Snow Control for Ski Jumping and Nordic Combined Events, Season 2019/20

Dear Ski Friends,

You have been appointed as FIS snow controller (see enclosed list). We kindly ask you to check the snow conditions in order to secure the departure of the teams and officials to the competition site.

It is your task to inspect the snow conditions on place, which means: Is there sufficient snow on the hills and courses for Nordic Combined, how much snow is produced? If you have reliable information about the snow conditions, you do not need to inspect the competition site.

The report on the situation of the hills and courses for Nordic Combined as well as the produced quantity of snow has to be sent to Annemarie Friedrich friedrich@fisski.com and Josephine Aschhoff aschhoff@fisski.com at the FIS Office.

If you are not able to make the snow control, we kindly ask you to let us know immediately. Many thanks in advance for your hopefully positive snow report.

Kindest regards and all the very best,

INTERNATIONAL SKI FEDERATION

Annemarie Friedrich
Nordic Assistant

Enclosure: ment.
