

The International Ski and Snowboard Federation FIS is the governing body for international skiing and snowboarding, founded in 1924 during the first Olympic Games in Chamonix, France. Recognized by the International Olympic Committee (IOC), FIS manages the Olympic disciplines of Alpine Skiing, Cross-Country Skiing, Ski Jumping, Nordic Combined, Freestyle Skiing and Snowboarding, including setting the international competition rules. Through its more than 135 member nations, more than 7'500 FIS ski and snowboard competitions are staged annually.

FIS is looking as soon as possible for

an **IT Technical Expert 80% - 100%**

Hello IT Allrounder, where are you? Are you interested in working within the IT Team of the biggest Winter Sports Federation? This is how you can use all your skills in a dynamic job:

You will support our IT team in the software development and maintenance of existing programmes as well as the maintenance of the FIS database. You will also have direct contact with our sport and you will primarily be responsible for the non-Olympic disciplines and Para Snow Sports.

To further support the team, you will also have tasks for the other FIS disciplines. In addition, you will help with the development of the website and web services. You will be jointly responsible for data protection and security and will assist with computer and server maintenance. From the technical side, you will accompany the qualification and homologation processes for the Olympic Winter Games and Youth Olympic Games and work in the Timing & Data working group. Furthermore, you can show-off your MS365 knowledge and become the contact partner for the staff in relation to MS365.

For the perfect fit, you should have an education as computer scientist and have a profound knowledge in the programming/scripting languages PHP (Laravel), HTML, CSS, Javascript and XML. Furthermore, Docker, GCP or AWS knowledge is a surplus. In addition, you have experience in MySQL, Linux Server, Windows and of course MS365. You have good language skills in English and German and any other language is an advantage. Having experience and interest in winter sports and our disciplines is a big benefit for this position.

You will be working at the FIS Headquarters in Oberhofen at the beautiful lake of Thun. Our three IT specialists are looking forward to hear from you if you are interested in in this unique position. Please send your application and CV by **31 July 2022** to: Andreas Wenger (hr@fisski.com)
