identification of the region/locality or skiing area
- The official title as well as the FIS logo affixed to the top of the starting frame/frontwall as well as on all sides of the gate frame / exit of the athletes.
- Signs of the FIS Cup Series title / presenting sponsor
- Signs of NSA / Event sponsor
- The identification of timekeeping and data processing firm

3.1.2 Along the Course

All advertising boards/banners fixed along the course will be installed, subject to the following conditions. The number of advertising positions allowed along the course per discipline is 30.

A position is defined as follows:

- 1 single banner or,
- 1 to a max. 3 single banners attached next to each other or,
- 1 to a max. 3 single banners attached to each other forming an angle, with the possibility to have an inflatable placed in the angle behind the banners or,
- 1 to a max. 3 single banners lined up in front of each other with a maximum distance of 4m between them.

The Race Director can decide for safety reasons not to allow a position.

The use of advertising banners along the course, in the field of vision of any single camera, is subject to the following conditions:

- a) Banners shall be fixed on PVC frames with breakable point. Their measurements must not exceed eight (8) metres in width and one and a half (1,5) metres in height.

The NSA / Event sponsors can exploit the advertising opportunities on all banners along the course with the exception of the last jump/feature.

The title sponsor has exclusive branding rights on and around the last jump/feature or position.

3.1.3 Finishing Posts, Pylons

It shall be permitted to affix a banner between the posts / pylons above the finishing line where such banner carries the official name of the club or the name or other identification (excepting slogans) of the locality/resort/skiing area and the official title of the event. There must be no change in the name of any event in the course of a season.

It shall be permitted to place signs on the finishing posts or pylons which carry only the name or other identification (excepting slogans) of the region/locality or skiing area. In addition, signs of title/presenting sponsor, NSA / event sponsor, and data and timing service provider may be affixed on the finishing posts.

3.1.4 Finish Area

The finish area must be similar to a stadium, and advertising shall be permitted therein. It may only be affixed to the safety barriers and in particular must not obstruct a clear view of the competitors for spectators and TV cameras.

The height of the individual boards/banners may not exceed 100 cm with a length of 5 metres. and the height of the lettering/logos may not exceed 80 cm for up to two advertising scripts below the finish line and 20 cm for up to five advertising scripts above the finish line.

The finish area must be deemed to include the entire enclosure beyond the finish line fenced off by barriers for the protection of the public, and the final stretch of the course surrounded by safety barriers extending on each side of the finish line for a maximum distance of 50 metres.

The banners may be 130 cm in height, if there is a Platinum Circle above the banners.

The signs, boards and banners within range of the television cameras must be affixed in a single line and arranged according to the lie of the land. In the area preceding the finishing line, the boards may be installed in two segments on each side of the course, and must be parallel to the course or, if other than parallel, must in no event create the impression on the television screen of several superposed surfaces. If the line is divided, the number of advertising boards within range of one camera must not exceed a maximum of four for each of the two segments of advertising placed before the finishing line.

Advertising boards / Platinum Circle

In addition to the banners /billboards with advertisements / sponsor marking, advertising boards with a size of about 100 x 100 cm may be placed between the banners depending on the technical layout.

As an alternative, an advertising board (long, narrow) may be placed above or below the banners with a maximum height of 30 cm, respecting the safety aspects, i.e. either behind the safety barrier or the padding. On such boards a maximum of 3 different sponsors may appear on a length of at least 12 m, either on a repeated sequence or with the logo of the sponsor.

Both advertising possibilities i.e. advertising boards and "platinum circle" in the finish area belong to the National Ski Association, with an option for FIS to acquire these rights.

3.1.5 Other elements

Inflatables

Inflatable advertising (such as balloons) can only be considered if the following are observed:

Total size

Max. height is 6 metres and max. width is 5 metres.

Position

This advertising must be placed no closer than 5 metres from the course in consultation with the FIS Race Director and the host broadcaster in co-operation with the Organiser. Placing adjacent to the start and at the finish line is not allowed. Furthermore it is not permitted to place the inflatable on any podium within the range of the TV cameras.

Number

The above mentioned positions are permitted for sponsors, and can be placed in the range of TV cameras operating to give an overall view of the competition.

Inflatables within the range of TV are restricted to a maximum of 6 per competition.

Advertising above the course

It is possible to place an NSA / Event sponsor advertising arch in one position. The height of the advertising construction is limited to 6 metres and a minimum of 15 metres wide.

The position and construction have to be clarified in good time with the FIS (the FIS Race and Marketing Directors) and the host broadcaster, to fulfill all safety-, construction- and advertising aspects (e.g. anchors, etc.).

The rights of this advertising possibility belong to the NSA / Event sponsors.

Winner's Podium

On the winner's podium the official FIS Cup logo and the name or other identification (excepting slogans) of the locality/resort/ skiing area (size: 0.8m x 0.2m) must be considered (1st place-FIS Cup logo, 2nd & 3rd place-resort).

Appendix Freestyle Skiing:

ON-SCREEN IDENTIFICATIONS

This document provides details about regulations for injection of the appointed timing & data provider(s) into the broadcast signal. The Organiser undertakes not to permit any other injection into the broadcast signal of the Event.

1. On-screen identification means only visual display of the company's name/logo. There may be no dedicated visual or audio effects and/or references to an online domain or address included in this identification. On-screen identifications will be authorized only for companies whose principal activities include the provision of the equipment used (hardware) and/or the service (software) ("the Company (ies)"). The identification shall be in the form as described in this document.
2. No other on-screen identification other than for the appointed Timing & Data provider(s), may be transmitted at the same time as the appearance on-screen of timing and/or data processing information.
3. Injection/display requirements:
 - a) The identification of the timing service provider shall appear on-screen only at the same moment as information regarding a competitor's time at the finish and/or any other usually accepted moment (e.g. intermediate time) appears.
 - b) The identification of the data service provider shall appear on-screen only with the display of the data provided by such provider.
 - c) The identification of the timing or data service provider on the television screen (signal injection) shall be as follows:

Timing:	maximum of 4 seconds per identification
Amount:	see below "FIS TV Inserts Freestyle Skiing"
Data:	maximum of 6 seconds per identification
Amount:	see below "FIS TV Inserts Freestyle Skiing"
4. Size and position of identifications
 - a) The height of the letters of the identification of the timing & data service provider(s) must not exceed the maximum height of the simultaneous broadcast display of data.
 - b) Identification of the logo on-screen shall be via a static graphic. Notwithstanding this, it shall be permitted for such logo to appear and disappear on screen by zooming "in" and "out". No other movement of the logo, in particular any movement across the screen, shall be permitted.
 - c) The maximum height of television lines for the identification of any timing & data service provider shall be fixed at 23 pixels for productions in SD (1024 x 576 pixels) and at 44 pixels for productions in HD (1920 x 1080 pixels). The identification shall appear either at the bottom in the center of the screen and below the data display or alternatively in a central position to the right hand side of the data display.
5. Wording of identifications

The timing & data service provider(s) shall be identified either by its usual trading name which may be in the font of a trade mark protected word and, if requested by the provider(s), the use of either of the following additional words:

- a) for timing provider(s): "timing"
- b) for data processing provider(s): "computer" or "data"

Position

This advertising must be placed no closer than 5 metres from the course in consultation with the FIS Race Director and the host broadcaster in co-operation with the Organiser. Placing adjacent to the start and at the finish line is not allowed. Furthermore it is not allowed to place the inflatable on any podium within the range of the TV cameras.

Number

The above mentioned positions are permitted for sponsors, and can be placed in the range of TV cameras operating to give an overall view of the competition.

Inflatables within the range of TV are restricted to a maximum of 6 per competition.

Winner’s Podium

On the winner’s podium the official FIS Cup logo and the name or other identification (excepting slogans) of the locality/resort/ skiing area (size: 0.8m x 0.2m) must be considered (1st place-FIS Cup logo, 2nd & 3rd place-resort).

Beach flags

Beach flags are allowed within the TV area and the surrounding venue areas. Beach flags are divided between title/presenting sponsor (25%) and the NSA / Event sponsors (75%).

Starting Bibs/ Leader Bibs

Please see article 2.1-2.2.7 *Advertising Rules for all Disciplines* (p. 6-7) in this document for advertising possibilities on starting bibs. Details about layout, size of bib and sizes of logos are to be found in the Marketing Guide.

Additionally there is an advertising space on the sleeves for snowboard starting shirts which may not exceed 60cm² per sleeve.

Video wall Frame

All advertising opportunities for the video wall frame are available for the NSA / Event.

4.5 Snowboard Parallel Slalom and Parallel Giant Slalom

The exact placing of all advertisements must be agreed with the host broadcaster.

Any design and colour changes have to be approved by the FIS.

4.5.1 Start Installation / Start Gate

On the starting installation the following advertising is permitted:

- The start flap and posts are to be used by the NSA / Event sponsors (max. one for all flaps or one for all posts). It can be the same sponsor for both.
- The name or other identification of the region/locality or skiing area
- The official title as well as the FIS logo affixed to the top of the starting frame/frontwall as well as on all sides of the gate frame / exit of the athletes.
- Signs of the FIS Cup Series title / presenting sponsor
- Signs of NSA / Event sponsor
- The identification of timekeeping and data processing firm

4.5.2 Along the course

All advertising boards/banners fixed along the course will be installed, subject to the following conditions:

- a) Their measurements must not exceed eight (8) metres in width and one and a half (1,5) metres in height;
- b) They must not be superposed and must be affixed to the safety barriers or in other positions provided that the safety of the course thereby is not affected;

The NSA / Event sponsors have the rights of advertising on all banners along the course.

4.5.3 Finishing Posts, Gate Flags

It shall be permitted to affix a banner between the posts at the finishing line where such banner carries the official name of the club or the name or other identification (excepting slogans) of the region/locality or skiing area and the official title of the event according to the official FIS calendar. There must be no change in the name of any event in the course of a season.

It shall be permitted to place signs on the finishing pylons which carry only the name or other identification (excepting slogans) of the region/locality or skiing area. In addition, signs of title/presenting sponsor, NSA / event sponsor, and data and timing may be affixed on the finishing posts.

On all gate panels and course-markers, it shall be permitted to identify (name or logo) the location and/or a sponsor. These identifications can be printed directly on both sides of the gate panels or patches can be used.

In all cases the types of panels must be identical and conform to the respective article of ICR.

4.5.4 Finish Area

The finish area must be similar to a stadium and, advertising shall be permitted therein. It may only be affixed to the safety barriers and in particular, must not obstruct a clear view of the competitors for spectators and TV cameras.

The height of the individual boards/banners may not exceed 100 cm with a length of 5 metres. The height of the lettering/logos may not exceed 80 cm for up to two advertising scripts below the finish line and 20 cm for up to five advertising scripts above the finish line.

The finish-area must be deemed to include the entire enclosure behind the finish line fenced off by barriers for the protection of the public, and the final stretch of the course surrounded by safety barriers extending on each side of the finish for a maximum distance of 50 metres.

The banners may be 130 cm in height, if there is a Platinum Circle above the banners.

Advertising boards / Platinum Circle

In addition to the banners/billboards with advertisements/ sponsor marking, advertising boards with a size of about 100cm x 100cm may be placed between the banners depending on the technical layout.

As an alternative, an advertising board (long, narrow) may be placed above or below the banners with a maximum height of 30 cm, respecting the safety aspects, i.e. either behind the safety barrier or the padding. On such boards a maximum of 3 different sponsors may appear on a length of at least 12 m either on a repeated sequence or with the logo of the sponsor.

Both advertising possibilities i.e. advertising boards and “platinum circle” in the finish area belong to the National Ski Association, with an option for FIS to acquire these rights.

Appendix Snowboard:

ON-SCREEN IDENTIFICATIONS

This document provides details about regulations for injection of the appointed timing & data provider(s) into the broadcast signal. The Organiser undertakes not to permit any other injection into the broadcast signal of the Event.

1. On-screen identification means only visual display of the company's name/logo. There may be no dedicated visual or audio effects and/or references to an online domain or address included in this identification. On-screen identifications will be authorized only for companies whose principal activities include the provision of the equipment used (hardware) and/or the service (software) ("the Company (ies)"). The identification shall be in the form as described in this document.
2. No other on-screen identification other than for the appointed Timing & Data provider(s), may be transmitted at the same time as the appearance on-screen of timing and/or data processing information.
3. Injection/display requirements:
 - a) The identification of the timing service provider shall appear on-screen only at the same moment as information regarding a competitor's time at the finish and/or any other usually accepted moment (e.g. intermediate time) appears.
 - b) The identification of the data service provider shall appear on-screen only with the display of the data provided by such provider.
 - c) The identification of the timing or data service provider on the television screen (signal injection) shall be as follows:

Timing:	maximum of 4 seconds per identification
Amount:	see below "FIS TV Insert Snowboard"
Data:	maximum of 6 seconds per identification
Amount:	see below "FIS TV Insert Snowboard"
4. Size and position of identifications
 - a) The height of the letters of the identification of the timing & data service provider(s) must not exceed the maximum height of the simultaneous broadcast display of data.
 - b) Identification of the logo on-screen shall be via a static graphic. Notwithstanding this, it shall be permitted for such logo to appear and disappear on screen by zooming "in" and "out". No other movement of the logo, in particular any movement across the screen, shall be permitted.

- c) The maximum height of television lines for the identification of any timing & data service provider shall be fixed at 23 pixels for productions in SD (1024 x 576 pixels) and at 44 pixels for productions in HD (1920 x 1080 pixels). The identification shall appear either at the bottom in the centre of the screen and below the data display or alternatively in a central position to the right hand side of the data display.

5. Wording of identifications

The timing & data service provider(s) shall be identified either by its usual trading name which may be in the front of a trade mark protected word and, if requested by the provider(s), the use of either of the following additional words:

- a) for timing provider(s): "timing"
- b) for data processing provider(s): "computer" or "data"
